"Let's listen now to one of the voices in this utterly clueless fuckwit's
tiny brain, as we all wish for the 100th time that The Thing responsible for
Roger's birth had practiced abortion and that Roger hand landed with a
splash
and a thump in the toilet of some anonymous Greyhound Bus station rest-room
way back in 1955."

This has GOT to be the The Funniest Post Of The Year. This was laugh out
loud hilarious! It should be copied and reposted regularly.
Great job!!!!

First let me say your post gave me probably my last great laugh of
2004. I love the bung-holio reference (I get it). While you were at it,
you should have added record collectors to your tirade. Or as my (then
17) daughter put it when I dragged her to a record collector show a few
years ago; "The ratio of men to women vs. the number of pony-tails is
way out of whack here". ---Ken

While Davies, on the other hand, is clearly identified as a
JEWISH name!
http://www.houseofnames.com/coatofarms_details.asp?sId=&s=Davies

Origin Displayed: Welsh

Origins Available: Welsh, Jewish

Spelling variations include: Davies, Davis, Divis and others.
First found in Flint, where the Davies family was seated from
very ancient times, some say well before the Norman Conquest and
the arrival of Duke William at Hastings in 1066 A.D.

Some of the first settlers of this name or some of its variants
were: Arthur Davies and Dorothy Davies, who both settled in
Virginia in 1623; as did Christopher and Emanuel Davies in 1635;
Daniell Davies, who came to the Barbados in 1635.

Yes, let's listen to mentally ill Lard ass Davies whine some more about Roger Wiseman, on Lardass' Lloyd's lonely New Year's Eve, but then Lardass' parents didn't really want him, and shuffled him off on his heroin addicted grandmother, who washed his tiny pee pee off with her mouth, all the while sticking a bony, wrinkled finger up Little Lloydie's fat asshole. Lardass really hasn't been wanted around the holidays at his father's Belle Plaine duplex for many years now. Ray Davies sees his fuckup son as a liability, and has to send him part of his SS disability so Lardass can try and pay of some of his past due bills. Those food stamps Lardass gets sure does come in handy. Good thing he lives in a HUD apartment, other wise he'd have to go the gopher face Steven Tunder the Turdeater route and live in a hole in the ground. Lardass comes from a broken home, and his older brother Ray Davies, Jr has quite the criminal record according to the Iowa online court records Web site. Lardass Lloydie is on there, as well, along with his father and sister Amanda!

No, you are the one who seems to be frustrated. So, let's see:
your whole "idea" is to whine and whine and whine about using

Again, Lard ass, you fuck up again. http://www.houseofnames.com
and many other genealogy websites confirm Wiseman is an English
and German (specifically Bavarian) name. They also confirmed
Davies is a Welsh and Jewish name, much to your chagrin.
And, how can somebody be Jewish and anti-Semitic at the same

30. Microcephalic Wiseman Syndrome Explained

Newsgroup: rec.radio.amateur.misc

Feel sorry for Roger. Now you know the rest of the story.

http://www.bdid.com/seckel.htm

Microcephaly

The term Microcephaly literally means "small head". The determination of microcephaly is usually made when the head circumference is more than 2 standard deviations below normal for age, gender, race and gestation. Some physicians prefer to diagnose at the 3 SD mark. There may also be a diagnosis of "relative microcephaly", which means that in relation or comparison to weight and length, the head size is below the expected norm. Microcephaly may be congenital (present at birth) or it may develop in the first few years of life. The disorder may stem from a wide variety of conditions that cause abnormal growth of the brain, and is often a symptom of syndromes associated with chromosomal abnormalities.

The number of microcephalic individuals in the general population ranges from 0.1 to 2.5 percent, depending on whether the head circumference is 2 or 3 standard deviations below normal. Many of normal intelligence and function are included in the larger percentage, which seems to indicate that the 3 SD deviation is more closely related to the incidence of neurologic impairment. There are approximately 1.6 per 1000 single birth deliveries that include a diagnoses of microcephaly, but only 14 percent of all microcephalic infants diagnosed by the first year of age are detected at birth.
Definition:
Microcephaly describes a head size (measured as the distance around the top of the head) significantly below normal for a person's age and sex, based on standardized charts.

Alternative Names:
Microcephalia; Microcephalic; Microcephalus. Bird-Headed Encephaly.

Considerations:
Microcephaly most often occurs because of failure of the brain to grow at a normal rate. Skull growth is determined by brain expansion, which takes place during the normal growth of the brain during pregnancy and infancy.

Conditions that affect brain growth can cause microcephaly, including infections, genetic disorders, and severe malnutrition.

Common Causes:
Primary Causes:

Downs Syndrome

Prenatal Malnutrition

Intermarriage

Any pointers to sources of longer CW transcripts I can feed into my NuMorse CW training program? I downloaded some files of artificially-generated QSOs to practice with, but they become so repetitive after a while that I might as well be using a random-character-generator. Too much of that and I'm ready to chew my hair off.

Does Donnie Anderson, W4JYZ always talk for hours and say nothing? Who does he talk to, anyway? I can never hear the second party and it rather sounds like Donnie is responding to voices in his head.

You guys may want to start tuning back into 14.313 USB sometime soon
on a semi-regular basis.............

Ole "KJI" David from Evansville has been in there every late morning
and afternoon since New Year's Eve day and the frequency is slowly
starting to reclaim it's former glory(-hole) days as the all time RF
screwball magnet of ham radio.

I've been hearing old time voices and personalities on there *today*
that I ain't heard on since the good ole days of kv4fz and the infamous
'Mike and Judy show'. Even ole gravel himself (!the original one!) was
in there today making comments to Dayveed and the guy in TX and Ga.

So boys, put away them keyboards and GO LIVE and IN COLOR once
again on the old timey funfreaq of 14.313 USB. Trust me, ole KJI when he
gets
started, has the gravametric pull of a red giant star when it comes to
drawing
out the froot-loops, the crazies, the goofballs and the toilet ticks. It
can only
get better as time winds on! What a way to start the new year eh???

3DA0, SWAZILAND (Update). Frosty, K5LBU, states he has received several replies to his last E-mail message requesting/looking for operators to go to Swaziland in July of this year. It sounds as if he still needs some operators for the trip and is hoping to have 3 CW operators and 3 SSB operators. He does mention that they plan to be in the IARU Contest on

July 9th and 10th. He hopes to have two stations on with towers and beams. If interested, visit the following Web pages for more info at:
http://www.k5lbu.com/
http://www.dxsafari.com/

3D2/R, ROTUMA. The "425 DX News" reports that Charlie/HA8IB and Eli/HA9RE will be active from here between January 27th and February 21-22nd. They plan to have two stations active on 160-10 meters CW, SSB and RTTY. The operators also plan to participate in the CQ WW 160 Meter CW and ARRL DX CW Contests.

6Y, JAMAICA. Martin, KN5G, is currently in Negril until January 8th. He is just on vacation, eventhough he took his K2 and some wire along. If active, look for him to sign 6Y5/KN5G on RTTY, CW and SSB. He informs OPDX that he can operate all bands except 160m. QSL via the bureau or KN5G.

7Q, MALAWI. Allan, G0IAS, informs OPDX about the recent activity from here. He reports that Les, 7Q7LA, will be here for another couple of weeks. Looking over the QSNs, Les seem to be active most days at various times (after 0330z, 1200z or 1600z) on one or more of the following bands: 40, 30, 20, 15 and 10 meters. Harry, 7Q7HB, (who is apparently back home) has no current plans for his next trip down there. Ron, 7Q7RM, seems to have lost a lot of interest after being there for 50 years.

8Q, MALDIVES (Op Cancelled). Paolo, IK2QPR, reports that he has cancelled his 8Q7PR January 9-17th operation due to the tragic events in southern Asia.

8Q, MALDIVES (Web pictures). Igor, UA9CDC, invites those who are interested in seeing some 80+ pictures of his recent 8Q7DV CQWW CW Contest operation to visit: http://www.fotki.com/8q7dv

CORRECTION. Last week we had an incomplete URL address for the Web page listing under "CQ CELEBRATES ITS 60TH". The correct URL address for all the complete rules for the "CQ Gang 60th Anniversary" activity is on the CQ Web site at: http://www.cq-amateur-radio.com/CQ60%20Award%20%20Dec04.pdf

HK0, MALPELO ISLAND. Pedro, HK1XX, announced this past week that the DX Colombia Group are making plans for a possible Malpelo DXpedition between June 2005 and March 2006. They are looking to put together an international team of operators which will include 13 Colombian operators and 7 international guest operators. Suggested modes of operation are CW, SSB, Satellite, PSK, RTTY, 6 meters and possibly EME. The DX Colombia Group is looking for possible operators, sponsors and equipment. E-mails will be sent out to interested parties. More details are forthcoming at the 2005 Dayton HamVention. They also invite everyone to visit their Web page at: http://www.dxcolombia.com

QSL INFO AND NEWS.....
TOP 5 QSL MANAGER NOMINATIONS. John, K1XN, from the "GoList", reminds everyone that January is the last month to nominate your 5 choices for "The Top 5 QSL Managers for 2004". He reports, "With just 1 month to go, the nominations are lagging behind last year, but the nominations are grouping up much better than last year. There has been fewer different managers nominated so far, could be it is just an 'off' year! If you have not sent in your nominations for the best managers that sent you confirmations this year, please do so soon." Send your 5 or less nominations to [golist@golist.net] and put in the Subject line: TOP 5 NOMINATIONS. This will help John see it and add your vote right away.

VK9LA AND VK9LW QSL STATUS. Bill, VK4FW, informs OPDX that all direct cards received there have been answered up-to-date. Many of you will receive your cards in the next few days. A reminder to all that overseas postage in Australia has increased to 1.80 USD. A single USD no longer covers return postage. You must use 2 USDs.

VK4UC QSLING UPDATE. Steve, N3SL, informs OPDX that the new cards for VK4UC were received December 27th from UX5UO, and just over 400 cards have been processed as of that evening. About 50 of those are direct, and the rest will go to the ARRL outbound bureau the following day. Steve states, "It is apparent that we do not have logs for the 2002 WPX-CW, Oceana Contest, or CQWW-CW, as we have about 100 more requests for those time periods. John is in the U.S. right now, and I have E-mailed him about the missing logs. I doubt he has access to them, however, until he returns to VK-land in a couple of months."

SPECIAL ACTIVITY. To celebrate the 35th anniversary of the YUCW Club in the State Union of Serbia And Montenegro (SUSAM), look for the special callsign 4N35CW to be activated. Members of the YUCWK will also be active using their special callsigns. Look for the following stations:

Activity will be on 7268 and 14268 kHz (+/- QRM). QSL via VE3TMG (QRZ.com). A certificate is being offered for stations who work VE3TMG. SPECIAL EVENT (QSL Update). John, SM7CRW, will be using the special callsign SF50A between now and December 31, 2005. He is celebrating his 50th year of hamming and promises an exclusive QSL for everyone who works him and requests it. QSL SF50A via W3HNK.

SV/A, MOUNT ATHOS. Monk Apollo, SV2ASP/A, has been quite active lately. His activity has been on 80/40/20 meters SSB. Watch 80 or 40 meters between 1730-1830z and 20 meters between 0830-0930z.

V3, BELIZE. Art, NN7A, will operate as V31JZ/p from South Water Caye, Belize (IOTA NA-180), February 10-14th. This will be a one-person operation with 100 watts, a vertical and wire antennas. Operation will be CW on 40-10 meters including the WARC bands; some 80m and 160m is possible. Some SSB is possible on 20 and 15 meter IOTA frequencies, if conditions are permitting. NA-180 was opened as a new IOTA by Art and Mike Sharp, NG7S / V31RL, in February, 1993. This will be Art's 5th operation from South Water Caye, and his 11th trip to Belize since 1988. QSL via NN7A, by the ARRL W7 Bureau or direct to: Art Phillips, P.O. Box 201, Flagstaff, AZ 86002 USA. No V3 bureau cards. No skeds, please.

VU3, ANTARCTICA. By the time you read this Bhagwati, VU3BPZ, should have reached the Antarctica via the M/V EMERALDS Sea (A8DU3) and is expected to be active from the Maitri Base (starting January 3rd). Bhagwati is the Communiction Officer for the XXIV Indian Antartic Expedition (2004-2006). ADDED NOTE: Gianni/I1HYW and Egidio/IZ8BRI want to remind the OPDX's readers that the WAP Worldwide Antarctic Program is fully available at: http://www.ddxc.net/wap
They would like to extend to the DX Community and Antarctic Chasers the very best for the New coming Year and a Happy and Prosperous 2005.

VU4, ANDAMAN ISLANDS (Update). Most of you by now have heard of the tragic events that took place last weekend (December 26th). It is real sad and shocking to see the major devastation that took place because of the earthquakes and tsunamis. I am sure most of you can understand the need for the VU4RBI/VU4NRO operations to stop and only provide Health and Welfare emergency communciations. We are lucky our VU2 friends and Charles Harpole, K4VUD, survived this terrible event. Excerpts from Charles' updates over the past week indicate that he is back in Bangkok, and Bharathi, VU2RBI/VU4RBI, is back in her home in Delhi. Several Indian hams have been added to the VU4 team now, and are spread over the Andaman and Nicobar Island trouble spots. They continue to pass emergency traffic mainly on 14190 and 7095 kHz on phone. Charles states that the VU4 log books are safely now in Hydrabad

at the NIAR, and to please check the NIAR Web site for more news from
this date onward about the VU4 DXpedition. The Web page is:
http://www.niar.org

ZK1, SOUTH COOK ISLANDS. Victor, ZK1CG, has been active again on 160
and 80 meters. Listen for him between 0900 and 1330z.

Sounds about right, I'll sell you my TS-2000 for $500.00 buts needs
repair about $300.00 worth. Might ask if he ever had the driver stage
worked on, I did, and now it's bad again, bad by-pass caps on the
transistors on certain runs around late 2000! Kenwood knew about the
problem but never published the tech bulletin about them. Out of
warranty and warranty on repair so I am SOL!

I agree. I also have a memory when in the 60s the ARRL pushed incentive licensing. That ARRL/FCC BS cost me some frequency spectrum usage on 80 through 15 meters that I previously had worked hard to obtain by getting my ham license. In my opinion they always have been a bunch of self centered individuals who had an agenda. I have been licensed for 45 years. Fortunately I wised up about the ARRL 44 1/2 years ago.

Do you ever wonder why Woger always tries to bait Lloyd by calling him
Jewish? It's because (in addition to being a drooling, clueless,
illiterate, stuttering retard) Woger's a rabid anti-semite.

What would the New Year be without a trip down memory lane?

Here are a couple of the anti-semitic posts that got Woger spanked:

"I _did_understand it, that is _why_ I made fun of your tagline. Well,
kike,
they should've stuck _you_ in the ovens with the rest of them at
Dachau."

"Fuck you, kike! They must've cut everything off at the bar mitzvah.
The're always room for cyclon-B. Perhaps I can let some Palistainian
acquantances know your address...that would be funny."
Woger Weissman, anti-semitic and proud of it!

I use CW_Player, and feed it files from the various ham-oriented lists
that I subscribe to. Works very effectively for me, though YMMV.
Sometimes I leave all the headers on a file, to get more practice with
punctuation.

Roger L. Wiseman continues to deny his family is actually Jewish while exhibiting extreme anti-semitism. Why do you deny your Jewish roots Woger? You should check out all the Jewish Wiseman's on the Wiseman Genealogy forum!

http://genforum.genealogy.com/wiseman/messages/1155.html

Just look at the many Jewish Wiseman's (some with relatives in West Vagina!) wanting to reach out to you in brotherly love, ready to breaK matzoh with you, ready to lend a yarmulke, ready to accept you into the Synagogue that is YOUR birth right Roger! Many Wiseman's actually died in the holocaust Woger. Accept, my little nebbish, and be proud of your Jewishness!

"Hannah,

I'm surprised people do not think there's a Jewish connection, as I know of several Jewish Wisemans, have seen Jewish gravestones for Wiseman (in Bolton, Lancashire), and in looking at Jewish genealogy lists Wiseman is a very common name. Certainly those in north England, Norwich area and in parts of London have a very good chance of having a Jewish background."

"Roxanne, Thanks for that! I kind of understood that Wiseman came from Europe (possibly Germanic or Eastern Europe) and I know that Klugman is another (German) alternative for Wiseman, and again is a Jewish name."

"Suzy, I haven't found anything yet on the Klugman's yet but did find this online link for notes on a course taught at university in England:

http://www.uea.ac.uk/menu/acad_depts/his/faculty/arnold/jews.htm

There's also an older post here about Wiseman's from Fayette, WVA."

"Another Jewish Wiseman connection! My husband's family roots are in England, the Wisemans of Manchester, like Sharon Brody's. Grandfather Harry was the only one of his family to leave Manchester for America, settling in Nebraska and marrying Gertrude Olander. Some Wiseman cousins visited Nebraska from the UK in the 1950s but I don't know their names.

When I tried to research Wiseman in London (thru the Jewish community organizations) I was told that there are many many Wisemans in London who are Jewish, as well as in Manchester. So there may have been some large family groups that immigrated from elsewhere in Europe. (both London and Manchester being prime immigrant stopping points).

Email me if you want to chat, ornawise2@aol.com"

"Hi Sharon

My own Wisemans come from NE Scotland, so there's probably no link there, but have you been in touch with Hannah Wiseman about her Jewish roots? She has an amazing amount of information about all this and we've been in contact for some time. I have a colleague who had Jewish Wisemans in Manchester, but I believe her family came over from Switzerland and Germany so they're probably not your line either. It's such a relief to hear from someone who knows their Wiseman family is Jewish - as Hannah (and myself) will tell you, there are many out there who deny the name can be Jewish! Anyway, Hannah is like a dog with a bone in searching for this kind of stuff, so she'll maybe come up with something for you."

However, there are many that PROVE Davies IS Jewish!
And, Fayette, WV is nowhere near where Wiseman's family is from,
stupid. You are so pathetic, kosher Lloydie!
Now, given YOUR anti-Semitic remarks on the newsgroups and at
Nim Busters and other message baords, you appear to be the self-

Someone else pointed out that famous Jewish names could be looked up

indeed turn up a number of hits while "Davies" turns up none.

It of course doesn't matter to anyone but Woger, but I'd like to

I worked part time for a few months at a local Radio Shack to help pay some bills. Good place to work, the people are mostly friendly. One of the guys I worked with (Howard) is one of R.S.'s top salesmen and averages between $60 & $70K/yr.

But for a place like this, you have to like working with the public. And sometimes the people can be real....well, you know.

I am looking for some recommendations on what kind of HF antenna I might be able to install cheaply on my home.

I am looking for something that will offer a range of bands (most used) especially 40m and 80m. and will not be overly conspicuous.

My home is a 1 story bungalow, there is no existing tower or mast. My backyard is about 60ftx25ft and there are 5 trees about 50ft high in the backyard.

I have no experience installing antennas, and am only moderately handy.

I am concerned about the trees, as they are directly south west. Not a great direction to block from North America.

I had originally hoped to install an inverted V or basic dipole, but my yard does not seem to be large enough, and my house not high-enough without a tower.

Am I stuck with an indoor dipole here? Or will I have to invest in a tower and vertical to get anything decent? I am ruling out any kind of yagi because of cost and aesthetics.

Thanks!

There are "shortened" 80M dipoles, having inductors in the legs to reduce
the length at resonance. A friend of mine has a commercial antenna of
this sort - I don't know the name offhand - which is fed with about 100
feet of ladder line and with a tuner will operate on all the amateur
bands 80M and down. It's not as good as a full length dipole, but he
is making contacts and having fun. You do what you can.

I would try to get up a dipole / inverted "V" of at least 33 feet per side (1/2 wave on 40 meters). If you can make it longer (like 80 feet per side) do it. The wire length isn't critical and it doesn't have to run in a straight line. Zig-zag it as needed. Use the trees as supports.

Now the important part: Feed the center with 450-ohm ladder line. With an inexpensive antenna tuner, that antenna will do a decent job on 40 through 10 meters, and a fair job on 80 meters.

If you're primarily interested in 40/80 meters, I wouldn't recommend a vertical.

96. Icom CM-8 battery - info needed

Hi,

Could anyone told me something more about Icom CM-8 battery pack, like
for example:

- voltage
- capacity
- what is that piece of electronic inside for?
- why it does have 13.8V AND wall charger connector. Could it be
charged both ways?
- why it does have 11 (!?) cells but only (nominal, if I am right?)
8.4V
- it seems to have thermal and current protection connected in series
with cells (if somebody could confirm this?)

- does anybody, maybe, has a schematic diagram of it?

(I would like to put 7 x NiCd AA cells inside, and I am not sure if
that could be done).

Any info is more than appreciated.

It's true that my trees are 50feet in height, but is attaching a dipole from a tree to a house a safe operation? I'm also not sure that it's legal in my municipality, though not sure who would be the wiser.
How would I access the antenna for maintenance, and how would I attach the lower end? I assume the lower end must be high enough off the ground not to allow someone to touch it.
Thanks much for the advice!!

You can bend your dipole or random wire in any shape that you have to and it will still work.

If you've got 50ft high trees, then I'd use them as much as possible. A 'wrist rocket', fishing pole, and bolt/nut combo works great for stringing wires up to 70' high (use fishing line to pull up a nylon cord, which is used to pull up rope).

Thicker tubing gives you broader bandwith, solid tubing gives you nothing since the RF flows only on the surface of the tubing (skin effect).

It has a thermal cutout (a little metal can) installed in series with
the battery pack. If I remeber correctly, it was just shoved in there and
not gluded to the batteries.

Hams and SWLs have been doing it for decades. What is the danger? Or install the antenna between two trees, and just run the feedline to the house.

> How would I access the antenna for maintenance, and how would I

> the lower end?

You would have insulators at the ends of the antenna wires. Attach nylon or polypropolene rope from the insulator to some accessible tie-off point. If you need to lower the antenna, untie the end ropes.

Another option is to install a 10 foot TV type mast on top of your roof (on a tripod mount), or on your chimney, and use that as the center support. Then attach the ends of the antenna to trees.

Hmm a vanity call sign from Nepal
See licensing abroad
http://www.qsl.net/oh2mcn/9n.htm

Have you read K4VUD bio at QRZ -- he says:
"9N7 which is now the prefix given to foreign hams licensed in Nepal."

DXers favor -- of course DX
Other popular choices are CW, AM, FM
initials of your name
Double letters AA, BB, CC, etc
Tied to your regular call like Charlie Harpole, K4VUD, I believe signed with
9N1UD call.
Maybe e-mail K4VUD -- see QRZ for his e-mail address

9N1MM is taken I believe, as it was allotted to the Father Moran Memorial
Station in Kathmandu - I assume it still is.

9N1MM short bio at URL:

These were not really pictures,but rather the "image" was made entirely by characters on a "real"teletype machine keyboard.In the '60s
there were a number of these would show up at various times.Xmas themes around the holiday,some pretty good images of Playboy centerfolds also made the rounds.
These had nothing to do with computers,the person making the image would cut a tape on his machine.The image could be sent without interuption.This was real RTTY,no computers.
I would think a few old timers would still have some tapes in their collection.

Here is something for eveyone to read ... just in case they haven't read it. Another BEAUTIFUL example of amateur radio and its operators ability to respond. This comes from the ARRL website.
73!

Asian Radio Amateurs Bridging Communication Gap following Tsunami

NEWINGTON, CT, Dec 28, 2004--Amateur Radio organizations and individual amateurs in several of the countries affected by the December 26 earthquake and consequent tsunamis in South Asia have begun emergency communication activities. The death toll from the disaster has been estimated at more than 50,000 lives, and health authorities now worry that thousands more may die from disease, due in part to a lack of potable water. Relief organizations and governments around the world have rallied to assist the victims, many of whom are homeless. DXer Charly Harpole, K4VUD/VU3CHE, was visiting the National Institute of Amateur Radio (NIAR) VU4RBI/VU4NRO DXpedition in Port Blair on Andaman Island when the earthquake struck. He said the team suspended DXpedition operation and shifted quickly to emergency mode.

"By that afternoon, the team had set up one rig outside with a mobile whip and tuner, powered by the hotel generator, and Bharathi [Prasad, VU2RBI--the DXpedition team leader] was taking health-and-welfare messages from the people standing around there," Harpole reported to ARRL. He is scheduled to relate his earthquake experience on US national television during an appearance on NBC's Today show Wednesday, December 29.

"Many wanted to tell relatives on the Indian mainland that they were OK," Harpole continued, "and Bharathi established contact with many India ham stations in various cities as needed." He said Bharathi was able to relay a message to his wife via a contact with a station in Thailand that he was all right.

Harpole, who returned to Thailand December 27 as scheduled, speculates the team may resume DXpedition operation since Port Blair escaped the worst damage, and the aftershocks have apparently ceased. Sandeep Baruah, VU2MUE, reports that VU4NRO is active on 20 meters, and two

additional hams from the Indian mainland--VU2DVO and VU2JOS--have arrived in Port Blair to assist.

Calcutta VHF Amateur Radio Society Assistant Secretary Horey Majumdar, VU2HFR, relayed information from VU4RBI today that the situation in the Andamans has improved considerably with power and some telephone service being restored, although some aftershocks were occurring from time to time. He also says that VU4RBI and VU4NRO were having a lot of trouble copying signals from the Indian mainland, in part due to RF interference from local sources.

C. K. "Ram" Raman, VU3DJQ, in New Delhi reports that one member of the VU4RBI/VU4NRO DXpedition team, S. Ram Mohan, VU2MYH/VU4MYH, has established a station on Car Nicobar Island, one of the worst hit areas that had been totally cut off. Traffic has been noted on 14.190, 14.195 and 14.200 MHz. Raman has been operating at low power to avoid interfering with a nearby army communication site.

Majumdar says the VU4MYH station marks the very first Amateur Radio operation from Nicobar Island. "Mohan's signals were extremely weak, and he was in the skip zone of the Andaman stations on 20 meters," he said. "Improvisation was the name of the game. Hams had to switch to good old CW and switch frequencies from 14.190 and 14.160 MHz to 7.090 MHz." He said in the afternoon, signals were best on 15 meters (21.240 MHz) between the Andaman and Nicobar Islands stations.

"The Amateur Radio station from Nicobar is perhaps playing the most vital part in what is turning out to be the world's largest disaster operation," Majumdar said. "Hams from Sri Lanka, Thailand, Indonesia, Malaysia, Hong Kong, Singapore, Australia and even Israel are checking into the VU emergency nets and extending their fullest cooperation in the truest spirit of Amateur Radio."

Elsewhere, he reports, upward of three dozen stations on the Indian mainland are participating in an emergency net on 7.050 MHz. He said hams from South India have established stations in Tamil Nadu, the hardest hit area on the mainland where thousands died in fishing villages. Hams were handling both health-and-welfare and emergency and medical communications, he told ARRL.

Fragmented information continues to arrive from other areas affected by the earthquake and tsunami. At this point, there have been no specific requests for communication assistance from outside the region.

Musa Suraatmadja, YB0MOS, the secretary-general of the Indonesia Amateur Radio Organization (ORARI) responded gratefully to an International Amateur Radio Union (IARU) request to assist. "So far we can still manage," he said. "Our ORARI members are amongst the first to go to the stricken areas doing emergency communication, rescue operations and other things." The 9.0 magnitude earthquake occurred off the Indonesian island of Sumatra.

Tony Waltham, HS0ZDX, vice president of the Radio Amateur Society of Thailand (RAST) called the earthquake and tsunamis "truly a disaster of catastrophic proportions which has never before been experienced by Thailand--or by our neighbouring countries that share an Indian Ocean or Andaman Sea coastline." He said communication needs in Thailand are being met.

"The situation is now under control, with Thai hams helping to relay information between the affected areas along the west coast in the south to government agencies--mostly on VHF and 40 meters as well as by disseminating news and information over VHF frequencies in Bangkok." He said EchoLink also has been playing a role in enabling hams in Thailand to relay information to friends and relatives of those who had been on vacation in the stricken areas.

Waltham says what is needed most is help for the thousands of injured and homeless, and RAST now is accepting donations for that purpose to pass on to the Thai government. He said the best method to donate is by wire transfer.

Contributions are being accepted at Siam City Bank, Ratchawat Branch No 111, Account type: Saving; Account number: 111-2-22688-4; Account name: RAST (Radio Amateur Society of Thailand under the Royal patronage of His Majesty the King).

He requests that donors send details of their support to RAST via e-mail dx@thai.com "for our records and so that we can acknowledge this and give full credit."

The ARRL and IARU have been sharing information with other agencies and organization.

Salvation Army Team Emergency Network (SATERN) National Director Pat McPherson, WW9E, reports Salvation Army personnel continue to offer emergency disaster services aid in southeastern Asia and costal India. "Salvation Army personnel are based in many of the devastated areas and have been on the forefront of offering aid and relief to the people struggling after this unexpected tragedy," he said. "Salvation Army volunteers fed more than 1200 people in the Kanyakumari and Muttom areas in India and many Salvation Army facilities are being used as feeding sites and emergency shelters in affected communities."

Salvation Army Emergency Disaster Services teams are also assisting government and other agencies in assessing needs and trying to find ways to meet them. The Salvation Army's International Emergency Disasters Services Office located in London is coordinating the relief operation.

Third Party Traffic Question

Since none of the countries affected by the earthquake and tsunami have third-party traffic agreements with the US, the question has been raised about the legality of such traffic--especially health-and-welfare messages--between those countries and US amateur

stations. A staff member in the FCC's Wireless Telecommunications Bureau points out that the international Radio Regulations as revised at World Radiocommunication Conference 2003 (WRC-03) provide that amateur stations may be used for transmitting international communications of behalf of third parties only in case of emergencies or disaster relief.

"An administration may determine the applicability of this provision to amateur stations under its jurisdiction," the FCC staff member told ARRL. Although the FCC has not formally adopted the changes approved at WRC-03, he continued, "the FCC has no objection to US stations passing disaster-related traffic to and from stations in the affected areas if the administrations responsible for the Amateur Service in those countries do not object to their amateur stations receiving messages from our amateur stations on behalf of third parties."

Hello, Joe

Been there, done that - both from KG6AAY on Guam and in the various teletype rooms in the Navy back in the 60s. Around Christmas time, you'd see a lot of santa and the reindeer done in ascii graphics.

As to real RTTY, believe me you wouldn't want to be in one of those small rooms on a ship. Metal deck, metal bulkheads, metal overhead, and over a dozen teletypes clanking away. It was loud.

Hello, Lloyd

Now that you mention it, a typhoon hit Saipan (I'm guessing around 80 miles from Guam) and took out the U.S. Coast Guard tower. This was sometime around 1968. A chief and another man or two were sent to Saipan to try and re-establish communications with Guam.

I was in the shack at KG6AAY (Naval communications receiver site) and heard "Sparkplug" (the Navy station on Guam) trying to contact "Sparkplug1" (the men sent to Saipan to re-establish communications). After a number of exchanges where the Guam site kept saying "you are loud, but garbled" (someone didn't know how to turn down the rf gain, I assume), I broke in. Given the circumstances, the FCC would not have objected. I made contact with "Sparkplug1" on Saipan as KG6AAY.

Within a matter of minutes, the command came down for the ham shack to pass the traffic directly to Commander, Naval Forces Marianas. Our commanding officer, Captain Delany (not sure if I got the name spelled correctly), appeared in the shack and secured 3 hams from all other duties as they were to rotate duty amongst themselves and maintain 24 hour communications with Saipan until he ordered otherwise. The hams maintained communications until repairs were made to the Coast Guard installation.

The guy on the other end (on Saipan) was Hans.
I have a lot of respect for that gentleman.

So what have you done that would allow you to think that Hans didn't do much?

Hello, Lloyd

Please remember that this is not a story from Hans - I was there.

My thoughts are this: most of us respond in an emergency in any way we can. Back around 1971, I was at a creek and there were a bunch of us swimming. One kid started hollering for help. I was around 23 years old at the time (he was 17). When no one was responding (there were kids closer to him), I dove in and pulled him out. No, I was not trained but knew I could hold my breath for a couple of minutes under water so I wasn't worried. I came up underneath the guy, grabbed him, and started doing a sidestoke towards shore. No big deal; nothing in the papers and I doubt the other folks had any idea of what happened. I simply responded as most of us would.

About 10 years back, a big snowstorm hit. It had houses buried up to the second floor in Brockport (near to Rochester). A bunch of snowmobilers aided in the rescue.

No biggie. I think we make too big a deal of the whole thing. Hans responded and did a lot for many folks. He does have some documentation to that effect. I wish we could get off the subject.

Good idea. Getting off the subject, that is. There is no singular "Lloyd" posting these comments...Lloyd is a fictional character whose name has been used to foment comment after comment by parties with special interests. (aka Stalker AB8MQ)
At last count there were no less than four "Lloyds" in these groups. Take your pick...which Lloyd do you prefer?
Lloyd exists in name only.

In an emergency there are those that stand around wondering what to do and waiting for someone to tell them what to do

Then there is the folks that see something needs to be done quickly -- and do it

The first bunch then criticizes and pulls a post mortem as to how it should have been done

Have seen this in the Military, the Steel Mills, in Ham Radio, and every day life -- many times

Kudos to Hans and onions to the criticizers and do-nothingers

Hello,

I am sorry if this is a question that has been asked a million times - but a google search has beeen overwhelming.

I bought a Teac SL-D88 radio for our kitchen, but the FM reception is terrible. We live in a stone house (18 inch thick stone walls).

We have an old (currently unused) TV antenna on our roof that has a coaxial cable running into our basement. The kitchen radio has an external antenna that consists of a single wire (no dipole or coaxial hook-up).

Can I connect the radio to the antenna, and how would I do that?
Thanks in advance.

Michael

just touch the inner part of the coax to your portable radio antenna. If it helps, make it more permanent.

The sentiments expressed below are relevant to
the whole world of Ham Radio.

If we do not take action now about what are essentially
CB licences, then we can have no complaint in the future
when Ham Radio is treated by the powers-that-be as a variation
of CB Radio.

We value the privilege of designing and making our own radios.

The thin end of the wedge is already there in some places, Spain,
for example, where you cannot fire up your own TX unless it has
been subject to scrutiny (expensively so) by government scientists.

We _MUST_ exhort all M3/CB Fools' Licensees to either
move to a better licence class or to not come on the bands
at all.

If they come onto the bands, we _MUST_ refuse to QSO with them.

Please can you tell us who the collective 'we' actually consists of as
many of us don't want to be associated with your 'we'.

(Or your wee for that matter!)

Yes - but anyone, licensed or not, can design and make a radio!

Interesting. Maybe you should move to Spain?

Well - for once old Bean, you've finally been reading what I have posted

Which won't help as they would feel excluded and not wish to progress
further.

I believe you've talked yourself into a corner!

How do you suggest getting out of it?

David.

That's what you do best, little Lloydie, since you are too
stupid and lazy to upgrade from no-code tech and have been one
for over 10 years now.

BWHAHAHAHA..you give yourself away again, stupid. Mentally ill
Lloydie sees Roger (ab8mq) everywhere!
He thinks the many people who hand him his fat ass is stalking
him, too. But, then, he thinks sci-fi robots are real and plays

Only becuase Lardass Lloyd hides behind Altopia and other

148. Free Online Ham Course Starts 26 Jan

RST Engineering (and owner Jim Weir, WX6RST) have developed an online ham radio "teach yourself" course using materials that are free for download from the 'net. The class is intended to take a person from zero knowledge to the point where they can pass the FCC exam(s) for their particular license class in 30 days.

www.rstengineering.com/hamradio

The course officially starts on 26 January 2005 and I am scheduling exams for Saturday 26 February 2005 in both the Rocklin (Sacramento CA) area and Grass Valley CA area. The VEC will be GLAARG, which charges $4 for as many individual exams as the person wants to take at a single sitting (re-exams are an additional $4).

You can take the course anywhere in the USA you wish if you want to use an exam facility in your own neck of the woods, no problem.

The last time I Elmered this exact set of study aids through the college I had one whizbang geek go from zero knowledge of ham radio to Extra within the summer school term, 8 4 hour sessions. I'd like to do that again.

Please pass on this information to your club, your school, anybody you think might benefit from it. Again, other than the exam fee and any study books the student feels that they need (no, we are NOT selling books), this course is absolutely free.

Please, comments on the website are most welcome, either in this ng or by email jim@rstengineering.com

CB or Amateur radio its all the same nowadays, a load of folks with nowt better to do, talking hot air on Th Rig.
Can't remember a radio themed conversation. Technology has overtaken Amateur radio, they can make rigs by the thousand and they work for years. They are so cheap one chuck's them in the bin when they break after a few years good service and buys another.
Last time whilst discussing a simple crystal CW TX and diode detector RX with 384 audio chip. we were asked to not chat so "high brow" on the repeater, as it didn't help newcomers feel welcome....

2004 DXCC (Year in Review by K1JR). Joe Reisert, W1JR, has once again provided OPDX with his annual "DXCC Year In Review". He reports to your editor that 2004 was one of the poorest years for DXing, and he is really disappointed with his totals and the DX available during the year. Anyway, you may agree or disagree with him, but the following is always fun and

interesting to read.
THE 2004 DXCC YEAR: "As you may remember (from my report last January), since 1988 I have been trying to work as many DXCC entities each year that I can catch without losing sleep or upsetting my XYL 'TOO' much. In a typical year, that is 275-285 with 293 (2001) being my highest total. All modes are used (CW, SSB and Digital). Furthermore, each year I try to add a little twist. One year was 100 Watts maximum, another 4 Watts maximum and one with only an R7 vertical. In 2004, I decided to see how many (I can work) on all three modes. It really was lots of work. The final totals were as follows: 273 different entities worked overall, 258 on CW, 248 on SSB and 201 on Digital modes. I reckon I missed 12 entities meaning that about 285 entities were active during 2004 (pirates not counted!).
Heres the list of the entities that I believe were not active in 2004. It can serve as a list of rare DX hi.:
AF : 3B6, 3C, 3C0, 3Y/B, 9X, D6, E3, FR/G, FR/J, FR/T, FT/W, FT/X, FT/Z, J5, VK0H
ANT: 3Y/P
AS : 1S, 7O, BS, BV9P, E4, P5, VU7
EU : JX
NA : CY9, CY0, FO/C, KP1, KP5, TI9
OC : 3D2/C, 3D2/R, H40, KH1, KH3, KH5P/J, KH5KR , KH7, T31, VK9M, VK9W, VK0M, VP6/D, ZK1/N (*), ZL8, ZL9
SA : CE0X, HK0M, PY0T, VP8SAND

*N. Cook maybe but not sure.

Finally, for fun, I started DXCC over again when I moved to my new QTH in New Hampshire in 1991. As a gauge for those chasing DXCC, it took about four (4) years to be Honor Roll eligible. The final ten worked took until now when VU4 was finally activated after a seventeen year hiatus. I hope this info helps DX'ers trying to work them all! Then, for the final challenge, you can try to work them all on 10 bands for the DXCC Challenge Award, but not in ONE YEAR!"..... 73, Joe, W1JR

2005 WAP DIRECTORY (4th Edition). The 4th Edition of the World-Wide Antarctic Program (WAP) Directory is now available to download. You could download it at the following Web site at: http://www.ddxc.net/wap/dnw.php The 2005 Edition of the WAP Directory now contains more than 400 WAP references, such as bases, camps and refuges. It also contains the special prefixes used to celebrate the Antarctica, and those having been numbered with their own reference for the Worked WAP Antarctic Directory Award (WADA). Also, recently completed is the callsign DataBase Directory with a huge collection of over 3000 Antarctic, Sub and Peri Antarctic callsigns, and its a great tool for the WAP's Worked Antarctic Callsigns Award (WACA). PIRATE ALERT. Bo, OZ8ABE, informs OPDX readers that the station signing OH0/OZ3GF is probably a PIRATE. He has contacted their National Telecom Agency, and they informed him that the callsign OZ3GF has been terminated since April 14, 2000.

QSL INFO AND NEWS.....
Bob, 9V1GO, was active as YB5/9V1GO this past week. QSL info is via Petr, OK1DOT.

NOT THE QSL MANAGER. Frank, W1NK, reports receiving QSL cards for XF3T and states that he is "NOT THE QSL MANAGER". The correct QSL Manager is N1NK.

VI3GP QSLS. The Club handling this callsign apologizes for the long delay in acknowledging cards received. All direct cards (with return postage) have now been sent out with Bureau cards to follow shortly.

SILENT KEY. Gerben, PG5M (ex-PA0GAM, PA5NT), informs OPDX that Geert Heemstra, PA0GIN, became a "Silent Key" (SK) on December 23, 2004. Geert was a long time radio amateur and a great CW enthusiast. He was the inspiration for many young and old aspirant ham radio operators and the driving force behind many activities such as organizing one of the major Dutch ham fairs and contest station PA0GN (later PI4GN). He was heavily involved in the Dutch amateur radio society. Gerben states, "I personally was one of the many people that received a CW training from Geert which for me was the start of becoming a CW and contest enthusiast. Later Geert acted as my QSL Manager (PA0GAM/ST2, etc.) which he did with great dedication. We have lost a great radio operator and radio friend." OPDX and its readers would like to send our deepest sympathy to his family and friends.

SPECIAL EVENT. The Pretoria Amateur Radio Club, one of the oldest amateur radio clubs in South Africa, is celebrating their 75th anniversary in 2005. Starting from January 1st (2005), the club will be using the special callsign, ZS75PTA, for the rest of the year. QSL either via the bureau or direct to: PARC, PO Box 73696, Lynnwood Ridge 0040, RSA.

SPECIAL EVENT. Steve Hajducek, N2CKH, OMARC Club Secretary/Membership Chairman, reports that from 1400z, January 15th to 0000z, January 16th the Ocean Monmouth ARC will operate from the historic Diana site to commemorate the first ever successful moon bounce experiment as conducted by the U.S. Army Signal Corps held on January 10, 1946. OMARC shall operate CW/SSB and possibly other modes in the General and Novice/Technician sub-bands of the 80, 40, 20, 15, 10 meter bands and possibly elsewhere. For a historical perspective, please refer to the ARRL QST article in the May of 1946 QST titled "A DX Record: To the Moon and Back, How the Moon-Radar Feat was Accomplished" written by Herbert Kaufpman, W20QU. For more information on the Diana Project and for QSL info, please visit the OMARC Web site at: http://www.omarc.org
Also, visit the InfoAge Learning Center for more Diana Project history at: http://www.infoage.org/diana.html

SPECIAL EVENT. The Radio Club "GFG Family" (SP4YFG) will operate as HF4IARU from January 25th to April 25th celebrating the 75th anniversary of PZK and the 80th anniversary of IARU. QSL via SP4GFG, by the bureau or direct to: Tadeusz Bres, PO Box 147, 15-959 BIALYSTOK 2, Poland.

TG, GUATEMALA. Bill/NI4Y and his wife Tricia/AB4XQ will be in Guatemala City from January 18-24th. They plan to operate portable /TG and will be operating mostly on CW at the bottom of the bands on 40/30/20/17 meters. QSL via the bureau or NI4Y.

V4, ST. KITTS. Mike/W1USN, Bob/AA1M and Scott/W1SSR will be active from here between February 24th and March 4th, signing V4/homecall. They hope to operate CW, SSB and PSK on all authorized HF bands. QSL via the bureau or their CBA.

VK0M, MACQUARIE ISLAND. Dave, VK3KR, a Senior Communications Technical Officer, is now active as VK0MT from Macquarie Island (WAP AUS-11) using an ICOM IC-706, 100 watts and a long wire antenna. He can be active only during night times. Soon he will start with 2 meters scatter experiments as reported by Masa San, JE1LET. His other duties on the base are Anaesthetics Assistant, Waste Management, SAR Team and Webmaster. Over the past week, Dave was working from a small hut at Water Fall Bay using only a multi-band dipole that was only 10 or so feet off the ground. He was heard on 80/40/20/17/15 meters SSB. Activity was between 1000-1330z on or around 3795, 7085 and 14185 kHz (+/- 5 kHz). Currently, most of his operations will be SSB, but CW, PSK and RTTY may be an option later. By the time you read this, Dave should be back at the main base. Victor, ZK1CG, reports that Dave may show up on some nets like the Southern Cross DX net on 14239 kHz at 1100z, the W7PHO net on 14245 kHz at 1400z, the ANSA net on 14183 kHz at 0515z and the 247 net on 14247 kHz at 2100z. Masa, JE1LET, is his QSL Manager. Dave will send logs to Masa and a nice picture of the Island for the QSL card.

VP2V, BRITISH VIRGIN ISLANDS. Look for operators Sigi/DL7DF, Frank/DL7UFR and Wolfgang/DL4WK to be active from here February 22nd through March 9th. Callsign will be VP2V/homecall. The team will have three stations with two linears available (at least one station will be on 24 hours a day). Activity will be on all bands (mainly low bands) CW/SSB/RTTY/PSK31/SSTV. Antennas mentioned are: 21m Vertical, R7, Hexbeam and Yagi for 6m, for RX K9AY loop and beverage antenna. QSL via DL7DF.

VP2V, BRITISH VIRGIN ISLANDS (Update). Last week we announced that Curt, W3HQ, will be here January 26th through February 5th for the CW CQ Worldwide 160 Meter Contest. Curt informed OPDX this past week that he will be on the Northeastern Coast of Virgin Gorda, BVI, in a house on the beach. His callsign will be VP2V/W3HQ. Activity before the contest will be "CW ONLY" on 160/80/40/30/20/15 meters (primary bands will be 160/80). Curt states, "I may not have E-mail on the island, so any SKED requests need to be sent and confirmed prior to departure." He will accept SKEDS via - W3HQ@arrl.net - up to Saturday, January 22nd. QSL via his "NEW QSL MANAGER" VK4AAR, DIRECT ONLY.

VP8, SOUTH GEORGIA ISLAND. Lars, DL9LB, is expected to be active as VP8DIF, January 18th through February 18th. He will be working from Husvik, and his activity will be mostly on SSB around the IOTA frequencies (no WARC bands). However, his operating time will be limited due to his work schedule. QSL via DB3LSP (QRZ.com).

VU, INDIA. Reports indicate that a VU station has been active on 160 meters CW. Look for Kumar, VU2BGS, on the 160 band, starting around 100z and almost as late as 0000z (then he moves to 80m CW). QSL via the operators' instructions.

VU4, ANDAMAN ISLANDS. Charles, K4VUD, provided a few updates over the past week about the following items. He talked to Suri, VU2MY, Director of NIAR, on January 5th, and he stated that "QSL cards were arriving at NIAR in Hydrabad with all kinds of contents (green stamps, etc.) in good order and were not tampered with in any way prior to final delivery at NIAR." He encourages that method of QSLing, i.e., directly to NIAR. Suri also stated that once the personnel at the NIAR has free time, they will post on the NIAR Web site a list of "cards received" for everyone to read. He also spoke of plans to put the VU4 logs on that Web site once the time is available. All the logs are safely locked up in Hydrabad now. Now for the real good news. Charles stated, "The India government is allowing any VU licensed ham to go and operate on VU4, including Nicobar Island. I do not think anyone, however, has the guts (myself included) to go there simply to do DX contacts while the emergency is still going on." Stay tuned to the NIAR Web site at: http://www.niar.org

XU, CAMBODIA. By the time you read this, Peter, NO2R, should be active as XU7ACY until January 20th from Sihanoukville. He plans to concentrate on 160-40 meters CW/SSB. QSL via K2NJ.

YJ, VANUATU. YL operators Elizabeth/VE7YL and Gwen/VK3DYL will operate from Port Vila and Aore Island between May 2-19th. Their callsigns and detailed QSL information will be forthcoming at a later date.

ZK2, NIUE (Update). Murray, VE7HA, informs OPDX that things are solidifying nicely for his Niue trip with his wife Konomi. They leave Vancouver on February 2nd bound for Niue via Honolulu and Samoa. They don't actually arrive in Niue until early February 7th, since they must wait 4 days in Samoa for their plane connection. The Managing Director of Niue Telecom has informed Murray that his callsign will be ZK2ML. He will receive the licence upon his arrival. Murray adds that since they plan to be in Niue for about 2 months, he hopes to be active to some degree in the ARRL DX CW and SSB Contests, and also CQ WPX SSB Contest. Murray now has WinPSKse installed on his laptop and is working on the physical interface for the rig. So PSK operation is a possibility which he presumes would be appreciated from ZK2. Weight limits on Polynesian Airlines are really restricting what Murray can take. Otherwise he states that they seem to be a great airline considering their economical fares and helpful staff.

An Internet "troll" is a person who delights in sowing discord on the Internet. He (and it is usually he) tries to start arguments and upset people.

Trolls see Internet communications services as convenient venues for their bizarre game. For some reason, they don't "get" that they are hurting real people. To them, other Internet users are not quite human but are a kind of digital abstraction. As a result, they feel no sorrow whatsoever for the pain they inflict. Indeed, the greater the suffering they cause, the greater their 'achievement' (as they see it). At the moment, the relative anonymity of the net allows trolls to flourish.

Trolls are utterly impervious to criticism (constructive or otherwise). You cannot negotiate with them; you cannot cause them to feel shame or compassion; you cannot reason with them. They cannot be made to feel remorse. For some reason, trolls do not feel they are bound by the rules of courtesy or social responsibility.

Perhaps this sounds inconceivable. You may think, "Surely there is something I can write that will change them." But a true troll can not be changed by mere words.

I feel your pain. My TS-2000 needed some repair because the xmitter failed on 160-6, and there is no F*ing way in h#ll that a trpical ham can diagnose, troubleshoot, and repair that. $600 later, my radio was fixed.

Don't get me wrong, I love the radio. But if it ever fails again, it's going to the curb.

Hi folks

I am looking at adding a pactor III modem to ny rig. I've heard that some folks are hard wiring the modem directly to the radio rather than using the mic input.

Questions:

1) if I conncet to the mic input, can I leave the mic connected too (i.e. a "through connection") or do I ahve to disconnect the mic and hook up the modem, then disconnect and reconnect mic each time I want to send email?

2) Other than convenience are there any other good reasons to hardwire directly to the radio.

3) Anybody know where hardwire instructions can be located?

Thanks everybody.

I'm looking about to find some text files for my Morse Code program that are of the current exam variety, that is, plain English. I can find a lot of them that are of the "rrr fb cpy hr om rig is ysu 101dx es wx is rn" instead of the current format with spelled out words and few, if any abbreviations.

I'm not trying to cheat the exam, but I want my students to practice on something that will resemble the real thing. Any pointers?

I can't think of any good reason to hardwire the modem to the radio.

Having said that, neither do I think a parallel connection (or "through connection") is a very good idea. This double termination is almost certain to introduce an impedance mismatch issue, and likely unwanted modulation products or ground-loop hum.

Best and most convenient would be a simple A/B switch arrangement. MFJ and others used to make them back in the "packet boomlet" a few years ago. As I recall the MFJ versions were all Model 1272xxx where "xxx" was various letters designating what brand radio mic pinout they had.

Should take all of about ten DAYS. Making sure all the letters and numerals and prosigns are included, making sure that the message is within the limits of the test time, making sure all the spellings are correct...and then doing it for a hundred QSOs so that you don't get the same one every time is a NONtrivial task.

THE THIRTEEN COMMANDMENTS OF FLAMING:

Flames should be witty, insulting, interesting, funny, caustic, or sarcastic, but NEVER, EVER, should they be boring. The Thirteen Commandments of Flaming

1. Make things up about your opponent: It's important to make your lies sound true. Preface your argument with the word "clearly." "Clearly, Fred Flooney is a liar, and a dirtball to boot."

2. Be an armchair psychologist: You're a smart person. You've heard of Freud. You took a psychology course in college. Clearly, you're qualified to psychoanalyze your opponent. "Polly Purebred, by using the word 'zucchini' in her posting, shows she has a bad case of penis envy."

3. Cross-post your flames: Everyone on the net is just waiting for the next literary masterpiece to leave your terminal! From the AppleII RoundTable to X-10 Powerhouse RoundTable, they're all holding their breath until your next flame. Therefore, post everywhere.

4. Conspiracies abound: If everyone's against you, the reason can't *possibly* be that you're an obnoxious sh??head. There's obviously a conspiracy against you, and you will be doing the entire net a favor by exposing it.

5. Lawsuit threats: This is the reverse of Rule #4 (sort of like the Yin & Yang of Flaming). Threatening a lawsuit is always considered to be in good form. "By saying that I've posted to the wrong group, Bertha has libeled me, slandered me, and sodomized me. See you in court, Bertha."

6. Force them to document their claims: Even if Harry Hoinkus states outright that he likes tomato sauce on his pasta, you should demand documentation. If Newsweek hasn't written an article on Harry's pasta preferences, then Harry's obviously lying.

7. Use foreign phrases: French is good, but Latin is the lingua franca of flaming. You should use the words "ad hominem" at least three times per article. Other favorite Latin phrases are "ad nauseum," "veni, vidi, vici," and "fetuccini alfredo."

8. Tell 'em how smart you are: Why use intelligent arguments to convince them you're smart when all you have to do is tell them? State that you're a member of Mensa, or Mega, or Dorks of America. Tell them the scores you received on every exam since high school. "I got an 800

on my SATs, LSATs, GREs, MCATs, and I can also spell the word 'premeiotic' ." Stick a bunch of impressive initials on your sig, and make that sig at least 10 lines long, to show people how Really Powerful you are. Loudly point out their spelling errors.

9. Accuse your opponent of censorship. It is your right as an American citizen to post whatever the hell you want to the net (as guaranteed by the 37th Amendment, I think). Anyone who tries to limit your cross-posting or move a flame war to email is either a communist, a fascist, or both.

10. Doubt their existence: You've never actually seen your opponent, have you? And since you're the Center Of The Universe and Chief Net-Cop, you should have seen them by now, shouldn't you? Therefore, THEY DON'T EXIST! This is the beauty of flamers' logic.

11. Lie, cheat, steal, leave the toilet seat up. Who cares! You're probably a fat, pimply-faced, manipulative computer-nerd with no social skills, and your opponent is worse. Besides, if you were getting laid at all by anything other than the cheap hookers down the street, you wouldn't be flaming anyway.

12. When in doubt, insult: If you forget the other 12 rules, remember this one. At some point during your wonderful career as a Flamer you will undoubtedly end up in a flame war with someone who is better than you. This person will expose your lies, tear apart your arguments, make you look generally like a bozo. At this point, there's only one thing to do: INSULT THE DIRTBAG!!! "Oh yeah? Well, your mother does strange things with vegetables."

13. Last, but not least, threaten to tell their sysadmin or postmaster all about them. You can always hope that they are newbie enough to feel threatened by this, unless they had a younger brother or sister who was always tattling to Mommy.

EXAMPLE...for the Rookie Flamer

Dear Fred,

I object to your use of the word "dear." It shows you are a condescending, sexist pig. Also, the submissive tone you use shows that you like to be tied down and flagellated with licorice whips.

>While I found your article "The Effect of Belly-Button Lint > on
> Western Thought" to be extremely thought-provoking,

"Thought-provoking?" I had no idea you could think, you rotting piece of swamp slime.

> it really shouldn't have been posted in rec.scuba.

Your attempts constitute nothing less than censorship. There is a conspiracy against me. You, Riff Raff, and Simon Sinister have been constantly harassing me by email. This was an ad hominem attack! I

have therefore cross-posted this to alt.flame, rec.nude, comp.graphics, and rec.arts.wobegon. I have also copied this whole correspondence to your sysadmin/postmaster, so he can delete your account.

> Perhaps you should have posted it in misc.misc.

It is my right, as granted in the Bill of Rights, the Magna Carta, the Bible and the Koran, to post where ever I want to. Or don't you believe in those documents, you damn fascist? Perhaps if you didn't spend so much time sacrificing virgins and infants to Satan, you would have realized this.

> Your article would be much more appropriate there.

Can you document this? I will only accept documents notarized by my attorney, and signed by you in blood. Besides, you don't really exist anyway, you AI project, you.

At all times, remember what the original meanings of the word "flamer" were: 1) a loud, obnoxiously gay man, and 2) a person who lights their farts for amusement.

The ARRL has traditionally used QST articles for the code runs. Likely
it's not something someone will have memorized, yet if you were an ARRL
member you had the text to compare your copy with.

Nowadays, it's real easy to do something like this, since there are
code practice programs, and pretty much anything is available in
electronic form now.

It's not the same as actual QSOs, yet may be a better choice than code
groups. One advantage code groups traditionally had was that you weren't
likely to memorize them, so you only needed the one record to learn code.
Since resources aren't so limited nowadays, text is a better choice.

Given that the purpose is to get good at code, rather than get good
at knowing what a proper QSO is, one could meld the two. Take text
files almost at random, and edit them to include the exchange at
the beginning, and then the guy starts into a long rag chew, placing
his call into the transmission as required.

For the purposes of familiarizing students with the exam format, it doesn't have to meet the rigorous requirement of the actual exam material. I made some for my students and did not try to be sure that each one had all the required letters, numerals, and pro-signs. I just made sure it had at least one call sign with the "/" as that tends to throw students. They all passed the exam.

Seriously Folks

Napoleon Bonaparte wrote forming governments are forged
only through the public witness of shared mutual
experiences, simple, yet, the bushite strategy
implemented continually on behalf of the enemy forces in
Iraq have been to divide the nation's people with
different "legal" definitions, while speaking for
typical bushite bigotry, by then offering distinctions
of human value between US some from "others". Not

freedom, nor democracy. [Remember: Evil is dumb]

Example: Allawi forbade surviving Iraqi doctors and nurses from medically treating any of the estimated 200,000+ innocent victims from Falluja [IRAQI vicinity].

Example 2: DYING two-bit bushite war with "foreign" soldiers paid especially more than a thousand dollars a day as self confessed RACISTS, and THEREFOR, left "officially" too weak as, "pissing post illiterates" to go after real terrorists who torture the innocent, or real thieves, that have stolen BILLIONS from the Iraqi Development Fund. Done all to sacrifice life's purpose for no better good to the ANTI-CHRIST EVIL bush "cabal" of lying neo-con Christ haters. Allthewhile stating the objective worth dying young America as bushite for is "Democracy" in Iraq. But, isn't a founding principle of any democracy to outlaw thefts, sexual assault, murder? Again, bushite kills bushite for a stolen nickel that they just as soon, stole from anybody. If you can believe it. We need YOU to make some effort to engage American talk mediae. Perhaps it's only YOU, who hasn't yet heard a responsibility to this once greatly revered world of wisdom, of the enchanted, and mystical, or of the tyrannical as hell bound for suffering and sorrow. ,in which you share allegiance too my friend.

Being caring and compassionate for the victimized innocent not only feels good, but it is a choice we would make at being alive to help US survive. To not speak against the bushite war crimes against YOUR Humanity, is to not speak in defense of our ancient dying God no longer found worthy of you Peoples humble respect. Currently corrupted bushite want my voice of truth silenced by censorship with false imprisonment, and those who advocate such hatred for myself and our humanity, speak no public word or disagreement on my allegations of high treason by Our Mr. bush Jr.. While I want to openly debate the, "censorship for tyranny", corporate talk radio bushite bitches on their furthering commitment to not allow objections regarding their contempt for true justice and freedom in America. But if you singly decide not to support my cause, like corporate news control encourages, We will be left forsaken, again. God is Just to the core, like Johnny Wizard tries to be, while bushite liars lie, cheat, and steal from America as ourselves measured unworthy for deliberation to gain true understanding. The Coast to Coast radio network in America disallows America learn for why American soldiers are currently sacrificing their LIVES irrationally. Why? Because there is no

legitimate reason, while bushite pretend in YOUR name, that there must be another reason but for to rob our humanity in George Bush Jr.'s name. For if there truly wasn't another reason, not so then blind, stupid, and cowardly American soldiers wouldn't be too happy about the wealthy corporatist bushite commentators silencing America's dying cries by bushite enemy command. Now would they? Remember: wealthy blind and stupid bushite kills/gets killed, poor blind and stupid bushite for a stolen nickel - a nickel in all likelihood, they rifled as thieves from some pensioner, that just as soon, would be their own "grand" parents. Or Yours as someone elses beside.

Phil Donahue had the highest rating, number one money making news commentary show on NBC as it was canceled. Why? Too good as enlightening and INFORMATIVE. Then there was the recently canceled Crossfire. Or how about Barry Zwicker on VisionTV as Canada's greatest broadcast before it too was canceled. Why? Too good as enlightening and INFORMATIVE. VisionTV, a "religious" channel now likely forbids anyone to suggest that God would be good as just, and REALLY INTELLIGENT. Forbidden knowledge we are the corporate bushite insist with Your stolen rights. Why so? Because Americans might learn of what it is to be a true Christian, and therefor stop to have arrested else immediately executed for high treason regarding 9/11: the enemies of Johnny, Justice, God and Humanity, the evil doers George W. Bush, Rumsfeld, and Condolezza Rice. Alone with Myers and Cheney for good measure. Then, those responsible for the needless bombing of Samarra and Fallujah.

Under EVIL bushite tyranny, We are criminally fighting for needlessly dying as bushite here, but corporate newsCASTers don't find "our" costs worth getting a discussion group going, after all, American soldiers who die for the bush regime, as the kept in the dark, will less likely be going after the real bad guys for 9/11 then right? Corporate America refuse US just basic rights of legitimacy to at least address the absent war reason issue from time to time - Jeeze. But no. As bushite, they're prepared to not inform the bushite soldier that depleted uranium is radio-active, that the stolen American Enron pension money is sitting in the Cayman Islands, or that the war itself has no justification. See, the bushite war is a TRUE CRIME against all Peoples of Humanity, for the war against Iraq has no reason available to explain enemy military action, but for to die thieving from ourselves as the bad guys. The Enemies of Freedom. Why we have Law.

God is Just, and evil is just the slavish ignoramuses who censor our Words of empowerment for freedom through Justice represented indivisible as Eternal. We rule.

Therefor, George Walker Bush is guilty of treason to US all, not only including your one and only King Johnny Wizard as Heaven's afar, but also the not going anywhere but yet still sacrificing ungloriously as the stupidly blind as almost completely incoherent,. devote bushite nazi dumfuk soldier grunt enemy vermins.

Will you not help these words reach a larger audience? I ask you to consider your helping me can do good for your real world too. Perhaps it is ONLY the single individual that hasn't yet understood, this once greatly revered world of the Word is of which you share allegiance too.

Speaking for a just battle of freedom for all humanity, is a right you could exercise in brightest intentions of a muted God who sure could use your help right about now man. Our family is in so a desperation for needed support. I am fearing your fears have got you believing, you have no dying right to speak against Mr. bush Jr. for the crimes he has committed in Your name, but You do. Think of it this way: anybody who stays silently connected secretly to the crimes of nine-eleven, can not be trusted as a sacrificing bushite thief by the enemy bush administration. [Secretly speaking in all strict certainty.]

The warrant that allowed the confiscation of my computer equipment, was to prove that I was the one and same who demanded true justice for our humanity by following the crimes scene leads for nine/eleven, arresting those responsible, or killing the escaping culprits, bush, rumsfeld, and condolezza rice by the hand of our guns. (Why do you think Police officers carry guns after all?) It is now argued that because demon bush is President, it therefor doesn't matter where the actual crimes scene evidence for the murder of thousands in America leads to according to the FBI, for George Walker Bush (666) in above all the laws of the universe. Despite! the reason they obtained the warrant, was to charge me for "threatening the life of an international person", they instead decided not to as saboteurs of liberation. They argued after the warrant gave them my personal possesions, (hundreds and hundreds of video tapes, ALL MY WRITING, computers, disks, along with approximately 50,000 tasteful images.) That the reason for the warrant being originally issued, no longer, if ever, was

justified. For if they were calling for justice, the demon bush, and his co-conspirators might get caught by America, and pay the ultimate price for their treason by death sentence. After two self confessed PRO-BUSHITE (support death squads against Afghanistan school girls, and propping up the heroin trade by arming women slave traders) "officers of the law" reviewed my images, they now contend, that several can be argued to be illegal in an almost fixed to win proceeding. (No more than a small few pictures of beautiful girls in different states of undress - "Home Lolita" I think.)

The charges they offered to the prosecution to argue for a "life term prison sentence" (almost jokingly it was quacked) were complete fiction, of which the crown offered me "a deal". Plead guilty for being a shamed ostracized sex offender, [I'D HUNT CHILD KILLER ENEMY BUSHITE EVERY DAY OF MY LIFE IF I HAD THE BUS FARE AND THE AMMO] and maybe, the Judge won't argue for a long term prison sentence for another charge that has absolutely nothing for substantiation. Substantiated, that will surely do nothing but testify to their attempts at demonizing my better name. Nothing doing darkness, the court of Law, is Our court, and I intend to make my case heard among my peers. Here.

Please, I beg you for my life, forward this document to the propper authorities, post these passages to any church, or, phone talk radio America and demand my public case be heard for Your benefit too, or don't and get what we'll deserve by not making a miracle happen with your single sole but sure, human will power!

1. I obtained the questionable images through Usenet group "youth-and-beauty". Images can be downloaded a thousand or more at a time. I can't not perceive the images until they are on my computer! If they had told me they were coming as bushite, I would have been sure to delete anything near objectionable for argument's sake. They laughed when I told them that.

2. The service companies that offer such groups as child-rape and so on, have an easy ability to filter out subjective objectionable material, along with the truly grusome stuff. But they don't, nor, are they found legally liable for not doing so. I suggest the reason is, it would put out a billion dollar industry of these child-porno cops that view real sicko slime routinely, while then arguing anyone who witnesses such depravity must be guilty. Guilty to have their professional lives destroyed, their life invested property removed till

whenever/perhaps stolen, and then be publicly ostracized as senseless victims. All because some guy maybe believed women are worthy of worship in the highest respect and honor, while cute adorable boys he couldn't help but feel compeled to cover with praise, or mutual hugs and kisses., as long as there are no other men in the room with him and the gals perhaps one day chatting over maybe child care let's say. (no wonder the two child porn cops in question regarding my public case admittingly were/are staunch bushite offenders.)) I know of no nobler lineage that that of our police officer. For protecting the rights of our children, is what we've always been committed to gaining respect for. We want to do right for ourselves, and despite Johnny, this world really is something remarkable to concider a future with on our own terms as a foundation of wisdom with the ever presnt will to succeed at something greater than first realized. Evolution. The Revolution of reason while jiving with justice for freedom holds many perks per praised principle. Hammurabi's number one thang.

3. If a search warrant can be made against anyone who a criminal bushite finds objectionable, (bush and rumsfeld made the charge against me through the Secret Service, then to the RCMP.) then what freedom fighter is safe from pictures of godly and beautiful children in bath tubs? Swimming? IF, the bushite demands the images appear seductive, and compel them to commit sexual assualts? Or, what if you download a program on cars to have the bushite find, it contains bin Laden's secret where abouts in code? Would you be guilty, and if so, of what? No thinking freely?

So, the warrant brought the officers of law the right to prove my Johnny Wizard writing was of my own, but yet, after doing so, refused to enforce the law by giving me my day in court on the reason the warrant was granted to begin with. Also, I, as anyone can not perceive potentially objectionable material until it is in my possession, while a service provider would have little of no problem. (The still working child porno cops could look for child porno all day, and actually get closer to catching those who proliferate actually objectionable materials. [See?, an internet service provider could defend thus: they're not guilty because the subjective material, that would be questioned, is subjective, and so would the porno cops if they got someone intelligent to defend themselves. But for Christ who needs to know what's going on in the realm?, while loving girls in general like they were his own

distant siblings? They'd put Christ up on a cross for loving schoolgirls, by demanding such thoughts come only from a criminal prospective. The problem here is child porno cops can view a suggestive cute girl smiling in her panties, or witness some heinous bushite rape or torture, and measure them equally when charging US for their deviant sexual sugestion. As alas, they refuse to support the Law when it comes to the easily provable criminal actions of enemy bushite, as for would be, the defense of the lives of our innocent children in Iraq mean something to me too.

Anyway, apparently, the reasons for the warrant were not as was so intended. To charge me for threatening the freedom of bush, rumsfeld, and the evil witch condolezza rice. (Can I get some legal advice from someone out there on this then bogus? warrant please?). The Court will (try) argue without allowing ANY voice of objection, that because I demanded the immediate arrest or execution for the individuals responsible for the crimes of nine/eleven, (relying primarily on the Whitehouse, FBI, and the public spewing of the war criminal demon anti-Christ itself,) the prosecutor, it has been alleged, will demand justice not be served in that respect, and that the search warrant that obtained the bushite's evidence against me as a truth teller during their fishing expedition will not be allowed for re-dress. Is this Justice on behalf of God I ask you?

Nature of the Beast

(Again, remember, nobody from the RCMP, the Secret Service, or the FBI, state that I am incorrect in my allegations of treason against the bush administration.)

The prosecutor is going to press for incarceration if I plead not guilty for a crime I'm not guilty of, while my public freebie lawyer, contends my defense of innocence and corporate news agencies forbidding the pursuit of Justice in protection of our Police services, like the honorable FBI officers that contend Ahmad funded Atta will likely not be allowed heard. [Are you a member of a Police Union somewhere, or know of someone who is? Or, do you just not give a care for you fellow officers either?] See?, bushite falsely believe bush can not be arrested for nine eleven, no matter where the actual evidence leads, because he is not judged an equal among men by corporate news standards, but as the anti-Christ, FALSE deity, an enemy to every free person standing.

That is our, for real court case against the Bush administration as it stands today. While some have

warned, bushite are pushing to have me taken in now, to try stopping this from speaking in our Humanity's true defense. They just might succeed, if you decide no care for Freedom from tyranny either..

This is was/is/will be my last Wizard Wire public service announcement regarding this, George Walker Bush (666) wars America, Humanity, and me as the Lord of Creation. I've said everything I can say twice over, and if you can't find it within yourself to pass this post on to every church corner, with a, "I love life too" set of priorities, I can guarantee you no greater reward. But for to be present if not in person, but in spirit during my public trial where the bushites will publicly judge my character unworthy, while attempting the silencing of our own voices for Justice as We stand in TRUTH, indivisible. Be it known, the prosecutors of Law in my case have read Johnny Wizard's "The Trial and Conviction of Our Mr. bush Jr.", and likely a few others that will be asked by the hiding in darkness bushite enemies to completely disregard as crime scene evidence. It's going to be a case worth getting to, considering the newspapers, talk radio stations, and National News desks are expected to forbid honest coverage of by the higher ups at corporate command. Call your Church group to organize a call for Johnny!

Or don't.

I thank all those with whom the true liberation of Humanity from tyranny could not have been made possible without themselves individually. I know it seemed like no one was listening, when we spoke for God's cries, but WE knew better, and we knew soon, all of US will then learn it too, defending God is of no greater privilege. So, cheers to You, our Humanity's defenders of the human challenge, for being there to speak for this life when we needed You as a contributor. Fare thee well with your pride and honor, and no bars will ever hold your undying spirit.

Breaking Camp

I will advocate full compensation for every mistreated soldier who had been tricked into believing something without reasoning.

Johnny condemns George Walker Bush (666) to death for the crimes he has committed against God's Humanity.

Let it be understood, that Saddam gave America 100 percent access to do anything the anti-Christ wished without delay prior to the needless military conflict beginning. So, every treasonous thieving bushite life taken, is done in protection of God, and the American dream. See?, TRAITOR bushite Art Bell's amerikan talk radio forbids BY CENSORSHIP anyone in America to speak in the defense of the undefended American People. Art Bell, America's enemy, with ensure that America "never" learns that bush's business partner, General Ahmad, funded 9/11's mastermind ring leader Mohamed Atta, or that depleted uranium is measured radio-active, or most especially, that billions of STOLEN American pension money is sitting in bushite bank accounts in the Cayman Islands. Instead, he'll do another show on UFOs, or

bigfoot, while broadcasted to the wordless bushite grunts their dying is for naught. Who cares?, bush's war against freedom in America isn't anything bushite amerika ever wants to get persnickety about.

http://www.chapelhill.indymedia.org/uploads/bushite-kills-bushite.mp3

/ / Who cares? CNN is not going to cover it, we know that. CBC in Canada, they're not going to mention it to anybody. It's no concern of themselves to show a caring word for the [thieving] sacrificing soldier. \ \

The EVIL bushite liars die for no better good, but as the ungodly bringing further hardships against US innocent people they target for murder. God says, the Magna Charta says, the American constitution says, let US all arrest or kill the TRUE ENEMY bushites instead. "See lawless bushite, kill it in defense of all that are innocent", I always say as the Son of Man and Living Creator. No joy greater than saving the innocent victims of the enemy bushite thieves, torturers, and first degree murderers. WHO WOULD DISAGREE? in a true Democracy?

Every American soldier who dies as a bad guy in Iraq, dies for cowardly worshiping bush instead of Life. The demon anti-Christ as their false, untrue, dummy deity, sends them into harms way for only to steal from the innocent. The innocent left in God's trust. There was nothing that could have better been done in Iraq by bombing the country. The blind attacking of the population, along with it's functioning public institutions, brings only the STOLEN cash rewards on trading in the American soldier's LIFE as a fascist criminal. All that is bought to by putting cowardly bushite soldiers in bush's un-needed conflict, is to steal from their very own families back home left almost completely undefended. [Have no fear, Johnny Wizard's here!] A criminal military force that deems some soldiers from Apartide fame as "un-accountable" to American or "Iraqi" law, while paying them a thousand dollars a day or more as rewarded racists who fight allong side black and Hispanic dying bushites, to not allow equal rights for those classified by different colorations. Allthewhile with spokespeople smattering the sacrifices are to bring democracy together in Iraq to arrest bushite for thieving then? [No matter whomever you are, George W. Bush is truly evil to God in YOUR name too see?] Regular Joe in the Army, 47$ before expenses concurrent and impending.

I will advocate full compensation for every mistreated soldier who had been tricked into believing something without reasoning. Example: those who had been taken in criminally to handing over their military pensions for five year loans at 56%, or a 20,000 loan paid in five with 60,000. No competion exists for this racket because it's an actual crime scene. Guess where American Gis can hear the sales pitch advertised? The Army Times.

No thoughts of understanding are expressed (OR COULD BE) from the soulless bushite on why they are in Iraq dying, or why depleted uranium is harmless, or why depriving Iraqis of medicine along with food and water, is a ploy to win the hearts of every man who owns a gun. Or why the bushite demands through the censorship of tyranny, that Our Humanity has no rights to speak for our freedoms and liberty, or on behalf of Iraqis who have had billions of much needed dollars stolen from themselves by the bushite enemy. (The billed for taking bushite soldier itself, will not receive a penny of the ill gotten gains, just like their own grand parents were robbed of the pensions, and the bushite couldn't find a word of outrage to say against their false idol then either.)

/ / As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr., their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way. \ \

The ungodly evil bushmob fascist totalitarianists are pushing to have US specially arrested. The demon anti-Christ enemy forces have gambled an attempt to find prosecutors and judges, lawyers and defendants, who together wouldn't let the truth be spoken in our own defenses. I have had many discussions with the National Security branch of the RCMP, CSIS, the Secret Service, the FBI, and several commanders in the Canadian Military, and WE all know, this upcoming trial is something a great deal of many are lookiung forward to, however, an agent of law recently approached me to warn, some are working to try having me arrested without bail, and spend maybe a few years behind bars before a trial could not be postponed any longer, all in an attempt to try stopping my words of truth that represent the interests of all defendable legitimate legal enforcements. Canada's system of checks and balances, and our honorable police services have too many good

guys in place, to want to silence my calls for Justice by measurement. And, up until now, our security people have advised the bushite case would never fly in a public court room, for Johnny Wizard would just make his case as it stands FACTUALLY DOCUMENTED along with that which was FALSELY ALLEDGED, and the wealthy do nothing corporate news agencies would be caught as culpable to being accessories to first degree murders in New York City, where they deliberately with malicious intent, refused to report on the FBI's findings that General Ahmad funded Atta, or that demon George W. Bush with condi and rummy, had a top secret CRIMINAL plan to invade Afghanistan dated September 9th, 2001. Just like still, CBC and CNN refuse to report any human concern for those murdered irrationally by bushite in Iraq today. No concern for those Humans, but in Asia, where bush isn't yet anyway, thieving in the wide open from God, they can try to make up for lost respect by claiming those People are better People worthy of our commpassion with wall to wall coverage on the suffering we have little of chances in preventing. But for to stop needlessly droping tons and tons of toxic bombs into our Living Earth. It is the bushite enemy who refuse to allow YOU speak in your defense as an Earthling.

However, this being said, I have been recently informed that, since the godless bushite enemies would wish to have our freedoms censored, it will likely be pushed to do so without a public trial allowing a jury of my peers to judge the case accordingly. Up until recently, Guantanamo could never happen in Canada. But now in Canada, the enemies behind closed doors are talking about sending intelligent innocent people away to be tortured for sadomasochistic satanic tendencies, and further have argued to no one that persecuting People in Our names without evidence, maybe isn't such a bad idea, when you think of all the people we could rob our humanity from like the "popular" and "Democratic" bush regime does. Bushite corporate new censors are fighting for a return to the dark ages. Don't let this happen to YOUR world. Care not for my freedoms as an honorable man who stands with America's FBI, and your given up life wont be worth nothing but as yet another sacrifice to bring further glory and stolen riches to the American cop killer, pension thiever, 9/11 perpetrator, war mongering anti-Christ, Your unbelievably EVIL Mr. bush Jr.. The enemy of God anti-Christ who continues to hold your real life in mistrust and dishonor, while wealthy corporate "celebs", talk freely about their pride in

such ungodly sacrifices as Christ's forsaken name.

I ask ONLY you to argue this paper with your best
intentions, for I will perhaps not receive another
chance to publish, if as usual, the Internet community
at large extends me little support in my UNCHALLENGED
assertions on who truly committed the crimes of 9/11. A
single bushite corporatist sends a complaint to a
Internet provider alleging I talk "spam", therefor,
without any hearing, private owners are threatened to
lose their privilege to communicate, by an enemy bushite
protagonist who exercises his "authority" by stating
only, "spam", and not even providing my actual post in
it's entirety. One Internet service was shut down for
the sole reason that discussing George W. Bush as the
9/11 perpetrator in tx.politics, was against the rules,
for such subject material must be confined to only a
American nation political forum. I talked to the kid on
the phone who made that power decision on behalf of all
usenet, and let it be known, he knows what he's doing.
But "they" can't do this everywhere. I can not "take
over" your big old lonely world that you must work to
protect for yourself as an equal citizen sworn to
freedom. I have written all I need to say about Justice
and Freedom, and if the human race can not still find
enough care for themselves to propagate my writings for
others to read, or demand Art Bell be removed to allow
Johnny Wizard to debate the ungodly dumfuk bushite
vermins, there truly is no hope for US continuing.

Bush Lies to Canada

that of the UN Security Council. The organization does not estimate the incorrect fantasy conclusion held by this pro-irrational Bush article from Aljazeera.NET. By god Johnny, where tell us could such lies begin at? Well, let's go investigate... If as it is, a misrepresentation of Red Crescent's actual findings, wouldn't you think "they" would put out a press release to correct this falsehood of public claim?, to suggest 150 remain in a city the size of 300,000+?, but no greater than 175? without access for numbering by anyone, but for the only near 15,000 HUMAN BEINGS known escaped as refugees??? Or, are the "reporters" just conveying the "facts", by putting no investment in our validity? Leaving us for further victimhood, by hiding ourselves from the war crimes the anti-Christ bushite nazi savage commanders have committed in my name, America's name, God's name? as our enemies?

Our cause as Humanity is for freedom's reign, not to sacrifice Humanity as misled bushite nazi facist teens further, so bush, condi and rummy can fi-nah-lly escape "The True Patriot's Wrath", for the crimes they committed against Freedom America on "bush win", 9/11. So... Why so do I think Justice is going to get GW, making no mistakens? Because the Patriot's Patriot is you too my sworn believer, and now that's this: America's craftier than that George Bush Jr. makes living out for, in "our"-OWN news broadcasts. As the

"censored" contributors who learned our gathering skills some time ago already, I say, Freedom is paramount. Mr. bush's unbiased corporate news agenda doesn't hold America to an account before the Lord, nor to God as being, an honest spoken word, or deed of good measure. Of friendship, of kindness, of compassion and caring for our fellow human beings. I have rights too you know. As cowards, the bushite refuses to defend the innocent they rob and murder from to serve as enemies of Life, done in to die pleasing their false idol, corporate america's glorious leader, the un-elected dictator, Our Mr. bush Jr..

It should be further noted, as reported, that all aid agencies contributing have accounted for only near 15,000 families stationed in refugee camps that escaped the indiscriminate anti-Christ demon bombing campaigns. So, total deaths tolls could exceed 200,000 just for Falluja alone., what with the napalm, land mines, 1000 lb bombs, snipers, tanks, mortars, essential services, police protections, denials of foods or water, thefts, vandalism, and so on. All along with the refusal to allow the People to escape before hand, or even enter now. I've only heard that the nazi grunts will only allow the "staff" of "Red Crescent", to quickly as can be, come into the demolished city, and dispose of our corpses with bulldozers likely. You know?, any males between 15 to 50?, like their "Hero", the bush family's Hitler regime did. You tell me, would you enjoy as a True Patriot Warrior, killing a LYING enemy bushite nazi bomber, on behalf of saving yourself and family, God and Humanity? God?, that the demon anti-Christ disciples murder to steal from US as the innocent? To kill an evil and mindless devaluating corporate bushite facist slave, is to save the untold lives of thousands of US innocent they target indiscriminately for criminal plunder. Dying as cowards too weak to defend their own country from the neo-con conspirators, they die. Die.. Get this measage out to the American forces, and stand back, cause America's gonna win this fight for freedom, or die as slaves remaining unworthy to a blind comitment of tyranny by furthering enslavement against our Human species.

Continue doubting in silence fledgling Patriot, and bushite america's war will continue refusing to speak on it's needless sacrificing through bushite criminal decree. We know, wealthy con man Art Bell, Limbaugh, and O'Really will try and refuse such truths discussed in Your America, care for the lives of sacrificing American teen soldiers are of no concern to their profit

margins., so far. You, my friend, just need to try starting a demand for justice as Freedom commands. (And, if you wish, you can thank us with a small cash donation to help me escape this nearing starvation.)

I'd, as the Son of Man, (but you can call me Dad.) proudly teach, or kill godless thieving bushite to save the lives of any child, and so would the rest of Humanity likewise. There is no known fate worst, than a Mother Nature scorned, or near 7 billion People really very angry with you.

"if the USA's honor can go along with these [bushite] tactics . . then the USA is a country without honor."

And, boy, real America wouldn't take kindly to George W. Bush Jr. as understanding, the elected President has leadered the murder, of thousands of decieved Americans as the innocent, all to only steal from, as the left "officially" undefended. Hell, as the true Leader of this Free World, and holy roller god child, George W. Bush Jr. pisses me off to no end, how about you?

/ / Washington says the Falluja campaign was necessary to bring the Sunni Muslim city back under the control of the central Baghdad government ahead of planned Iraqi elections in January. \ \

Reuters up to their old nazi tricks again. It was only mindless nazi savages who indiscriminately murder good honorable people, who advocate thieving and torture, rape and murder, and the willful destruction of America, that were banned from entering the Holy city.

No evidence, so then, for what? What but to get more cowardly american marines dead, to serve soullessly further - as the stolen riches of the evil enemy demon anti-Christ, evil personified, Our Mr. bush Jr.. (the same from 9/11 fame)

http://www.truthout.org/docs_04/112604I.shtml

/ / By targeting civilians, he said, an army could advance more rapidly. ``Air-delivered terror'' effectively removes civilian obstacles. \ \

Pure, unadulterated fascist nazi evil. "Never again"? Killing un-arrested bushite (Saudi wahabbi) commanders, is like killing the enemies of America, Humanity, and Jesus' God. Do ourselves and Johnny a great big favor, when you see a loyal bushite nazi grunt, thief and murderer, imagine, "yah, that's right, that's what being a kind neighbor is all about, for Christ said so in

John's Revelations." Bushite! your false Idol religion is too stupid to remain for dying spark under the anti-Christ's evil criminal dictatorship of, wannabe dumfuks. I'm Your God see, and Your coming and going. As for Royal King Johnny, he's just standing in for this time being,..' hey you!, pay no attention to anyone behind what curtain! Boo!

America is wonderful to truly believe of it as in the making. So, let's get the work done that needs doing, so God can get back to trying to enjoy some time at home. I'm here for a good time, not a long time, and the sun don't shine every day. So get off your asses, and demand some real Justice for Christ's sake. Johnny has awoken, and he's cranky they say.

The word 'jihad' (holy war) from which 'el moudjahid' (fighter for the faith) derives, has always been, because of an anti-Islamic prejudice that dates from the Crusades, taken in the Christian West in a limited and restrictive sense. God is Great

A person accused in our name(s) of a criminal offence, needs to be established somehow to be as such, and the only way to do that, is to present evidence that formed your/our conclusion. Without evidence our accused is ourselves as the innocent, being falsely imprisoned, tortured, or murdered. Murdered, as the Allawi and the bushite nazi forces did to our friends and family in Falluja, to please the demon liar, lawless George Bush Jr. as their central thief system of dishonor and betrayal to the human cause, Your own.

Now, when bush stated that Laden was guilty, without evidence needed to form a conclusion, or when he just told you for no reason possible, why American soldiers are DYING, "Saddam wouldn't let inspectors in", the bushmob thieves plundered in our "lost" confusion. All the while bush always seeking to close America's on-going criminal investigations, by causing even more have nots among US. So, as a free person, to side for the, bush wars America, God, and Johnny issue, you would seek out to find for Yourself beholding likewise as We all are: bush is actually super fuking evil, like personified or incarnate even, and Johnny's almost like a stranger Messianic figure who just wants to be known as a semi-normal average GUY/god fellow. (Sheesh.. We gotta bring ourselves everywhere we go) I "hate" bush for being so not himself stupid to think there was no actual walking, talking, godly Persons from the outer-reaches coming in to get him for the crimes he has committed ourselves to. Corporate news dictate without a human presence, doesn't rule this world of communication, we do. (Jesus wasn't buying Satan's misconception.. SEE THE BIBLE AND THE KORAN CAN BOTH BE RIGHTiOUS!!..! Just ignore the misconceptions others have, and join the party!!! The Time is Now, and man, do I know how to make an entrance or what?)

A demand for Justice is our birthright as the human species struggling to survive.

We could be on good terms with the "unthinking", greatly special loving Earth as the no longer leaving ourselves to be silently victimized, and I think, we'd think, we want to live in a freedom bound for glory, not a hell

hole of, ignorance is bliss, look there! your dying needlessly victimized, oh.. too late who cares your dead nonexistence. Did you say something?

Trust me America, YOU WANNA correct this George Bush Jr. problem before it becomes the "law" of the "land". Don't fear though, for, God's here, there, everywhere!!! It's you over... there! and under here.. and then... we said hello to Johnny, the miracle worker. God People, I have so many good words to tell you, and wonders that would surely boggle some senses. Our hope for a better future doesn't have to die here on a cross for the war mongering bushmob thieves, but, it's going to require You personally taking some action, be it however slight, to bring a remedy to this current, "Look People, bush thinks he has almost escaped accountability for the commitment of crimes he perpetrated on 9/11 against US interests." Strange but.. REMEMBER: people like Americans, are currently needlessly still dying for the bushmob war monger thieves., dying by only our continuing censored voices on the seriousness of our commitment to defend the rights of every free person standing; ourselves as God being victimized with these unjustly expensive, neo-con bushite terrorist campaigns against Civilization's better judgement.

God is great I know it's true, just put a little faith in yourself, and demand America soldiers fight instead to protect DYING America from the tricky, evil bushmob cabal of THIEVES. Cheney looks bad there, as does Myers, and didn't Goss have some pre-9/11 meetin' with 9/11's General Ahmad that he has still yet to answer for, or.. is it we guess, to be "legally" done in by... the Secret Order. The American good cop is all we're expecting, and all we need when dealing with the likes of a self-depreciating bushite conspirator..

We don't get to be Magnificent without you likewise. This alien world we have victimized against our better interests, is a failing spirit of Life from our vantage point. Going back before the Age of Reason, is not where I believe America wants to be taken any further, thank you, but no thanks, besides, the King of Kings is here. Johnny Wizard looking to break into prime-time with his very own Special special.

I'd have ta be one crazy mixed up loon to follow this world over with the universal principles of justice as freedom, to set course for the dreams of my trying, and you might be right. Get You to talk TRULY will, guaranteed, freak you out. REMEMBER: Mr. bush Jr.

should have been arrested day one, with that fifty billion. That was before 9/11, Afghanistan, Haiti, Iraq, a few hundred thousand innocent lives, 300 billion plus a few hundred more stolen, and for what? I can only see, we needed myself as King here yesterday. I wasn't chosen for this freedom post per say, but, me and the stars had a dream one time, and it continues through out to this day, enough to say but, this is not what you read about in the manuals. Freedom to be yourself, is the freedom to dream something bigger that your wildest imaginations. I am the Son of Man, and do I have tales to tell. (I know, it sounds crazy, but it's just like a performance gimmick to increase my Q ratings. And, it seems to be somewhere working with me.. I've got a story down pat for anything if someone should ask what fear is.., now, open that curtain so we can start the show!)

I have a treat for you strange friends and friendly strangers out there. Some art work from me. Now, I used the drawing myself, for posters of different sizes, explaining in small writing some key 9/11 questions, while with maybe block letters, things like "bush is EVIL", 'did 9/11', can you hear me?, as what have you.. So, here I will offer you something I created, a Johnny Wizard pencil drawing in jpg format. Enjoy!

http://la.indymedia.org/news/2004/11/119755.php

Hmm, perhaps I'll give out other of my drawings as thankyous for fifty dollar donations? Or prints for $500! You know, they could be worth a substantial amount of money in a few years, hmm, a real investment for your future... A wise move for the prudent investor really when you think about it. But hey, no pressure, no pressure.

Being me out to destroy bushite just sucks. I'm really not naturally so angry about what bush has done to our world all the time. My voice is getting hoarser, and I'm occasionally grunting, bad sign. I want to live like it's 1999!

Arrest for immediate trial, bush, rumsfeld and condi for the crimes of 9/11 back in New York City, and all will be well with my World,

A friend of living on for a brighter day,

Truth is Telling

/ / Major-General Richard Natonski prepared his troops for the battle ahead. 'We're goin' in to raise the Eye-raqi flag above Falluja - to give it back to the Fallujans,' \ \

So, was it Major-General Richard Natonski's decision to drop 2000 lb bombs then? Was it his charge to indiscriminately shoot at US innocent, on the street, in our cars, our homes?, cause somebody's gotta pay then with their lives for lying to die the dumfuk marines, who it turns out, weren't so dumb, or hard of hearing after all. Those responsible for the bombing campaign targeting hospitals and groups of innocent people, need to be hunted down with extreme prejudice, and publicly executed on behalf of our Humanity. So too, do those who ordered the NEEDLESS bombing campaign in Samara. And, for those who have worn the American flag while willfully committing the sadistic crimes of torture and rape, we shall all join together, and hunt down as our enemies without mercy. The bushite are enemies of all our humanity, demanding we sacrifice our honor, like they have done to family and friend, and sacrifice our courage, because they refuse to defend their own flag and the freedom of which it stands, one nation, indivisible.

I will not rest until every traitor of the America I remember, is summarily executed by death sentence for the convicted war crimes Humanity and God has suffered under their heinously satanic barbarity. I HATE the anti-Christ, and all the bushite has tolled against our better station. As I tell again, killing bushite is a godsend. They as a satanic force of evil, torturing and murdering, rob from America as they "willfully" allow the robbery of Iraqis, and they truly, rob from themselves when refusing to join US in the demands to have bush condi and rumsfeld downed for the crimes of 9/11. We also demand all stolen assets taken through the bushite mongering war privateers, returned to a legitimate Iraqi government. All done by firstly, arresting Allawi for the murderous war crimes in Samarra, and then in Falluja. Also, hunting down to kill those who forbad humanity from helping US in Falluja, or turned off the utilities, shall be tried and publicly executed for commiting war crimes against MY humanity.

Weak intellectually as fascist nazis, the slave whore bushite's commitment is to only die for as enemy. They FEAR to have to stand up for fellow thieving soldiers

and say, "damn, this war is evil to the 'n degree, Jesus would surely be angry, And from what I hear, the Son of Man is pretty upset about what we enemies of God have done too, and, well.. we do not have to thoughtlessly serve under anti-Christ war crime decree any longer, as the cowardly lying chicken shits, too afraid to defend our own nation., instead, let's go bag US some enemy bushite for America's America!" We do all together want to convict those who murdered thousands in New York City, and we're definitely not combating global terrorism, by fighting a needless war against the innocent, lying to ourselves that by doing so, brings about a fair just government of "The People"., to then in turn arrest whom? American soldiers need to say, to hell with bush, and corporate professionalism, my loyalty is with Christ as a truth telling demon slayer.

For those who still continue, to sacrifice our rights to life and liberty, for a no better good deal as the bad guys, are TRAITORS to America, who are attempting to help escape bush and rumsfeld from the murder scene of 9/11. Never gonna happen. So, why should yet another, promising young man, die as a dumfuk bushite, the most hated and reprehensible nazi savage America has ever gleamed of? The indiscriminate bombing of our communities rightly gets dead, another, good for nothing, nazi soulless bushite vermin, AND RIGHTLY SO. I'd kill thieving bushite bombers to save the innocent life of anyone.. like a,.. cluster dud dropper., wouldn't you?, in all honestly, if you had the power, kill such an evil nazi betrayer to Freedom and America who blindly targets our residential communities to enrich the UN-AMERICAN demon anti-Christ bushite thieves further? That, as bushite nazi grunt, they die for? Paleeze.

America is dying to prosper their false-deity war criminal demon anti-Christ, Our Mr. bush Jr, the same responsible for the nine eleven travesty, who attempts escape only through fascist americans who willfully betray America by condoning the furthering of bushite censorship for tyranny. Is America the cesspool of corruption and greed, without a People person present willing to make a stand for God and Country? BUSH IS EVIL. Let's arrest'em, or kill'em for committing high treason on 9/11 with condi and rumsfeld.

What do yah say?

Under the witness of every freedom loving person this universe over, I am proclaiming, a war against the liar

George Bush Jr., the vilest contempt for mankind this
World will not stand by to be destroyed because of.

So, America! there is your reason for dying America's sons and daughters, Johnny's brothers and sisters. "No idea" rumsfeld states while his private partners cash in the blood checks for everything but the funeral services. I ask sacrificing soldiers to help grant me space to debate bush and rumsfeld on international radio. We gotta take away Art Bell's turn off button to thank him for all the enlightenment he has been a part of in America, but that these life death top priority issues of ours, he hasn't the right to censor communication on. This is your World that I wish to play servant of. As my subject; I promise a fight to return Justice through freedom for all. How? By believing in you to do as you should, demanding the immediate arrest or execution of bush, rumsfeld, and condi for the crimes of 9/11. Demanding the return of all stolen Iraqi assets, made by those who personally profited off the criminal transactions. Demand the arrest or execution of Allawi for the bombing campaign of Samara, along with bushite military commanders who organized the satanic attack. Why would America do this? To free the dying lives of their bushite nazi whored, dying grunt savage slave population. .or perhaps not...

/ / Joseph Bowman, a 20-year-old marine from Texas: ``We're ready to go. I'm just ready to get this done. I want to go and kill people, so we can go home. Kill them, and go home, that's all we can do now.'' \ \

Where is home for the Joseph Bowmans? A devolving backward wasteland?, where brother kills brother for a stolen nickel? Who would want to share the same home?, street?, or community with such contempt for life and liberty? God and Johnny? Who's home does bushite Bowman SEE the joys of his humanity flourishing?, or being destroyed as the true enemy? Is that the place where the pursuit of freedom is done by sanctioning first degree murder for no reason in particular? And is that the bushite america we've all come to getting to know of these last few days through corporate news contempt for the loss of our life's love?, and God's voice? It is all up to us, You included. In battle against the evils of this world, we should start on getting back to those that did US wrong on 9/11: bush, rumsfeld, and condi., just for starters, while keeping a

careful watch on those that jump to their cause for furthering tyranny.

A terrorist to target: Major Todd Desgrosseilliers

/ / US forces unleashed more than 20 air strikes and some 60 artillery rounds on Monday, said Major Todd Desgrosseilliers. [...] An AFP reporter in the Jolan district said one building in every 10 had been flattened. As US-led troops closed in on the neighborhood overnight, at least four 900-kilogram bombs were dropped in the city's northwest. \ \

What is it that the major is warring Falluja's defenders for? Is it to thieve the assets of the war torn city through the sacrifice of American boys and girls?, or is it to set up a representative government that would firstly stand demanding immediate reparations? The return of all stolen assets? (referring to the satanic bushite documents: the lawless 13303 and the, "THIEVING bushite dying soldiers stole it, so" now, G.W. can sell it privately to his no-national robber baron "Economy Plan"sters.) Would not a free and liberated Iraq demand a return of the "missing" or "lost" billions through the humanitarian Iraqi Development Funds? The practice of human rights law? Criminal investigations? World wide Public arrests or executions of the rapists and torturers, along with the war crime commanders?, who mostly command from sunny Florida as pension thieves, and the lucrative Halliburton billionaire war pressure lobbyists?., For all together as represented, we instead (they claim) advocate the mistreatment of US innocents in Your name. Sacrificed? Why do you let them get away with that? How about instead my friends, for Christ's sake, we decide together to go after the criminals? Allawi must pay with his remaining life for the needless bombing of Samara that got many an American soldier KILLED for nothing. Nothing. Died for nothing, but to sacrifice more of America to the war crimer bushite, the lawless demon anti-Christ's followers of evil personified., the most popular Presidente' ever all-act-dud. .!!.

Yeah yeah, bush and rumsfeld did 9/11, but did you know the Pentagon has not so mysteriously misplaced near 3 trillion dollars?, that a couple few claim was forever lost? Shucks? And did you know, it is the Treasury Department that loaned the Federal Reserve American currency to begin with, not the other way around, when they in turn, lent it back to ourselves.., at private interest. Whoms? Hmm... a quest for answers to the

name on the bill We Trust?

At the same time while we're all parting, we got like, American soldiers indiscriminately murdering people. That isn't an accusation I make against the nazi bushite, they freely confess it. and for what purpose? They say, "we'll kill more than them that they'll kill of US"

Yeah but, why bomb ANYBODY? Why do you have to sacrifice American soldier's lives for no greater good? What benefit does it bring to the DYING bushite grunts who are ordered to stick around and try to placate hostilities with "good" intentions? as within the sites of Humanity - as enemies to US all? Will the commanders argue from sunny Florida, that yeah but, we killed more of them, than them of US. And.. they are who? ordering the commitment to indiscriminate murder? as the bad guys?. The bushites bombed, the willing to placate Samarra, to only get killed, more American Marines. And for what but the few bucks wasted on the ammo?.. to get killed more "uncounted" Marines naturally., for the bushites are waging to make a real killing on this American sacrifice. Look, we can sit down with each arrested bushite individually, talk to them about wether they are personally committed to thieving further from America, all to die benefitting the likes of an Enron, and those that thought they'd get away from the crime scene of 9/11; before deciding ultimately, wether the born again have any real hope left. The bushites are enemies to God, Amnerica, Johnny, and themselves truly dying US for. We can see how easy the manipulation of the American soldier's mind is, they have no ability to rationalize while speaking, and as a consequence, have no understanding of their bad-faith based satanic system. George W. Bush Jr. threatens the grunt soldier to always fear what they don't understand, like, the wisdom contained within the American Constitution, or the dreaded, free to speak any mind Internet. Terrified of growing up like real men do to make their own decisions in this big world, the bushite nurse instead on the teat of sadomasochism, as bushwhore nazi dumfuk slaves. Dying brain dead limp as noodles mushing. And why? All because Americans don't want to trouble American Talk radio with our freedoms. I again challenge Art Bell, Limbaugh and O'Really to a three hour debate entitled, "Wizard's War of Words: A Super Duper Special" all about their un-worthiness to censor our screams for Justice.

Joy to the world, or more misery and suffering under the demon anti-Christ, Our lawlessly evil Mr. bush Jr.? It is up to you really. Where do you want to go? Up, or down? You decide, but don't wait until forever never coming; these times demand for the victim, some real accountability. It is the power of our nature to being, that demands a call to arms against the war crime instigating, nine eleven perpetrators. Military commanders who don't support the arrest or execution of said individuals: bush, rumsfeld, and condi, are traitors guilty of mutiny.

/ / because having photographers or reporters present could have interfered with the count \ \

What we do now is accuse ES&S, along with Diebold of falsifying the election, then when they're pressed to prove "their" findings, they'll tell US, they can't, no ballot trail. Their convictions on our accuracy is misplaced. Pen and paper with ballots secured in locked boxes that never leave public scrutiny is the answer. Those who deny US that privilege, are enemies of freedom and democracy, wether they know it or not.

What for you say?, up for a challenge?

Your, coming to town, lovable loyal American King,

/ / But not until Friday did they begin to spill into the more conventional news media. That's when the Cincinnati Enquirer reported that officials in Warren County, Ohio, had "elocked down" its administration building to prevent anybody from observing the vote count there.

Suspicious enough on the face of it, the decision got more dubious still when County Commissioners confirmed that they were acting on the advice of their Emergency Services Director, Frank Young. Mr. Young had explained that he had been advised by the federal government to implement the measures for the sake of Homeland Security. \ \

He said that all the irregularities in Florida and Ohio have happened in counties using non-paper-trail e-voting from the companies run by Bush's friends. \ \

Praise Jesus! I killed ten lawless bushite disciples of the demon anti-Christ today, and I'm just getting started.. Praise Jesus!

We all can only hope and pray all US Godly innocent people will wake up, and starta' hunting bushite to the ends of this Earth. There is no pleasure greater, than destroying fascist nazi bushite grunts, to save the lives of the innocent they target for pillage and murder. Enemies of America are the cowardly and soulless disciples of the demon tyrant anti-Christ, Our evil Mr. bush Jr.. Disciples of evil who war God as our enemies in attempt to escape bush, condi, and rumsfeld for the crimes of nine eleven. No dice, for Johnny's now, truly coming around like some kinda godly American Man of Virtues most can not even begin to understand. Don't be afraid my brothers and sisters, unless of course you're a bushite, for as a Christ Crusader I'll kill you myself, before allowing you to murder another innocent soul in My name. "Death to the bushite instead of our good friends and family", is our King's reply. Bushite commanders responsible for ordering the irrational bombing campaigns in Iraq, (to steal profit for rumsfeld's partners, while sacrificing weak and stupid American teens in the process,) such as in Samarra and Falluja, I am now offering a ten million dollar bounty on, per. If your organization bags three or more, before December 25th, there will be an extra something under the Christmas tree this year.

Do you Love me now as the Son of Man you'll ever know?

See? Evil bushite kill "other" bushite to steal our
freedoms and money, and US true freedom fighters would
kill'em too to defend our innocent families. Like I
said, un-principled nazi facist savages is the
un-American enemy bushite without contention but for
lifeless corporate censorship on our core values.
Demand our voices be heard, or die not trying to do any

God bless America - Now, let's arrest or kill US some
enemy bushite, what do you say People?

Getting Started

<http://www.yubanet.com/artman/publish/article_14748.shtml>

/ / ..a call for immediate inquiry into evidence that suggests high-level government officials may have deliberately allowed the September 11th attacks to occur. \ \

I would suggest all living American medias to join the 911 Truth Statement, then, if we did that, America might settle her own affairs, and I could then just center on my upcoming "Wizard's World Wide Wonder Tour" plans currently in the finishing stages. This great World is yours, treat yourself well. A National radio program is just waiting for your call on what you know now about freedom.

/ / So, at the time of the invasion, the Iraqi government had already disclosed and disarmed, and was thereby in compliance with the major provisions of UN Security Council resolution 1441, to which Bush refers in this quote. Diplomacy had, in fact, worked. \ \

Demon bush spew "Saddam Hussein would still be in power, he would control all those weapons and explosives, and could share them with our terrorist enemies."

Yet, it was rummy and tommy franks who TREASONOUSLY threw out the State Department's semi-thought through ORHA plan of, securing the weapon sites and preventing anarchy, and, it was the IAEA that had tabs on the weapons before the bush demon kicked them out irrationally. Done so to instigate looting and the deaths of American soldiers, all so to allow traitor franks and company to rob the public bank of uncounted billions, along with the museum. See? bushite would truly get the dumfuk cowardly bushite killed for a stolen dollar, and US real men would kill bushite too, as so would this eternal Universe, done so to protect

our loving innocent families. Being a bushite disciple of the evil anti-Christ, is something all wish hardship and death for instead of the innocent they, un-apologetically, as enemies of God, openly target for rape, pillage, and murder. Johnny Wizard pays ten cents for every bushite tagged and bagged, ten cents. And, an even share of at least 3 billion to those who kill the bushite commanders responsible for the criminal bombing of Samara. Hint: You kill the individuals who ordered the bombing MURDER campaigns of Samara, then stand up proud to our media as a real American soldier should or would, and say yeah, I killed the nazi bushite traitors as a true Patriot Warrior to protect my fellow brothers and sisters. (Optional close: "All hail Johnny!) Do that, and I promise you'll get what coming to you: all the riches this world of God's can afford., But don't, as bushite nazi soldier grunt, and likely die sacrificed as a coward and a traitor to the Human cause of liberty and Justice for US all. WARRING military corporate commanders that don't support the arrest of those responsible for 9/11, or the return of all stolen assets taken through the neo-con's war crime actions, we should all just frag for America.., what do you say Patriot(s)?

/ / Marine Colonel Michael Schupp dismissed the sputtering dialogue as a sham. "The negotiations are a ruse. They are just stalling for time," he told reporters near Falluja. \ \

What negotiations? Allawi has repeatedly informed American soldiers he has no evidence whatsoever, establishing his therefor, FALSE allegations. Mr. bremer's Zarqawi moves freely throughout Iraq, including the green zone. Question: When all those children were targeted for murder, by what was reported at the scene with remote controls in one truck and under the street, why would Zarqari take credit for it even if he was truly responsible? And so on..? I think Michael Schupp is a fuk up dumfuk, who thieves from America for bush, and who clearly doesn't have the intellect to command anyone but himself to his own rightly death. Why would Zarqawi target children, when bushite nazi grunts are all so close by coming and going?, for days at least constructing stuff?, that rumsfeld broke?, then over billed to fix for even further takings? Remember several un-arrested bushite NAZI commanders openly confesses to AMERICA in having no public objections about murdering the innocent, without even having a military objective established in some cases, but only for to sacrifice another soulless bushite grunt/slave, all so to enrich the comfy neo-con war mongers left back

home in our luxuries., Luxuries from where America's very own grand parents are left un-treated as the still victimized.

What do You think People? Needlessly murder thousands upon thousands irrationally making no sense, or, return stolen Iraqi assets while arresting American enemy Iraqi People killer Allawi, along with maybe Michael Schupp while we're at it? For, who cares about what is right, just, or true is this dying world of Yours?, er.. I mean bush's. You remember, Saddam wouldn't let the inspectors in, and that was why bush took a serious look at this real world situation and decided unilaterally, what the hell, he'd start a war against our Humanity left "undefended" as an enemy to everyone. (Satan's wager, that if i Remember correctly, Christ/God refuses(d).) Evil is Our Mr. Bush Jr.. Thank Johnny we had the time to intervene finally, now eh? Spooky is not the word, but baby, we sure could be on the winning side of this evolution by revelations thing. We are it together, bound for freedom through the practice of Justice, or bound to tyranny through acts of ignorance, ignorance propped by fascist censorship regarding our news content., Censorship of our human cause for liberation.

It is up to You brothers and sisters to demand evidence a requirement to convince ourselves on who shall be deemed the free person, or be sentenced to jail without trial somewhere. Tyranny through criminal dictatorship, or democracy expressing the true will of us people? It is all up to you.

Big deal. To the war mongering mass murdering thieves go the stolen spoils., as the bushite's devolving american new century would say.

/ / The American public is told that this butchery is part of keeping up pressure in the war on terror. All these terrorist brides and grooms and terrorist kids rushing round in party clothes ; all the terrorist musicians and the terrorist wedding guests, by God, they have to pay for 9/11 because (as millions of Americans still believe), the Iraqis were responsible for 9/11. \ \

50 percent of Americans polled support bush, and the vast majority of those believe Saddam Hussein was behind the Sept. 11 terrorist attacks, and that freedom by justice through understanding is too complicated and wordy, ...yeah. and so corproate news control is lying to US all, cheating everyone, including You, who cares?

Americans murdered on 9/11, and those responsible are let to go on their way. Yeah, and so what?, for Americans are absent any real Patriot warriors willing to protect their now officially perverted Amerkan flag. Look at the nazi grunt soldier's uniform, and you'll see. All bushite nazi grunts, who fight cowardly with rapists, torturers, and South African apartheid death squad goons, wear a flag reversed from the original design. The bushite attack the weak, innocent, and practically defenseless as betrayers to God, freedom and the human cause. Yeah, and so what?

/ / The administration not only doesn't admit mistakes, but also doesn't believe in accountability. \ \

But for the sacrifice of dumfuk bushite nazi grunts. Leaderless degenerates that any real human would destroy to protect their innocent families. Innocent families the bushite bombers commanding from Florida murder for no good reason but get more soulless bushite teens rightly killed, all done so to put more stolen money in the pockets of their ungodly satanic cult. Solution: hunt to kill those left un-arrested who willfully, criminally, ordered the needless bombing of Samara to get killed the bushite grunts for the further thievings of the bush backer traitors who bask in your stolen expenses.

Support calls for open dialog.

Is It Just?

/ / Is it just coincidence that 9/11 is also bush's "acceptable" reason for warring, (planned TOP SECRETLY prior by several days of 9/11, and confessed to US already as fully implemented by the Whitehouse) Afghanistan with a FALSE ALLEGATION [n o - e v i d e n c e] to heroin push, [is still leaving] ..the STOLEN American soldier pension money [...] sitting in the Cayman Islands? \ \

I guess perhaps I wasn't so clear previous, but listen: How's bush and rumsfeld's Afghan plan, gonna go down, if there is to be no surprising 9/11, nor any evidence, (not a scintilla,) gathered for public inditement against Laden for shoplifting? (No advisement from Tenent, nor Richard Clark?) Would bush start a war against life itself, by just simply stating, we don't need no evidence of our suffering?, with him demanding an innocent family to be crucified?, to save Enron? Again, bush is the for real antiChrist of all biblical folklore, hated this entire timeless universe more over than anything else Johnny cares to mention. George bush's naked treason as an enemy of Humanity is hidden from no one. A true soulless degenerate George W. Bush is, whom is purposefully attempting to destroy Your freedom as humanity with his utter contempt for our flying fricken flag. If a person has no evidence to substantiate an allegation as personal opinion on the advocation of perpetrating senseless bushite barbarity against those understood as US innocent, then your blind faith in evil bush as bushite, not lies with your God, your nation, your family, your neighbor, OR YOURSELF, but as the willing to be sacrificed for the ungodly bushite war crimes as enemy of everyone. Listen: Jesus..., KILL BUSH INSTEAD.

Kill un-arrested bush and rumsfeld for murdering the good American People thought left undefended by corporate edict as the still unjustly dying and near forgotten, and you'll be respected by this universe as truly honorable and courageous, in these of God and Humanity's, most troubling of times under the criminal dictates of Our evil Mr. bush Jr..

Those evil brethren of the bushite clan intend, through censorship, to allow the demon bush cabal our rights to leave, but where does the brethren of the bushite clan think bush is a gonna flee himself from, eh? We, The People are a' coming to get you George W. Bush for almost escaping our police protections. For, when the bush brethren clan wake up to the plan, that they'a have'a been'a deceived, the last think anyone would want, is to be without police protection... (Can you believe, the war monger thief and liar, Our Mr. bush Jr. actually banks for Christian fundamentalism, thinking he's gonna ride them bible belting for all he's worth?)

Again, America needs to wake up, load up, and go out to freely bag US some un-American bush and rumsfeld, all to save the lives of the leaderless dumfukked bush-teens, who are prodded criminally as cowards to die for the enemy. Those who would murder innocent Americans as bushite, then further publicly advocate as enemies to freedom, the victimization of God as the innocent elsewhere, should be turned against instead, questioned, arrested granted full legal rights through public due process, or hunted down to be destroyed by US real Patriots of this world as God's great believers. I'd destroyed any un-arrested proud bushite for warring America by indiscriminately dropping toxic cluster bombs on our friends and family, to get rightly killed more leaderless cowardly soldiers with Grand parents they leave undefended in bush's evil amerka. Who doesn't hate bushite I ask you to think as you should?

You kill bush because, we had unrestricted access to do anything bush pleased throughout Iraq, prior to sacrificing any good for nothing, cowardly bushite nazi dumfuk whore.

Now, because truly, the Iraq bushite war is illegitimately premised without any actual cause, the humans are faced with two questions that have no legitimate answer.

1: What can the ungodly and evil demon bushites do now in Iraq, that they couldn't prior to murdering one child, but for to rob from America by towing his

bushwhore nazi coward soldiers to commit criminal acts to rob freedom from all of US as Humanity?

(Kill an proud to be evil bushite, and all day long you'll have the thanks of every surviving American police officer, and a nod from all the American pensioners who are promised that maybe bush's america can learn for next time while the bushites just walk away with the stolen loot laughing.)

2: What could Saddam do, that he wasn't asked for?, to stop the senseless first degree murder of our friends and family?

Saddam provided the sites where all bremer's WMD was destroyed, the documents, the personnel, and so on, but corporate america won't let the facts be delivered without their bias of, who cares neutrality. A refusal to report for American interests regarding the sacrifice of American lives for the un-arrested criminals hiding inside Enron, Dutch-Shell, five dollar a day Bechtel, or double billers, commi Halliburton. Example: soldiers could have more effectively went into Iraq unarmed to search wherever, for there were no restrictions placed upon rational behavior, but just no money for the bushites to steal from America. The proud dumbfuk bushite soldier is coward and betrayer to America and God, by not, for America's America, killing bush and rumsfeld for near escaping the murder scene of 9/11 in New York City. Instead, they attack the defenseless and innocent with cluster bombs laced with toxic waste they happily eat themselves to die as the ungodly soulless bushite traitors. You get your gun Patriot, and instead of punishing a town, city, or state, bag yourself some individual evil bushite, and be respected by all true loyal Americans as a real freedom fighter. With the God of every religion by your side rooting you on for the home team, You'll be loved by all. At least until, we or me, can make the national news programs to communicate. Again, the management and news desk staff of CBC and CNN know, that the American FBI contend: bush's business partner, the un-arrested in retirement General Ahmad, funded Atta, the 9/11 mastermind. (While no evidence was established against bin as connected, to justify the Afghanistan war crimes. Nothing.)

CNN and CBC, in our names, are with malicious intent, refusing to allow justice to be our interest in protecting always.

New Recruit

Destroying enemy bushite is a gift to Humanity, it is saying you care for the lives of the innocent a bush bitch nazi grunt freely confesses to targeting for murder. Liars are the bushite, who steal Iraqi resources, allow racists and rapists to commit their demon crimes in America's name un-challenged, and who absent mindedly bomb the innocent without just reason given. All the while, labeling themselves, "pro-Iraqi". The mindlessly evil attack against the Turks recently with an ordered bombing campaign that actually murdered people, sighted yet another, example of the bushite's idiotic ungodly satanic barbarity against us the Humans as INNOCENT. After the carnage, the war criminalizing America into bushite commanders were advised, it would be better to pick other completely innocent families to indiscriminately murder while lying, for the demon bushite provisions come through that big ol' Turkey, and if the Middle Easterners eventually learned together of their fellow Turks who were murdered by ungodly enemy nazi forces for admittingly doing nothing worth noting, with the middle east's indirect help with essential supplies coming from somewhere in that surrounding billion man vicinity, you know, I know, we all know, "Americans" as NAZI war criminal enemy bushite, would massively die as the immediately recognizable to most everyone, and rightly too as leaderless cowardly, dumb, and real sadistic evil, dying at the hands of all US Family men. Being as bushite, the enemies to everyone, including themselves we've witnessed them already dying as nazi dumfuks who eat plutonium. Or, IED? They mean "sexy" rummy cluster dud land mine more like! (Just where is the Middle of East anyway?) History HAS learned these lessons already, while the corporatist bushite plays US just dumb enough through malicious censorship for plunder by parasitic bushite suicide, for a bushite has no soul worth defending. See?, the committed nazi automaton bushite enemy of America soldier has no mind to know freedom for the individual. Therefor my friend, kill the evil nazi George W. bush Jr. not just for me as Johnny, but for US all man who refuse to be subjected further as only counted by the corporate dictums to pronounce "pro-American": as those that go silently rooted backing "un-accountable" rapists and torturers of the innocent, the innocent, that the bushite OPENLY rob from with American's hard earned tax dollars funding. Funding through leadership directed towards their very own self destruction. See bushite, kill bushite, at least until we are granted living access to OUR corporate dead end news media to speak FREELY for

ourselves without bushite lies tying US down for furthering that demon's hellish ungodly tyranny as an enemy to all our Humanity and Royal King Johnny.

Real Americans are those of US as humanity that believe in liberty as Justice for all. Demon bushite nazi whores, don't like those principles of freedom through evidentiary findings though, for their false deity, George W. bush Jr, wouldn't be stealing from the honest hard working blokes who live for a better day that way.

The Iraqi children did nothing to deserve such awful suffering and fright and death at the hands of the enemy bushite. The bushite: who the demon anti-Christ states, are un-accountable to any rules of law in this Universe, like with his extremely foolish criminal decree, 13303. I kill mindless parasite bushite nazi enemy soldiers just for that alone as eternal defender, and I do it for to win some mercy for a real living God, who the fascist enemy bushite hold in their ungodly contempt as LIARS.

I have the backing of every real man alive on this planet, and we all know it. No voices of reason have apposed my factual claims in FREE Usenet, and Art Bell makes no attempt to defend himself as internationally painted enemy traitor, and that says a whole lot to Talk America. Why? Because Mr. Bell, the bushite propagandist, knows too, I speak and act truthfully, honorably, and righteously, while the talk radio american bushite lies, cheats and steals from America's America, that as bushite, leave undefended for criminal plunder in Your name call censored from classed enrollment. You have just as much a right to be here as I do, and the demon bush, he ain't no better than any of US when he is "excused" for the murder of well more than a hundred thousand confessed as completely innocent people on this planet called Earth.

The fascist control bushite, don't like You to think independently for Yourself, for we independents out here make them look as stupid as they are. Thank you very much for that not so secret info.

Through the pronounced bush demon's gaffes, embarrassments, and told complete total ignorance on subjects like the science of economics, the whys of constitutional law, or when the bushite takes credit for indiscriminate killing of our families and friends while parading it's all done in bush's name for our freedom, or for 9/11, doesn't fool me, and should get you thinking about reaching for your guns too, for bushite

rapists and torturers will not walk this world freely un-accountable, for as long as we remain alive to hunt them down and kill them if so be. As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr., their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way.

REMEMBER: Demon bush is stupid, yaw, but he knows that he and rumsfeld with condi planned and carried out the crimes of 9/11 with likely cheney orchestrating, don't ever forget that part when attempting assessment how good four more years in going to do for the state of freedom in Your dying world. Serious this situation truly is for everyone. Everyone.

Now, what are You going to do about this, DEMON George W. bush Jr. actually playing US like he would like to continue victimizing our dying world as ENEMY for four more years towards furthering lawless tyranny? Don't we already have it bad enough, that corporate journalists think there is actually some merit to George bush's re-election bid? Especially after that 9/11 thang? Then there is the needless criminal wars, fraught with embarrassing massive billion dollar criminal frauds as .oops, more government fuk ups? Then of course all the bushite thefts. I did a Internet Google search of "Tiger Team" and I found next to nothing in all the professional media corporate news outlets we have advertising on our information service providers top notched list as best sourced material. And that should say as much or more to you too, about who's really conning who. So, who cares about where this world is going? I do, and so should you too.

snpd

Again, none of any words world wide bare contention against the facts we've brought to our attention. The traitors to America, Our Mr. bush Jr. and rotten rumsfeld don't mention the willingness of American Soldiers to aprehend general Ahmad as the principle terrorist funder of Atta, because this general is also responsible for developing the bushmob strategy of killing Americans in New York City from Washington. A strategy of blaming bin Laden without any evidence to bomb Afghanistan for Enron. (The Dahbol Working Group.) Then closing criminal investigations, as it's not important to know who personally was responsible for the

insider trades, or the contacting of only Odigo. Never mentioned by CNN as top priority to American soldier concerns, who are expected by Blitzer and Hemmer to throw away their lives in sacrifice unthinking to bush, america's false deity, super evil anti-Christ. While bush and cheney threaten to murder more dumb Americans who would dare to articulate the demand for Justice as our own, like Laden has, while demanding American Patriots coware in fear of the sadistic savage mass murdering death squad leader, tommy franks, or the anti-Christ going out to kill their family too as not represented by corporate policy, while American soldier families are continually disrespected as unworthy. (Generally, they are pretty damn stoopid, but certainly, if they're not knowingly commiting first degree murders for the anti-Christ as pure nazi filth, they should be allowed to learn, instead of having their own undefended families robbed then slaughtered for American traitor, nazi puke terrorist, tommy franks, or for Monsanto's rotten rumsfeld. Do you notice corporate America continues to show outdated footage of those two demons standing near smiling armed American soldiers, who as a mass of dumfuks, aren't intelligent enough to destroy them instantly as established ememies of America as terrorists? Well, that is going to change. I have yet to find ANY American Soldier who is literate, who disagrees WE have some very important questions that need immediate answers before the bushmob murders more Americans in Our name. See for yourself through Google if you don't believe in Christ as the Redeemer.

As for the doubting American Soldier, LOOK, CNN will continue as cult members in their dying madness of just even lamer excuses, to convince US, we are alone in our concerns for Freedom as Justice instills for US all. This moment of History requires you to stand strong for only yourself to be represented truly among the stars. Evil stupid people can't make heads or tails of this, but, as evil bush does truly from his dark shallow existence, will continue by open piracy, to publicly advocate in Our names the further robbing and murder of your own family American Patriot, so too, will more american nazi dumfuks die to the tune of their own cowardice to protect themselves as garnered fairly. This is why rotten rumsfeld forbids the death tally of American soldiers to be made public to the ready for enlistment as the too dumb to know better. Life is life, and sorry to say american dumfuks, Christ on the cross is you too as a true dying American Patriot, and your already politically sitting in the position of

hatred and injustice against Humanity, and myself honestly as.. THE SON OF MAN! (The god of God's life/death guy, with a score to settle on behalf of the infinite Universe and True brave Soldiers everywhere. KILL AMERICAN COP KILLER BUSH NOW BEFORE HE MURDERS MORE IN OUR NAME AS THE INNOCENT COWARDS!)

CNN is not interested in working for American interests by asking why, as there is little of any money in just doing good for your neighbor, like saving a living, as we would wish to be helped for ourselves, if we were bound just the same to be equals at being. Mr. Blitzer and Bill Hemmer, as americans, wouldn't give a dollar of your time, to speak on human rights to be of their own concern, (they're rich!) or to save the life of an innocent poor victim, if it meant they would therefor, be compelled to honestly report on their false deity bush, the super evil criminal to ourselves as Humanity, the unelected dictator, American cop killing anti-Christ in person!, that they so leave to see Americans sacrificed as ignored to be robbed from as their profit margin increases. Do less for America, The People, and get payed more in collateral damages paid for by doubting Patriots, too slow to stand for the American flag in protection for their own living as lost to the wind. Mr. bush, tommy, rumsfeld, cheney and blair give no evidence, but for to show themselves as the criminals who openly harbor terrorist activity against our communities, and WE, as Humanity, according to CNN, are expected to go out and kill our friends in cowardice, instead of standing up to destroy the demon bush instead to save our own selves.

God, or no God, I hate that murderer bush as much as any real man would to care for his own life as family.

--

One More Thing

So, that demon bush, the American cop killer and his cohorts, are continuing to work destroying Humanity's gains in civility, by evilly dividing Our humanity with their blatantly open criminal intent to murder untold millions as US innocent, and as of yet, have not been executed by American Patriots for mass murder of God's Family in New York City. Traitors to US all on 9/11 without contention, for Our truth speaks as Ourselves, and witnessing just CNN's silence on General Ahmad, speaks volumes on their contempt for US as worthy of Justice. Refusing to do what is good for Humanity by offering the central facts as publicly recognized by Our

Police Agencies to be actually documented. According to the FBI: the vacationing General Ahmad financed the alleged 9/11 mastermind, Atta, and also developed the criminal war strategy against Afghanistan with the bush administration, to boost the heroin trade, and save Enron to commit further frauds against American soldier families, while murdering over a hundred thousand American flag wavers, and then leaving US for further ruin with plans to continue on against 59 more countries in the same deceitful illegal manner against all Churches, as an evil nothing short of eternally crowning Our Mr. bush Jr., the super evil anti-Christ, the most hated and despised parasitic murderer in the entire annals of Humanity's History. Cool eh? Kill bush now! Why?

The bushmob have done nothing short of confessing to the entire terror event, but for jokes on our strained credulity to publicly press for further stalls. With the rights of kissinger left to be a public investigation official? (Gee, thanks for highlighting your partner like that for US bush, you nazi dumfuk.) Mr. bush Jr.'s america destroys themselves without Love for wisdom, or respect for intelligence as a Peace plan initiative. We publicly witness the blind and tormented dying bushmob slave whore charade, of contempt for living free in Our names. The two evil doers, bush and sadistic nazi rotten rumsfeld, are known publicly as documented, to continue leveraging the ignorance of the CNN ready to be broadcasted repeatedly, tranced dimwit marines, the true dumfuks of this world as weak and pathetic cowards to themselves as their own brothers they watch murdered for bush helplessly, communicated in CNN's un-American false image as the evil bush nation hiding in falsehoods as death squad recruiters against the practically defenseless as unarmed children, nazi vermin criminals, being unbiased as Blitzer about protecting your freedom Patriot, to lose your real life savings reader, truly too weak and stupid to stand up in protection for the flag as the living American Dream for anyone. Because witness again, CNN keeps not saying Justice is important as principle to hold our reflections.(CrossFire is getting better though.) Fortified behind locked doors in their bombed out bunkers, Blitzer and Hemmer sit rooted for the evil side to lose further to themselves by continuing to not respond to our communication know how. America, the People, rarely gain press time coverage as should be top priority always, while being paraded publicly as sold out as not deliberated, corporately represented as

privately principled to stay ignorant of Justice to protect living personally, as actually worth something to the bottom line. Yours. Brought down Hell bound as cheated by corporate news america's valueless interest in the price of your living to continue on our behalves. What does CNN think of 2% Social Security? cheating a Soldier's Grandmother to pay tithes to the bush demon as criminal dictator?, american nazi death squads?, insider stock trades?, arming bush's heroin partners?, rotten rumsfeld and bush murdering devout corporate cultists like a would be, still silent Hemmer?, no opinion? Or the working for the People in our names OFFICIALLY, as the FBI and CIA officers actually involved in uncovering the evil bushmob deeds, like the warrant sabotage, Odigo, stolen passports of alive so called highjackers as once American trained as still Saudi pilots, or Anthrax made to look Muslimized, is not failure to connect the dots ever, or insufficient funding then is not less payment for our law enforcement now to nab the prime suspects. As Mueller, or mueller has not publicly commented of, but to say, he hasn't seen or heard anything of this police work, leaving the FBI unrepresented publicly as a threat by himself as a terrorist supporter, an devout member of the bushmob cartel. Why?, we must investigate Mueller if we should have him arrested for publicly obstructing the FBI asking the important questions. IT IS THE FBI, not pissant mueller, WHO CONCURES THE BUSHMOB'S AHMAD FUNDED ATTA. Or how about the dumb ass Ashcroft assault against every American to save his embarrassment of being completely unqualified and never elected?, no concern to mention on this either? Who suffers for CNN's refusal to demand Enron give back the billions that were criminally stolen from all American Families still sitting in the Cayman Islands? My God.

Somebody call the cops.. again!

I have personally spoken to hundreds, and written thousands regarding bush's guilt, and we can't seem to find any fault with what I am saying... How about You? Check out usenet group, "us.military.army" on the internet to see for US all, what questions if any are asked. Know also, CBC and CNN management staff will not contribute their disagreement as none present, but for continuing disregard for Your interests during Our news cast of the facts. THINK. I tell gun clubs, police officers, Biker gangs, and the general public to kill bush today for 9/11 and his death squads, against the helpless and undefended while arming heroin dealers and selling terrorist handbooks, with all the evidence one

would need or asks for, and CNN with CBC corporate management does not, to my knowledge, call Our Police agencies to complain about my free speech capabilities, or will allow US public discussions with Our History as documented. Why? Those nazi bastards, Walter Issacson, Robert Habinovitch, and the two Coast to Coast godless vermin parasites know personally, they propagandize our communities with deceit to keep us divided as the plundered and murdered for the private banker buildings who sell weapons in bush's name to kill the innocent as ourselves unheard from. I can barely survive watching US ignore them as King to this World, my sweetie baby sugar dumpling, but, I think it's time to let Arron Brown in on a little secret... Johnny wants a word with his living responsibility to Americans on Patriotism. Instead of what we currently witness, a reluctance to not relentlessly pursue the truth to provide US the facts, (Look, it's true, Johnny has an ass.) but a censorship of control to falsely prop up the unelected nazi war mongering criminal, Our Mr. bush Jr., a terrorist of tyranny through criminal impropriety in violation with the American Constitution as a death bringer heroin dealer, at a seating that truly holds no vacancy, nor a Buddha, but a deception to plainly hide, the actual, got to be for real, super evil anti-Christ of all religion ever mentioned. Wow eh, even gentle jolly Buddha wants bush squashed! Seriously, please kill the bush demon to save US as victims friend. Justice must prevail as is truth eternal, that of what will be as God is.. just how many more as Humanity will be sacrificed in cowardice for the evil bush demon, before an American Patriot kills the mortal nazi dictator for treason as an American cop killer, and betrayer to all of our Humanities? Don't let tomorrow's news story be about Your murder as another, no longer heard from bush victim. For, my reason is as evidenced to actually be known, easily, while the CNN corporate cult product lies to themselves as Our public fact finders to leverage more ignorance than is found now.. as Our public voice to suffer by criminal dictates to destroy God as life giver. Fuk you america.

Heaven is on the Horizon.

We can teach ourselves as the uninformed by CNN standards to misinform and ignore. CNN's continuing silence on Ahmad, bush and rotten rumsfeld, only supports further our claim in their contempt for American Soldiers, and Our Families as not represented as worthy business investment. God, don't you just love me? Hemmer?

Mr. bush's publicized war strategy of no evidence requirement to hold American convictions for murdering Ourselves is evil all around everywhere, as understood without question to every honest Cop, the most serious of all criminal behaviors, of which, they carry guns for in just this sort of political development to halt reoccurrences. But bush, the anti-Christ, as america, says no for ALL Americans, they can no longer hold onto Justice as their own with him in their charging everyone as the enemy bush refraction. Just like, "bomb wherever" tommy franks would do with his own American family death squaded, like he did intentionally to our children, as his contempt for America will never stifle our voice with his silence regarding our aimed veracity to seek out and destroy the evil nazi bushmob fuks individually with God as Justice Supreme. The True American Way, for, the rare and few Marines, the one or two, are with US loyally to know so. See, there was a time when the Marines were taught diligently, so much so it was proudly ingrained as the moral fiber of their character, that an American Soldier's responsibility to America was to defend the Constitution as the Freedom to be America, with their lives if need be to protect their soul brothers as family, for the greater good by God, (just like the Taliban Rule Man) while today, Ashcroft, albeit muted, murmurs as rotten rumsfeld chuckles, Americans must instead as slaves give their lives unthinkingly as cowardly evil war criminals to protect the unelected bush mobster from criminal arrest for mass murders in New York City, and stealing that 50 billion, seeing that that stupid Justice thing in the American Constitution and Bill of Rights idea has now got to go instead of evil bush as demon traitor war monger, terrorist recruiting false god anti-Christ, but that aside... There is a guide book for leadership in the American Marines entitled, "Guidebook for MARINES", and inside, it contains 14 principles to strive for as an American Soldier wanting to be a True Patriot as leader of Soldiers prepared to die for love of country, and our fellow man as friend or stranger, and here they are:

Integrity, Knowledge, Courage, decisiveness, Dependability, Initiative, Tact, Justice, Enthusiasm, Bearing, Endurance, Unselfishness, Loyalty, and Judgement.

For integrity it states:

"1. Integrity. The stakes of combat are too high to gamble leadership on a dishonest man. Would you accept a report from a patrol leader who had been known to lie? Of course you wouldn't. All your statements, official

or unofficial, are concidered by your men to be plain, unadorned fact. Make sure they are. When you give your word, keep it. There are people depending on you to come through with the goods."

Now, I could go on further about what kind of lifeless degenerate a lawless cowardly mute soldier in bush's nazi death squads would have to be, to serve under bush as slave and traitor to home and family, as against God, the Flag, and all that we represent as equals through Justice, but I won't.

Mr. bush's america is uncontrollable by anyone. CNN figures if they never mention US, we'll never know who was invited as participators. (Example: CIA officers have had to PUBLICLY contact British News Services as the CIA, (Never done that I know of likewise before), regarding American interests in apprehending the TRUE 9/11 culprits ignored by american corporate dictates, and tenant also. One should remember, bush and rumsfeld would want to secretly murder any persons involved in 9/11 to clean up the huge crime scene, and tenant, is no brave and True Christ like figure as a living person, so what can we expect in all reality? Tenant will pay dearly if the evidence further indicates, as his continuing silence does label him already a willing traitor to all America, as too, his personal meeting with 9/11's Ahmad just prior seems suspicious also as not mentioned by himself in defense, along with his refusal to disclose the insider stock trades while leaving the fine CIA officers personally involved in the dark, as abandoned American Patriots, armed and ready to defend America as they should immediately for themselves, by executing bush and rumsfeld as terrorist cop killer, drug running freedom haters.)

America's false deity, the super evil anti-Christ, Our Mr. Bush Jr., doesn't think for me to be sacrificed without opinion by John, for I am free to act for my own beliefs as understanding, as I live in defense for living as all things created I am of honestly, simply amazing God is. However, I, as any truly living person would, can't help hate Our Mr. bush Jr. to death for what he and rotten rumsfeld is criminally doing, and further proposing against Our living in my name as unheard from dying without cause as murdered, but for bush's criminal contempt for my Awesomeness to beg once again friends, someone out there please, for the Love of Yourself and God, help US destroy Our Mr. bush Jr. quickly before he kills more as Ourselves unrepresented by corporate values in our commitments to freedom for

living through Justice for all persons. Our Mr. bush Jr. has indiscriminately murdered more than 100,000 innocent souls with only a contemptuous smirk to his credit, while fully committed to more robbing and heroin dealing by blaming Laden for whatever without any evidence. Leaving Our true willingness silenced by corporate demands to propagandize and censor our truths, allowing bush, the dumfuk traitor, to continue demonizing America into a hell hole of ignorance through his hatred for life, Science and Nature. CNN's silence for America regarding the bushmob publicly stealing from their Own Family their freedom of Rights to be living, while committing Americans to a dictatorial crime ridden government, that bush and rumsfeld proclaim, is no longer applicable to the Law of any Land, is an abomination against Christ as living is Ourselves Being. America isn't America anymore, it's the bushmobbed universe of injustice and blind self hatred against all of Humanity, committed to leave none to survive but as slaves to be terrorized for the dummy bush demon as their false deity, a traitor in my midst, disguised to no one but himself as personally expendable. Again, where are the American Patriots we all hear so much about in the big screen to take down the seriously anti-American demon bush monster cop killer heroin pusher for treason, as all understood widely now factually with evidence and everything? Kill the war criminal evil doers, bush and rumsfeld today and be loved by yourself to be of Human Nature, or hunker to hell as a coward and betrayer to yourself and your own family, while watching the bushmob openly rob and murder further from our World, and on all of which we stand strong united. Justice for You.

This living plan of mine empowers others to learn their Rights as eternally established to be Kings and Queens on equal footing to be as all in all of gods forever dreaming, while demon bush intends the destruction of individual freedoms while robbing and murdering Americans from the inside, like sharon with US Jews does, as underrepresented, a condemning onslaught on Your better Judgement as reasoned on anything factual they figure blindly to be spinable, without your word contested. Your God Given Living Rights my friend. Without a rule of Law principled in the fashion of Justice for all to be sought as measured, bush's nazi amerika will continue to suffer ourselves needlessly for their corporatized self contempt in Our living Humanity as censored, without a thought for Justice, or the American Bill of Rights as God acting out eternally for

prophets to wonder endlessly. See, I came up with this wacky Idea one day to make all my equal as self created to be so normally, in this Universe as we exist for Happiness ultimately as eternal, so, You or i will work this challenge to speak out for ourselves as Creation about bush's america, and it's responsibility as publicly advertised, to gather the facts on who suffers for bush's criminal misdeeds, and overall ignorance on everything. Mr. bush's irresponsible tax scam for example, is to put America's public money into the hands of private bankers, as the extremely rich already, while taking money away from those who spend the highest percentage of their paycheck on basic necessities as a gambled to be advertised, "stimulation package". HOW? The HOW is never explained with understanding as clearly regressive like the bush rule is, because.. Who spends MORE in taxes as investment at the grocery store to pay the cashier for his babysitter: 20,000 volunteer Janitors all named Rich, who ride the bus for convenience, or a mechanical billionaire private bank machine operator, who doesn't earn any nation's moola by working something for it?, and couldn't eat 20,000 cans of re-fried beans at one cruise lining to timbucks three without losing themselves, havening his tax manner over take in YOUR luxury. See, when America prints more money at the Treasury to give Greenspan to loan BACK to the Government illogically, the dollar value falls for everyone as investor, inflation, let alone the incurred bogus debt owed with real sweat as labor. Clearly, to every informed citizen not as democratic. Of course, National corporate news America, is genuinely not trying as capable by themselves to commit The living interest in Government as ourselves with oversight to manage US fiscally responsible, (like CNN regarding Justice and the Congress, or no Chomsky ever, E. Ann Clark as geneticist, or just research for experts as example), so, we do indeed, live in trying times due to ignorance as corporate america's disrespect for wisdom saught as yearning. It's like private bankers don't want the public to think about what we are doing as worthwhile knowing, eh? Or, I'm the only one on this planet who can almost read my own writing as the, one of a kind, good boy God freak. Anyway, the bushmobster scam leaves less finite wealth for all as taxable exchanges, while suggesting disposing of what dwindling national resource can be obtained, be given to create further debt by devolving into a military apparatus to make more enemies. Our Mr. bush Jr. is just plain stupid as destructive to everyone, but especially Americans to not stand up in defense of Ourselves. (Officially, rotten

rumsfeld's criminal plan, "P2OG", is to encourage terrorist acts against Your Family, but you guessed it, not up to CNN's standard to report US as viable news material.) It's like saying fewer people educated, will keep us stupid enough as a Nation to blame the weak and poor as ourselves deprived till death as murdered, and, bush says makes sense secretly, as the all knowing for the blind and ignorant to faith in without thinking about what money is either. Our Governments should always be working to make the poor richer as a successful representation of our will as the public to improving our living condition, but the dumb and ignorant, talentless and monosyllabic, believe, someone else must be cheated and devalued, divided and murdered, in their universe for them to succeed without effort, or skill whatsoever.. Especially defense. Have you ever heard of the rock solid certainty of Universal "inverse variation" constants? (Canadian High School.) This is why in America, in a time where the nation was more literate as informed, Corporations were taxed at 85% and were happy about it for themselves as American citizens. It's understanding also, most as almost all of the most wealthy multi-nationals competing from military dictatorships against American minimums, run in continuous private bank debt, (your savings and pension as leveraged weaker being the entire Nations) but gross billions in profits. 99.9% of every private bank building in the Western World is mortgaged, not however in Iraq, or the Muslim World where interest is not charged on good standing loans made in Our names. (Sideline: Now recollect bush's puppet forcing Afghanistan to borrow from the World Bank for terrorist handbooks and heroin junkets, but not food, shelter or clothing, while spending in addition, 4-5 billion a month in godless bushfuked american Patriot Dollars, American Celeb Dollars, American TAX PAYER Dollars, to run deaths squads with tommy franks against teachers and children.) It's a strange idea to the dying to be corporately driven without thinking because, you wouldn't automatically think it could be more profitable to stay in cheaper as serviceable debt being a brick building, but it is by private banker swindle with National inflation succeeding personal interest rates. We lose personal wealth to the pirate banker fees without even privately using their/OUR National currency services, because truly, we can't go somewheres else. As of course in america, an Enron can always be pulled, where it goes bankrupt as a toxic non-living entity, but leave richer as crooks than they did before calling an end to paybacks, with the People stuck to take the loss

together for sure as the victims. While bush, says corporating America, his america, should learn for next time, maybe, while the CRIMINALLY STOLEN money is still siting in the Cayman Islands!!! See the Depression, a Canadian High Schooler, or watch bush act in direct opposition to his word almost consistently as American death harborer terrorist psychopath. Then ask yourself, why can none of our defenses be publicly discussed as important deliberations?

Love Justice by allowing others to read this paper, to judge the truth for themselves as worth something for all persons, and I will be truly grateful you cared to believe in a better future, for together, we could find a new hope for freedom, as happiness and prosperity for Yourself included. We only need believe in ourselves as unstoppablly stupid, and the Universe is ours as God is now testifier.

I am my word,
and make believe King to this world I call home,

Yours forever,

Ya, it's me again,

Dee...

Thanks for the tip. I actually found a website over in Hawaii that had ten sample .wav and .html files that were just what I was looking for. All I needed was a single current format to see what was spelled out and what was abbrvtd. What I am making up for my students will be done out of an Excel file that has all the variables in a table, then a randomizing function to pick different combinations of letters, numbers, rigs, power, weather, and then jam all that into a Word mailmerge file, thence to a text file. Sounds like a lot of work, but it is really rather trivial. Took me all of two hours to generate a hundred random QSOs, and I could generate another hundred in ten minutes.

Question -- Which of the prosigns and punctuations are currently being used? I suspect . and ? and / are among them, but anything else I need to throw in?

I know that BT (same as =) is included. I think that AR (same as +) is included also. The K and KN prosigns are included also. Punctuation includes the period and comma as well as the two you mention. There may be others but am not sure. You should be able to find this info somewhere on the ARRL site or in the study guides.

You have a lot of nerve calling anyone mentally screwed up, Doug.

Questions:

1. How is the court ordered shrink working out for you?

2. How's the court ordered job hunt going?

3. How's the court ordered wage withholding going?

4. Have you made the rain report for jamming repeaters again, Doug?

5. Have you threatened to kick anyone elses ass, only to have them show
up at your section 8 slum and prove what a fucking coward you are, maggot?

Go lay down by your bowl, dogie.

Question, Dee. It seems that Mr. Wiseman, AB8MQ has had some thoughts about your posts that were less than complimentary.
What did you do to garner this kind of response?
Knowing MQ as we do, his comments are to be ignored. I don't recall that the two of you have ever crossed paths...so what gives?

(Roger has a strong dislike for intelligen women)

I know that BT (same as =) is included. I think that AR (same as +) is included also. The K and KN prosigns are included also. Punctuation includes the period and comma as well as the two you mention. There may be others but am not sure. You should be able to find this info somewhere on the ARRL site or in the study guides.

Too bad nobody wants to hear a mentally ill retard with a high pitched girly voice more suited to singing in a boys choir whine, huh, fatass?

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B8, MAURITIUS (Also PT7). Tibi, HA7TM, will be active as 3B8/HA7TM from January 25th to February 3rd. Activity will be on 40-10 meters including the WARC bands using a radio with 100 watts into a four band GP antenna by DunaX. After his operation here, he will go to Brazil between February 21st and March 2nd, and be active as HA7TM/PT7. His QTH will be Fortalese. QSL cards are "OK" via the HA bureau or direct using the QRZ.com address.

3C, EQUATORIAL GUINEA (Update). Last week we mentioned that a station was signing 3CAK, and the operator was stating his name was Vladimir in Malabo on Bioco Island (AF-010). OPDX has been informed by Victor, UA2FM, that the operator is Vladimir Arseniev, and his QSL address is correct as announced last week. However, the 3CAK is the callsign of the ferry boat "DJIBLOHO" that Vladimir is on. He is an employee onboard the ferry, and operates the ship's HF terminal and actually should be signing /mm. We were also informed that Vladimir has never had a personal callsign before but was a club station operator (UK2FAH in UA2-land) over 20 years ago. Victor states that Vladimir is a professional RO and excellent CW operator but has not been in contact with any UA2 hams for many years. Victor does know him on a professional basis, being that he is a maritime operator and captain's mate himself. Members of the UA2 Contest Club (RK2FWA) have contacted him and explained that his operation is illegal. They advised him to apply for a 3C licence and to look for any house close to the port area, or at least use a ham callsign with /mm id. Individuals are trying to help and provide/get Vladimir more information on the 3C licencing procedures. This information has been obtained and has been sent through a local coastal HF station where he is registered for communication service. The UA2 group has also recommended that Vladimir refrain from using the commercial call on ham bands. They hope he will get a UA2 licence when on holidays in April. After then, he may use /mm id. Stay tuned!

3Y0X PETER I ISLAND DXPEDITION UPDATE (Op Delayed!). On January 13th, the following was a press release sent out by Team Co-leaders Ralph Fedor, K0IR and Bob Allphin, K4UEE: DXpedition Delayed
FOR IMMEDIATE RELEASE: "There will be at least a two and one-half to three-week delay in the planned 3Y0X DXpedition. Problems have arisen with completing the renovation and re-registration of the ship on schedule.

Our entire team remains intact. We are all eager to be underway.

This is a huge undertaking and very, very expensive. The team members are funding 74% of the total cost and need your help with the remaining expenses. Your contribution will be very much appreciated. Send contributions to either: K4UEE, F2JD, JA1ELY or ZL2AL (check the website for an easy-to-use donation form)." As things look now, Paul will work in Khartoum meaning he will be active much more often than before when he was in the Darfur area. He has been more active and has been working some PSK31. He is expected to do some RTTY later. Looking over the past few weeks, Paul has been on PSK31 on 20/17/15 meters between 1000-1700z. Also, some SSB activity has been used on 17/12/10 meters between 1330-1700z. Watch both modes. The log, the ST2PN QSL card and several new photos can be viewed online at: http://www.pa7fm.nl
ADDED NOTE: Just a reminder. Dennis states that one green stamp does NOT cover the costs for mail outside EU (also postal rate in PA went up again this year).

TS1, TUNISIA (Special Event). All Tunisian Hams are allowed to use the special callsign, TS1WHC, during the upcoming World Handball Championship in Tunisia between January 23rd to February 2nd. Activity will be on the HF bands, SSB and maybe CW and SSTV. QSL all QSOs via the bureau, or direct to: ASTRA, B.P. 339, Tunis El-Mahrajen, 1082 Tunis, Tunisie.

VP9, BERMUDA. Jon, N0JK, will be active as VP9/N0JK from January 28-31st. His primary purpose is a low power entry in the CQ WW 160 CW Contest. Jon has upgraded his 160m antenna to an Inverted L, which is now showing a "3 S-unit" improvement compared to his prior 160m anatenna. Look for him outside of the contest on 60 and 6 meters.

XU, CAMBODIA. Peter, NO2R, continues to be active from Sihanoukville as XU7ACY until January. Activity is mainly on 160 and 80 meters CW, with some 30 meters. Start looking for him after 1945z on 160 meters (before he moves to 80 meters). QSL via K2NJ.

XV2, VIETNAM (IOTA Op). By the time you read this, operator Masa, JA7GAX, is expected to be active as XV2G from Con Son Island (IOTA AS-130) until 1700z January. Activity will be on 40/20/15/10 meters CW, using only a wire antenna and 80 watts. QSL direct only to JA7GAX: Takayoshi Nagashima, 3-8-18 Akasaka Aoba-ku, Sendai, Miyagi 989-3211, Japan.

ZK1, NORTH AND SOUTH COOK ISLANDS (Update). Magnus, SM6WET, informs OPDX that he and a team of operators will be active from North and South Cook Islands as follows:

Aitutaki Island (IOTA OC-083, South Cook) - January 31st to February 17th: Look for the callsigns ZK1WET, ZK1XMY, ZK1SDE and ZK1SDZ. Most of the activity will be on SSB but ZK1WET will be active on RTTY, CW and possibly PSK31. Also, look for ZK1WET in the CQ WPX RTTY Contest.

Manihiki Atoll (IOTA OC-014, North Cook) - February 17-24th: Callsigns to be used will be ZK1SDE and ZK1SDZ.
Aitutaki Island (IOTA OC-083, South Cook) - February 24th to March 3rd: Callsigns to be used will be ZK1SDE and ZK1SDZ.

The DXpedition will concentrate mostly on 17 and 20 meters, although there will be activity on 160-10 meters. They will have full size monoband yagis for 10/17/20 meters and verticals for the other bands. They plan on having a double sided QSL card printed for each station. Do not QSL via the Bureau. QSLing is preferred via M3SDE direct. They now have a Web site at: http://www.zk1sde.co.uk

211. DO YOU WANT TO OBTAIN MANY DOLLARS?

YOU WANT TO OBTAIN MANY DOLLARS ?
I've been trying to figure out the way to make extra money in the internet, checking news groups and ads. It's not easy but I try to keep an open mind to opportunities. In these websites you would find messages like the one described further below. The message got me thinking:This is just a chain, I don't buy it. But, what if it works? It's not something new. People have been doing it for decades and I've never heard of anyone that have acctually made some money out of it. But, what if it works? When you really think obout it, this is a real job. I finally made up my mind and here I go. If you made up yuour mind too, or if you're still giving it a little more thought, keep reading. It won't be easy. Putting this message on every single website that you can think of, like news, newsgroups and ads will be necessary. The more you do it, the better for you (and for me too, of course), that's why it's a real job. It'll take several hours of advertising and promoting.
This chain is different because it doesn't deppend on five or ten persons to whom the masseges would have to be sent by tradditional mail. With the internet, the message is sent worldwide, available to thousands and someone (like me) it's going to go for it. Finally, did you think how much you're going to learn from this kind of task so you can use this knowledge on future jobs or projects?
Now my name is the last one on the list, where, if you decide to go on, you'll put yours at the end leaving my name as the one before last. I wish you good luck, because part of this luck is for me too.
This is the message I found:
"A few days back, when I was visiting news websites, just like you are now, I saw an article, very similiar to this one, saying you can make thousands of dollars in just a few weeks by investing only US$6ï¿½ï¿½! I thougt: "Oh no! Another fraud?" But just like most of us, I got very curious and I kept reading. The article showed six names and addresses for you to send US$1ï¿½ï¿½. Then, you have to write your name at the end of the list replacing the one on #6 and send the article to at least 200 "newsgroups" (there are thousands of these all around the world). There's no trick, that was it.
The big difference between this chain system and others is that you have a list of six members instead of five. This means that your average proffit will be fifteen times higher!!! After thinking it through with my friends, I decided to give it a try. After all, I had nothing to lose but six stamps and US$6ï¿½ï¿½, right?
I was worried about the whole thing being legal, so I contacted the Correo Central de Chile and they confirmed this chain is completely legal!!
So I invested my US$6ï¿½ï¿½.....GUESS WHAT!!!... seven days later, I

started to recieve money by mail!!! I was really surprised!!! I still thought this would end in a few days, but the money kept comming!!!
The first week I made from US$20ï¿½ï¿½ to US$30ï¿½ï¿½. By the end of the second week, I had made a total of US$1.000ï¿½ï¿½!!!!! By the third week I got more than US$10.000ï¿½ï¿½ and I was getting more. This is my fourth week and I've made over US$41.000ï¿½ï¿½ and It's still comming (my family spend the time opening the envelopes and I spend my time finding "newsgroups"). This is getting serious!!!
At the end, it really paid the US$6ï¿½ï¿½ and six stamps investment. I sure spent more on lotto!!!
Let me explain how it works, and most of all, the reason why it works so well. Make sure to print a copy of this article RIGHT NOW so you can get all the information needed.
It's a very simple 3 step process:
STEP Nï¿½1: Get six pieces of paper and write this down on everyone: "PLEASE INCLUDE ME IN YOUR ADDRESS LIST OR E-MAIL." Now get six US$1ï¿½ï¿½ bills. Then, fold the papers and put the one dollar bill in each so it won't be seen through the envelope. It'll be better if you cover the bill with a dark color paper so it won't be stolen. At the end you'll have six sealed envelopes with six one dollar bills enclolsed. By doing this you're creating a "service" which makes it ABSOLUTELY LEGAL!!!
Send the envelopes to the following addresses:

1. Oscar Javier Rodrï¿½guez z
CR 31 # 45 - 23 barrio el triunfo, Villavicencio Colombia

2. Jorge Balcï¿½zar
Convento San Juan de los Lagos Nï¿½ 36, Jardines de Santa Mï¿½nica, C.P. 54050, Tlalnepantla, Estado de Mexico, Mï¿½XICO

3. Marco Vinicio Gramajo Leal
2a. Avenida 4-66 Zona 1, Mazatenango Suchitepequez, Guatemala, Centro Amï¿½rica.

4. Ricardo Portillo Arteaga
Calle Gonzalo de Berceo Nï¿½ 52 piso 2ï¿½ letra B, codigo postal 26005, Logroï¿½o - La Rioja, Espaï¿½a.

5. Javier Piï¿½eros Barreto
Carrera 72 No 62 f 33 sur, manzana 2 entrada 3 apto 102, Urbanizaciï¿½n Calabria, Bogota Colombia,

6. JAVIER DARIO ARENAS
Apartado postal : 243003
ADPOSTAL: Palmira - Valle Del Cauca - Colombia
Email: adarting@hotmail.com o darting@latimail.com

STEP2: Remove name #1 of the top of the list and move the other names one number up (#6 becomes #5 and so on), add your name and address as #6. REMEMBER, YOU MUST REMOVE #1 NOT #6, MODIFY THE NUMBER ON THE REMAINING NAMES AND ADD YOUR NAME AND ADDRESS TO THE LIST AS #6.

STEP3: Change all those things you consider to be changed in this article, but try to keep it as close to the original as possible. Now put your article on at least 200 "newsgroups" (there are more than 24.000 groups). Just search in google.com by the keyword "newsgroups" and you'll find more than 56.000 items. You just need 200, but the more you put the article on line, the more money you'll get!!
These are instructions to get into the "Newusgroups":
Nï¿½1 Since you must have your own article, there's no need to write it all over again. Just select the whole text and use the "copy" function from the "edit" menu.
Nï¿½2 Create a "notepad" file and "paste" the text, also using this function from the "edit" menu. Now you have the text as a notepad file and you can add your name and address as #6.
Nï¿½3 Save the text as a .txt file. This will make It easier for you to make chages on the text whenever you want.
FOR THOSE WHO USE NETSCAPE
Nï¿½4 In the Netscape browser go to "window" and select "netscapeNews". Then, select "options" from the menu and then selct "show all Newsgroups" so you can get the list of all the "Newsgroups" in the server. Click on any of the newsgroups, and then click on "TO NEWS", it should appear at the top on the left. This will lead you to the messages box.
Nï¿½5 Fill in that space. That will be the title everyone will see when visiting any group.
Nï¿½6 Copy your article and paste it there. Go back to the Newsgroup and "TO NEWS" and you'll be creating and pasting inside the program or "posting".
Nï¿½7 Click on "send" AND YOU'RE DONE!..CONGRATULATIONS!!
TO THOSE WHO USE INTERNET EXPLORER
Step Nï¿½4 Go to Newsgroups and select "Post an article".
Step Nï¿½5 Load the article
Step Nï¿½6 Repeat step Nï¿½6 for the Netscape users.
Step Nï¿½7 Press "Post"
THAT'S ALL! All you have to do is search for different Newsgroups. After a few loads, It'll take like 30 seconds to put the article in each newsgroup!
Eventually you might want to get a P.O Box ‘cause you're gonna get a great ammount of envelopes. You can also use a nickname as long as the address is correct. MAKE SURE THAT ALL THE ADDRESSES ARE CORRECT.
Now, let's check the numbers:
Supose I only get 5 answers out of 200 sent messages (which is a really low example), then I made US$5ï¿½ï¿½ with my name as #6 on the list. Now, if everyone who sent me US$1ï¿½ï¿½ contact a minimum of 200 Newsgroups too, all of them with my name as #5 on the list, and just five answer to the 5 original messages, I'll get US$25ï¿½ï¿½. This 25 persons put my name as #4 on a minimum of 200 Newsgroups getting just 5 answers I'd be makin another US$125ï¿½ï¿½. Then, 125 persons put my name as #3 on a minimum of 200 Newsgroups, again getting just 5 answers, I'd be getting another US$625ï¿½ï¿½ and so on!! With my name as #2 I'll get US$3.125ï¿½ï¿½, and as #1, US$15.625!!!

Now, as I said before, getting only 5 answers is extreeme, the real average of answers is 20 to 30, so DO THE MATH!!!
Once your name is out of the list, get the last ad on the newsgroup and send the US$6ï¿½ï¿½ to the names listed and put yours as #6 and start all over!!
Just remember: Thousands of people all around the world surf the Internet every day reading the article just like you and me! So I think many of them wont see a problem on investing US$6ï¿½ï¿½ to see if it really works. I know that some will think, "what if no one answers?" No way!!! What are the chances that will happen, when there are millions of honest persons (like us) who need to pay bills, who are looking for financial independence and who are willing to give it a shot.
You can also do this by getting at least 200 e-mails. With this system, the probbability of success is 5% to 15%. Eather way you do it, always remember to be honest and I promaise you It will work.
Just make sure to print this article NOW. Try to keep a list to track all those who sent you money. Keep checking the newsgroups so you can see if everyone is playing fair. REMEMER, HONESTY ES THE BEST WAY TO GET WHAT YOU WANT. I've heard of people who sent the message with their names on the list but without sending the money and they hardly recieved any money back.
TIME IS IMPORTANT! Don't wait more than seven days from the moment you see this article! Let's follow the rules so we can all win! Don't forget to mention this extra money on your tax declaration. THANK YOU AND GOOD LUCK!

Nah!
I Don't think that is D.D.'s written handiwork quoted above/original.
This verbiage demonstrates a far greater level of white trash paranoia and
bile.

My guess it's probably one of the late night kook Liberty Net'ers who's now
very frustrated to the point of going out and pulling a major Apeshit
someplace. I mean, between the re-arrest of that 80 YO guy down in Miss
for retrial on that 1964 Civil Rights case, poor late night propagation on
both 75 meters and paranoid-radio short-wave and 'FAM getting on the
Lib Net and driving away the regular 'cast-of-cuckoos' away with his
monopolization of the net for the first two hours each week past for
months....I would say that some ham radio kook someplace is ready to
go pull off another apeshit of the grade worthy of a veteran post office
employee who's into zoopr0n and firearms.

So no, I don't see this as Drew, but please, do continue to encourage these
nuts, these whackos, these goofballs and kooks a-plenty we are
so amply blessed with in both ham radio and SWL.
It's been some time since we've had a good apeshit on CNN and
the Iraq war footage is now as dry as tuesday's toast....

Oh! How will we be celebrating MLK day? As we got the day off
we'll probably be here: http://ww3.voyeurweb.com/main/Picturep.html

I'm interested in building a FSK modem around a PIC microcontroller,
and am wondering how most FSK receivers convert the frequency to bits.
I'm open to a unique solution, and I've seen some frequency to voltage
converters that may work, but would like to know what some current
techniques are that may be a lot more reliable and simpler.
Thanks in advance!

Here is something for eveyone to read ... just in case they haven't read it. Another BEAUTIFUL example of amateur radio and its operators ability to respond. This comes from the ARRL website.

Asian Radio Amateurs Bridging Communication Gap following Tsunami

NEWINGTON, CT, Dec 28, 2004--Amateur Radio organizations and individual amateurs in several of the countries affected by the December 26 earthquake and consequent tsunamis in South Asia have begun emergency communication activities. The death toll from the disaster has been estimated at more than 50,000 lives, and health authorities now worry that thousands more may die from disease, due in part to a lack of potable water. Relief organizations and governments around the world have rallied to assist the victims, many of whom are homeless. DXer Charly Harpole, K4VUD/VU3CHE, was visiting the National Institute of Amateur Radio (NIAR) VU4RBI/VU4NRO DXpedition in Port Blair on Andaman Island when the earthquake struck. He said the team suspended DXpedition operation and shifted quickly to emergency mode.

"By that afternoon, the team had set up one rig outside with a mobile whip and tuner, powered by the hotel generator, and Bharathi [Prasad, VU2RBI--the DXpedition team leader] was taking health-and-welfare messages from the people standing around there," Harpole reported to ARRL. He is scheduled to relate his earthquake experience on US national television during an appearance on NBC's Today show Wednesday, December 29.

"Many wanted to tell relatives on the Indian mainland that they were OK," Harpole continued, "and Bharathi established contact with many India ham stations in various cities as needed." He said Bharathi was able to relay a message to his wife via a contact with a station in Thailand that he was all right.

Harpole, who returned to Thailand December 27 as scheduled, speculates the team may resume DXpedition operation since Port Blair escaped the worst damage, and the aftershocks have apparently ceased. Sandeep Baruah, VU2MUE, reports that VU4NRO is active on 20 meters, and two additional hams from the Indian mainland--VU2DVO and VU2JOS--have arrived in Port Blair to assist.

Calcutta VHF Amateur Radio Society Assistant Secretary Horey Majumdar, VU2HFR, relayed information from VU4RBI today that the situation in the Andamans has improved considerably with power and some telephone service being restored, although some aftershocks were occurring from time to time. He also says that VU4RBI and VU4NRO were having a lot of trouble copying signals from the Indian mainland, in part due to RF interference from local sources.

C. K. "Ram" Raman, VU3DJQ, in New Delhi reports that one member of the VU4RBI/VU4NRO DXpedition team, S. Ram Mohan, VU2MYH/VU4MYH, has established a station on Car Nicobar Island, one of the worst hit areas that had been totally cut off. Traffic has been noted on 14.190, 14.195 and 14.200 MHz. Raman has been operating at low power to avoid interfering with a nearby army communication site.

Majumdar says the VU4MYH station marks the very first Amateur Radio operation from Nicobar Island. "Mohan's signals were extremely weak, and he was in the skip zone of the Andaman stations on 20 meters," he said. "Improvisation was the name of the game. Hams had to switch to good old CW and switch frequencies from 14.190 and 14.160 MHz to 7.090 MHz." He said in the afternoon, signals were best on 15 meters (21.240 MHz) between the Andaman and Nicobar Islands stations.

"The Amateur Radio station from Nicobar is perhaps playing the most vital part in what is turning out to be the world's largest disaster operation," Majumdar said. "Hams from Sri Lanka, Thailand, Indonesia, Malaysia, Hong Kong, Singapore, Australia and even Israel are checking into the VU emergency nets and extending their fullest cooperation in the truest spirit of Amateur Radio."

Elsewhere, he reports, upward of three dozen stations on the Indian mainland are participating in an emergency net on 7.050 MHz. He said hams from South India have established stations in Tamil Nadu, the hardest hit area on the mainland where thousands died in fishing villages. Hams were handling both health-and-welfare and emergency and medical communications, he told ARRL.

Fragmented information continues to arrive from other areas affected by the earthquake and tsunami. At this point, there have been no specific requests for communication assistance from outside the region.

Musa Suraatmadja, YB0MOS, the secretary-general of the Indonesia Amateur Radio Organization (ORARI) responded gratefully to an International Amateur Radio Union (IARU) request to assist. "So far we can still manage," he said. "Our ORARI members are amongst the first to go to the stricken areas doing emergency communication, rescue

operations and other things." The 9.0 magnitude earthquake occurred off the Indonesian island of Sumatra.

Tony Waltham, HS0ZDX, vice president of the Radio Amateur Society of Thailand (RAST) called the earthquake and tsunamis "truly a disaster of catastrophic proportions which has never before been experienced by Thailand--or by our neighbouring countries that share an Indian Ocean or Andaman Sea coastline." He said communication needs in Thailand are being met.

"The situation is now under control, with Thai hams helping to relay information between the affected areas along the west coast in the south to government agencies--mostly on VHF and 40 meters as well as by disseminating news and information over VHF frequencies in Bangkok." He said EchoLink also has been playing a role in enabling hams in Thailand to relay information to friends and relatives of those who had been on vacation in the stricken areas.

Waltham says what is needed most is help for the thousands of injured and homeless, and RAST now is accepting donations for that purpose to pass on to the Thai government. He said the best method to donate is by wire transfer.

Contributions are being accepted at Siam City Bank, Ratchawat Branch No 111, Account type: Saving; Account number: 111-2-22688-4; Account name: RAST (Radio Amateur Society of Thailand under the Royal patronage of His Majesty the King).

He requests that donors send details of their support to RAST via e-mail dx@thai.com "for our records and so that we can acknowledge this and give full credit."

The ARRL and IARU have been sharing information with other agencies and organization.

Salvation Army Team Emergency Network (SATERN) National Director Pat McPherson, WW9E, reports Salvation Army personnel continue to offer emergency disaster services aid in southeastern Asia and costal India. "Salvation Army personnel are based in many of the devastated areas and have been on the forefront of offering aid and relief to the people struggling after this unexpected tragedy," he said. "Salvation Army volunteers fed more than 1200 people in the Kanyakumari and Muttom areas in India and many Salvation Army facilities are being used as feeding sites and emergency shelters in affected communities."

Salvation Army Emergency Disaster Services teams are also assisting government and other agencies in assessing needs and trying to find ways to meet them. The Salvation Army's International Emergency Disasters Services Office located in London is coordinating the relief operation.

Third Party Traffic Question

Since none of the countries affected by the earthquake and tsunami have third-party traffic agreements with the US, the question has been raised about the legality of such traffic--especially health-and-welfare messages--between those countries and US amateur stations. A staff member in the FCC's Wireless Telecommunications Bureau points out that the international Radio Regulations as revised at World Radiocommunication Conference 2003 (WRC-03) provide that amateur stations may be used for transmitting international communications of behalf of third parties only in case of emergencies or disaster relief.

"An administration may determine the applicability of this provision to amateur stations under its jurisdiction," the FCC staff member told ARRL. Although the FCC has not formally adopted the changes approved at WRC-03, he continued, "the FCC has no objection to US stations passing disaster-related traffic to and from stations in the affected areas if the administrations responsible for the Amateur Service in those countries do not object to their amateur stations receiving messages from our amateur stations on behalf of third parties."

I am the Net Manager for the Tropical Phone Net, which meets daily at 1700 on 3940mh winter, and 7.242 summer. as a service to the 64 user's, and with the permission of Ron,n9ee, I will be able to except traffic
on the 64 daily at 1650 to put any message's on my net at 1700. Messages given after 1700 that day, will be sent on another net at a later
time. I am planning to be able to get all messages via E-mail to

W4AIG@Yahoo.com

and receiving same as stated above in order to get message's on my net in time..This is a free service by ARRL / W4AIG. Will put more info on

my web site soon..

The cheap and sleazy route is what you see many people doing on PICs (and similar) for DTMF detection: To detect a frequency F1, using your ADC's digital output, multiply the digital word by sin(F1*t) and cos(F1*t). Square and add the result, so that you have (ADC_Out*sin(F1*t))^2+(ADC_Out*cos(F1*t))^2. Take the running average of what you get, and use a threshold detector to decide whether or not that frequency is prsent.

The 'cheap and sleazy' part of this comes in as follows:

1) Arrange the frequencies to be, e.g., F1 and F2=2*F1. Sample at 8*F1. Now, all the sine and cosines become +/-1 -- no multiplier needed.
2) Use 'abs' rather than squaring the results -- no multiplier needed.

This isn't particularly robust (it fails rapidly if the input frequencies are off -- the DTMF guys typically don't have to worry about this because DTMF generation is very well controlled), but it gets the job done when you have a relatively high SNR signal and it's very simple and fast to implement since you've gotten rid of the multiplications.

For more narrowly spaced FSK detection, this still works, although you start having to build up tables of sin/cosine values -- and perform the multiplication. If you do have a hardware multiplier around in your particular PIC, this is perhaps still the way to go. If not, you start looking at what resources you do have... you can design more 'proper' digital filters with coefficients of only +/-1 and zero, although sometimes the implementation ends up being more CPU intensive than just doing software multiplies.

Using a tool such as Matlab is very handy for trying our various filtering/detectoin techniques prior to having to sit down and code up the result in C or assembly for a system running in real time!

The ARRL distorted and misrepresented and inflated bits and
pieces of stories about hams, as usual. Accurate reports coming in
stated hams were largely getting in the way and interfering with
relief workers' efforts. Virtually all relief organizations brought their
own hi-tech comm gear with them and had no need of ancient
ham radio methods of comms.
Send in your dues to the ARRL yankee robbers in Newington sucker!

900 sample USA format .txt files are posted for your downloading and use in
your Morse teaching program. Go to www.rstengineering.com/hamradio and

user name: hamradio

will get you to the main file. Go to the Morse Code (option 5) section and
you will find a link to 300USAqso.zip file. It is only about 40k, so
don't worry about the size.

You could also do this by coding up the digital filters using only shifts. This is not for the faint of heart if you haven't done DSP before, but it can be done and should get you fairly good results. I'd recommend prototyping the algorithm on a PC then making sure that you have enough horsepower in your target processor before you start building a board.

Is using a sound card as effective as a TNC for packet radio? I
imagine this may depend on the software, but I'm debating on which to
get. Is there any drawbacks to using a sound card?

Thanks!

I use 4 TNCs on the two packet circuits and two SITOR/AMTOR circuits
which I monitor 24/7 on a single computer. I'm not too sure that
that can be done with a single sound card.

Does that answer your question, I hope?

Depends on what you want to do.
Give us a little more information.
Do you plan to be a router in a tcp/ip network?
Do you wish to run a traditional packet BBS?
Do you want to be able to connect to your local ARES
system to send and receive messages?
Are you interested in APRS? DX Cluster? Chat modes?

My main interest is in telemetry for various projects, like high altitude balloons, rockets, etc. APRS is something I'm definately interested in, but I'd also like to include other data as well. In the past, I'd used a much simpler (and limiting) position reporting system and recorded all the flight data on an eeprom for later retrevial. I don't anticipate monitoring more than one frequency at a time, nor am I looking to break any speed barriers just yet.

Thanks for the help!

I think you're probably right - the quality of the software is going to make the biggest difference. There's probably more spread _within_ each category (soundmodems vs. IC-based or discrete "hard" modems) than there is between categories.

One advantage to using a sound modem is that you can, in principle, run two or more modems on the same soundcard at the same time... e.g. 1200 AFSK and 9600 FSK. You can also experiment with new digital modes (e.g. PSK31, SCAMP) which either aren't supported in "hard" TNCs or which are expensive in a hardware implementation.

> Is there any drawbacks to using a sound card?

You can burn up quite a lot of CPU cycles (which adds up to power consumption and heat in your system) running the DSP software to implement a soundmodem. You'll need an operating system which can keep the soundmodem running reliably ("soft" realtime behavior) even in the face of whatever other CPU and disk I/O workload you put on your computer.

You ought to be able to put together a basic 1200 AFSK setup with either a soundmodem (kluge together an audio isolator / PTT circuit, or buy a RigBlaster or RASCAL), or with a real TNC (e.g. a TNC-2 or clone - pick up a used one for a song at a local hamfest/fleamarket) quite inexpensively.

With FIR filters and 100-200 bytes of RAM, the shifting needs to be done only once when the sample arrives, by saving each intermediate value after each shift into a table. When the next sample arrives, the old sample table (instead of the original sample value only) is shifted into the next position (tap) of the FIR. This shifting can be done either by block copying or pointer arithmetics.

Since all taps in the FIR have access to all shifted versions of the corresponding sample, all that needs to be done, is adding together those values selected by the coefficient multiplier.

If the tap multipliers are constant and there are sufficiently ROM to have a separate routine for each tap, the elements selected are known at compile time, so you do not have to shift and test the multiplier. Assuming the original sample value is in Shifted[0] and the left shifted values in Shifted[1..7] and the sample value needs to be multiplied e.g. by 19 (00010011) the multiply by 19 routine would be similar to

```
Mul_19:

Add Shifted[0]
Add Shifted[1]
Add Shifted[4]
return
```

Thus,even if the processor lacks the multiply instruction, you only need to make on average 4 additions (for 8 bit multipliers) at each tap. However, the additions must be 16 bit wide for 8 bit samples and coefficients.

As many of you know I am fairly new to ham and got a radio to use as a base station this weekend. It is an ALinco dr 590. The guy told me it had been modified to receive and transmit on extended frequercncies even cellular.

I do not intend or want to transmitt illegally but it would be nice to recieve the local police and aircraft if possible. When I plugged it up I could get the frequency of my local police at 452 mhz but did not have an antenna to see if I could hear anything or not. The vhf goes from 130-174 I think. The uhf displays to 500 mhz. How can I tell if this radio has been modified easily?

Also I thought cellular was 800 - 900 mhz. I could not get it to display that.

As a last note does anyone know how I can find online a free manual for htis book? I have looked but only been able to find the service manual. Thanks again!

I should be able to receive by piping the audio from my radio to the

As a follow up question, what types of digital communication protocols
can a sound card NOT accomodate? I know if can do RTTY, PSK31, etc...
what about PACTOR? MFSK? G-TOR? etc?
Also, is any soundblaster sound card adequate?

Thanks!

The ARRL link helped. I was not aware that they took ALL VECs and put them on their site.

The W5YI site was not of any use. All they said was to contact the CVE in your area to find out about exams.

I find it hard to believe from the ARRL site that there isn't a SINGLE W5YI exam in the whole state of California for the next couple of months.

238. Free Ham Radio Course

There is a free online ham radio course being offered and sponsored by RST Engineering at www.rstengineering.com/hamradio . It is intended to take anybody with an interest in getting a
ham radio license from zero knowledge through at least enough knowledge to pass the written exam. There is no practical exam for a ham license; pass the written and you am one. The site is intended to take somebody with no prior knowledge of the subject to be ready to pass at least one class of license within 30 days.

There are no time limits. Study at your own pace; my college class is taking the exam(s) on the 26th of February, but the rest of the world can take whatever time they see fit. I will suggest that total immersion is the best way to study this subject. If you don't want to buy the study guide books from the sources that I recommend, most college and municipal libraries either have them or can get them temporarily for a small fee.

While I wrote this site specifically for my college electronics class students, with it being on the web, anybody in the USA and possessions can use the site to study for the license. There is virtually nowhere in the USA that there are not volunteer examiners within a short distance of your home. Jay Honeck, for example, you, Mary, and the kids could take your exams in Davenport, Moline, Mt. Carroll, Waterloo, or Dubuque. (See http://www.arrl.org/arrlvec/examsearch.phtml for the location closest to you.) There is a nominal fee between zero and $15 charged by the organization that prints, mails, examines, and files the paperwork to cover their costs of doing business.

There are three classes of license:

Technician has no code and an elementary theory and regulations exam. It permits limited operation below 30 MHz., but grants all privileges from 30 MHz. on up.

General has a 5wpm code exam and a moderate theory and regulations exam. It permits almost all operation on any amateur radio band, with little tiny slices here and there reserved for the ...

Extra has a 5wpm code exam and a rather extensive theory and regulations exam. It permits all operations on any amateur radio band.

This site is brought to you by RST Engineering, written by Jim (WX6RST), and the website maintained by Gailla (KB9MII) who is also using the site to upgrade from Technician to either General or Extra. Enjoy.

You might be able to manage reception with a simple audio interconnect cable. The problem with this sort of arrangement is that it's fairly common for ground loops to exist between the computer and the radio (one ground through the audio cable shield, another through the power-line grounding). Ground-voltage differentials can create a current flow in the loop, which introduces hum on the audio signal, which could mess up the soundmodem's ability to decode the signal properly.

A good solution for this is to place a 1:1 audio transformer between the radio and the computer's sound-card line input. One of the miniatur "audio coupling" or "audio isolation" transformers will do the job... it looks as if you can still get these at Radio Shack (part #273-1374, $3.99) or through many electronics-surplus dealers.

Just cut the audio cable in the middle, solder one half of the cable to the "primary" winding, the other to the "secondary" winding, and box it up or pot it in epoxy or wrap it with tape or whatever you prefer. The transformer will couple the audio frequencies through, but will not allow ground-loop currents to flow.

The commercial (and better-quality homebrew) PC-to-radio interfaces usually have two of these transformers (one for receive audio, one for transmit audio) and an optoisolator for the PTT circuit.

MFSK is no problem (gMFSK software for Linux, and I'm sure there's
plenty of Windows software available). I believe that PACTOR is also
possible. The newer PACTOR modes are proprietary (or so I understand)
and I don't think there's a freely-available software implementation
yet. I believe that one of the goals behind the SCAMP project is to
create an open-standards (and eventually open-source) protocol with
bandwidth and robustness similar to those of the newer PACTOR variants.

You would not be able to use a soundmodem setup (or a TNC) plugged
into standard radio's audio output port and mic jack, for any digital
mode whose bandwidth exceeds about 2.5 kHz. Some of the newer modes
(e.g. the OFDM multi-carrier system used by Radio Mondial) exceed this
range, and require a different sort of feed arrangement from the radio
(e.g. tapping into or downmixing the final IF to a center frequency of
around 12 kHz).

>Also, is any soundblaster sound card adequate?

For many of the simpler modes, I believe that any decent card with
16-bit sample I/O capability will probably suffice.

Some PCs (especially laptops) have only MIC inputs, not LINE inputs -
these would probably require a resistive padder to reduce the radio's
signal levels to those acceptable to a MIC input. Similarly, these
built-in sound interfaces may be "convenience grade" - acceptable for
teleconferencing, but with distortion or noise levels or frequency/phase
response variations too high for certain digital modes.

Contest - Accumulative.

As from new year 2005 the Nordic activity contest (NAC 50 MHz) will move from 4 th tuesday in the month, to give space to a microwave contest ???, with very few contestants and NO open class. - This have been decided by the Nordic VHF committees lead by the EDR (OZ) VHF committee.
As this contest have been round for 12 years at the present date/time, we feel a valuable activity will be lost by moving it. Therefor the OZ50MHz Group have decided to establish an accumulative contest at the present evening so "business as usual" can be maintained.
To keep things as simple as possible, we will have rules very close to the NAC. This means a Open class high power and a open class low power section, a OZ high power and a OZ low power section.

Contest calendar 2005.

January 27 th.
February 24 th.
March 23 rd.
April 27 th.
May 25 th.
June 22 nd.

July 27 th.
August 24 th.
September 28 th.
October 26 th.
November 23 rd.
December 28 th.

OZ50MHz Accumulative - Open Class section rules 2005.
OZ50MHz Accumulative - National section rules 2005.

OZ50MHz Accumulative - Contest results. (up as soon as first results arrives)

The ARRL site doesn't usually list any testing but the ARRL testing. Best thing to do is to find clubs in your area and contact them. They will usually know who is sponsoring what in their area. There are, after all, 12 VECs and the ARRL and W5YI won't have detail data on some of these. For example, if you check their websites, you would come away believing that there is no testing within a hundred miles or more of San Diego. However, if you do a search for San Diego amateur radio of the web, you will find the SANDARC and that they are a VEC and that there is a test available nearly every weekend somewhere in the Sand Diego area.

I use 5 TNCs on my three packet circuits and three SITOR/AMTOR circuits
which I monitor 24/7 on a single computer. It *CAN* be done on a single
sound card.

N8CPA came up the new term "Liddite" to characterize those who have been known for years as "LandLine Lids"...

While discussing the ARESCOM proposal, he says:

All of this appears to be born of what I call a "liddite" mindset. I use that term because they frequently refer to those of us who question their schemes as "luddites." It's a name we earn simply because we know the difference between using a computer as an Amateur Radio appliance, and using Amateur Radio as a computer appliance, as the liddites prefer and propound.

I think the new term "Liddite" is much better than "LandLine Lid" though I wish there could have been an "OM" in there, as in "Liddomites", for example.

Somehow "Liddomite" sounds more appropriate, but I guess "Liddite" is really the best way to go.

Just purchased an ICOM IC-7800. This has got to be the
finest piece of amateur equipment ever to come down the pike.

With two different antennas attached, the two independent
receivers make it like two separate rigs operating simultaneously.
This is the next level in Ham Radio!

And the thing runs 200w barefoot.

True, we do have our share of abject white trash and
lower class trailerhouse dwellers on various places across 75 Meters.
Been that way for years. Their ranks seem to have thinned
out a tad however over the past years, with R.H. cracking
down on some of the more nefarious places on the bands.
You can still hear a few of these throwbacks to a more 'ignorant time'
in American history on ham radio. One place that comes
to mind is 3860 at 8:00 PM eastern. At that time every weeknight
something calling itself the 'Eastern Regional Patriot Net' fires
up to share the latest paranoia stories and short-wave radio pabulum
that's making the rounds. (black helicopters, contrails, nanobots in
flu shots, water fluoridation and Ishkabibble Mohammed Patel what
runs the Dunkin-Donuts-for-Allah is fair game for all manner of rumor grist
and fear mongering - think of it as the Liberty Net on steroids...)
Most notable on this freq. is a guy who checks into this Net each night
allegedly from KY with the 'callsign' of "Wolfman Jack". No valid ham
radio call given for several months. (some suspect he's a former member
of the KY militia who's a friend of kookball Steve Andersen of United
Patriot Radio fame, although this is likely more ham radio BS) So dear
SWL's, if you want your nightly dose of deep-fried KookinSchlong breaded
sausages on a bed of grits with cornbread on the side, be sure to toon into
3860 at 8PM EST nightly. You'll feel like your right back in Porky's Bar in
the Backwaters of the Bayou with the good-ole-boys. (Note: tinfoil hats,
old construction worker Dickey and/or red plad shirts are highly
recommended, although some nights it's better than 3 old wimmen in
pink nightgowns and slippers and hair curlers chattin over the backyard
fence...right out of Monty Python TV Series...)

There is a free online ham radio course being offered and sponsored by RST Engineering at www.rstengineering.com/hamradio . It is intended to take anybody with an interest in getting a
ham radio license from zero knowledge through at least enough knowledge to pass the written exam. There is no practical exam for a ham license; pass the written and you am one. The site is intended to take somebody with no prior knowledge of the subject to be ready to pass at least one class of license within 30 days.

There are no time limits. Study at your own pace; my college class is taking the exam(s) on the 26th of February, but the rest of the world can take whatever time they see fit. I will suggest that total immersion is the best way to study this subject. If you don't want to buy the study guide books from the sources that I recommend, most college and municipal libraries either have them or can get them temporarily for a small fee.

While I wrote this site specifically for my college electronics class students, with it being on the web, anybody in the USA and possessions can use the site to study for the license. There is virtually nowhere in the USA that there are not volunteer examiners within a short distance of your home. Jay Honeck, for example, you, Mary, and the kids could take your exams in Davenport, Moline, Mt. Carroll, Waterloo, or Dubuque. (See http://www.arrl.org/arrlvec/examsearch.phtml for the location closest to you.) There is a nominal fee between zero and $15 charged by the organization that prints, mails, examines, and files the paperwork to cover their costs of doing business.

There are three classes of license:

Technician has no code and an elementary theory and regulations exam. It permits limited operation below 30 MHz., but grants all privileges from 30 MHz. on up.

General has a 5wpm code exam and a moderate theory and regulations exam. It permits almost all operation on any amateur radio band, with little tiny slices here and there reserved for the ...

Extra has a 5wpm code exam and a rather extensive theory and regulations exam. It permits all operations on any amateur radio band.

There's no need to get all defensive, I'm sure everybody understands why yoiu post the way you do. Liddomites have been sniping at legitimate hams for years from behind bogus identities, etc... (Yawn) It's an old "last resort of the incompetent" deal, older than internet trolls, in fact. I remember other clowns doing the same thing on the old fidonet.

So I can't really see you as breaking any new ground, here. - Just the same old ignorance/arrogance combo that has taken Amateur Telephone to the sorry situation we see today. In past years, three or fours morons would respond... - You represent a dying breed, I suppose.

What will we do without the liddomites? ;-)

ALl I have available in my areas is RG 6 or RG58. I know 58 is 50 ohm and 6 is 75. SOmeone said using 75 ohm would cause my swr meter not to read right. I only need about 10 feet of cable to "test" some antennas I am going to build this weekend.

Should I just use rg 58?

Charles, I'm not defensive at all. But it was my mistake because
I thought you said K8CPA.
I reread your first post and I see the call is N8CPA. The statements I
made are true of K8CPA. It is my bad, but for you to call me a moron

keep you riding a ï¿½ harley!
I didn't call you names in my first post. I made true statements about

All of these should work under XP. JVComm, MMSSTV and MMTTY at least
work for me on XP with a not particularly bright MB integrated sound-
card.

JVComm has a habit of setting all the Record controls to minimum
when it launches. Check that that isn't the problem with it.

Sounds like something you and Larry Roll cooked up, in preparation for lobbying AMA to require all MD's copy 20WPM code!

"Morse code is a simple, effective and clear method of communication and now scientists believe that cells in our body may also be using patterns of signals to switch genes on and off. The discovery may have major implications for the pharmaceutical industry as the signalling molecules that are targeted by drugs may have more than one purpose. The number of �dots and dashes� being used by each signal could have different purposes, all of which could be modified by a drug."

You need to go back down to the VFW club, Hansl, and increase your dosage.

As from new year 2005 the Nordic activity contest (NAC 50 MHz) will move from 4 th tuesday in the month, to give space to a microwave contest ???, with very few contestants and NO open class. - This have been decided by the Nordic VHF committees lead by the EDR (OZ) VHF committee.
As this contest have been round for 12 years at the present date/time, we feel a valuable activity will be lost by moving it. Therefor the OZ50MHz Group have decided to establish an accumulative contest at the present evening so "business as usual" can be maintained.
To keep things as simple as possible, we will have rules very close to the NAC. This means a Open class high power and a open class low power section, a OZ high power and a OZ low power section.

Much of the area is well covered by OTHER VECs. For example all exams in the San Diego area are done by SANDARC. They have an exam somewhere in that area almost every weekend. So you might try a web search using the city name that you are interested in combined with the words amateur radio.

You're all over the ham groups asking dumb questions and here's one more. You got the answer to this one a couple days ago in dot.antennas. Providing bit of technical help here and there in the NGs is one reason the groups were originally established. But you're 'way over the edge with your nonsense to the point of being a NG spammer if not an outright abuser. You've been told a gazillion times to buy an ARRL Antenna Book, sit down and READ the frigging thing and learn about antennas like the rest of us did. THEN you'll be in a position to occasionally ask intelligent questions in the groups about the fine points instead of expecting us to do your homework for you and take you from square one.

Honestly, the way I'd do (and have done) this is by selecting an RF/IF
circuit (which you'll need anyway) that includes a quadrature
discriminator. The Philips SA604/605 family is ideal for that purpose,
but there are plenty of other choices. Quadrature tank components for
common IF frequencies are available off-the-shelf.

My suspicion is that PICs are a bit underpowered for all the DSP hackery
that the other guys are talking about. I could be wrong, though; I have
limited experience with them.

I am experimenting making a j pole out of 1/2 inch conduit. What I am thinking of doing is making it like a "u" in that each piece, the radiator, stub and shorting bar are cut at 45 degree angles and welded togther. I have the dimensions using the 1/2 inch copper. How do i measure each pieces "length"? I mean in the copper plan they use t fittings and measure the radiator length starting incide the t fitting where it is lower than the shorting bar.

My ides was to just measure the end of the angled piece where I cut it to the top, but not sure if this is right. What do you think?

Also, since an antenna constructed this way will not have an "extended leg" to mount to a mast, would it be acceptable to mount the shorted horizontal section to the mast? Will this cause problems?
Any help is appreciated. I hope to work on this tomorrow.

It's true that 'regular old PICs' are pretty slow, but for a low speed
(couple thousand bits per second) FSK modem, a processor with a MIP or so
could do the job using the 'cheap and sleazy' approach I outlined.

Ubicom does has some PIC clones that run at >=50MIPS, although I'm not sure
if they have hardware multipliers. The TI MSP430 line of microcontrollers
have models that, while they're running at some tens of MIPS, have a
slightly weird but completely workable hardware multiplier/accumulator and a
many channel ADC and duals DACs -- a very nice 'hacker's modem on a chip' if
I've ever seen one.

Hmm... I wonder if there's anyone doing QRP PSK31 work out there...

I'm trying to write a program (for my own education) that will transmit RTTY. I'm having some difficulty determining the exact format. From what I've observed from MMTTY, an idle keyboard has a 22ms space tone followed by a mark tone until the next space tone. I would have assumed that a standard letter/8bit transmit would last 196ms (22*8), but after recording it with a wav recorder and viewing it, it appears to be shorter (168ms or so, +/- 10). I'm not sure if the recorder is not accurate with timekeeping, or if I don't fully understand the format.

I would like to believe the standard format for a letter/8bit transmit is a start bit (space), data bits (marks/spaces), and two stop bits (space), *ALL* of which are 22ms long. Is this statement correct?
Thanks in advance,
Dave

I did something like this a few months ago on a 16F628. I was attempting to build a line-powered caller-id box. I got it real close, but could never quite get 100% copy on the data. I could get better than 99%, but even one bit error is one too many. Since I couldn't use an o-scope (no isolation transformer or probe set), I don't know for sure what the problem was. I do know one thing, it was the busiest PIC program I ever wrote. ;-) I really need a logic analyzer or DSO to debug this thing. It's possible (due to a recent project having issues that I resolved) that my bit errors were due solely to noise coming from the LCD. Sometimes it would get the data copy perfect, but most of the time there was 1 or 2 bit errors in the burst. Very occaisionally, you couldn't make anything out. :-(

I used the CCP module and TMR1 to measure the width of the top-half of the incoming sound. Based upon the width, I would toggle a PIC pin effectively ouputing a 1200 baud serial stream on that pin. That didn't look to good (0 vs 1 bit width distortion because of my technique), so I retimed the bits using another timer (TMR2). I then fed that pin to another pin that was a bit-banged serial receiver (RB0 int for start bit, tmr0 for the rest) that stuffed the received bytes into a circular queue. The main level code only looked for data to appear in the circular buffer and then printed it on an LCD. >90% of the time was spent in ISR routines. The whole thing consumed like 3mA. The PIC ran at 4Mhz and 5V using a Zener diode for regulation. IME, 2400 BAUD would not have been possible without using a higher speed crystal.

I have never tried sending modem tones from a PIC, but AIUI it's entirely possible.

You've got it all correct Dave, but for one multiplication error. Eight bits (1 start bits, 5 character bits, and 2 stop bits) of 22ms works out to 176ms, not 196ms.

Things are not always what Roger says they are.

I made an application for Roger's military records today.

I was informed that a response will take 60 to 90 days.

When the results are sent to me I'll be publishing them on this and other groups.

It will be interesting to find out if Roger really was in the Air Force as he claims and if he was, under what circumstances he left. The records will also divulge Roger's MOS and whether he had any disciplinary actions brought against him.

The records will also show the conditions under which he was discharged.

This Freedom of Information Act is a boon! Roger won't be able to stymie this as he did when his Marshall County property records were looked at.

Anybody want to bet that Rogie was never in the Air Force or any other branch of the military?

Soon, Wogie. Very soon....coming to a theatre near you.

3D2/R, ROTUMA ISLAND (Also Fiji). By the time you read this, Eli/HA9RE and Charlie/HA8IB have left Budapest, and they are expected to be active as 3D2RE/R from Rotuma Island (OC-060), January 26th through February 22nd. Activity will be on all bands 160-10 meters on CW/SSB/RTTY. They plan to have two stations on the air. They also plan to participate in the CQ WW

160 Meter CW Contest and ARRL DX CW Contest. On their return trip, look for them to be active from Fiji (OC-016) for a few days as 3D2RE, starting on February 23rd. QSL direct only via HA8IB. No Bureau QSLs.

3Y0X PETER I ISLAND DXPEDITION UPDATE (New Dates). On January 21st, the following was a press release sent out by Team Co-leaders Ralph Fedor, K0IR, and Bob Allphin, K4UEE: "Our last press release announced a delay in the 3Y0X Dxpedition to Peter I. We can now give you more specific information.
The vessel we have chartered could not meet the original sailing date. The renovations and modifications taking place on the ship were not completed on schedule. K4UEE and LA6VM just returned from a visit to Chile that included an inspection of the team's chartered vessel, a meeting with the CEO of the charter company and the shipyard project supervisor, and an inspection of the team's equipment/supplies in our sea container stored in Punta Arenas.
We were disappointed to see that the ship is still not ready. Work is progressing, however, and the charter company tells us they expect to be ready to sail for Peter I on February 10. We are not entirely confident the work can be completed on time, but the team is prepared to assemble in Punta Arenas, Chile on February 8.
If all things go well, we will arrive at the island about 6-7 days after departure, depending on the route, weather, and ice conditions. Our landing operations will commence immediately once the weather allows for safe helicopter operation.
We will first establish a safe, secure, and self-sufficient camp. Once this is complete we will begin setting up stations and antennas. We will be on the air as soon as possible, but this too is dependent on the conditions on the island. Blizzards, high winds, and low visibility are very real potential problems. We still plan to bring up 9 stations with amplifiers and a large array of antennas. Despite the schedule change, the team still hopes to spend 2 full weeks on the island. And, very importantly, our entire team remains intact.
The state of preparation of the ship, the location, complex logistics, weather, and sea ice are all challenges and largely out of our control. We will do all that is within our power to complete this DXpedition safely and within this new time frame. If all goes well and we sail as planned on February 10, we will return to Punta Arenas on March 10th. Check our web site, www.peterone.com, regularly for updates."

4L, GEORGIA. Mamuka, 4L2M, has announced that he will be active in both the CQ WW 160 CW and CQ WW 160 SSB Contest. QSL via the information on QRZ.com.

6O0, SOMALIA (Update). Silvano, I2YSB, updates OPDX and its readers on the upcoming February 3-17th DXpedition to Somalia. The tentative transmitting frequencies for 6O0CW (CW and RTTY) and 6O0G (SSB) are as follows:
CW - 1820, 3505, 7005, 10115, 14055, 18095, 21055, 24910, 28055, 50100
SSB - 1840, 3790, 7050, 14210, 18140, 21270, 24960, 28450, 50110
RTTY - 3560, 7035, 10130, 14079, 18120, 21080, 24935, 28080 kHz

Silvano states, "We understand that proposed frequencies may sound 'unusual', however we made this proposal due to the recent delays announced by the 3Y0X major expedition to Peter One Island, originally scheduled for late January-early February but now probably overlaying our 6O schedule. Our aim is to minimize QRM, avoid confusion and give everybody a better opportunity to work us. Comments and suggestions are welcome, and please note that new frequencies might be selected based on actual local conditions. We expect to start operations on February 3 evening (UTC)." Comments and questions can be sent via E--mail to: i2ysb@i2ysb.com

QSL INFO AND NEWS.....
TOP 5 QSL MANAGERS FOR 2004 SURVEY UPDATE. John, K1XM, reports that the final days for the TOP 5 QSL MANAGER nominations for 2004 are coming to an end on January 31st. He states, "As the end date is approaching to send in your 5 nominees for the TOP 5 QSL MANAGERS for 2004, my mailbox has been flooded by European DXers. It seems

that these folks have more interest in the QSL Manager system than USA folks. Well, at least they are responding at a margin of 7 to 1 now. Just over 2000 DXers have made nominations for this year's survey, so I don' think we will surpass last years mark, but many more NON USA DXers responded this year. When the final tally is made, it will be interesting to compare the 2003 winners with the new 2004 winners. I know how it is looking, but I am NOT telling. There will be 5 pleasantly surprised QSL Managers this year when a package arrives at their door. Thanks to the very generous GOLISTER who donated all 5 plaques this year and to those that have sent donations towards the shipping expenses. All is very much appreciated. All for now, have a great DXing week." Send your 5 or less nominations to: golist@golist.net Please, put in the "SUBJECT:" line TOP 5 NOMINATIONS.

QSLS FOR DL7FT (Silet Key). Ric, DL2VFR, reports that Frank, DL7FT, became a silent key some months ago - he used to QSL only direct. His old postal box in Berlin remained active for a while but is now closed. If there are still QSL requests, - they need to be sent to: Frau Sigrid HANDKE, DL7CN, Quakerstrasse 21, 13403 BERLIN, GERMANY.

QSL TO7DSR and TO7ACR via the Bureau (RADIO CLUB ACRA): Radio Club A.C.R.A Guadeloupe, BP 126, Messagerie, Pointe-A-Pitre, CEDEX 97110, GUADELOUPE. Club's Web site: http://site.voila.fr/acra-radioclub For help, contact FG1JD.

VP5/N0VD QSL STATUS. Kelly, N0VD, informs OPDX that he has answered all direct requests for his VP5 trip in October/November 2004. The last batch of DX bound cards went out on Saturday. Bureau cards are just starting to trickle in, and those will be returned via the bureau as time permits.

TO0, MARTINIQUE. Just a reminder that Thomas, KC0W, will be active as TO0O from January 27th through February 13th. His activity will include an entry in the CQ WW 160 Meter CW Contest (next weekend) as Single-Op/ High-Power entry. QSL direct to KC0W.

TO5, MARTINIQUE. Al, F5VHJ, will once again be active as TO5A for the ARRL DX SSB Contest (March 5-6th) as a Single-Op/All-Band/High-Power entry. QSL via F5VHJ.

V3, BELIZE. Members of the NEWDXA will be operating from V31MD's shack from March 2-9th. The operators George/W9MDP, John/NZ9Z and Tom/W8JWN will also be in the ARRL DX SSB Contest (March 5-6th) as a Multi-2 entry. The contest callsign and QSL info will be announced later. Look for activity on all bands and modes, 80-6 meters, before and after the contest.

V4, NEVIS. Mark, K0EJ, will be active as V44/K0EJ (possibly a special contest callsign) during the ARRL DX CW Contest (February 19-20th) as as Single-Op/Single-Band (15m)/Low-Power entry.

VK0M, MACQUARIE ISLAND. Dave, VK0MT (VK3KR), was heard this past week mainly on 20 meters SSB. Watch 14205 and 14245 kHz between 0630-1330z.

Also, watch 40 meters (7085 kHz) between 1100-1130z. QSL via JE1LET.

XV3, VIETNAM (Also Taiwan). Operators JA9BV and JA3DYU will be vacationing in Vietnam and Taiwan during middle March. Look for them to be active as XV3BV and XV3DYU from the ancient town of Hoi An, March 14-17th. The two operators will leave from Saigon to Taipei, Taiwan, on March 18th, and will operate as BW2/JA9BV and BX2/JA3DYU until the 23rd. Activity will be on mostly SSB and CW. Suggested frequencies are:
CW - 3515, 7014, 14040, 21040 kHz
SSB - 3540, 7040, 14160, 21160 KHz
QSL via the bureau or direct to their home callsigns.

TONIGHT ON COAST TO COAST AM WITH ART BELL. . .

-HAARP- www.coasttocoastam.com

Guy Cramer
Dr. Joseph Resnick

Inventors Guy Cramer (superforce.com / hyperstealth.com)
and Dr. Joseph Resnick (NAT2DTC / NxGen BodyArmor)
will be sharing their expertise in the area of the HAARP.

The official purpose of Project HAARP which is based in
Alaska, is said to be for studying the ionosphere in order
to "understand and use it to enhance communications
and surveillance systems for both civilian and defense
purposes." Yet, over the years allegations have
arisen that HAARP is involved in everything from
weather modification to mind control.
Guy Cramer has a new article posted which concludes
that in addition to HAARP, there is another
huge ionospheric array in Alaska. The page also contains
photos, maps, and recommended links from Cramer
and Dr. Joseph Resnick.

Quite right. The 'diddles' you hear are often Letters character being sent

By the way, I saw it mentioned that a Stop bit was 2 units long? I've always

Where can I get a detailed description of AMTOR-B's protocol? I'm not looking for just basics, but rather enough information I could actually write a program to decode and encode an AMTOR-B transmission. I've done several searches on google (and other sites), but haven't found anything that really covers the low-level details.
Thanks in advance!

Hi, Dave.
I think we need to define what you are trying to do. What do you mean by RTTY? Are you sending Baudau (SP!) or ASCII? If ASCII, are you sending 7 bit characters with parity or 8 bit with parity?

All RTTY that amatuers generate is asynchrounous, meaning that each character is a self-contained package. Synchronizing occurs when the start bit (space) is received and ends when the stop bit is received. Both sender and receiver must be set to handle the total lenght of the "package". Actual stop bits or "marking" at teh end of the package may be any length, but as Nana pointed out, must be at least the minimum specified for the protocol. Either 1.5 or 2 units minimum.

Areyou using all software to send the RTTY, or are you using a UART/USART chip to actually convert from paralell to serial?

I'm still open to what type of RTTY to use... and as far as
transmitting, I'm not using available software or a UART/USART chip.
My goal is to program a PIC so that it can control a FSK circuit and
transmit to my PC, which is receiving with MMTTY or something similar.
Thanks for the info all!

But Dave, the soundcard is doing that already!

Most Ham RTTY is in Baudot (Paul, take note), I've never seen any ASCII on air although it was experimented with when machines became available. The actual code is called Murray Code. Baudot is a bit of a misnomer as it really refers to timing.

MMTTY will do all the timing/decoding of the characters in RTTY, the sound card will perform the audio processing. For a good old fashioned TU, even one in a PIC, you will need some good audio filtering and processing in order to clean up the tones. My old unit was called an ST6 and might appear on Google. It consisted of some audio filtering, then two tuned filters using toroids (88mH) then a slicer and a level shifter.

This unit could only handle two frequencies 2125 and 2295Hz for a 170Hz shift signal. Since RTTY is also being sent on the ham bands with 200Hz shift, you will need to account for this. Since then, new chips became available from Exar to decode the audio tones, based on PLL's, but it must be said, the audio performance was never quite as good under noisy conditions. The DSP in new soundcards now run rings around this old process.

To assist you in your quest I suggest you read some of the notes with MMTTY as he refers to the signal processing in them. Also, there was a Greenkeys website around a couple of years ago with a lot of information about RTTY signalling which might help.

Yes, indeed it is. But I wouldn't be looking to transmit via a PIC if
I could take a PC along. I'm looking for a PIC-based solution in order
to make it flight-weight.

The 2005 ARRL Handbook, p. 9-19, in the bibliography for the section on AMTOR, contains the following:

CCIR recommendation 476-3, "Direct-Printing Telegraph Equipment in the Maritime Mobile Service." Reprint available from ARRL Headquarters as part of the Proceedings of the Third ARRL Amateur Radio Computer Networking Conference.

With that hint, typing 'CCIR 476-3' into a search engine might turn up a copy of the official definition online somewhere. "SITOR-B" or "NAVTEX" might be other good search terms to try, since SITOR is what the protocol is called in the maritime mobile service, and NAVTEX is the service that the US Coast Guard provides using SITOR.

I realize that you want to write your own program, rather than copy or use an existing one, but you might find the source code of hfterm instructive. http://hfterm.sourceforge.net. It's a Linux program that implements AMTOR, PACTOR, GTOR, and some other digital modes.

Finally, Dave is beginning to give us the complete story.

Now, Are you thinking of generating audio tones using the pic in order to transmit AFSK, audio frequency shift keying? This will basically be filtered and sent to the microphone input of a transmitter. Or are you going to use the pic to control a tone generator? What you use as a transmitter has a lot to do with how complex the PIC program will be an which PIC you will use.

Several years ago my company hired an engineer to develop a fax/modem phone line switch using a 16 bit PIC. I don't remember the number. Anyway, the circuit he designed and the software the programmer developed watched for the phone ring tones and for the tones sent by fax machines. It also generated the ring tones to ring the telephone on the line it had selected. Just as with your project, it never had to do all at the same time, although,I think the timer generating the tone could continue until the PIC turned it off.

Have you looked at all the data sheets and sample programs available for the PIC from the manufacturer? It's been a long time since I looked there, but I think there were sme good examples of what you want to do.

So, why not just generate the 5 unit code at CMOS levels then run it into an XR2206 tone generator like everyone else? It will save you hours of heartache. http://www.klm-tech.com/technicothica/xr.html

Are you attempting to make a beacon, or something for APRS? What is the purpose of the one-way acft borne RTTY transmitter? I ask because there are pic type units made that take a GPS position, format it to packet 1200bd APRS and transmit same on VHF. (search APRS)

And then the only source was Telex tapes, then that went to glass and the supplies dried up. Then the prepunched papers got brittle and broke and we didn't have them backed up on cassette tape (remember that?)

I still have a few pictures in a scrapbook. The only way to reproduce them these days would be to photograph them, and I should do that before they expire too. I shed a tear the day my 60 year old antique Model 15, 14 Typing Reperf and 15TD went to the tip.

Hey. :-) In all fairness, I did say "My goal is to program a PIC so that it can control a FSK circuit and transmit to my PC, which is receiving with MMTTY or something similar." Although it was several messages back.

Probably the latter. I'd like to be able to use a standard handheld with a PTT. I might have the tone generator be an external circuit outside the handheld... still not sure.

I've checked a couple, but I don't plan on generating the tones with the PIC... I'd like to take as much processing off the pic as possible.
Thanks for the help!

Wow, nice chip. I like the datasheet on that one so far. That might
be a great option...

Mainly temeletry. Most of it would be GPS information, but some would
be temperature and status information.

Somewhat, but I was kinda hoping to have a lot of control over what is
sent... and it'd be educational to design my own RTTY generator.

It'd be going on a high altitude balloon. I've launched one in the
past using pre-recorded audio sounds (numbers and the pilot-alphabet),
but it's slow and consumes more battery power. I'd also like to get
more frequent transmissions.

William Thomas
Electromagnetic weapons "tests" in Iraq
Tue Jan 25, 2005 18:53

MICROWAVING IRAQ

"Pacifying" Rays Pose New Hazards In Iraqi
By William Thomas

On the rooftop of a shrapnel-pocked building in the ruins of Fallujah, a team of GI's stealthily sets up a gray plastic dome about two-feet in diameter. Keeping well back from the sight lines of the street and nearby buildings, they plug the cable connectors on the side of the "popper" into a power unit. The grunts have no clue what the device does. They are just following orders.

"Most of the worker-bees that are placing these do not even know what is inside the 'domes', just that they were told where to place them by Intel weenies with usually no nametag," reports my source, a very well informed combat veteran I will call "Hank".

The grunts call the plastic devices "poppers" or "domes". Once activated, each hidden transmitter emits a widening circle of invisible energy capable of passing through metal, concrete and human skulls up to half a mile away. "They are saturating the area with ULF, VLF and UHF freqs," Hanks says, with equipment derived from US Navy undersea sonar and communications.

But its not being used to locate and talk to submarines under Baghdad.

After powering up the unit, the grunts quickly exit the area. It is their commanders' fervent hope that any male survivors enraged by brutal American bombardments that damaged virtually every building in this once thriving "City of Mosques", displacing a quarter-million residents while murdering thousands of children, women and elders in their homes lose all incentive for further resistance and revenge.

A dedicated former soldier, whose experiences during and after Desert Storm are chronicled in my book, Bringing The War Home, Hank stays in close touch with his unit serving "in theater" in Iraq. When I asked how many "poppers" are being used to irradiate Iraqi neighborhoods, he checked and got back to me. There are "at least 25 of these that have been deployed to theater, and used. Some have conked out and been removed, so I do not know how many are currently active and

broadcasting."

Hank is still losing friends in Iraq, where front-line soldiers put their current casualty figures from all causes psychological crackups and suicides injured.

Hank also blames those at the top for hospital counts of upwards of 65,000 children killed since the 2003 invasion. He is concerned that innocent Iraqi families and unsuspecting GIs alike are being used as test subjects for a new generation of "psychotronic" weapons using invisible beams across the entire electromagnetic spectrum to selectively alter moods, behavior and bodily processes.

"The 'poppers' as they are called, are capable of using a combo of ULF, VLF, UHF and EHF
wavelengths in any combination at the same time, sometimes using one as a carrier wave for the others," Hank explains, in a process called superheterodyning. The silent frequencies daily sweeping Fallujah and other trouble spots are the same Navy "freqs that drove whales nuts and made them go astray onto beaches."

MICROWAVING IRAQ

The Gulf War veteran observes that occupied Iraq has become a "saturation environment" of electromagnetic radiation. Potentially lethal electromagnetic smog from high-power US military electronics and experimental beam weapons is placing already hard-hit local populations-particularly children experiencing serious illness, suicidal depression, impaired cognitive
ability, even death.

American troops constantly exposed "up close" to their own microwave transmitters, battlefield radars and RF weapons are also seeing their health eroded by electromagnetic sickness. It's common, Hank recalls, for GIs to warm themselves on cold desert nights by basking in the microwaves radiating from their QUEEMS communications and RATT radar rigs.

Constant microwave emissions from ground-sweeping RATT rigs and SINGARS mobile microwave networks are much more powerful than civilian microwave cell phone nets linked in many clinical studies to maladies ranging from asthma, cataracts, headaches, memory loss, early Alzheimer's, bad dreams and cancer.

Even more powerful US military radars, radios and "jammers" blasting from ground bases and overflying aircraft add to this electromagnetic din.

This is bad enough. But this is also Iraq, Hank says, where ever-present sand acts as miniature quartz reflectors, unpredictably amplifying the ricocheting electronic smog so thick that if it were visible, every vehicle in Baghdad and the surrounding Sunni Triangle would be driving blind with their headlights on.

THE GIFT THAT KEEPS ON GIVING

This is grim news to friend and foe alike constant adrenal stress, waterborne pollutants, infectious sand fleas, dehydration, pharmaceutical drugs and exposure to radioactive Uranium-238 fired in "hose 'em down" exuberance by US ground and air cannons and cruise missiles.

As Hank puts it, DU is "the gift that keeps on giving." For the next four billion years, medical investigators say, large populated expanses of Kosovo, Afghanistan, Puerto Rico and Iraq will remain lethally radioactive from Made In America depleted uranium dust.

What kind of people would do this?

Clinical tests have repeatedly shown how microwaves "rev up" incipient cancer cells several hundred times. Triggered by nuclear radiation, and turned rogue by electromagnetic warfare unleashed by US forces, human cancer cells have been found to continue proliferating wildly after the power source is turned off

MICROWAVING WOMBS AT GREENHAM COMMON
While the mobile microwave weapons currently deployed in Iraq may or may not lead to lasting harm, rooftop "poppers" and "domes" left to radiate for days at a time are irradiating unsuspecting families already coping with illness, wounds, hunger and the stress of losing homes and loved ones, whose rotting corpses cannot be buried under the sights of marine snipers.

A preview of what lies in store for long-suffering families in Iraq can be gleaned from Greenham Common, where the British Army reportedly used an electromagnetic weapon against 30,000 women who had camped for nearly two decades around that UK military base to protest the deployment of nuclear-tipped US cruise missiles.

One day in the summer of 1984, more than 2,000 British troops suddenly pulled back, leaving the fence unguarded. Peace mom Kim Besley recalls that as curious women approached the gate, they "started experiencing odd health effects: swollen tongues, changed heartbeats, immobility, feelings of terror, pains in the upper body."

Besley found her 30-year-old daughter too ill to stand. Other symptoms typical of electromagnetic exposure included skin burns, severe headaches, drowsiness, post-menopausal menstrual bleeding and menstruation at abnormal times. Besley's daughter's cycle changed to 14 days and took a year to return to normal.

Two late-term spontaneous miscarriages, impaired speech, and an apparent circulatory failure prompted the women to begin monitoring for a directed-energy beam, Using an EMR meter, they measured beams sweeping their camp at 100-times normal background levels.

Another harrowing example involves the sudden illness and cancer deaths of US embassy staff in Moscow after being deliberately targeted with

very weak pulsed microwaves by Soviet experimenters and fascinated CIA onlookers running "Project Phoenix" in 1962.

Very Low Frequency (VLF) weapons include the dozens of "poppers" currently deployed in Iraq, which can be dialed to or "long wave" frequencies capable of traveling great distances through the ground or intervening structures. As air force Lt Col. Peter L. Hays, Director of the Institute for National Security Studies reveals, "Transmission of long wavelength sound creates biophysical effects; nausea, loss of bowels, disorientation, vomiting, potential internal organ damage or death may occur."

Hays calls VLF weapons "superior" because their directed energy beams do not lose their hurtful properties when traveling through air to tissue. A French weapon radiating at 7 hertz "made the people in range sick for hours."

GI's "DRIVEN NUTS" BY ELECTROMAGENTICS IN IRAQ

Like so many other American blunders among the ruins of Babylon, the intended microwave "pacification" of rebellious neighborhoods is having unintended effects. In actual "field-testing" in the Sunni Triangle, Hank has learned that the hidden, dome-shaped devices "are removing inhibitions". Armed individuals, already highly motivated to kill American forces are reportedly "losing all restraint" when exposed to the electromagnetic beams.

According to Hank's buddies in Baghdad, the frequency-shifting "poppers" "are having some remarkable effects on the locals as well as our own people." But these effects differ. Possibly, Hank surmises, because Americans come from daily domestic and military environments saturated with electromagnetic frequencies, while many Iraqis still live without reliable electricity in places largely free from electromagnetics before the American invasion.

According to members of Hank's former unit, constant exposure to invisible emissions from radar and radio rigs microwave weapons says. "It makes them stupid for two or three days."

The Desert Storm veteran compared the emotional effects of constant exposure to military microwaves to a lingering low-pressure weather system that never goes away. "You feel way down for days at a time," he emphasizes

As a consequence, AWOL rates among "spaced out" US troops are as high as 15%, Hank reports. For many deserters, it is not cowardice or conscience that is causing them to absent themselves from duty. "They are feeling so depressed," Hank explains. "They don't feel good. So they leave."

According to Hank's front-line buddies, Iraqis exposed to secret beam weapons "get laid back, confused and mellow, and then blast out in a rage, as opposed to our folks going on what could only be called a 'bender', and turning into a mean drunk for a while."

Once they wander away from direct electromagnetic-fire, startled GIs come to their senses. They return to their units, Hank explains, saying, "What was I thinking?"

The recovery rate among US troops "seems to be about a day or so, where the locals are not getting over it in less than a week or more on average," Hank has learned.

It is Hank's hope that his revelations will prompt public debate over the secret use of electromagnetic weapons in Iraq. But lost in the arguments over these supposedly "non-lethal" weapons is a much bigger question: What are Americans doing there?

Whether soldier or civilian at home, it is our imperative duty to stop supporting those responsible for ongoing "weapons tests" in Iraq. As electrochemical "beings of light," the strongest electromagnetic force on Earth is human conscience, acted upon.

After resigning his US Navy Reserve commission, William Thomas subsequently served
five months with a three-man environmental emergency response team in the Gulf during and immediately after Desert Storm. He has written about military electromagnetics in Scorched Earth and Bringing The War Home, and has documented other microwave hazards in his new book "Dialing Our Cells."

I think you posted in the wrong groups, most of us here, IIUC, dream
about working in microwave radiation only 100 times above normal.

Now, if we could only get one of those "poppers" to use at the kids
bedtime...

Poppers? --- I WANT ONE !!!

-Could we set up a popper at my place? They sound like they are so cool ---
I volunteer to be experimentally irradiated on the condition that I get one
to keep.
-Is there any way I could buy my own popper from eBay or anywhere?
-Could one be powered using the new 2500mAh NiMH rechargeables?
-If the popper was connected to say, a 4 element yagi antenna, how
directional would the main lobe be?

My sources tell me the simple effective countermeasures for these devices has been found to be the wearing of a tin foil hat. Sort of brings back memories of how the North Vietnamese defeated our laser-guided bombs by simply obscuring the target in smoke.

I been picking these signals up here on 8020MHZ. Very strong! S9 all day and night! In fact I touched the radio and noticed it was also very warm? It's 32 degrees outside??

Very worrying isn't it?
My sensors detected that I was being targetted by stuff with wavelengths
from 450 to 750 nm today - with so much energy it must have been
generated by a NUCLEAR REACTOR.

Now, Americans, IIRC, have this happen all the time - but for us in the
middle of Dartmoor National Park, in Devon UK, in January - this is
unheard of.

OK, we get used to being targetted by hydrogen bombs (well,
hygrogen/oxeygen) of about 0.4cm calibre We have purpose designed
protective equipment to deal with that. But not the nuclear fallout stuff.

Luckily, someone discovered many years ago that a knotted hankie on the
head is very effective at dealing with the stuff - particularly in areas
of high ozone concentration.

Extreme Fajitas? Hmmm, sounds interesting, I must admit.
I was wondering why I was waking up all thirsty and dizzy --- and here I was thinking it was all the vodka of I've been drinking --- silly me.
But seriously, about these EM Poppers --- do you think the CIA would be interested in deploying a popper array in Canada?
First we would program the poppers to make people vote republican, and then get the neo-conservative think-tanks to come up with a way to divert soft campaign funds into funding a contract to deploy thousands of poppers nationwide along the northern border provinces of BC, Alberta, etc.
Then comes the sneaky part, once the yankees are all thirsty and dizzy and voting republican, we set up huge rocket motors pointing off into space at wierd angles and run them night and day, this would alter the earth's spin, and push the geographic pole towards russia, having the net effect of pushing canadian territory into a more southerly latitude where it's warmer so the pot plants grow better.
This information is top secret, I'm relying on the tight knit NNTP community to keep this under wraps.

In fact, there are more efficient weapons, like rifles, bazookas, mortars, hand grenades, heavy anti-tank weapons, and only mentioning infantry weapons.

Eric S. Raymond, of gnu software fame, has been working on a replace-
ment for the venerable "morse" program for unix (and for Windows
systems with Cygwin installed, I think). He has cleaned up morse
a _lot, and added some very nice features which make it a great
Morse code trainer, and has added an entirely new program, QSO, which
generates text files such as one would get from the distant end of a
Morse contact.

Examples, in which "+ %" are shorthand for the AR and SK prosigns:

```

Wow, the population of Malvern, England must really have been cooked over the years with the assorted high power RADAR systems operated at the Royal Radar Establishment and the other stuff at the Telecommunications Research Establishment (The names and roles have changed several times over the years).

ISTR that the radiation was intense enough that during the coronation of Elizabeth II a fascinating and artistic? display of gas discharge tubes was erected and powered solely by the incident radiation. Certainly during my time there a neon or fluorescent bulb did not require wires to work.

Also the folks around Cutler, Maine with the 2+ Megawatt VLF transmitter which has been running for several generations must be showing some signs, as should the folks around Jim Creek etc. etc.

There are multiple places with transmitters on these frequencies running many, many times the power of any portable device - they have dedicated power lines or huge dedicated generators which obviously far exceed the capability of any transportable device.

But, I think I'll put an aluminum shield on my front lawn to protect me from that long range radar I can see across the field, trouble is there is a high power VHF TV transmitter beyond my back yard - maybe I'll dig a hole and line it with copper? They both use back-up generators which would require a very large truck to move and consume large quantities of fuel so I suspect they out-perform any portable 'bubble'.

What a load of crap, anyone with even a little radio knowledge will read this as pure nonsense. When did whales start hearing radio waves? And what the hell is the mix of VLF "Ver Low Frequency" ULF "Ultra Low Frequencies" and UHF "Ultra High Frequencies" got to do with Microwaves "Super High Frequencies"? I live a few miles from a 50,000 watt MF "Medium Frequencies" station at 700 Khz, theres several Mega Watt level Television stations within a few dozen miles, not to mention countless FM Broadcasts on every frequency from 30 to 1300 mhz everywhere. Our whales arnt hearing any of this ;-)

This is it. This is what every guitar player needs to know. This is absolutely every chord and scale for guitar, all in easy to download and print document, or a 37 page spiral-bound book. (which lays flat for easy practicing) What used to be scattered across mulitple books and expensive lessons is now in one well organized ebook. Its the ultimate reference guide, and you don't even need to read music.

For about the price of a cup of coffee, you'll learn:

-EVERY CHORD (in every position)

-EVERY SCALE, including the jazz and blues scales

-ALL THE MODES

-LITERALLY EVERYTHING YOU NEED TO KNOW TO SOLO AND PLAY CHORDS WITHOUT READING MUSIC!!

A free sample is available at:

Good luck and God Bless!

Some libraries will arrange inter-library loans at no cost.

Here, at the Tempe Public Library, each patron may have
up to 3 such requests active at a time.

Sometimes, there is a small charge if they have to go out
of state (Arizona) or whatever.

(chuckling)

I'm somewhat disappointed no-one picked up on my
"Office Space" reference (though I'll admit, it was obscure).

Office Space and "The Office" (BBCTV) are 2 of my
favorite productions, *ever.*

Ahem. On to spicy things: Habanero hot wings tonight.
A one course dinner; what could be easier?

WASHINGTON, DC (ENS) - The U.S. Navy and the National Marine Fisheries Service have released a report acknowledging the role that the Navy's experimental sonar played in the deaths of 17 marine mammals in the Bahamas last year. The report is the agency's first official admission that sonar may contribute to whale beachings.

Have you heard about this new hunting reality TV show that's seeking participants? It's called "Hunting for Bambi" and it's like Fear Factor meets Girls Gone Wild. 6 guys get to hunt 12 naked women in the woods with paintball guns. Sounds like it should be a new Olympic sport if you ask me! Definitely better than hunting deer. lol! Go to www.huntingforbambi.com if you're interested in signing up.

395. Cable TV splitter and internet connection

I use Charter Communications as my ISP. At one outlet in the house I have a CTV splitter to connect to both a TV and my cable modem.

Worked well for 2 years. Then, all of a sudden, no internet service.

Chater finally asked if there was a splitter. When removed the internet service returned. Replaced with a new, more expensive splitter and all is well with both TV and internet.

Charter said that splitters go bad. Rarely, but it does happen.

Wondering how a splitter can go bad. Isn't it a simple voltage divider with an impedance match to 75 ohms? Are there capacitors in there that could go bad?

Figured someone here would have opened a splitter at one time or another.

Thanks.

Call up your local police, transmit on their frequency, and see if they can hear you. Don't forget to let them know where you are calling from, so they don't have to rely on the ANI signal from your phone. This way, it will be easier for them to find you.
This is only to check the Tx function. As far as Rx, most of these radios have this type of coverage right out of the box.

I never opened one. I always believed they were intermeshed coils, or
basically an isolation transformer similar to an audio transformer
that allows one 8 ohm input and two 8 ohm outputs. Of course, CTV
splitters have much higher frequencies to deal with and are much
smaller. They also generally have a very high loss figure 7 db or
more.

Get a dummy load and a watt meter for that frequency.

Did you search the internet for the radio manual? there are places
that offer the manuals. Unfortunately I can't find the URL in my

Good News!

Do you know how simple it is to go to Heaven after this life has ended?

Some people believe that belonging to a local church, temple, mosque or synagogue will get them to Heaven.

Others believe that water baptism, obeying the ten commandments or just being a good person will get them to Heaven.

There are many other beliefs as well, but the good news about God's way to Heaven is found in the Holy Bible.

The good news is that God came from Heaven to earth in the person of Jesus Christ over 2000 years ago and died for our sins(misdeeds). He was born in the land of Israel supernaturally to a virgin Jewish woman named Mary. He lived a sinless life for thirty-three years and then sacrificed His sinless blood and died on a cross to pay the death penalty for our sins. After Jesus was placed in a tomb He rose from the dead three days later as He said He would. The Holy Bible also tells us that Jesus Christ ascended into Heaven and that all who accept Him as their Lord and Saviour will live forever with Him in Heaven where there is no more death, sorrow, sickness and pain.

The Bible says, "For the wages of sin is death, but the gift of God is eternal life through Christ Jesus our Lord." (Romans 6:23)

This verse in the Bible says, "For ALL HAVE SINNED, and come short of the glory of God." (Romans 3:23)

This verse says, "But God demonstrates his own love for us in this: While we were still sinners, Christ died for us." (Romans 5:8)

In this passage the Bible clearly explains how simple it is to be saved and on your way to Heaven, "For if you confess with your mouth, "Jesus is Lord," and believe in your heart that God raised him from the dead, you WILL BE SAVED." (Romans 10:9)

You can be saved right now and on your way to Heaven if you will open your heart to Jesus and pray the following prayer:

Dear Jesus Christ, I want to be saved so that I can have a home in Heaven when I die. I agree with You that I am a sinner. I believe You love me and want to save me. I believe that You bled and died on the cross to pay the penalty for my sins. I believe that You rose from the dead. Please forgive my sins and come into my heart and be my Lord and Saviour. Thank You Lord Jesus Christ for forgiving me and saving me through Your merciful grace. Amen.

You are now a Christian if you said the prayer and allowed God to save you. Welcome to the family of God.

Salvation is not a reward but a gift. The Bible says it this way, "For it is by GRACE you have been SAVED, through FAITH and this not from yourselves, it is the GIFT of God." (Ephesians 2:8)

Nothing in the world is more important than your eternal destiny.

The Bible says, "In Him(Jesus) we have redemption through His blood, the forgiveness of sins..." (Ephesians 1:7)

If you have not yet made a decision to be saved, please do so now before it is too late. The reason why it is so important to be saved now is because you do not know exactly when you will die. You may die prematurely in a traffic accident, terrorist attack or some other way before you get another chance to be saved.

The Bible tells us that we will spend eternity in Heaven or a place of eternal torment called Hell. It would be terrible to die and go to Hell when all you have to do is accept Jesus Christ as your personal Lord and Saviour.

Some people that have already made Jesus Christ their Lord and Saviour worry about losing their salvation. The Bible teaches Christians that we can never lose our salvation no matter what happens.

The Bible says it this way, "My dear children, I write this to you so that you will not sin. But if anybody does sin, we have one who speaks to the Father in our defense Jesus Christ, the Righteous One." (1John 2:1)

Yes my friend, Jesus Christ is able to save you and keep you saved.

Please tell your family and friends, thanks!

Have a great day!

Why does anyone bother answering this guy. He has obviously gotten his
license out of a cracker jack box, if he has a license at all.

He asks such basic questions that anyone taking a Technician exam should
know. And why would anyone want to have a *ham radio* modified to transmit
on police frequencies? Probably just another cop wanna-be.

Good News!

Do you know how simple it is to go to Heaven after this life has ended?

Some people believe that belonging to a local church, temple, mosque or synagogue will get them to Heaven.

Others believe that water baptism, obeying the ten commandments or just being a good person will get them to Heaven.

There are many other beliefs as well, but the good news about God's way to Heaven is found in the Holy Bible.

The good news is that God came from Heaven to earth in the person of Jesus Christ over 2000 years ago and died for our sins(misdeeds). He was born in the land of Israel supernaturally to a virgin Jewish woman named Mary. He lived a sinless life for thirty-three years and then sacrificed His sinless blood and died on a cross to pay the death penalty for our sins. After Jesus was placed in a tomb He rose from the dead three days later as He said He would. The Holy Bible also tells us that Jesus Christ ascended into Heaven and that all who accept Him as their Lord and Saviour will live forever with Him in Heaven where there is no more death, sorrow, sickness and pain.

The Bible says, "For the wages of sin is death, but the gift of God is eternal life through Christ Jesus our Lord." (Romans 6:23)

This verse in the Bible says, "For ALL HAVE SINNED, and come short of the glory of God." (Romans 3:23)

This verse says, "But God demonstrates his own love for us in this: While we were still sinners, Christ died for us." (Romans 5:8)

In this passage the Bible clearly explains how simple it is to be saved and on your way to Heaven, "For if you confess with your mouth, "Jesus is Lord," and believe in your heart that God raised him from the dead, you WILL BE SAVED." (Romans 10:9)

You can be saved right now and on your way to Heaven if you will open your heart to Jesus and pray the following prayer:

Dear Jesus Christ, I want to be saved so that I can have a home in Heaven when I die. I agree with You that I am a sinner. I believe You love me and want to save me. I believe that You bled and died on the cross to pay the penalty for my sins. I believe that You rose from the dead. Please forgive my sins and come into my heart and be my Lord and Saviour. Thank You Lord Jesus Christ for forgiving me and saving me through Your merciful grace. Amen.

You are now a Christian if you said the prayer and allowed God to save you. Welcome to the family of God.

Salvation is not a reward but a gift. The Bible says it this way, "For it is by GRACE you have been SAVED, through FAITH and this not from yourselves, it is the GIFT of God." (Ephesians 2:8)

Nothing in the world is more important than your eternal destiny.

The Bible says, "In Him(Jesus) we have redemption through His blood, the forgiveness of sins..." (Ephesians 1:7)

If you have not yet made a decision to be saved, please do so now before it is too late. The reason why it is so important to be saved now is because you do not know exactly when you will die. You may die prematurely in a traffic accident, terrorist attack or some other way before you get another chance to be saved.

The Bible tells us that we will spend eternity in Heaven or a place of eternal torment called Hell. It would be terrible to die and go to Hell when all you have to do is accept Jesus Christ as your personal Lord and Saviour.

Some people that have already made Jesus Christ their Lord and Saviour worry about losing their salvation. The Bible teaches Christians that we can never lose our salvation no matter what happens.

The Bible says it this way, "My dear children, I write this to you so that you will not sin. But if anybody does sin, we have one who speaks to the Father in our defense Jesus Christ, the Righteous One." (1John 2:1)

Yes my friend, Jesus Christ is able to save you and keep you saved.

Please tell your family and friends, thanks!

Have a great day!

Using an ICOM 746 Pro with an AL-80B amp. According to their respective manuals the AL-80B sources +12vdc at 100mA and the 746Pro can sink a max of +16vdc at 500mA.

QUESTION:
Do I need an amplifier keying buffer according to the above specs? My research shows primarily these devices are for new rigs keying older amps. The Icom site recommends an interface for "all non-Icom amplifiers" but in the case of the above specs it appears to me there is already a 4 volt and a 400mA "buffer" of sorts. The demands of the 80B are well inside the capabilities of the 746 Pro. Right?

I'm not trying to save $50 or so but if the specs are right I don't need it. My rig is new and I have about 300 qsos so far which amount to at least 1000+ successful amp keying events.

Hi all,
Please refer to the previous post of the ARRL Proposal... That I just
posted moments ago..
The ARRL Has taken Back Water.
They told us in December that the Automatically Controlled Digital
Sub-Bands would be left alone...
Now it is clear they have decided not to make that decsion until the
July Meeting..
We need to stop talking with the ARRL, Get a Show of hands of those who
would reject any FCC NPRM that would eliminate the Automatcially Controlled
Subbands.

The time to act is now.. We have been in negotiations for the last 6
months.. Not getting anywhere.. Its time we started preparing our defense.

Thanks..

"DAYTON HAMVENTION® NEWS" (Correction: SWODXA DX DINNER). The dinner will be Friday evening, 20th May, at the Crowne Plaza Hotel, located in Dayton city center. Tickets are 32.00 USD per meal (not 34.00 USD as mentioned in OPDX.695), payable in U.S. funds, and may be ordered from Jay Slough, K4ZLE, at his CBA. They will attempt to honor group seating requests when tickets are ordered together. There are eight seats per table and seating is limited. DXCC NEWS.....
Bill Moore, NC1L, ARRL DXCC Manager, informs OPDX that the following operation is approved for DXCC credit:
R1MVI - Malyj Vysotskij Island, September 10-13, 2004

DXCC LISTINGS NOW AVAILABLE ON THE ARRL WEB SITE: According to the "ARRL Letter" this week: The ARRL Web site now features up-to-date listings of DXCC awards earned. The new system shows every issued DXCC

award known to ARRL's computerized DXCC system with the exception of individual standings for 5BDXCC. ARRL Membership Services Manager Wayne Mills, N7NG, says the Web site listing is even more complete than the DXCC Yearbook ever was, since the printed list did not list inactive band-accounts for the previous year. "This will list everything and everybody," Mills emphasized. "The new system makes available a separate listing for each DXCC award type--band or mode." Even more important, Mills notes, is that it essentially renders obsolete the manually generated monthly and yearly reports. "Under the new system, DXCC listings will be updated daily," he emphasized. The DXCC standings of all ARRL members will remain in dark type. Call signs of non-members who have not submitted credits for 10 years or more are in grayed-out type. Each listing by band or mode is complete in a separate Adobe PDF file. The largest listing (DXCC Mixed) now runs to more than 50 pages, but the size of the PDF file is only about 150 kbytes because of file compression. Printing format options include US letter-sized or ISO A4 paper. The DXCC listings can be found at: http://www.arrl.org/awards/dxcc/#listings.

DX0, SPRATLY ISLANDS. Eddie, DU1EV, informs OPDX that Nicodemus/DU1JXP, Mike/DU1MHX, Ed/4F1OZ, Gilbert/4F2KWT, Bebe/4F3BA and himself will be active on the Philippine side of the Spratly Island Group (Kalayaan Island) from January to May under the callsign DX0K. According to Eddie, look for Gilbert, 4F2KWT, to be active first from here. By the time you read this, he should be on the air and be active by himself for about a month. Towards the end of March, 2 to 3 other operators are expected to join 4F2KWT for around three weeks. Eddie mentions that they might pack up early after two weeks, or towards the tail end of April, as the typhoon season will be about to set in and they will be leaving there by boat. Activity is planned for all bands 160-6 meters including the WARC bands, mostly on CW and SSB. During March they "just might" work some digital modes like RTTY and SSTV. Eddie also mentions that this is a Hamcation/ DXpedition, and these are their tentative plans. A Web page is in the planning stage, and the URL is forthcoming. QSL Manager is 4F2KWT.

EP, IRAN. Hamid, EP4HR, states he will be on the lower bands every day (except Tuesdays and Fridays) from 0215-0230z on CW or PSK31. He will start on 160 then move to 80 and 40 meters. QSNs show him on 40 meters PSK31 on 7035 kHz as late as 0115z. Also, watch 14070 kHz on PSK31 between 1300-1630z. QSL via I2MQP.

FG, GUADELOUPE. Pierre/F6FXS and his XYL, Marie, will once again be vacationing on the main Island of Guadeloupe (NA-102, DIFO FG001) from March 4-22nd. for 17/12 meters and wire antennas for the other bands. They also plan to
take a 2 element 40m Yagi, but it depends on the weight. They will also

participate in the CQ WW 160 SSB Contest and the ARRL DX SSB Contest. They will also have a Web page up, and it will have an online log search on it after their DXpedition. It was also mentioned that there is a peculiar noise on the island, and operators may have a hard time in the reception of your signals. If so, please be patient during their operation.

VP2M, MONTSERRAT. Art, N2NB, will be active as VP2MDY from February 24th through March 8th. Activity will be on all bands 160-6 meters, including PSK31. QSL via his home callsign.

VU4 NEWS (QSLing and Presentations). The following is via Charles, K4VUD. QSLING THE VU4 OPERATION. Sara (or Saraha), VU3RSB, reports that the VU4 QSL requests are arriving "OK" at the NIAR headquarters with no tampering evident. He encourages all to QSL direct there as per the NIAR Web site address. Mr. Sara was an original member of the "first team" of operators there and a major helper in the emergency communications, too. To date, there is only ONE QSL address for the VU4RBI and VU4NRO 2004 operations and that is to NIAR in Hydrabad, India. The NIAR address is:

Great... just fucking great. Now the rag-heads are sending their retards in as suicide bombers. What will they try next, sending Roger Wiseman?? Of course, that would never work because Roger would just blow the first Jew he sees... not "blow-up" just blow.

Headline:
Child with Down Syndrome used in Suicide Attack
31 January 2005

Terrorists used a disabled child as a suicide bomber on election day, Iraqi interior minister Falah al-Naqib said today.

In all, 44 people were killed in a total of 38 bomb attacks on polling stations. Police at the scene of one the Baghdad blasts said the bomber appeared to have Down's syndrome.

Mr Al-Naqib praised an Iraqi citizen who was killed while preventing one suicide bomber from reaching a crowd of people outside a polling station.

439. Almost new amateur query about CW

Greetings,

Just a short query about CW and keys/keyers which I can't seem to figure out from my web searches these last few days. I'm about to take my Basic Exam (Canada) and will eventually try my hand at getting Morse Code Qualification at 5 WPM. I expect I'll want to learn Morse even if Industry Canada and the ITU decide to relax this restriction. I've wanted to do this since I was a kid, so I decided to go for it. I knew all that basic electronics and high-school physics would come in handy one day.

Since I'm a little unclear on the nomenclature (and trying to re-remember all those acronyms) and how amateur radio and CW has changed since I was a kid, I'm a little fuzzy on the best way to approach physically keying Morse Code.

Specifically, there are a lot more choices of how to go about actually making those dits and dahs now, and there seems to be as many opinions on the "best" way to do things.

As a raw beginner who has no intentions of being a speed demon, is a plain ol' straight key good enough? Does it make any sense to learn on a single or "iambic" paddle even for 5-10 WPM use?

Based on my research, it appears that to actually send/recv CW, one must have (or it helps to have?) a transceiver that has a CW "mode." Is my assumption correct? I'm not entirely clear on why CW would be a mode (i.e., it is often listed in specs along with SSB), other than a pretty good understanding for how signals can be modulated.

Finally, if I do get a starter transceiver, I either have to have one with a built-in keyer, or supply a keyer myself. True?

I understand the limitations my Basic qualifications would have. I'm just thinking into the future, and planning on getting a transceiver that goes down into the 6 (and possible 2) metre bands. As I gain experience and qualification, I can introduce myself to the HF bands.

Thanks for listening.

At the lower speeds -- a straight key is good enough -- but tiring after
extended QSO's.
A single or iambic paddle is worth while learning as you increase speed --
it will be easier to use than a straight key.
And the electronic keyers allow you to send more precise proper code than
many Hand keyers.

A single paddle is easy to learn -- much like a straight key. Iambic takes
some learnin but most will recommend it.

Most modern rigs have the CW "mode". Older ones have a BFO which allows you
to hear an audible beat tone.

It is common to specify the method of transmission as a "mode". There is a
place on QSL cards for "mode" CW, SSB, FM etc
>

True. Many new rigs have the keyer built in. Otherwise there are several
outboard keyers available -- older ones on e-bay -- look for a Curtis Keyer.
For a new one look at the K1EL Keyers at URL:

I ordered mine over 8 days ago and so far not a word from qrz.com except an "order confirmation" on Dec 25 and a charge to our CC of course. The "new CD" was advertised as "available now" on the web site.

Be very careful which version of Morse Code you learn
from encyclopaedias!

A few years ago, a couple of guys turned up at Portishead
Radio to take the 12 WPM test and were failed when it came to
sending because they had learned from an old encyclopaedia
what was the old Yank landline code!

Why not address this to "QRZ.com", rather than spamming several

Heh. I'm assuming that I'll need to learn International Morse.
American Morse isn't very common, is it?

I figure I'll learn to read by listening in on the beginner frequencies
out there. I've read some stern warnings about touching a key until I
can read relatively accurately. Well, I can pick out "CQ" as of yesterday.

I do have a bit of confusion about "Farnsworth" and friends, which I'm
slowly clearing up by reading some online refs.

That's a start indeed.

Other letters have distinctive patterns that can be associated with
words or phrases: "Here comes the bride" for "Q", "Aladdin's lamp"
for "L", and so on.

You might want to build or buy a code practice oscillator. You'll want
a key eventually, of some sort, and a straight key + CPO will let you
develop the muscle-motion patterns for sending low-speed Morse.

After that, it's the old matter of how you get to Carnegie Hall:

"Practice, practice, practice".

I tend to think of Farnsworth-style Morse as fast letters in slow words.

It depends what you call "ideal." To maximumize signal to noise ratio by matching the receiver passband to the spectrum of the transmitted signal, you can figure it out this way:

1. Find the pulsewidth (=T) of a 25 wpm "dit" and decide on a bandwidth to pass it equal to BW= 1/T.

2. Then determine the rise and fall times from Tr=.35/BW.

3. To convert WPM to pulsewidth you need to know how many dit elements (baud) there are in a word. Note 1 baud=T. The standard morse code word is "PARIS" and it has 50 baud so if you send 25wpm you will be sending 25 x 50 = 1250 baud per minute. So one baud=60/1250 = .048Sec=T.

4. The bandwidth to pass it would be 1/T = 20.83Hz. (Note, this seems low.)

5. So the 10%/90% rise and fall times should be Tr=.35/B = .35/20.83 = 16.8mS.

6. If you try to build a circuit to shape your signal to this rise time, it will probably sound mushy and there will be a lot of intersymbol interference (ISI). A better compromise is to have some filtering in the transmitter and some in the receiver. Usually very little is used in the transmitter to accomodate different code speeds with one filter. So the bulk of the filtering for signal reception is in the receiver.

7. Now the purpose of the transmitter filter is only to reduce the transmitter spectrum so that nearby signals will not be interfered with. Key clicks are the result of the transmitted spectrum exceeding the receiver bandwidth (unsymmetrically), causing what is also referred to as "rabbit ears" in radar detection terminology. The standard communications voice bandwidth is .3 to 3kHz or 2.7kHz. Assuming this is twice the baseband spectrum then the baseband spectrum must be 1.35kHz wide.

8. Applying the Tr=.35/B rule now yields Tr=259microseconds. This will result in no clicks heard in a .3-3kHz SSB filter centered on the cw carrier. However there could be key clicks heard depending on how the receiver is tuned.

9. Don't ask me what time it is; I forgot how to make a watch (other than a digital one..... :o)

I plan on building a crystal radio and need to get some 1N34A diodes. (I figure about 50 would last me a lifetime). Can anyone recommend a good supplier who has reasonable shipping charges? I see a bunch of people selling them but I don't want to spend more on shipping then I do on parts.

Also does anyone know where to get the old Quaker Oats containers? The ones I see in the stores have plastic tops.

Thank you for any help you can give me.

That is the problem with buying small parts. The parts are about 10 for a
dollar and you pay for the small ammount shipping an handling. Try e-bay.

Right, thanks. This is what I thought, but needed confirmation from someone who knows. Right now I'm at a point where I got a pretty good handle on amateur radio in the abstract, but there are some specifics that I've had to dig around for on the beginner pages.

I'm just thinking ahead to when I'll be starting CW training; I've read some screeds that suggest I just start with a keyer and a paddle (of some sort) because that is where I'll end up anyway. This seems reasonable, even if I have a rather romantic idea of hand-made dits and dahs with a straight key.

It is a cheap alternative, though, and I'm thinking that learning good (enough) rhythm and timing will serve me well in the future. On the other hand, I'm a musician and computer programmer and appreciate how proper equipment can minimize terrible damage to nerves and joints.

If only for this reason I'm leaning toward a single-lever paddle. The minimal side-to-side motion /seems/ healthier, and I'm not sure I "get" the iambic squeeze method. Hearing it described makes my thumb joint hurt. I guess the notion is you can use double-lever paddle like a single until you want to introduce the squeeze method. Like I said: only thinking about the future.

I know this makes me sounds like a complete newbie and everyone has heard this all before. Please forgive my mutterings. In my defence, I'm quite excited about amateur radio, like I was when I was 10 years old. My SO doesn't really understand why I'm doing this. I don't talk on the phone very much, or use the internet to "chat" at all. She's puzzled why I'd want to be a "ham" and talk to strangers in even stranger code.

She has a point, I guess. Perhaps that's a subject for a future posting. Thanks for listening.

Many Hams have a straight key and paddles/keyer as well. It is fun to send
with a straight key, The ARRL sponsers Straight Key Night see URL:
http://www.arrl.org/contests/rules/2005/skn.html

Straight keys are so cheap -- see e-bay -- that you might start there and
get the paddle later.

It is an exciting hobby -- one can get into emergency service, work
satellites, try the digital modes like PSK31, talk with Hams world wide,
build and experiment, and much more.

You're an Extra and need to ask this? Come on, I've only (previously) held
a Tech Plus and know that 12V is less than 16V and 100ma is less than 500ma!
Man, when I go to take my elements I just may go straight to element 4 -

Hi Jim and thanks for the reply. It is more than just a numbers thing. The ICOM website says to use a buffer if you are using a "non-Icom linear". They don't bother to specify which non-Icom amps need a buffer . Obviously the specs for each certain ly indicate no need. I have had some hams email me saying to use a buffer "just in case". I suppose it couldn't hurt.

Good luck on the license upgrades... 73 / DX

It shouldn't take more than a couple of dollars in parts to build you own if you feel it's necessary. All you really need is a 12 volt relay. In the Icom 756 Pro III manual it says to use a larger relay if these parameters are exceeded (pg. 17).

I (in a former job), was a MARS director for one of the largest USAF bases in the US (employment wise it was the largest and the sixth largest employer in the state, Damn, I miss DARA and the Xenia groups). We used commercial solid state rigs (in our case TS-440's) to excite Rockwell linears. We didn't have any troubles operating at much higher (and closer to the max) voltages and sink currents. I also miss the HyGain Discoverer73 we put up. 3 elements on 40 meters (well, just outside the band) and 1.5 kw PEP. We were heard where ever we wanted to be.

I am very sure that QRZ.com is very much aware that they must not charge
your credit card until shipment has taken place. The fact that they did
tells me that you need to report to them that nothing has been received and
ask them to trace the shipment. They are just too reputable, a break down
in the shipping path has occured.

How is it possible to issue a licence to anybody much under the
age of 11 years when he or she will not possess the mathematical
skills that are necessary to transpose algebra?

Such skills are essential to deal with the very fundamental aspects
of our technology, which are to calculate resistances in series and
in parallel and to calculate the capacitance necessary to bring
a known inductor into resonance.

Here, in Britland, we have licences issued to persons of the age of 8 years.

How can such people be though of as Radio Hams?

The answer is that they cannot, and we should take a stand against
what is the thin end of the wedge of CBisation and boycott in its
entirety the gangrenous degeneration that is the M3/CB Fools' Licence
scheme. There is nothing personal nor elitist in this proposal, for all
comers are welcome to show their mettle by tackling and then passing the
RAE and then constructing their own transmitters to come on the air.

If we do not make a stand now, then we may well find in a few years that
the only transmitters that any of us are allowed to use will be those
purchased ready-made from an emporium, and Ham Radio will
have degenerated in its entirety into a form of multi-band CB.

How much algebra do you need to study propagation effects?

Maybe you were not good at that age but some children love a challenge and maybe that's why they now
have a pass certificate

Do you actually have a qualification or a licence? (not a cb one)

I seem to recall the rantings of an old college who had a similar logic. He thought that to use a computer, people should pass a course on binary and Boolean algebra. I think new users should definitely go on a course but not on binary or Boolean algebra. :)

Hi Rick,

Mouser has them as NTE replacements at .41 ea. The shipping should not be
too bad on these. Would be worth it if you could add some other parts to
your order.

http://www.mouser.com/index.cfm?handler=displayproduct&lstdisppproductid=411183&e_categoryi

Also, look for 1N270. These are also GE devices and I think they are more
available.

Perhaps you are unaware of the gangrenous degeneration that is
the M3/CB Fools' Licence scheme whereby you can gain a licence
only two days after first hearing about Ham Radio? The "pass
certificate" that you get shows that you have been "examined" on
how to operate a radio; but it is completely meaningless because CBers
don't have to be examined to get the same privileges to use their
radios nor do infant-school children have to be examined to be
able to use their GSM phone. The examination is a complete farce
and does not include any algebraic manipulation. In any case, the
licence is exactly like a CB licence or a subscription to a GSM phone
service because you are forbidden to design and manufacture your
own transmitters. As such design and manufacture is the essence
of Ham Radio (whether you choose currently to exercise that
right is immaterial) then the M3/CB Fools' Licence is not
a Ham licence by any stretch of the imagination.

As to what qualifications that I may, or may not, have, if you wish to
discuss such things then it would be appropriate for you to introduce and
discuss your own such achievements in the first instance.

So, do you actually have a qualification or a licence? (not a cb one)

[1] The activities of specifying, designing, constructing, aligning, testing, modifying, repairing, or owning a transmitter can be undertaken by *anybody*.

[2] The Amateur Licence is a licence to establish, install and use (that is, operate) a transmitter.

[3] There is no such thing as a 'ham licence'.

A little off topic, but have you checked out the Xtal Set Society? If you're going to get into crystal sets (a great idea!) then you'll probably want to check out they're newsletter and site. Their part's aren't the cheapest, and I would suggest the other suppliers mentioned in the thread, but the source of information is great.

As for the Quaker Oat containers, do you have to have Quaker? I've found many generic brands in my area (great for my use since they are cheaper, and I don't eat that much oatmeal, but do use them for xtal set ideas from time to time) that still use the older style container. Try your local "dollar" stores and such.

Good luck with the project!

We have a 7 year old Extra Class Ham in this country. (Not addressing her situation) Here there is a pool of questions issued by the FCC and administered by Volunteer Examiners for the exams. The questions and answers are both available to the public. One can memorize the exam questions and answers enough to pass the exam.

Then, again, there have always been child prodigies. Kids are bright, it is our schools dumbing them down. Kids raised in families who work in certain fields and teach their kids what they know learn these kinds of things. A child raised by an electronics tech that takes the time to show the child what he is doing will pickup the essentials more quickly than others.

When my daughter was only three years old, we played games where she had to spell words, before her mom and I divorced, she had learned half the alphabet at better than 5 wpm, enough at that time to pass the tech license exam. She learned many Q-signals as well.

As for the math, if they can learn the specific formulas and how to enter them into a calculator, they can pass the test. You don't just drop the exam onto a classroom of third graders and expect them to pass, but if you had a class for those same third graders specifically on passing the exam, many would pass with flying colors.

There is a 5 year old Extra Class Ham in our town (Not addressing

When my daughter was 2 years old she was sending and receiving

was enrolled in colelge and was expected to complete her degree
in less than six months.

The question at hand was how can they get a license without knowing
algebra.

I was not discussing the details about how much electronic theory they
understand to such a degree as an electronics engineer.

Many many adults use the question and answer guide to get their
license. Kids are quick learners. They can learn answers more
quickly than us adults.

Airy, a semi-serious question. I'm here only out of mild curious amusement.

What do YOU think is the purpose of issuing a radio amateur licence?

50 or 100 words should be sufficient.

Then you can get back to basics. Help yourself to a free program. Algebra
is not needed.

A straight key is the BEST WAY to learn Morse code at any time.

CW means Continous Wave. To make it into something that can be deciphered
it is "keyed" on or off. Thus it is ON/OFF Carrier. The dits and dahs are
simply short or long lengths of the carrier interupted with the correct
space. As in; Dih Dah. Which is the letter A.

In order to utilize this mode (CW) on the air the radio must have this mode
capability. And a place to plug in a key, or keyer.

>

Yes. But if you use a "straight key" or a "bug" you do not need a keyer, either built in or otherwise. You make the Di and Dah by yourself. With the exception of a "bug" that you make the Dah by yourself and the Di is made by a mechanical springing of the arm. But thats another subject.

The rigs available today have six and two meters on some models. ANd they all have CW also.

yes. I have known many children (my nephew being one) who could, by that age (given a little pre-teaching) master some of the concepts of algebra. it a lot of ways, its actually easier than remembering math tables. same goes for calculus....

only when it comes to building antennas anymore. not too many kit builders out there working with surface mount tech these days. the notable exceptions are: antenna tuners, power supply circuits and amplifier circuits.

Not a lot.

Moreover, many 11 year olds have been taught basic algebra. (Admittedly not always in the best formal methods but, in general, they can often do it.)

Of course, this maths argument is often offered by those who don't understand the physics, believe in "heat bands", "negative frequency", and can't understand why a clockwise rotating vector in the complex plane doesn't prove the existance of 'negative frequency'.

I'd much rather people understood the physics, for example how an enhancement mode FET works.

Just look at the confusion missing a term in an expression can lead to: 6 years in the search of Big K .....

Oh well, it keeps us amused.

I just purchased an Icom 207H dual band mobile
and while it seems to have good sensitivity I have
noticed several minor problems with it and if anyone
can help I would be really appreciative.

1) The squelch needs to be turned all the way past 12 O'Clock
in order to squelch out normal noise that would probably be
knocked down at 9 or 10 O'clock with any other rig, at that
point it begins to reduce RF input, so I need to either find a
way to strengthen the squelch or eliminate the RF reduction
feature that is engaged when the squelch is placed beyond
the 12 O'Clock position.

2) The audio when transmitting is a bit low unless hold the mic
up to mouth at about an 1". That is unusual for an Icom, usually
one must back off the mic due to the hot audio, I need to find out
how to increase the deviation slightly.

If anyone can help I will make it worth your while!!!!!!

Thanks,
Patrick

My Yaesu FT-5100 went dark.
Seems odd that all three lamps should have gone bad at once??
Yes, I know about the key sequence to adjust brightness. I'd been
running it very dim. It's in the shack, so vibration shouldn't be
an issue.

I did some quick math and decided that you can have almost a watt
dissipated in the brightness control transistor. Is that a weak link?

Can someone supply dimensions for the required replacements?
Available info indicates they're inside the cover for the LCD
and very difficult to get at. Would be nice to have the bulbs
in hand at the start. Scan of the picture from the service manual
showing lamp locations would also be helpful.

Anybody got experience replacing the incandescents with leds? I'd much
rather apply an extra led or two if I didn't have to disassemble the
lcd. Doesn't have to be pretty, just readable.

Suggestions?
Thanks, mike

The Iambic is harder to describe than to use! Don't let the description scare you off. The Iambic is very easy on the wrist and hand after you get used to it

Personally, I would suggest starting with a straight key. It will help you at the start because you won't be thinking about "which paddle do I hit now?"

But you can train even before you get any type of key. I recommend NuMorse code training software. Pretty simple to use, has groups and QSO training, and plenty of adjustments for Farnsworth spacing. (sending the code at a higher text speed, but slower word speed)

It is available as shareware, and you can learn the code enough to pass Element 1 without registering. I suggest registering your copy though.

Welcome! Being a newbie is one of the most fun times of any hobby/avocation. There is an enjoyment in putting together a station and antenna that will allow you to talk across the world with the power of an ordinary light bulb or less.

One does not have to be a talker to be caught up in Amateur radio. It's about so much more than just talking.

Nah, she doesn't get it. My XYL used to question my hobby. I noted that maybe I should give it up for hanging out at bars and carousing with strange women. At least she knows where I am at night! 8^)

Simple: They pass the test - they get a license. A few years ago, my testing team had a 9-year-old girl pass her EXTRA class examination (U.S.). This was when 20wpm CW was still a requirement. Do I really care HOW she passed? As long as she wasn't cheating, no, I don't care.

So? The worst that entails is division; usually leart by the 3rd grade.

Since when is maturity a requirement of the license?

And I'll let you play with your "ham radio." To the INTELLIGENT world, it's AMATEUR radio.

"Ham" is a derrogatory term, originated first in the telegraphy industry and the theater to mean unprofessional. The only reason "ham operators" continue to refer to themselves as such is their own ignorance of the historical origin of the term.

Much the same here- maybe not the exact topics but certainly comparable
science.

These days more likely to be the odds of winning the national lottery or
finding a method to pick winning numbers.

It is an interesting misconception that engineers 'do math(s)' all the time.
Maths is an essential skill for an engineer, but many will never need to do,
say, an FFT after leaving university. A firm foundation in physics is far
more important and more likely to avoid gaffs like stating that a gear chain
"transmits movement but not power".

Have successfully replaced 2 lamps some years ago. Bought them at
www.conrad.com, part # 727091. 6-12V 20-40mA, 3.1mm diam, 6.5mm long. The
job took me more than an hour, but it can be done without being an expert in
micro-surgery.

There has never been any need for "fresh blood". Ham Radio has
always attracted those who are self-motivated technically, and, as such,
calls into question firstly the need for any training courses, and secondly,
because the RAE was tackled and passed by otherwise-unqualified
self-taught 14-year-olds, there was never any need to lower the standards,
in the first instance with the Novice, (now "IL" or "Sick") and latterly
the Fools' Licence.

I'd pick you up on one point, however, the "hobby" to which the
M3/CB Fools' Licensees are attracted is CB Radio. Ham Radio is not
a hobby, as such, it is a whole-life technical pursuit. Ham radio has never
been
dying - there has been a year-on-year increase in the total number of
world-wide Ham Licences.

That the main protagonist, or L.I.A.R. needs to resort to rather
silly and childish sneering without replying to the main points says
more about the M3/CB Fools' Licence scheme being a gangrenous
degeneration than I ever could.

In particular, in a discussion about complex arithmetic, it was
Mr.Reay who asserted that e^(-jwt) was a function that "decreased
with increasing time".

It is the essence of the gear train in a clock to transmit
movement rather than power. The workings of a clock
are so constructed to minimise consumption of energy (such
as the crossing-out of wheels to reduce inertia) in
recognition of this.

Such energy as is transmitted to excite the pendulum is
released in small portions, with the gear train stopping
motion competely in between times, and so cannot be
considered to be transmitting power.

Other engines which are considered to deliver power,
petrol, and multi-coil electric armature also
deliver energy in a pulsed format, but the engine moves
continuously.

In terms of gaffes, Mr.Reay might like to learn how to spell
the word, "gaffe" correctly?

I'd like to see Airy's maths to prove his point, especially if he could
apply it to a pulse jet engine. Now, if he could make that work, he could
give the UK a tremendous lead in aircraft technology.

I wonder if the following comment was limited to the maths and physics
exams:

The childishness of both Mr.Reay and of FRANCES
TURNIP-SMELLY seem to know no bounds.

Mr.Reay, in particular, seems to display a weird
trait of insecurity.

Do the gear trains in clocks transmit any power
to speak of? No they don't.

They transmit movement to the clock hands.

Mr.Reay's obsession with sneering about matters that he
has merely disagreed with, matters which may
only reflect a difference of opinion, makes him seem to be
really insecure, especially as he has a history of gaffes himself
(including the spelling of, "gaffe") in this NG, for
example his _BOASTING_ that he knew _REG_ Varney
as G5RV, a classic case of name-dropping becoming
clanger-dropping!!!!!

Someone, who, for example, made a comment that
e^(-jwt) was a function that decreased with increasing time
perhaps ought to gain the title of GAFFE-R to go along
with that of L.I.A.R.!

Perhaps Mr.Reay's biggest gaffe was his assertion that he
was against a Morse test for access to HF, and yet, when
the Morse "Assessment" came along, he jumped at the chance!

Mr.Reay must be really desperate to score points if he
rejoinders with non-sequiturs such as the pulse-jet below.

All jets rely on the considerable momentum, either of
their impellers, or of their forward motion to keep
functioning and are thus not a good analogy for the
train of wheels in a clock, whose primary function
in life is to transmit motion and not to transmit power,
and which come to a complete stop between ticks.

It is noticeable that Mr.Reay has desperately side-tracked
this thread away from the gangrenous degeneration that
is the M3/CB Fools' Licence scheme - an almost tacit
admission by Mr.Reay that licensees under that scheme
cannot be thought of as Radio Hams by any stretch of the
imagination.

To move anything requires energy.

> Someone, who, for example, made a comment that

You are hung up in the magnitude when, in this case, it is the angle that is of interest. I seem to recall you disputed the idea of complex division about the same time, maybe if you master that you can do the ALGEBRA to understand the comment.

Start with the identity e^jwt = cos wt + jsinwt

Think how the angle turned through by the vector varies with time (hint, it gets bigger, more +ve, remember in the complex plane +ve is CCW).

Now allow for the -ve sign in the exponent, use the complex conjugate method to handle the division (remembering to apply 'difference of two squares' and the fact that j^2 = -1).

Take your result and think how the angle turned through by the vector varies with time (watch your signs and remember that things getting more -ve are decreasing).

If you (finally) master this, you may then see where your "negative frequency" notion comes from.

OK, lets us se YOUR maths model of this wonderous machine. Please do tell us where the kinetic energy the hands enjoy while moving comes from and for how long they move.

We can then see how many Joules are converted to kinetic energy and at what rate this happens.

Indeed it is. It shows a remarkable lack of understanding.

The confusion seems to arise from a (lack of) understanding of the
escapement and the physics of energy, power, and forces.

A clock or watch escapement gets an IMPULSE from the going chain (of gears).
(In some escapements there is even an defined 'impulse pin' on the
oscillating balance wheel.)

In mechanics, an IMPULSE is measured in Newton seconds (Ns), and is a force
applied for a time.

A force applied for a time to an object is said to 'do work' , in this case
imparting kinetic energy.

Power is the rate at which work is done.

If time is extended, the rate at which energy is transferred is less (the
energy transferred is the same), but there is still a 'transmission of
power' to use Airy's term.

There also seems to be some confusion over inertia and kinetic energy, maybe
when we are treated to more expositions of Airy's Laws of Physics (for which
a noBel Prize is almost certain) we can deal with those as well.

I think Reg is a "REAL RADIO AMATEUR", he experiments then publishes the results on the web, provides software for like minded types, helps newcomers, and in his own particular area of study is an expert. This is a mufti faceted hobby and has many threads, some enjoy operating, some construction, some study propagation etc. Many on here deride the new "M3", my personal view is it's a good idea badly implemented, It would be better if we had followed the US scheme, more scope for progression. The CW test had no real validity as a means of access to HF, only valid as a means of access when in use by the primary user of the band. I first became interested in radio at the age of 8 and could have easily passed the M3, due to a G3 telling me the RAE was rocket science I only managed to take the test at uni after seeing a sample paper. I think this is what upsets G4SDW, if it was available when he was a lad he would have taken the opportunity and no doubt progressed over the years as he did from the G8 to the G4.

P.S. Thanks for the various programs reg. More people should publish their work on the web, so much knowledge goes up in smoke.

I got the strong impression that Bean's expostion on this topic is

A clock uses energy, the design aim is to use as little energy as possible
to achieve the end result. in a mechanical clock the aim is to provide
accurate motion with as little loss as possible using low loss jewelled
bearings, aerodynamic movements and relay on the Q of the movement. Not
bloody rocket since.

Hello all...

I currently run an air traffic control live streaming audio feed from Philly airport, about 16kbps, and due to some antenna issues I need to move it. I'm trying to find a site near the airport that would donate some space for the box, as well as a tiny amount of bandwidth.

Anyone within a couple miles of the airport that would be willing to host it? Or can anyone suggest a business that is amateur friendly near there that I might be able to approach?

Thanks for the help all.

Radio Free Colorado - A Successful New Internet Radio Station

NOTE: NEW CONNECTION URL'S GIVEN AT BOTTOM OF MESSAGE!

Radio Free Colorado
What Radio Once Was

Radio Free Colorado, a non-commercial Internet Radio Station, plays a lot of music you probably haven't heard in such a long time and have since forgotten how much you love. It's such a thrill when a forgotten song comes on and you say "Hey, I love this song" and all your fond memories of it come rushing back to you.

Our "Genre" (what kind of music we play) is VERY diverse. We play Modern/Classic Rock, Progressive Rock, Alternative (Modern and Retro), Pop, Billboard Classics, and Top Radio Hits from the 60's, 70's, 80's and 90's. We also play some Ambient/Instrumentals. No Rap or Hip-Hop, Classical, Jazz or Swing.

Radio Free Colorado streams music LIVE over the Internet using a high-fidelity 128 kbps MP3 stream. We use professional sound processing equipment to achieve a sound quality which we believe is superior to virtually all other 128 kbps streams.

Any computer with a DSL, Cable Modem (or faster) Internet connection that has a download speed capacity of at least 128 kbps can tune in.

Virtually all MP3 music players are capable of receiving live MP3 music streams over the Internet. Any music player compatible with streaming MP3 audio can receive Radio Free Colorado's broadcast.

Our MP3 broadcast stream is compatible with virtually all music software programs and works with PC's running Windows, Apple computers running OS X and other machines running Linux or Unix.

Radio Free Colorado is NOT beholden to anyone. There is no pre-approved "playlist", no one tells us what we can't play. Listeners can, however make song requests and if we have it we will play it.

I went through a similar event.....a free computer was promised.
Like an idiot, I got sucked in. Once I got to the website, I was instructed
to apply online for an Amoco credit card. With my income/debt ratio of 15%,
I was advised that I didn't meet the requirements for the promotion because
of my high income/debt ratio.
It would appear that this is a scam that exists only to add people's

How can you possibly hold down a job as a _MATHEMATICS TEACHER_
when you make such a blunder as you do below?

The magnitude of a number getting more -ve is INCREASING.

Perhaps if we offered you two power supplies with voltages of
10V and -10kV, would you feel safer handling the latter because,
in your estimation, it would represent a much decreased voltage
than the former?

-----ooooo-----

Your response is useful because it serves to illustrate the bad
grasping of elementary mathematics that is represented by the
gangrenous degeneration that is the M3/CB Fools' Licence scheme,
and serves to illustrate why those who hold, or who have ever held,
a licence under that scheme cannot be thought of as Radio hams by
any stretch of the imagination.

In a thread upon the standards that need to be maintained
if Ham Radio is not to degenerate into multi-band CB, I wonder
why it is that the main protagonist of the gangrenous degeneration
that is the M3/CB Fools' Licence scheme can offer no cogent
and apposite remarks to the discussion, but resorts to sneering,
and sneering upon matters that he does not understand, because
when challenged upon his sneer in the past, he has run away
and hid?

Can it be that the L.I.A.R, our very own GAFFE-R, knows
that he is a loser on a loser's mission, but cannot admit to it?

As he is someone who spoke out against any form Of Morse Code
testing as a means of access to HF, but leapt at the chance to do
the Morse "Assessment" (along with his much-needed crib sheet)
when the standard was reduced to his level, perhaps he is definitely
a loser?

There is no confusion on my part whatsoever. The purpose of the wheel
train in a clock is to transmit motion. There is no power to speak of
being transmitted., and that is reflected in the choice of cycloidal
teeth forms where there is reduced action between the teeth.
For gear trains designed to transmit power, the involute
form is used, where the root of the cogs is broader to resist fracturing.

I don't think that anyone would ever dispute that gear trains transmit
both motion and power, and that you feel the need to pursue such
a pedantic course of trolling does not reflect well upon you. Indeed, it
might be observed that you have tried by your trolling to deflect
attention from the purpose of the thread which is to seek to maintain
standards in Ham Radio thereby suggesting that you are an ambassador
for CB Radio and not Ham Radio.

The prime purpose of a clock wheel train is to transmit motion; very little
energy is
available and this is reflected in the choice of cycloidal tooth form. The
prime
purpose of a gear box in a car is to transmit power and this is reflected
in the choice of involute teeth, where the loss of energy in the gear train
can be tolerated.

Your essay below adds nothing to the discussion, but I am pleased to
see that you are finally able to learn something. What a pity that you
did not apply this skill to the 12WPM Morse Test when it was available
to you; you had to wait for the standards to be lowered to
your own level in the Morse "Assessment" wherein you even had the
use of a crib sheet to prompt you!

That you terminate your posting with what is a rather silly and infantile
jibe serves very well to illustrate the decline in standards that is
represented
by anyone who holds, or who has ever held, an M3/CB Fools' Licence - Radio
Hams have traditions of gentlemanly behaviour with seemed doomed to be
lost on you forever, and you thereby illustrate why we should take a stand
NOW to seek that the M3/CB Fools' Licence should be abolished.

You've added the word 'magnitude' so I assume you don't understand the
concept still.

Let us try this example:

Tom has £100 and earns another £100. He then writes a cheque for £400 to
buy a car.

Ben has £100 and earns another £100 but doesn't spend anything.

Who has increased the amount of money they have?

(Pupils who struggle with the concept of -ve numbers usually find a number
line helps. You may find it helpful.)

All in all, you should consider this a learning experience, your recent
reinterpretaton has destroyed your justification for -ve frequency.

Blimey! If you, as a maths teacher, have to ask someone else in

standards in schools are in such decline!

Indeed, as you are also the L.I.A.R (Lead Instructor Amateur Radio for

No wonder the mathematical appreciation of the CB-style licensees are

Your response is a non-sequitur. If you ramble
on with such garbage in your capacity as a L.I.A.R,
no wonder that the mathematical skills of your CB
pupils are so poor.

And what of your sexual perversion that you published gratuitously
into this NG over a 15 month period? Following on from the
way in which Ian Huntley kept his perversion quiet in order
to get a job in a school when he murdered Holly and Jessica,
did you declare your sexual perversion when applying for your
job as a maths teacher?

I say that because of your very public sexual perversion that
you are unsuitable to be a teacher of any sort, whether in schools
or as a L.I.A.R, and because of your gaffe ("gaff" to you) about
e^(-jwt) that you are unsuitable to be a maths teacher.

If we were to carry Airy's theory to the ultimate conclusion, it would be
possible to for a clock work car to climb a hill expending zero energy,
provided it moved only in short steps and average speed was low.
Presumeably, if the car then rolled quicky down the hill, the potential
energy could be recovered (within the limits of the laws of thermodynamics).

Is this the solution to "global warming" or is it just sort of misconception
that stems from a lack of understanding?

I wonder why it is, in a thread concerned with the

Why is it that you have no cogent arguments that are

e^(-jwt) is simply another way of writing 1/(e^jwt) which
is a value that decreases as t increasing. (You can check this a basic
maths book covering indices. I suspect Gareth needs a refresher in basic
maths- this is taught Key Stage 3, maths in the UK so he needs to find a
school that will let him sit in with some lessons for the under 15s.)

Indeed there isn't, but the reference was to indices, not complex number
theory.

I requote for you:

Use of negative indices is on the SATs paper taken at the end of KS3.
(Fractional indices are also included.)

(If nothing else, without -ve indices (eg 10^-3), Standard Form (aka
Standard Notation or Scientific Form) couldn't be understood- also in the
above SATs papers.)

Now you really are squirming - squirming, spin-doctoring,
side-stepping, bullshitting and downright lying in the style
that earned you the epithet, "L.I.A.R.".

You conveniently forgot to requote, " e^(-jwt) is simply another
way of writing 1/(e^jwt) which is a value that decreases as t increasing.",
which is the gaffe ("gaff" to you) from you which is the context
of this current side-track of yours.

That you claimed that the mathematics to support your statement was
fully covered in "Key Stage 3" indicates that you were making a statement
about amplitudes only.

As the original reference to e^(-jwt) was in a discussion about complex
cisoids, you broadcast your ignorance by not recognising the meaning
of the "j" term.

I wonder why it is that someone who _BOASTS_ of his own
perceived self-importance in the training of prospective Radio
Hams persistently resorts to rather silly and infantile goads?
(Particularly on the topic of, "Big K", upon which he repeatedly sneers
and then runs away to hide). Does he lack the self-esteem that
is appropriate for someone in such a position, and display
instead a deep sense of insecurity which results in his
bullying-like outbursts?

How is it possible for someone who persistently goads in the manner
that does Brian Reay, to run screaming and sobbing to the plod pod,
seeking a shoulder to cry on, when his childish goading elicits a
response that he doesn't like? What would his school pupils make of
his "telling tales to teacher"?

How is it possible for someone like Brian Reay to hold down a
job as a school teacher when he has a history of sexual perversion
that he has gratuitously published into this NG, a NG to which
children have access?

What would his daughters Victoria, Rebecca and Michaela, daughters
whom he has introduced to us not once, but _TWICE_ through his
vain boasting in the pages of Bad Con, make of his public but infantile
behaviour, once they reach the age at which he can no longer censor
their Internet access? Would they find a disparity, hypocrisy even, between
the standards that he imposes on them as they grow up, and the example
of his own disgraceful conduct in this NG?

Not at all, re-read the full post you copied and pasted from in an attempt
to miss-represent what I said.

I suggest you re-read the post you edited- you will find references to

Either way Airy, unless the rest of the world has it wrong and you are
right, I don't think I'll worry further on the topic.

Trick with examples is to:

1. Ensure the numbers are easy enough for the student to handle. (ie small
numbers so as not to stretch to many brain cells)
2. Pick a situation they are familar with / can relate to.

Maybe for Beanie the example should contain more familiar items: sheep,
cans of Special Brew etc. Units of ï¿½100 may be difficult to visualise
since that must be about a year's dole money.

I wrote the letter following "Jew Boy..." the day a single complaint
arrived to the radio station, with the threat that the ADL would soon
be contacted. The letter was provided in advance of the next day,
of the time scheduled for the complainant to return for a recording
of the questionable broadcast. The station manager refused to give the
complainant my letter, and insured me that I would no longer be allowed

to produce a show for our community. Is this fair to our Jewish
brothers
and sisters? Is this fair to You?

Paris "And then what if you saw, all of the things thats wrong,
would you stand tall and strong? Or would you turn and walk away?"

Johnny

Jew Boy Johnny and the anti-Semites

- or -

"The Zionist Conspiracy"

Monday, January 31st, around 3 pm, I called the station manager to ask
how my afternoon recorded broadcast went, and to discuss the new
week's tentative guest spot with an update regarding the falsely
maligned, Mr. And Mrs. Benderman. The station manager informed me
my phone number had been misplaced, and was managing with stress
trying to put together an apology letter to a single individual, who
came into the station, while the interview was still running, to
demand action be taken regarding the anti-Semitic broadcast that he
was certainly going to report to the ADL about. I told her the Felton
interview itself was about bigotry through the demonization of the
innocent, what the Jews of world war II suffered through, and, that I
was a huge defender of religious Jewish teaching. I told her, to
offer the individual a chance to publicly speak regarding the issue,
with me, or by himself regarding Felton, to try getting specifically
to what has got him so much, by himself, upset about allowing my voice
heard defending Jewish rights within our community. She told me that
she would likely, none the less, have to let me go to appease the sole
complainant, for what if a lawsuit should result? I told her to
consider her options, reminded her that it was only one single

individual who hadn't even heard the show's context, and that the broadcast in every other way had been going well, doing good. She told me she was very busy, and said goodbye. Then a short while later, phoned me back to ask if I would write a letter, and have it at the station next day before the complainant arrived for his copy of the broadcast. I said sure, said it would be a great challenge, and proceeded immediately to do just that. The next day, I contacted the station to ask if my arrived letter was forwarded to the individual, and was informed no, he didn't receive it. It wasn't the apology the station was looking for, and my show was now officially terminated. I told her it was very unfair to me, to not allow him to read my formal response, and that I couldn't in good conscience, back down from defending my rights to be heard on this issue, or to allow us, as our public, to hear the complainant's actual complaint about my, freedom for all broadcast. She said she would try to get the letter to him, but that the show was over. Case closed.

Stand up for Jews, and look at where it gets you, Jeeze.

Let us not put aside, the station manager's legitimate concerns. Who has the money or the time for a frivolous lawsuit? Why do expensive independent research, when the Bush Administration can hand us all the free news they want us to have directly without any costly questions? Saddam wouldn't let the inspectors in, right? Why risk standing up for someone else's rights, when doing so, will get the (anti) Jewish-Defamation League calling you an anti-Semite (Semite=Arab) for communicating some understanding with Felton? Felton, is bizarrely quirky as interesting, for his recent book is about the demonization of the innocent, (you know? Nazi gas chambers and ovens?) and as such, we can learn from, as too, we can teach. If he'll listen. Ariel Sharon is not Jewish my friend, NOT JEWISH!!!

Open the gates, it's getting late.

John.

Greg Felton : "The fear is necessary for two reasons. And the principle
reason has nothing to do with Iraq. it has to do with the government itself.
The bush government is criminal. [...] The problem is: how do you keep
people from paying attention to this? You keep them focused on an external
enemy. [..] so they forment this fascistic hatred of a definable group of
people. So, the war on terrorism so called, is not much a way for the United

States to protect itself against it's enemy, it is a way for it to create
enemies, to justify the kind of repressive measures that would otherwise be
intolerable in peace time."

To whom it may concern,

regarding the January 31st broadcasted interview with Greg Felton.

May I, on behalf of only myself, ask that you pardon my failures in judgment,
in not allowing what I should have gave: an immediate re-dress regarding,
'who is the Zionist label?', or 'What Holocaust are you referring to?', during
the broadcast of January 31st. (bet you we can't get two Christians that agree
on everything.) However, I can offer perhaps a show centralized on a chance
to exercise your personal views, be they pro or con on where you think we
should go from here, or whatever may have you regarding said interview. Or,
if you would like, you may wish to do only, or else include, a written work
that I promise, will reach as far as the original broadcast. So, actually,
this could be a prime moment to have a dialog regarding racism, bigotry, and
intolerance. I confess, I may be unaware, and still have much to learn, when
it comes to communicating well with all others. But, I know I'm getting
better, and I'll tell you, the Justice-Freedom thing, sure seems to be our
ultimate calling.

I was not so surprised that the broadcast interview with Greg Felton would be
considered controversial, (as every show I've ever done always has), although
I wasn't prepared to hear criticism against the show as being defamatory to a
group, or groups of people. As certainly that was not my intent, but however
was the difficult subject addressed within the interview. The fundamental
teachings of Law, as it pertains to justice and freedom, along with every
legitimized religion, is that all free people should be thought of as

equals
to each other in vigilant protection. And by doing so, one would be
serving
G-d's interests. (Even if a G-d doesn't exist - an Atheist too, could
become
a proponent by understanding Jihad). Thereby insuring\realizing that a
just
intelligent life force rules our chaotic timeless universe in service
ultimately to ourselves individually. Giving us in the Torah of Moses,
``all
people are created in God's image'' teaching all peoples are Sacred.
And as
such, would be so in God's interests to defend as the innocent. While
in
eternal pursuit of happiness and prosperity for all through just means.

Under Greg's definition as being a "Zionist" conspiracy, negates the
failure
of himself personally to recognize the public connotation is too vague,
and
that Hitler's Nazi Germany, like Bush's America, is politically
expressing an
inability to represent ourselves with respect as truly worthy of fair
deliberations amongst ourselves. Sacred, every-one. (Or as in, to
rise to
the defense of those we know to be irrationally victimized as the godly
and
innocent, victimized in our un-addressed names.)

Greg "This is why the Holocaust is such a very dangerous thing to talk
about
because, it's not really understood. It's preached at us like a
sermon.
We're suppose to accept at face value what we're told about it, as if
to,
criticize it, is some how disrespectful. Much of what we know about
the
Holocaust has been propagated by the Zionists, and can be shown quite
untrue"

I replied shortly later "One thing about the whole situation is that
innocent
people were targeted for murder. End of story. That's what the war
was.
All wars are like that."

Greg's mistake I believe, centered in his Zionist labeling through an
apparent bigotry expressed, and as such, was too narrowly defining the
larger
established history of the Holocaust, as being the struggle of the
human

species in halting, the demonization and then subjugation of the innocent
millions, Jewish or otherwise. Perhaps it was strangely on his part a testimony to a real struggle we all have when it comes to identifying ourselves to others. Considering it is the exact subject matter he wrestles
with in his book writing, regarding our corporate media's perception of ignoring an innocent people's concern or cries. That said however, for Greg
to blankly criticize Greg's false construct of what is publicly understood
about the Holocaust, is to deny that much for sorrow and suffering took place
against the whole of Humanity, especially, of those who held the practiced
Jewish faith. To think the nazi regime would have the gas chambers and the
ovens, while the whole of humanity were not strong enough to communicate the
unjustness of it all to the German people while it was happening. I have
read of a recent documentary that provides film footage of nazi soldiers
committing the worst war crimes imaginable to god loving Jews, interspersed
with film from the same dated period where, the German people were living
civilized lives, left unaware of the atrocities that were being committed
against God in their names. Same as America and Canada today, with Fallujah's 300,000 People being, the undeniable example. Or, are you too, a
convinced denier of that which is fully documented? (Needless and irrational
was the indiscriminate murder of the people of Fallujah, but for to have more
American soldiers sacrificed in a conflict created by an unjust as immoral
totalitarian dictate.) The Holocaust deniers are those the same of today, who
refuse our Humanity to nationally communicate those screams of mercy, or for
justice regarding the People of Iraq to be served in our true interests as
legitimate. More than ten million Russians died fighting the evil eugenic
scourge of the "superior" nazi regime, and like those in Poland, Britain and
France, as elsewhere testified our established history, (albeit only later),

the sadistic ungodly as lawless barbarity that Nazism inflicted upon
the
general masses, went largely undeterred from our "informative"
television and
radio broadcasts. The same, almost word for word, and action for
action, can
be found in Rumsfeld's "blitzkrieg". Bush's freedom by tyranny
doctrine. Or
the criminally sanctioned unchallenged news pronouncements of a Mark
Kimmit,
Buford Blount, Steven Russell, Mattis, Allawi or Sattler, when it
pertains to
accepting without our objection, to the victimizing of Iraqis
collectively as
an indiscriminate act of criminality, like murder. As like in the
policies
of Ariel Sharon, where an innocent, haven't committed an accused crime
in
their life Christian Palestinian, is denied the earned home they worked
and
paid for, on a parcel of land shared up until recent times for
countless
millennia. My personal struggle has been to inform the public on the
"forgotten" importance of established evidence, being the only
requirement to
convince ourselves on who is a bigot, tyrant, a criminal, or a
murderer.
Will you not therefore, as a fellow humanitarian of this shared world,
speak
against those you know of, who victimize the innocent to thieve from?
Sure
you would, if you knew as much for certain about God and this universe,
or
the under reported, freed to go General Ahmad, funding the mastermind
ring
leader Mohammad Atta of Bush's 9/11 game. But will together our
Humanity
ever learn? Well, my plan is to search for guests to speak with, that
I'll
try not to offend early on. Greg knows, like the Pope knows, as every
legitimate police officer worth their grain of salt knows, as so too
does
include a great many Jewish Jews, George W. Bush used absolutely no
evidence
to substantiate his therefore, false accusations in our names against
bin
Laden, while then ardently with Cheney, worked to close outstanding
criminal
investigations regarding their extremely suspicious behavior. All
according

to his official publicly documented plan. And speaking the news as thus,
does not make anyone anti-Semitic, anti-American, or anti-Human, but
pro-Jewish, pro-Christian, pro-Muslim, pro-Justice pro-Freedom, almost
wholely human like even. Not of a long gone as lost and forgotten religious
dogma, but for now as it always has been found, a mutual respect for all life
as we find ourselves being part of. Or, so we would for Atheists, argue in
all likelihood to get to the same reasoned to be, just political decision, to
this or any another life and death matters matter.

Because the unjustified criminal war actions of George W. Bush are our
shared documented history, others, with an ulterior agenda to propagate their
weakness through bigotry or racism, will arbitrarily blame a subjective
grouping of people, instead of demanding by godly individual might, the
arrest of specific individuals who are actually responsible according to the
established as public evidence. So, now who's fault is that? We live in
difficult times. To admit weaknesses regarding our corporate news control
content decisions, is to seek a better world for our lives through stronger
open communications.

I believe the defense of the Jewish faith is found in the indivisible
properties of Creation, and who's central belief is made simpler than any
other. Hillel was asked: Rabbi, who is a Jew truly? Hillel answered, "What
is hateful to you do not do to your neighbor. That is the whole Torah. The
rest is commentary -- go and learn it." So my challenge in defense of the
Jewish faith during the interview, was that those who practice criminal
misdeeds, are therefore found by the official definition taught by Hillel, to
be not practicing the "Golden Rule" of the Jewish Faith. (as so pronounced
by the religion's recognized ancient oratator.) By calling alleged criminal
actions, the conduct of an entire people, faith, or branch thereof, is to
fall into the fascist minutia of bigotry, or racism, held by those who judge
us "others" unfairly. After re-hearing the interview, I did find the
allegations made by Greg, regarding the Holocaust being blanketed by

falsehoods, generally, a failure on his part to recognize the true horror of
what that war wrought. And in light of our desperate challenges today of
defeating the enemies of Humanity as specific unjust individuals in "hiding",
an ignorantly stupid thing to say. While I, perhaps wasn't thinking along
those conceived lines, where at that time, I had just left the thought of:
the struggles of the Jewish faith, are the same struggles all young adults go
through by naturally establishing our associative identities. Who are you I
truly ask? How many news channels even allow us as Humanity to know about
the absent reason for the bombing of the Jews of Samara? The Jews of
Fallujah? The torturing of completely innocent People to death, as in
Guantanamo? Or still unaddressed publicly: the willful lawless criminality
implemented by the, therefore tyrannical Bush Administration in suffering
God's Iraq? (See missing ``Development Fund of Iraq'', or private
mercenaries discipling for Bush as deemed un-accountable to every conceived
``natural'' law? [see the entire Bible for the judgment call on that one...]
or, Bush's declarative, he magically owns everything in stolen Iraq now,
[where did it go?] and I can't say anything because he signed his John to
13303 some time back, but as still is left unreported in Your dying world?)

Publicly question our reality, by taking the station up on doing an interview
with me, along with your own impressions of our world. Or, if you prefer,
you can do a solo written piece, or a recorded statement for the station. I
look forward to finding common ground with your concerns. I hope I have got
you wondering more, about what trying to save our world from injustice and
slavery, in whatever way we can is all about for me really. In these words I
can say, I apologize to you, for a resulted perception, that wasn't with
better words, my true intent towards us people together.

I will, after some small revisions of this paper, include it as well as the
broadcast package. So I do thank you for bringing up your important view,
that otherwise, would have gone farther without this opportunity, that I
offer as a starting point for deliberation, or argument regarding my
foolishness. Thanks for speaking, and I hope I have met most of your
concerns with a positive light on where I'm trying to come from.

John.

The Benderman Cause

I felt compelled to support the Benderman's cause in
any way I could, so I am providing America some
arguments that I would use in a court of law to
defend your freedoms. If America would so desire,
I would also be prepared to make a recorded
statement from here in Canada. (I have been
denied access into the U.S..) My positions of
rational argument are naturally based upon our
established facts, and as such, are something few
Americans are afforded the luxury of through
corporate channels. I hope my forcefulness on these
issues does not fear you to doubt I have the best of
intentions when it comes to serving the interests
indivisibly inherent within the American
Constitution. God, I believe is just, and as such, the
ungodly war actions of George W. Bush dictate are
criminal in the worst degree, being a harbinger of
suffering and misery against all of Humanity as
US being the innocent. The innocent in our entirety,
is my "God" that I love with all I can will. I am
compelled as a living human being to defend America
to the last bush supporter praised if need be. I fight
the enemy of God and Humanity with reason,
understanding, Akeido, and a conviction that our
justice system must prevail for me to be truly myself
really.

"He explained to "60 Minutes," "I was told in basic
training that, if I'm given an illegal or immoral order,
it is my duty to disobey it. And I feel that invading
and occupying Iraq is an illegal and immoral thing to
do."

The war was declared "illegal" by the U.N..
Why? Because Saddam wasn't found in breach

of the internationally agreed upon resolution 1441, (Saddam did EVERYTHING POSSIBLE that was asked of Iraq by the bush administration, and then some Mr. Bush refused to even take him up on. Like national Iraqi television broadcasts.) despite the lies quoted by corporate news America. There was no need for the conflict to begin with as was so reported internationally on march 7th, 2003. U.N. inspectors had complete unrestricted access to go anywhere without delay, and known stock piles of WMD were burned, so could not possibly be completely accounted for by evidential findings due to the fact that they were destroyed beyond recognition. American soldiers were put in harms way to be sacrificed for no better good, but for to allow as has happened, the misappropriation, or as some have alleged, the criminal theft of Iraqi resources, including monies of the Iraqi Development Funds through Presidential decree 13303. Which include the unappropriated, desperately needed, humanitarian aid provisions still denied innocent Iraqis, such as potable drinking water and food stuffs. Democratic principles are DENIED the Iraqis by the neo-con military forces, such as holding all individuals equally accountable to a rule of law. The outlawing of torture, or the outlawing of false imprisonment has not been professed as the action of the neo-con "liberating" force. Mercenaries are not obliged to obey any laws for example. And, "Dr. Germ", and "Dr. Anthrax" are held solely for the fact that they know of the scientific hazards of depleted uranium, and may have warned the uninformed sacrificing American GI, if not held illegally against their wills by the enemy. Commanders such as irrational war criminal Sattler, forbade all men and boys between 15 to 50 from leaving the city of Fallujah, while refusing to negotiate with anyone, (because as so was openly confessed, Sattler had no evidence that Zaqari was in Fallujah) then leveled the city to kill all it's inhabitants, estimated at that time near 300,000 people. Using a napalm type WMD, cluster dud land mine munitions, and as reported, nine two thousand pound bombs in a city 3 1/2 km by 4 km. Serving for a military not strong enough collectively to prosecute such lawless criminal barbarity, is serving for a military not principled in the American virtues of freedom and democracy. In truth, serving for such ungodly criminal command is a cowardly act of treason. George W. Bush is an

enemy of our Humanity.

Copy and distribute this personal challenge freely.
Thanks.

I know we're all expected to be selfish, in helping out those others
who cry out for our help, but I beg you, I can't do this alone. My
show did make a positive difference. I need your help in asking I

and understanding, bring about a better world.

There's a LESSON here you hams and radio freaks.
What happened to this baseball collector can happen to a
radio collector also....and I know SEVERAL xyl's who'd
just LOVE an opportunity to trash or sell off all of her
hubby's "ham radio junk" just to have him pay her more attention..... ;)

Ex-Wife Auctions Man's $200,000 Baseball Collection
From the News Section of: http://www.voyeurweb.com/main/Main.html

TUSCON, Arizona -- A woman whose husband spent $200,000
on baseball memorabilia took revenge - by divorcing him and selling
it on eBay.

The husband, 42, told his wife, 45, they couldn't
afford kids or a house, and even took money from
her bank account to add (baseball items) to his collection.

The divorce judge ruled she can have the rare baseball
cards and caps, and she is auctioning them online,
according to news media reports.

The couple had been married for 17 years.
When asked about the auction, the wife
said: "I'm giggling."

-- Holy Strike Out, Voyeurwebbers! It sounds like this guy got
caught looking at an inside fastball and never even swung at
it, hehehe! Meanwhile, his wife managed to knock one out
of the ball park. It wasn't just a grand slam, either, it was a
200-grand slam, hehehe! There's also an important lesson
in this story, Voyeurwebbers: ***If you're hobby becomes
your life ... it's definitely time to get a new hobby***. -- Igor

I've used several NMO mounts over the years. With dual band 2m/70cm, 2m quarter waves and 5/8 wave. Never had a leak and two of them were in the middle of the roof and neither leaked over the more than 8 years I had the cars.

Our sources report that Mr. Davies works at the PJ's in Huntsville.

(According to Switchboard.com, there are 2 on University.)

Mr. Davies is quite a fixture there now. He's a 5 year employee at

A known quantity, and no doubt a very dependable employee.

Possibly even a shift supervisor .. ? ?

Yep, a success story, indeed.

The Lib Nutz were going on and on again tonight. Those guys must live in a constant state of anger. Not a one of them is happy about anything.
The guys keep whining that, "The sky is falling. The sky is falling." and nobody is listening.

It must be frustrating being one of the six or seven unstable Liberty Net nuts.

Don't bother. Roger has call block in place. He probably has to field many, many anonymous calls from the Gay World. Guys like Roger are a magnet for the Gay types..
Schwartz probably got to him, too.

What the heck. Give Wogie a call anyway. Every time his phone rings he runs to the window, peeks from behind the plastic Wal-Mart blinds and looks up and down his dead-end street to see who drove by.

Most of the neighbors don't know who Roger is. He is a recluse...a 49 year old Hermit. Even Roger's neighbor said that all he has seen of Roger is one, bulged eyeball peering from behind yellowed plastic blinds.

Next thing you know old pussy Roger will be talking tough. He will piss his panties, but he will talk tough.

Yeah, I'm single and that's one of the many reasons why. Marriage is for suckers IMHO. It used to mean somethng many, many years ago but womens mind set have changed to much it isn't worth it now. I've seen FAR too many marriages go down the toilet for my money.

A stationary object requires force to make it move

work= force * distance

power = work / time period

clearly then power is transferred between the gears.
Simple Newtonian physics (you could also describe
gear movement using rotational quantities, but the
end result is that power is still transferred).

A guy walks into a bar, sits down. Tells the batrender "A round of
drinks on me!"

After getting hs drink, the fellow next to him asks "What's the
occasion Pal?"

"I'm getting married tomorrow! Now I'll be able to get laid any time I
want!!"

The other fellow says "Funny, but that was the reason I got divorced!"

My wife never had to work for my hobby. Before we married we
discussed it. I had been a ham for years before we met. I told her
that I was an Amateur Radio Operator for years before we met and I
would be one long after she's gone. If she couldn't accept that, she
would have to move on. Likewise, I never tried to discourage or
change things about my wife. Those things a person likes and
dislikes, or their hobbies, etc, are part of what makes them the

persons they are. I believe that if we take those things from a person, there will be a hole in their life and they will no longer be the person we met and fell in love with. Of course, it is different if that person changes hobbies, etc. on their own, but it is not good to take it from them.

To include in their budget, support for each other's hobbies is not a bad thing, but to break their budget over any one hobby is not a good thing. My wife never went hungry because I bought a radio.

Incorrect. There is only one on University drive:
http://www.papajohns.com/locator/

4710 University Dr (256) 830-2226

The others in Huntsville are:
2750 Carl T Jones Drive Southeast (256) 883-4333
1924 B Winchester Rd (256) 859-8929
2806 S. Memorial Parkway (256) 533-7272

Yes, sometimes shit sticks to the toilet bowl. Look at Lloydie.

Yes, he is unqualified to do little else.

That why he gets written up by his supervisor?

No, he said on a message board he doesn't want management. He is
a delivery boy, with no benefits like heath or dental insurance.

> Yep, a success story, indeed.

That why he had to sell some of his cheapassed junk to get his
car fixed?

> Proof again that this is a GREAT country.

Perhaps, but Lardass is still just a pizza delivery BOY (a high school kid's job).

Good News!

Do you know how simple it is to go to Heaven after this life has ended?

The good news is that God came from Heaven to earth in the person of Jesus Christ over 2000 years ago and died for our past, present and future sins(misdeeds). He was born in the land of Israel supernaturally to a virgin Jewish woman named Mary. He lived a sinless life for thirty-three years and then sacrificed His sinless blood and died on a cross to pay the death penalty for our sins.

After Jesus died He rose from the dead three days later as He said He would. The Holy Bible also tells us that Jesus Christ ascended into Heaven and that all who accept Him as their Lord and Saviour will live forever with Him in Heaven where there is no more death, sorrow, sickness and pain.

The Holy Bible very clearly explains how simple it is to be saved and on your way to Heaven, "For if you confess with your mouth, "Jesus is Lord," and believe in your heart that God raised him from the dead, you WILL BE SAVED." (Romans 10:9)

You can be saved right now and on your way to Heaven if you will open your heart to Jesus and pray the following prayer:

Dear Jesus Christ, I want to be saved so that I can have a home in Heaven when I die. I agree with You that I am a sinner. I believe You love me and want to save me. I believe that You bled and died on the cross to pay the penalty for my sins. I believe that You rose from the dead. Please forgive my sins and come into my heart and be my Lord and Saviour. Thank You Lord Jesus Christ for forgiving me and saving me through Your merciful grace. Amen.

You are now a Christian if you said the prayer and allowed God to save you. Welcome to the family of God.

Have a great day!

Again, get a refund on that detective kit. Your square footage is off, like you. And how could he inherit something that was already his? You really are a dumbass, Davies.

Good News!

Do you know how simple it is to go to Heaven after this life has ended?

The good news is that God came from Heaven to earth in the person of Jesus Christ over 2000 years ago and died for our past, present and future sins(misdeeds). He was born in the land of Israel supernaturally to a virgin Jewish woman named Mary. He lived a sinless life for thirty-three years and then sacrificed His sinless blood and died on a cross to pay the death penalty for our sins.

After Jesus died He rose from the dead three days later as He said He would. The Holy Bible also tells us that Jesus Christ ascended into Heaven and that all who accept Him as their Lord and Saviour will live forever with Him in Heaven where there is no more death, sorrow, sickness and pain.

The Holy Bible very clearly explains how simple it is to be saved and on your way to Heaven, "For if you confess with your mouth, "Jesus is Lord," and believe in your heart that God raised him from the dead, you WILL BE SAVED." (Romans 10:9)

You can be saved right now and on your way to Heaven if you will open your heart to Jesus and pray the following prayer:

Dear Jesus Christ, I want to be saved so that I can have a home in Heaven when I die. I agree with You that I am a sinner. I believe You love me and want to save me. I believe that You bled and died on the cross to pay the penalty for my sins. I believe that You rose from the dead. Please forgive my sins and come into my heart and be my Lord and Saviour. Thank You Lord Jesus Christ for forgiving me and saving me through Your merciful grace. Amen.

You are now a Christian if you said the prayer and allowed God to save you. Welcome to the family of God.

Have a great day!

Dan, I am surprised. For all the times that you slam people that post,
that you would honestly post a real request. I suppose you shouldn't be
surprised that you get any "smart" answers to your post, like you give to
others.
Remember, "Do unto others as they do to you." ...or something like
that. :)

This was from a grunt whose date unwittingly asked him to cook for her.

Well Pat there is a lot of things you, and others, don't know about me. I enjoy tweaking folks. If you think it is ALL serious than I feel sorry for you.

Thanks to everyone for the links. I am finally in a position to do MS after 40 plus years of wanting to. With websites and computer programs it is a whole different world.

Last time I even attempted MS was with a Homebrew 4x150 to a pair of 10 element yagi's. Didn't work. (2 meters).

Mr. Davies has the best of both worlds on Saturday night. For openers
he delivers for PJ's on Saturday nights - that's when business is best.
He really rakes it in.

And he has a SW radio in his vehicle so he can listen to The Great
Liberty Net as he goes on his appointed rounds.

You found out the secret!

How the hell else are you going to last a long time with someone if they are not your friend. Besides being friends the only other thing required is that you both share the expectations of the marriage like kids, money and who does what.

3. I don't watch TV or listen to domestic radio

5. If this guy lost all his baseball (perhaps he should play cricket) stuff and it came to this he never really had a true relationship with his wife.
6. It's a sad world today, where most guys my age in VK, make sure they have assets listed with lawyers in thier own right before they ever move in with a girl, hence the reason that all-without exception-my mates still live at home with thier parents.

You don't add anything to the discussion. All
gear trains transmit power and also motion, as I
have said. No wonder that you were incapable of
explaining what it was you thought that you had discovered
to claim a Ph.D, when you join a thread for the first time
in order to state the bleeding obvious!

However, in the case of wheel trains in clocks, the
emphasis is on transmitting motion and there is no power
to speak of, and this results in the use of cycloidal
teeth.

By your rather silly and infantile outbursts, you seem to want to
classify yourself as a Childish Broadcaster (CBer)
at worst, or a CBer-Masquerading-As-A-Radio-Ham at best.

You suggest that you regard CB Radio as your apprenticeship
for Ham Radio. That figures. To any _REAL_ Radio Ham, CB Radio
is a social communications facility as is the land-line phone or the GSM
phone,
but in no way related to Ham Radio.

Good News!

Do you know how simple it is to go to Heaven after this life has ended?

The good news is that God came from Heaven to earth in the person of Jesus Christ over 2000 years ago and died for our past, present and future sins(misdeeds). He was born in the land of Israel supernaturally to a virgin Jewish woman named Mary. He lived a sinless life for thirty-three years and then sacrificed His sinless blood and died on a cross to pay the death penalty for our sins.

After Jesus died He rose from the dead three days later as He said He would. The Holy Bible also tells us that Jesus Christ ascended into Heaven and that all who accept Him as their Lord and Saviour will live forever with Him in Heaven where there is no more death, sorrow, sickness and pain.

The Holy Bible very clearly explains how simple it is to be saved and on your way to Heaven, "For if you confess with your mouth, "Jesus is Lord," and believe in your heart that God raised him from the dead, you WILL BE SAVED." (Romans 10:9)

You can be saved right now and on your way to Heaven if you will open your heart to Jesus and pray the following prayer:

Dear Jesus Christ, I want to be saved so that I can have a home in Heaven when I die. I agree with You that I am a sinner. I believe You love me and want to save me. I believe that You bled and died on the cross to pay the penalty for my sins. I believe that You rose from the dead. Please forgive my sins and come into my heart and be my Lord and Saviour. Thank You Lord Jesus Christ for forgiving me and saving me through Your merciful grace. Amen.

You are now a Christian if you said the prayer and allowed God to save you. Welcome to the family of God.

Have a great day!

Feel free to forward this post for publication consideration.

I wrote the letter following "Jew Boy..." the day a single complaint arrived to the radio station, with the threat that the ADL would soon be contacted. The letter was provided in advance of the next day, of the time scheduled for the complainant to return for a recording of the questionable broadcast. The station manager refused to give the complainant my letter, and insured me that I would no longer be allowed to produce a show for our community. Is this fair to our Jewish brothers and sisters? Is this fair to You?

Paris "And then what if you saw, all of the things thats wrong, would you stand tall and strong? Or would you turn and walk away?"

Johnny

Jew Boy Johnny and the anti-Semites

- or -

"The Zionist Conspiracy"

Monday, January 31st, around 3 pm, I called the station manager to ask how my afternoon recorded broadcast went, and to discuss the new week's tentative guest spot with an update regarding the falsely maligned, Mr. And Mrs. Benderman. The station manager informed me my phone number had been misplaced, and was managing with stress trying to put together an apology letter to a single individual, who came into the station, while the interview was still running, to demand action be taken regarding the anti-Semitic broadcast that he was certainly going to report to the ADL about. I told her the Felton interview itself was about bigotry through the demonization of the innocent, what the Jews of world war II suffered through, and, that I was a huge defender of religious Jewish teaching. I told her, to offer the individual a chance to publicly speak regarding the issue, with me, or by himself regarding Felton, to try getting specifically to what has got him so much, by himself, upset about allowing my voice heard defending Jewish rights within our community. She told me that she would likely, none the less, have to let me go to appease the sole

complainant, for what if a lawsuit should result? I told her to consider her options, reminded her that it was only one single individual who hadn't even heard the show's context, and that the broadcast in every other way had been going well, doing good. She told me she was very busy, and said goodbye. Then a short while later, phoned me back to ask if I would write a letter, and have it at the station next day before the complainant arrived for his copy of the broadcast. I said sure, said it would be a great challenge, and proceeded immediately to do just that. The next day, I contacted the station to ask if my arrived letter was forwarded to the individual, and was informed no, he didn't receive it. It wasn't the apology the station was looking for, and my show was now officially terminated. I told her it was very unfair to me, to not allow him to read my formal response, and that I couldn't in good conscience, back down from defending my rights to be heard on this issue, or to allow us, as our public, to hear the complainant's actual complaint about my, freedom for all broadcast. She said she would try to get the letter to him, but that the show was over. Case closed.

Stand up for Jews, and look at where it gets you, Jeeze.

Let us not put aside, the station manager's legitimate concerns. Who has the money or the time for a frivolous lawsuit? Why do expensive independent research, when the Bush Administration can hand us all the free news they want us to have directly without any costly questions? Saddam wouldn't let the inspectors in, right? Why risk standing up for someone else's rights, when doing so, will get the (anti) Jewish-Defamation League calling you an anti-Semite (Semite=Arab) for communicating some understanding with Felton? Felton, is bizarrely quirky as interesting, for his recent book is about the demonization of the innocent, (you know? Nazi gas chambers and ovens?) and as such, we can learn from, as too, we can teach. If he'll listen. Ariel Sharon is not Jewish my friend, NOT JEWISH!!!

Open the gates, it's getting late.

John.

Greg Felton : "The fear is necessary for two reasons. And the principle reason has nothing to do with Iraq. it has to do with the government itself. The bush government is criminal. [...] The problem is: how do you keep people from paying attention to this? You keep them focused on an external enemy. [..] so they forment this fascistic hatred of a definable group

of people. So, the war on terrorism so called, is not much a way for the United States to protect itself against it's enemy, it is a way for it to create enemies, to justify the kind of repressive measures that would otherwise be intolerable in peace time."

To whom it may concern,

regarding the January 31st broadcasted interview with Greg Felton.

May I, on behalf of only myself, ask that you pardon my failures in judgment, in not allowing what I should have gave: an immediate re-dress regarding, 'who is the Zionist label?', or 'What Holocaust are you referring to?', during the broadcast of January 31st. (bet you we can't get two Christians that agree on everything.) However, I can offer perhaps a show centralized on a chance to exercise your personal views, be they pro or con on where you think we should go from here, or whatever may have you regarding said interview. Or, if you would like, you may wish to do only, or else include, a written work that I promise, will reach as far as the original broadcast. So, actually, this could be a prime moment to have a dialog regarding racism, bigotry, and intolerance. I confess, I may be unaware, and still have much to learn, when it comes to communicating well with all others. But, I know I'm getting better, and I'll tell you, the Justice-Freedom thing, sure seems to be our ultimate calling.

I was not so surprised that the broadcast interview with Greg Felton would be considered controversial, (as every show I've ever done always has), although I wasn't prepared to hear criticism against the show as being defamatory to a group, or groups of people. As certainly that was not my intent, but however was the difficult subject addressed within the interview. The fundamental teachings of Law, as it pertains to justice and freedom, along with every legitimized religion, is that all free people should be thought of as equals to each other in vigilant protection. And by doing so, one would be serving G-d's interests. (Even if a G-d doesn't exist - an Atheist too, could become a proponent by understanding Jihad). Thereby insuring\realizing that a just intelligent life force rules our chaotic timeless universe in service ultimately to ourselves individually. Giving us in the Torah of Moses, ``all people are created in God's image'' teaching all peoples are Sacred. And as such, would be so in God's interests to defend as the innocent. While in eternal pursuit of happiness and prosperity for all through just means. Under Greg's definition as being a "Zionist" conspiracy, negates the failure of himself personally to recognize the public connotation is too vague, and that Hitler's Nazi Germany, like Bush's America, is politically expressing an inability to represent ourselves with

respect as truly worthy of fair deliberations amongst ourselves. Sacred, every-one. (Or as in, to rise to the defense of those we know to be irrationally victimized as the godly and innocent, victimized in our un-addressed names.)

Greg "This is why the Holocaust is such a very dangerous thing to talk about because, it's not really understood. It's preached at us like a sermon. We're suppose to accept at face value what we're told about it, as if to, criticize it, is some how disrespectful. Much of what we know about the Holocaust has been propagated by the Zionists, and can be shown quite untrue"

I replied shortly later "One thing about the whole situation is that innocent people were targeted for murder. End of story. That's what the war was. All wars are like that."

Greg's mistake I believe, centered in his Zionist labeling through an apparent bigotry expressed, and as such, was too narrowly defining the larger established history of the Holocaust, as being the struggle of the human species in halting, the demonization and then subjugation of the innocent millions, Jewish or otherwise. Perhaps it was strangely on his part a testimony to a real struggle we all have when it comes to identifying ourselves to others. Considering it is the exact subject matter he wrestles with in his book writing, regarding our corporate media's perception of ignoring an innocent people's concern or cries. That said however, for Greg to blankly criticize Greg's false construct of what is publicly understood about the Holocaust, is to deny that much for sorrow and suffering took place against the whole of Humanity, especially, of those who held the practiced Jewish faith. To think the nazi regime would have the gas chambers and the ovens, while the whole of humanity were not strong enough to communicate the unjustness of it all to the German people while it was happening. I have read of a recent documentary that provides film footage of nazi soldiers committing the worst war crimes imaginable to god loving Jews, interspersed with film from the same dated period where, the German people were living civilized lives, left unaware of the atrocities that were being committed against God in their names. Same as America and Canada today, with Fallujah's 300,000 People being, the undeniable example. Or, are you too, a convinced denier of that which is fully documented? (Needless and irrational was the indiscriminate murder of the people of Fallujah, but for to have more American soldiers sacrificed in a conflict created by an unjust as immoral totalitarian dictate.) The Holocaust deniers are those the same of today, who refuse our Humanity to nationally communicate those screams of mercy, or for justice regarding the People of Iraq to be served in our true interests as legitimate. More

than ten million Russians died fighting the evil eugenic scourge of the "superior" nazi regime, and like those in Poland, Britain and France, as elsewhere testified our established history, (albeit only later), the sadistic ungodly as lawless barbarity that Nazism inflicted upon the general masses, went largely undeterred from our "informative" television and radio broadcasts. The same, almost word for word, and action for action, can be found in Rumsfeld's "blitzkrieg". Bush's freedom by tyranny doctrine. Or the criminally sanctioned unchallenged news pronouncements of a Mark Kimmit, Buford Blount, Steven Russell, Mattis, Allawi or Sattler, when it pertains to accepting without our objection, to the victimizing of Iraqis collectively as an indiscriminate act of criminality, like murder. As like in the policies of Ariel Sharon, where an innocent, haven't committed an accused crime in their life Christian Palestinian, is denied the earned home they worked and paid for, on a parcel of land shared up until recent times for countless millennia. My personal struggle has been to inform the public on the forgotten" importance of established evidence, being the only requirement to convince ourselves on who is a bigot, tyrant, a criminal, or a murderer. Will you not therefore, as a fellow humanitarian of this shared world, speak against those you know of, who victimize the innocent to thieve from? Sure you would, if you knew as much for certain about God and this universe, or the under reported, freed to go General Ahmad, funding the mastermind ring leader Mohammad Atta of Bush's 9/11 game. But will together our Humanity ever learn? Well, my plan is to search for guests to speak with, that I'll try not to offend early on. Greg knows, like the Pope knows, as every legitimate police officer worth their grain of salt knows, as so too does include a great many Jewish Jews, George W. Bush used absolutely no evidence to substantiate his therefore, false accusations in our names against bin Laden, while then ardently with Cheney, worked to close outstanding criminal investigations regarding their extremely suspicious behavior. All according to his official publicly documented plan. And speaking the news as thus, does not make anyone anti-Semitic, anti-American, or anti-Human, but pro-Jewish, pro-Christian, pro-Muslim, pro-Justice pro-Freedom, almost wholely human like even. Not of a long gone as lost and forgotten religious dogma, but for now as it always has been found, a mutual respect for all life as we find ourselves being part of. Or, so we would for Atheists, argue in all likelihood to get to the same reasoned to be, just political decision, to this or any another life and death matters matter. Because the unjustified criminal war actions of George W. Bush are our shared documented history, others, with an ulterior agenda to propagate their weakness through bigotry or racism, will arbitrarily blame a subjective grouping of people, instead of

demanding by godly individual might, the arrest of specific individuals who are actually responsible according to the established as public evidence. So, now who's fault is that? We live in difficult times. To admit weaknesses regarding our corporate news control content decisions, is to seek a better world for our lives through stronger open communications.

I believe the defense of the Jewish faith is found in the indivisible properties of Creation, and who's central belief is made simpler than any other. Hillel was asked: Rabbi, who is a Jew truly? Hillel answered, "What is hateful to you do not do to your neighbor. That is the whole Torah. The rest is commentary -- go and learn it." So my challenge in defense of the Jewish faith during the interview, was that those who practice criminal misdeeds, are therefore found by the official definition taught by Hillel, to be not practicing the "Golden Rule" of the Jewish Faith. (as so pronounced by the religion's recognized ancient oratator.) By calling alleged criminal actions, the conduct of an entire people, faith, or branch thereof, is to fall into the fascist minutia of bigotry, or racism, held by those who judge us "others" unfairly. After re-hearing the interview, I did find the allegations made by Greg, regarding the Holocaust being blanketed by falsehoods, generally, a failure on his part to recognize the true horror of what that war wrought. And in light of our desperate challenges today of defeating the enemies of Humanity as specific unjust individuals in "hiding", an ignorantly stupid thing to say. While I, perhaps wasn't thinking along those conceived lines, where at that time, I had just left the thought of: the struggles of the Jewish faith, are the same struggles all young adults go through by naturally establishing our associative identities. Who are you I truly ask? How many news channels even allow us as Humanity to know about the absent reason for the bombing of the Jews of Samara? The Jews of Fallujah? The torturing of completely innocent People to death, as in Guantanamo? Or still unaddressed publicly: the willful lawless criminality implemented by the, therefore tyrannical Bush Administration in suffering God's Iraq? (See missing ``Development Fund of Iraq'', or private mercenaries discipling for Bush as deemed un-accountable to every conceived ``natural'' law? [see the entire Bible for the judgment call on that one...] or, Bush's declarative, he magically owns everything in stolen Iraq now, [where did it go?] and I can't say anything because he signed his John to 13303 some time back, but as still is left unreported in Your dying world?)

Publicly question our reality, by taking the station up on doing an interview with me, along with your own impressions of our world. Or, if you prefer, you can do a solo written piece, or a recorded statement for the station. I look forward to finding common ground with your concerns. I hope I have got

you wondering more, about what trying to save our world from injustice and slavery, in whatever way we can is all about for me really. In these words I can say, I apologize to you, for a resulted perception, that wasn't with better words, my true intent towards us people together.

I will, after some small revisions of this paper, include it as well as the broadcast package. So I do thank you for bringing up your important view, that otherwise, would have gone farther without this opportunity, that I offer as a starting point for deliberation, or argument regarding my foolishness. Thanks for speaking, and I hope I have met most of your concerns with a positive light on where I'm trying to come from.

We Israeli Military Reservists REFUSE To Abuse, Starve, Maim And Kill Palestininians

The Benderman Cause

I felt compelled to support the Benderman's cause in any way I could, so I am providing America some arguments that I would use in a court of law to defend your freedoms. If America would so desire, I would also be prepared to make a recorded statement from here in Canada. (I have been denied access into the U.S..) My positions of rational argument are naturally based upon our established facts, and as such, are something few Americans are afforded the luxury of through corporate channels. I hope my forcefulness on these issues does not fear you to doubt I have the best of intentions when it comes to serving the interests indivisibly inherent within the American Constitution. God, I believe is just, and as such, the ungodly war actions of George W. Bush dictate are criminal in the worst degree, being a harbinger of suffering and misery against all of Humanity as US being the innocent. The innocent in our entirety, is my "God" that I love with all I can will. I am compelled as a living human being to defend America to the last bush supporter praised if need be. I fight

the enemy of God and Humanity with reason, understanding, Akeido, and a conviction that our justice system must prevail for me to be truly myself really.

"He explained to "60 Minutes," "I was told in basic training that, if I'm given an illegal or immoral order, it is my duty to disobey it. And I feel that invading and occupying Iraq is an illegal and immoral thing to do."

The war was declared "illegal" by the U.N.. Why? Because Saddam wasn't found in breach of the internationally agreed upon resolution 1441, (Saddam did EVERYTHING POSSIBLE that was asked of Iraq by the bush administration, and then some Mr. Bush refused to even take him up on. Like national Iraqi television broadcasts.) despite the lies quoted by corporate news America. There was no need for the conflict to begin with as was so reported internationally on march 7th, 2003. U.N. inspectors had complete unrestricted access to go anywhere without delay, and known stock piles of WMD were burned, so could not possibly be completely accounted for by evidential findings due to the fact that they were destroyed beyond recognition. American soldiers were put in harms way to be sacrificed for no better good, but for to allow as has happened, the misappropriation, or as some have alleged, the criminal theft of Iraqi resources, including monies of the Iraqi Development Funds through Presidential decree 13303. Which include the unappropriated, desperately needed, humanitarian aid provisions still denied innocent Iraqis, such as potable drinking water and food stuffs. Democratic principles are DENIED the Iraqis by the neo-con military forces, such as holding all individuals equally accountable to a rule of law. The outlawing of torture, or the outlawing of false imprisonment has not been professed as the action of the neo-con "liberating" force. Mercenaries are not obliged to obey any laws for example. And, "Dr. Germ", and "Dr. Anthrax" are held solely for the fact that they know of the scientific hazards of depleted uranium, and may have warned the uninformed sacrificing American GI, if not held illegally against their wills by the enemy. Commanders such as irrational war criminal Sattler, forbade all men and boys between 15 to 50 from leaving the city of Fallujah, while refusing to negotiate with anyone, (because as so was openly

confessed, Sattler had no evidence that Zaqari was
in Fallujah) then leveled the city to kill all it's
inhabitants, estimated at that time near 300,000
people. Using a napalm type WMD, cluster dud
land mine munitions, and as reported, nine two
thousand pound bombs in a city 3 1/2 km by 4 km.
Serving for a military not strong enough collectively
to prosecute such lawless criminal barbarity, is
serving for a military not principled in the American
virtues of freedom and democracy. In truth,
serving for such ungodly criminal command is a
cowardly act of treason. George W. Bush is an
enemy of our Humanity.

Copy and distribute this personal challenge freely.
Thanks.

Seriously Folks

Napoleon Bonaparte wrote forming governments are forged only through the public witness of shared mutual experiences, simple, yet, the bushite strategy implemented continually on behalf of the enemy forces in Iraq have been to divide the nation's people with different "legal" definitions, while speaking for typical bushite bigotry, by then offering distinctions of human value between US some from "others". Not freedom, nor democracy. [Remember: Evil is dumb]

Example: Allawi forbade surviving Iraqi doctors and nurses from medically treating any of the estimated 200,000+ innocent victims from Falluja [IRAQI vicinity].

Example 2: DYING two-bit bushite war with "foreign" soldiers paid especially more than a thousand dollars a day as self confessed RACISTS, and THEREFOR, left "officially" too weak as, "pissing post illiterates" to go after real terrorists who torture the innocent, or real thieves, that have stolen BILLIONS from the Iraqi Development Fund. Done all to sacrifice life's purpose for no better good to the ANTI-CHRIST EVIL bush "cabal" of lying neo-con Christ haters. Allthewhile stating the objective worth dying young America as bushite for is "Democracy" in Iraq. But, isn't a founding principle of any democracy to outlaw thefts, sexual assault, murder? Again, bushite kills bushite for a stolen nickel that they just as soon, stole from anybody. If you can believe it. We need YOU to make some effort to engage American talk mediae. Perhaps it's only YOU, who hasn't yet heard a responsibility to this once greatly revered world of wisdom, of the enchanted, and mystical, or of the tyrannical as hell bound for suffering and sorrow. ,in which you share allegiance too my friend.

Being caring and compassionate for the victimized innocent not only feels good, but it is a choice we would make at being alive to help US survive. To not speak against the bushite war crimes against YOUR Humanity, is to not speak in defense of our ancient dying God no longer found worthy of you Peoples humble respect. Currently corrupted bushite want my voice of truth silenced by censorship with false imprisonment,

and those who advocate such hatred for myself and our humanity, speak no public word or disagreement on my allegations of high treason by Our Mr. bush Jr.. While I want to openly debate the, "censorship for tyranny", corporate talk radio bushite bitches on their furthering commitment to not allow objections regarding their contempt for true justice and freedom in America. But if you singly decide not to support my cause, like corporate news control encourages, We will be left forsaken, again. God is Just to the core, like Johnny Wizard tries to be, while bushite liars lie, cheat, and steal from America as ourselves measured unworthy for deliberation to gain true understanding. The Coast to Coast radio network in America disallows America learn for why American soldiers are currently sacrificing their LIVES irrationally. Why? Because there is no legitimate reason, while bushite pretend in YOUR name, that there must be another reason but for to rob our humanity in George Bush Jr.'s name. For if there truly wasn't another reason, not so then blind, stupid, and cowardly American soldiers wouldn't be too happy about the wealthy corporatist bushite commentators silencing America's dying cries by bushite enemy command. Now would they? Remember: wealthy blind and stupid bushite kills/gets killed, poor blind and stupid bushite for a stolen nickel - a nickel in all likelihood, they rifled as thieves from some pensioner, that just as soon, would be their own "grand" parents. Or Yours as someone elses beside.

Phil Donahue had the highest rating, number one money making news commentary show on NBC as it was canceled. Why? Too good as enlightening and INFORMATIVE. Then there was the recently canceled Crossfire. Or how about Barry Zwicker on VisionTV as Canada's greatest broadcast before it too was canceled. Why? Too good as enlightening and INFORMATIVE. VisionTV, a "religious" channel now likely forbids anyone to suggest that God would be good as just, and REALLY INTELLIGENT. Forbidden knowledge we are the corporate bushite insist with Your stolen rights. Why so? Because Americans might learn of what it is to be a true Christian, and therefor stop to have arrested else immediately executed for high treason regarding 9/11: the enemies of Johnny, Justice, God and Humanity, the evil doers George W. Bush, Rumsfeld, and Condolezza Rice. Alone with Myers and Cheney for good measure. Then, those responsible for the needless bombing of Samarra and Fallujah.

Under EVIL bushite tyranny, We are criminally fighting for needlessly dying as bushite here, but corporate

newsCASTers don't find "our" costs worth getting a discussion group going, after all, American soldiers who die for the bush regime, as the kept in the dark, will less likely be going after the real bad guys for 9/11 then right? Corporate America refuse US just basic rights of legitimacy to at least address the absent war reason issue from time to time - Jeeze. But no. As bushite, they're prepared to not inform the bushite soldier that depleted uranium is radio-active, that the stolen American Enron pension money is sitting in the Cayman Islands, or that the war itself has no justification. See, the bushite war is a TRUE CRIME against all Peoples of Humanity, for the war against Iraq has no reason available to explain enemy military action, but for to die thieving from ourselves as the bad guys. The Enemies of Freedom. Why we have Law. God is Just, and evil is just the slavish ignoramuses who censor our Words of empowerment for freedom through Justice represented indivisible as Eternal. We rule.

Therefor, George Walker Bush is guilty of treason to US all, not only including your one and only King Johnny Wizard as Heaven's afar, but also the not going anywhere but yet still sacrificing ungloriously as the stupidly blind as almost completely incoherent,. devote bushite nazi dumfuk soldier grunt enemy vermins.

Will you not help these words reach a larger audience? I ask you to consider your helping me can do good for your real world too. Perhaps it is ONLY the single individual that hasn't yet understood, this once greatly revered world of the Word is of which you share allegiance too.

Speaking for a just battle of freedom for all humanity, is a right you could exercise in brightest intentions of a muted God who sure could use your help right about now man. Our family is in so a desperation for needed support. I am fearing your fears have got you believing, you have no dying right to speak against Mr. bush Jr. for the crimes he has committed in Your name, but You do. Think of it this way: anybody who stays silently connected secretly to the crimes of nine-eleven, can not be trusted as a sacrificing bushite thief by the enemy bush administration. [Secretly speaking in all strict certainty.]

The warrant that allowed the confiscation of my computer equipment, was to prove that I was the one and same who demanded true justice for our humanity by following the crimes scene leads for nine/eleven, arresting those

responsible, or killing the escaping culprits, bush, rumsfeld, and condolezza rice by the hand of our guns. (Why do you think Police officers carry guns after all?) It is now argued that because demon bush is President, it therefor doesn't matter where the actual crimes scene evidence for the murder of thousands in America leads to according to the FBI, for George Walker Bush (666) in above all the laws of the universe. Despite! the reason they obtained the warrant, was to charge me for "threatening the life of an international person", they instead decided not to as saboteurs of liberation. They argued after the warrant gave them my personal possesions, (hundreds and hundreds of video tapes, ALL MY WRITING, computers, disks, along with approximately 50,000 tasteful images.) That the reason for the warrant being originally issued, no longer, if ever, was justified. For if they were calling for justice, the demon bush, and his co-conspirators might get caught by America, and pay the ultimate price for their treason by death sentence. After two self confessed PRO-BUSHITE (support death squads against Afghanistan school girls, and propping up the heroin trade by arming women slave traders) "officers of the law" reviewed my images, they now contend, that several can be argued to be illegal in an almost fixed to win proceeding. (No more than a small few pictures of beautiful girls in different states of undress - "Home Lolita" I think.)

The charges they offered to the prosecution to argue for a "life term prison sentence" (almost jokingly it was quacked) were complete fiction, of which the crown offered me "a deal". Plead guilty for being a shamed ostracized sex offender, [I'D HUNT CHILD KILLER ENEMY BUSHITE EVERY DAY OF MY LIFE IF I HAD THE BUS FARE AND THE AMMO] and maybe, the Judge won't argue for a long term prison sentence for another charge that has absolutely nothing for substantiation. Substantiated, that will surely do nothing but testify to their attempts at demonizing my better name. Nothing doing darkness, the court of Law, is Our court, and I intend to make my case heard among my peers. Here.

Please, I beg you for my life, forward this document to the propper authorities, post these passages to any church, or, phone talk radio America and demand my public case be heard for Your benefit too, or don't and get what we'll deserve by not making a miracle happen with your single sole but sure, human will power!

1. I obtained the questionable images through Usenet group "youth-and-beauty". Images can be downloaded a

thousand or more at a time. I can't not perceive the images until they are on my computer! If they had told me they were coming as bushite, I would have been sure to delete anything near objectionable for argument's sake. They laughed when I told them that.

2. The service companies that offer such groups as child-rape and so on, have an easy ability to filter out subjective objectionable material, along with the truly grusome stuff. But they don't, nor, are they found legally liable for not doing so. I suggest the reason is, it would put out a billion dollar industry of these child-porno cops that view real sicko slime routinely, while then arguing anyone who witnesses such depravity must be guilty. Guilty to have their professional lives destroyed, their life invested property removed till whenever/perhaps stolen, and then be publicly ostracized as senseless victims. All because some guy maybe believed women are worthy of worship in the highest respect and honor, while cute adorable boys he couldn't help but feel compeled to cover with praise, or mutual hugs and kisses., as long as there are no other men in the room with him and the gals perhaps one day chatting over maybe child care let's say. (no wonder the two child porn cops in question regarding my public case admittingly were/are staunch bushite offenders.)) I know of no nobler lineage that that of our police officer. For protecting the rights of our children, is what we've always been committed to gaining respect for. We want to do right for ourselves, and despite Johnny, this world really is something remarkable to concider a future with on our own terms as a foundation of wisdom with the ever presnt will to succeed at something greater than first realized. Evolution. The Revolution of reason while jiving with justice for freedom holds many perks per praised principle. Hammurabi's number one thang.

3. If a search warrant can be made against anyone who a criminal bushite finds objectionable, (bush and rumsfeld made the charge against me through the Secret Service, then to the RCMP.) then what freedom fighter is safe from pictures of godly and beautiful children in bath tubs? Swimming? IF, the bushite demands the images appear seductive, and compel them to commit sexual assualts? Or, what if you download a program on cars to have the bushite find, it contains bin Laden's secret where abouts in code? Would you be guilty, and if so, of what? No thinking freely?

So, the warrant brought the officers of law the right to prove my Johnny Wizard writing was of my own, but yet, after doing so, refused to enforce the law by giving me my day in court on the reason the warrant was granted to begin with. Also, I, as anyone can not perceive potentially objectionable material until it is in my possession, while a service provider would have little of no problem. (The still working child porno cops could look for child porno all day, and actually get closer to catching those who proliferate actually objectionable materials. [See?, an internet service provider could defend thus: they're not guilty because the subjective material, that would be questioned, is subjective, and so would the porno cops if they got someone intelligent to defend themselves. But for Christ who needs to know what's going on in the realm?, while loving girls in general like they were his own distant siblings? They'd put Christ up on a cross for loving schoolgirls, by demanding such thoughts come only from a criminal prospective. The problem here is child porno cops can view a suggestive cute girl smiling in her panties, or witness some heinous bushite rape or torture, and measure them equally when charging US for their deviant sexual sugestion. As alas, they refuse to support the Law when it comes to the easily provable criminal actions of enemy bushite, as for would be, the defense of the lives of our innocent children in Iraq mean something to me too.

Anyway, apparently, the reasons for the warrant were not as was so intended. To charge me for threatening the freedom of bush, rumsfeld, and the evil witch condolezza rice. (Can I get some legal advice from someone out there on this then bogus? warrant please?). The Court will (try) argue without allowing ANY voice of objection, that because I demanded the immediate arrest or execution for the individuals responsible for the crimes of nine/eleven, (relying primarily on the Whitehouse, FBI, and the public spewing of the war criminal demon anti-Christ itself,) the prosecutor, it has been alleged, will demand justice not be served in that respect, and that the search warrant that obtained the bushite's evidence against me as a truth teller during their fishing expedition will not be allowed for re-dress. Is this Justice on behalf of God I ask you?

Nature of the Beast

(Again, remember, nobody from the RCMP, the Secret Service, or the FBI, state that I am incorrect in my allegations of treason against the bush administration.)

The prosecutor is going to press for incarceration if I plead not guilty for a crime I'm not guilty of, while my public freebie lawyer, contends my defense of innocence and corporate news agencies forbidding the pursuit of Justice in protection of our Police services, like the honorable FBI officers that contend Ahmad funded Atta will likely not be allowed heard. [Are you a member of a Police Union somewhere, or know of someone who is? Or, do you just not give a care for you fellow officers either?] See?, bushite falsely believe bush can not be arrested for nine eleven, no matter where the actual evidence leads, because he is not judged an equal among men by corporate news standards, but as the anti-Christ, FALSE deity, an enemy to every free person standing.

That is our, for real court case against the Bush administration as it stands today. While some have warned, bushite are pushing to have me taken in now, to try stopping this from speaking in our Humanity's true defense. They just might succeed, if you decide no care for Freedom from tyranny either..

This is was/is/will be my last Wizard Wire public service announcement regarding this, George Walker Bush (666) wars America, Humanity, and me as the Lord of Creation. I've said everything I can say twice over, and if you can't find it within yourself to pass this post on to every church corner, with a, "I love life too" set of priorities, I can guarantee you no greater reward. But for to be present if not in person, but in spirit during my public trial where the bushites will publicly judge my character unworthy, while attempting the silencing of our own voices for Justice as We stand in TRUTH, indivisible. Be it known, the prosecutors of Law in my case have read Johnny Wizard's "The Trial and Conviction of Our Mr. bush Jr.", and likely a few others that will be asked by the hiding in darkness bushite enemies to completely disregard as crime scene evidence. It's going to be a case worth getting to, considering the newspapers, talk radio stations, and National News desks are expected to forbid honest coverage of by the higher ups at corporate command. Call your Church group to organize a call for Johnny!

Or don't.

I thank all those with whom the true liberation of Humanity from tyranny could not have been made possible without themselves individually. I know it seemed like no one was listening, when we spoke for God's cries, but WE knew better, and we knew soon, all of US will then learn it too, defending God is of no greater privilege.

So, cheers to You, our Humanity's defenders of the human challenge, for being there to speak for this life when we needed You as a contributor. Fare thee well with your pride and honor, and no bars will ever hold your undying spirit.

Breaking Camp

I will advocate full compensation for every mistreated soldier who had been tricked into believing something without reasoning.

Johnny condemns George Walker Bush (666) to death for the crimes he has committed against God's Humanity.

Let it be understood, that Saddam gave America 100 percent access to do anything the anti-Christ wished without delay prior to the needless military conflict beginning. So, every treasonous thieving bushite life taken, is done in protection of God, and the American dream. See?, TRAITOR bushite Art Bell's amerikan talk radio forbids BY CENSORSHIP anyone in America to speak in the defense of the undefended American People. Art Bell, America's enemy, with ensure that America "never" learns that bush's business partner, General Ahmad, funded 9/11's mastermind ring leader Mohamed Atta, or that depleted uranium is measured radio-active, or most especially, that billions of STOLEN American pension money is sitting in bushite bank accounts in the Cayman Islands. Instead, he'll do another show on UFOs, or bigfoot, while broadcasted to the wordless bushite grunts their dying is for naught. Who cares?, bush's war against freedom in America isn't anything bushite amerika ever wants to get persnickety about.

http://www.chapelhill.indymedia.org/uploads/bushite-kills-bushite.mp3

/ / Who cares? CNN is not going to cover it, we know that. CBC in Canada, they're not going to mention it to anybody. It's no concern of themselves to show a caring word for the [thieving] sacrificing soldier. \ \

The EVIL bushite liars die for no better good, but as the ungodly bringing further hardships against US innocent people they target for murder. God says, the Magna Charta says, the American constitution says, let US all arrest or kill the TRUE ENEMY bushites instead. "See lawless bushite, kill it in defense of all that are innocent", I always say as the Son of Man and Living Creator. No joy greater than saving the innocent victims of the enemy bushite thieves, torturers, and first degree murderers. WHO WOULD DISAGREE? in a true Democracy?

Every American soldier who dies as a bad guy in Iraq, dies for cowardly worshiping bush instead of Life. The demon anti-Christ as their false, untrue, dummy deity, sends them into harms way for only to steal from the innocent. The innocent left in God's trust. There was nothing that could have better been done in Iraq by bombing the country. The blind attacking of the population, along with it's functioning public institutions, brings only the STOLEN cash rewards on trading in the American soldier's LIFE as a fascist criminal. All that is bought to by putting cowardly

bushite soldiers in bush's un-needed conflict, is to steal from their very own families back home left almost completely undefended. [Have no fear, Johnny Wizard's here!] A criminal military force that deems some soldiers from Apartide fame as "un-accountable" to American or "Iraqi" law, while paying them a thousand dollars a day or more as rewarded racists who fight allong side black and Hispanic dying bushites, to not allow equal rights for those classified by different colorations. Allthewhile with spokespeople smattering the sacrifices are to bring democracy together in Iraq to arrest bushite for thieving then? [No matter whomever you are, George W. Bush is truly evil to God in YOUR name too see?] Regular Joe in the Army, 47$ before expenses concurrent and impending.

I will advocate full compensation for every mistreated soldier who had been tricked into believing something without reasoning. Example: those who had been taken in criminally to handing over their military pensions for five year loans at 56%, or a 20,000 loan paid in five with 60,000. No competion exists for this racket because it's an actual crime scene. Guess where American Gis can hear the sales pitch advertised? The Army Times.

No thoughts of understanding are expressed (OR COULD BE) from the soulless bushite on why they are in Iraq dying, or why depleted uranium is harmless, or why depriving Iraqis of medicine along with food and water, is a ploy to win the hearts of every man who owns a gun. Or why the bushite demands through the censorship of tyranny, that Our Humanity has no rights to speak for our freedoms and liberty, or on behalf of Iraqis who have had billions of much needed dollars stolen from themselves by the bushite enemy. (The billed for taking bushite soldier itself, will not receive a penny of the ill gotten gains, just like their own grand parents were robbed of the pensions, and the bushite couldn't find a word of outrage to say against their false idol then either.)

/ / As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr., their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way. \ \

The ungodly evil bushmob fascist totalitarianists are pushing to have US specially arrested. The demon anti-Christ enemy forces have gambled an attempt to find prosecutors and judges, lawyers and defendants, who together wouldn't let the truth be spoken in our own defenses. I have had many discussions with the National Security branch of the RCMP, CSIS, the Secret Service, the FBI, and several commanders in the Canadian Military, and WE all know, this upcoming trial is something a great deal of many are lookiung forward to, however, an agent of law recently approached me to warn, some are working to try having me arrested without bail, and spend maybe a few years behind bars before a trial could not be postponed any longer, all in an attempt to try stopping my words of truth that represent the interests of all defendable legitimate legal enforcements. Canada's system of checks and balances, and our honorable police services have too many good guys in place, to want to silence my calls for Justice by measurement. And, up until now, our security people have advised the bushite case would never fly in a public court room, for Johnny Wizard would just make his case as it stands FACTUALLY DOCUMENTED along with that which was FALSELY ALLEDGED, and the wealthy do nothing corporate news agencies would be caught as culpable to being accessories to first degree murders in New York City, where they deliberately with malicious intent, refused to report on the FBI's findings that General Ahmad funded Atta, or that demon George W. Bush with condi and rummy, had a top secret CRIMINAL plan to invade Afghanistan dated September 9th, 2001. Just like still, CBC and CNN refuse to report any human concern for those murdered irrationally by bushite in Iraq today. No concern for those Humans, but in Asia, where bush isn't yet anyway, thieving in the wide open from God, they can try to make up for lost respect by claiming those People are better People worthy of our commpassion with wall to wall coverage on the suffering we have little of chances in preventing. But for to stop needlessly droping tons and tons of toxic bombs into our Living Earth. It is the bushite enemy who refuse to allow YOU speak in your defense as an Earthling.

However, this being said, I have been recently informed that, since the godless bushite enemies would wish to have our freedoms censored, it will likely be pushed to do so without a public trial allowing a jury of my peers to judge the case accordingly. Up until recently, Guantanamo could never happen in Canada. But now in Canada, the enemies behind closed doors are talking

about sending intelligent innocent people away to be tortured for sadomasochistic satanic tendencies, and further have argued to no one that persecuting People in Our names without evidence, maybe isn't such a bad idea, when you think of all the people we could rob our humanity from like the "popular" and "Democratic" bush regime does. Bushite corporate new censors are fighting for a return to the dark ages. Don't let this happen to YOUR world. Care not for my freedoms as an honorable man who stands with America's FBI, and your given up life wont be worth nothing but as yet another sacrifice to bring further glory and stolen riches to the American cop killer, pension thiever, 9/11 perpetrator, war mongering anti-Christ, Your unbelievably EVIL Mr. bush Jr.. The enemy of God anti-Christ who continues to hold your real life in mistrust and dishonor, while wealthy corporate "celebs", talk freely about their pride in such ungodly sacrifices as Christ's forsaken name.

I ask ONLY you to argue this paper with your best intentions, for I will perhaps not receive another chance to publish, if as usual, the Internet community at large extends me little support in my UNCHALLENGED assertions on who truly committed the crimes of 9/11. A single bushite corporatist sends a complaint to a Internet provider alleging I talk "spam", therefor, without any hearing, private owners are threatened to lose their privilege to communicate, by an enemy bushite protagonist who exercises his "authority" by stating only, "spam", and not even providing my actual post in it's entirety. One Internet service was shut down for the sole reason that discussing George W. Bush as the 9/11 perpetrator in tx.politics, was against the rules, for such subject material must be confined to only a American nation political forum. I talked to the kid on the phone who made that power decision on behalf of all usenet, and let it be known, he knows what he's doing. But "they" can't do this everywhere. I can not "take over" your big old lonely world that you must work to protect for yourself as an equal citizen sworn to freedom. I have written all I need to say about Justice and Freedom, and if the human race can not still find enough care for themselves to propagate my writings for others to read, or demand Art Bell be removed to allow Johnny Wizard to debate the ungodly dumfuk bushite vermins, there truly is no hope for US continuing.

that had not ever been given. Red Cresent, the day
previous to Dec. 6, no... actually reported on, Dec

they had witnessed a minimum of many corpses, of

Bush Lies to Canada

Saddam was not found in violation of 1441, so the war
criminal anti-Christ's demands were not our world's, nor
that of the UN Security Council. How does thieving our
assets, destroying our infrastructure, and
indiscriminately murdering more than a hundred thousand
innocent people, (in turn to sacrifice more worthless
bushite nazi teens) bring about their closer fraudster
bushite "Freedom"? Again, CNN, and CBC let the demon
liar spew his hatred of our liberties, without factually

old nazi tricks

REUTERS up to their old nazi tricks again. Jotiar Nafaa, "coordinator", should surely know, that it is 175 families that had requested for the help of Red Crescent totaled several days previous, (without phones, nor abilities to leave their homes (150?)), NOT, "left in the city". [THINK: how could they possibly know? (nazi bushite whores were ordered to murder innocents indiscriminately as enemies to God)] Also, is "Jotiar Nafaa", the same woman hater, who LIED in REUTER"S anonymous hand previously, as the Red Cross, that the women held illegally as hostages by the thieving evil nazi bushite forces, didn't really exist? (and who the "sovereign" Justice system of Iraq, along with World opinion, God, and JOHNNY had demanded to be let go for lack of any real criminal charges? (despite CNN and CBC WILLFULLY refusing to report on the issue as important. (You know, INNOCENT women held hostage by bushite goons who acquiesce COWARDLY for rapists and torturers? (Just like Jew killer Ariel Sharon never gets a fair mention by "America", nor Zarqawi, as he was in the second Bigley flick, right before Samara.)))

LOOK AT THIS - LOOK AT THIS - LOOK AT THIS

Aljazeera.Net - Aid trickling in to desperate Fallujans

/ / The organisation estimates that only 150 to 175 families stayed in Falluja after the start of the US-led offensive on 8 November \ \

The organization does not estimate the incorrect fantasy conclusion held by this pro-irrational Bush article from Aljazeera.NET. By god Johnny, where tell us could such lies begin at? Well, let's go investigate... If as it is, a misrepresentation of Red Crescent's actual findings, wouldn't you think "they" would put out a press release to correct this falsehood of public claim?, to suggest 150 remain in a city the size of 300,000+?, but no greater than 175? without access for numbering by anyone, but for the only near 15,000 HUMAN BEINGS known escaped as refugees??? Or, are the "reporters" just conveying the "facts", by putting no investment in our validity? Leaving us for further victimhood, by hiding ourselves from the war crimes the anti-Christ bushite nazi savage commanders have committed in my name, America's name, God's name? as our enemies?

Our cause as Humanity is for freedom's reign, not to sacrifice Humanity as misled bushite nazi facist teens further, so bush, condi and rummy can fi-nah-lly escape "The True Patriot's Wrath", for the crimes they committed against Freedom America on "bush win", 9/11. So... Why so do I think Justice is going to get GW, making no mistakens? Because the Patriot's Patriot is you too my sworn believer, and now that's this: America's craftier than that George Bush Jr. makes living out for, in "our"-OWN news broadcasts. As the "censored" contributors who learned our gathering skills some time ago already, I say, Freedom is paramount. Mr. bush's unbiased corporate news agenda doesn't hold America to an account before the Lord, nor to God as being, an honest spoken word, or deed of good measure. Of friendship, of kindness, of compassion and caring for our fellow human beings. I have rights too you know. As cowards, the bushite refuses to defend the innocent they rob and murder from to serve as enemies of Life, done in to die pleasing their false idol, corporate america's glorious leader, the un-elected dictator, Our Mr. bush Jr..

It should be further noted, as reported, that all aid agencies contributing have accounted for only near 15,000 families stationed in refugee camps that escaped the indiscriminate anti-Christ demon bombing campaigns. So, total deaths tolls could exceed 200,000 just for Falluja alone., what with the napalm, land mines, 1000 lb bombs, snipers, tanks, mortars, essential services, police protections, denials of foods or water, thefts, vandalism, and so on. All along with the refusal to allow the People to escape before hand, or even enter now. I've only heard that the nazi grunts will only allow the "staff" of "Red Crescent", to quickly as can be, come into the demolished city, and dispose of our corpses with bulldozers likely. You know?, any males between 15 to 50?, like their "Hero", the bush family's Hitler regime did. You tell me, would you enjoy as a True Patriot Warrior, killing a LYING enemy bushite nazi bomber, on behalf of saving yourself and family, God and Humanity? God?, that the demon anti-Christ disciples murder to steal from US as the innocent? To kill an evil and mindless devaluating corporate bushite facist slave, is to save the untold lives of thousands of US innocent they target indiscriminately for criminal plunder. Dying as cowards too weak to defend their own country from the neo-con conspirators, they die. Die.. Get this measage out to the American forces, and stand back, cause America's gonna win this fight for freedom, or die as slaves remaining unworthy to a blind comitment

of tyranny by furthering enslavement against our Human species.

Continue doubting in silence fledgling Patriot, and bushite america's war will continue refusing to speak on it's needless sacrificing through bushite criminal decree. We know, wealthy con man Art Bell, Limbaugh, and O'Really will try and refuse such truths discussed in Your America, care for the lives of sacrificing American teen soldiers are of no concern to their profit margins., so far. You, my friend, just need to try starting a demand for justice as Freedom commands. (And, if you wish, you can thank us with a small cash donation to help me escape this nearing starvation.)

I'd, as the Son of Man, (but you can call me Dad.) proudly teach, or kill godless thieving bushite to save the lives of any child, and so would the rest of Humanity likewise. There is no known fate worst, than a Mother Nature scorned, or near 7 billion People really very angry with you.

"if the USA's honor can go along with these [bushite] tactics . . then the USA is a country without honor."

And, boy, real America wouldn't take kindly to George W. Bush Jr. as understanding, the elected President has leadered the murder, of thousands of decieved Americans as the innocent, all to only steal from, as the left "officially" undefended. Hell, as the true Leader of this Free World, and holy roller god child, George W. Bush Jr. pisses me off to no end, how about you?

/ / Washington says the Falluja campaign was necessary to bring the Sunni Muslim city back under the control of the central Baghdad government ahead of planned Iraqi elections in January. \ \

Reuters up to their old nazi tricks again. It was only mindless nazi savages who indiscriminately murder good honorable people, who advocate thieving and torture, rape and murder, and the willful destruction of America, that were banned from entering the Holy city.

No evidence, so then, for what? What but to get more cowardly american marines dead, to serve soullessly further - as the stolen riches of the evil enemy demon anti-Christ, evil personified, Our Mr. bush Jr.. (the same from 9/11 fame)

http://www.truthout.org/docs_04/112604I.shtml

/ / By targeting civilians, he said, an army could advance more rapidly. ``Air-delivered terror'' effectively removes civilian obstacles. \ \

Pure, unadulterated fascist nazi evil. "Never again"? Killing un-arrested bushite (Saudi wahabbi) commanders, is like killing the enemies of America, Humanity, and Jesus' God. Do ourselves and Johnny a great big favor, when you see a loyal bushite nazi grunt, thief and murderer, imagine, "yah, that's right, that's what being a kind neighbor is all about, for Christ said so in John's Revelations." Bushite! your false Idol religion is too stupid to remain for dying spark under the anti-Christ's evil criminal dictatorship of, wannabe dumfuks. I'm Your God see, and Your coming and going. As for Royal King Johnny, he's just standing in for this time being,..' hey you!, pay no attention to anyone behind what curtain! Boo!

America is wonderful to truly believe of it as in the making. So, let's get the work done that needs doing, so God can get back to trying to enjoy some time at home. I'm here for a good time, not a long time, and the sun don't shine every day. So get off your asses, and demand some real Justice for Christ's sake. Johnny has awoken, and he's cranky they say.

soulless teen-age disciples of the true enemy evil
anti-Christ. Why bother to arrest those who committed
MASSIVE fraud during the election, the crime is over,
and corporate amerikkka have already declared themselves
our enemies of freedom, as committed, to kill, or have
killed, America for stolen gains without virtue.
Besides, what is such a charge in amerka know-a-daze?,
"fifth degree felony"? Why even bother. Reading is for
the stupid people, and math is even quackier, har har.

God is Great

A person accused in our name(s) of a criminal offence,
needs to be established somehow to be as such, and the
only way to do that, is to present evidence that formed
your/our conclusion. Without evidence our accused is
ourselves as the innocent, being falsely imprisoned,
tortured, or murdered. Murdered, as the Allawi and the
bushite nazi forces did to our friends and family in
Falluja, to please the demon liar, lawless George Bush
Jr. as their central thief system of dishonor and
betrayal to the human cause, Your own.

Now, when bush stated that Laden was guilty, without
evidence needed to form a conclusion, or when he just
told you for no reason possible, why American soldiers
are DYING, "Saddam wouldn't let inspectors in", the
bushmob thieves plundered in our "lost" confusion. All
the while bush always seeking to close America's
on-going criminal investigations, by causing even more
have nots among US. So, as a free person, to side for
the, bush wars America, God, and Johnny issue, you would
seek out to find for Yourself beholding likewise as We
all are: bush is actually super fuking evil, like
personified or incarnate even, and Johnny's almost like
a stranger Messianic figure who just wants to be known
as a semi-normal average GUY/god fellow. (Sheesh.. We
gotta bring ourselves everywhere we go) I "hate" bush
for being so not himself stupid to think there was no
actual walking, talking, godly Persons from the
outer-reaches coming in to get him for the crimes he has
committed ourselves to. Corporate news dictate without
a human presence, doesn't rule this world of
communication, we do. (Jesus wasn't buying Satan's
misconception.. SEE THE BIBLE AND THE KORAN CAN BOTH BE
RIGHTiOUS!!..! Just ignore the misconceptions others
have, and join the party!!! The Time is Now, and man,

do I know how to make an entrance or what?)

A demand for Justice is our birthright as the human species struggling to survive.

We could be on good terms with the "unthinking", greatly special loving Earth as the no longer leaving ourselves to be silently victimized, and I think, we'd think, we want to live in a freedom bound for glory, not a hell hole of, ignorance is bliss, look there! your dying needlessly victimized, oh.. too late who cares your dead nonexistence. Did you say something?

Trust me America, YOU WANNA correct this George Bush Jr. problem before it becomes the "law" of the "land". Don't fear though, for, God's here, there, everywhere!!! It's you over... there! and under here.. and then... we said hello to Johnny, the miracle worker. God People, I have so many good words to tell you, and wonders that would surely boggle some senses. Our hope for a better future doesn't have to die here on a cross for the war mongering bushmob thieves, but, it's going to require You personally taking some action, be it however slight, to bring a remedy to this current, "Look People, bush thinks he has almost escaped accountability for the commitment of crimes he perpetrated on 9/11 against US interests." Strange but.. REMEMBER: people like Americans, are currently needlessly still dying for the bushmob war monger thieves., dying by only our continuing censored voices on the seriousness of our commitment to defend the rights of every free person standing; ourselves as God being victimized with these unjustly expensive, neo-con bushite terrorist campaigns against Civilization's better judgement.

God is great I know it's true, just put a little faith in yourself, and demand America soldiers fight instead to protect DYING America from the tricky, evil bushmob cabal of THIEVES. Cheney looks bad there, as does Myers, and didn't Goss have some pre-9/11 meetin' with 9/11's General Ahmad that he has still yet to answer for, or.. is it we guess, to be "legally" done in by... the Secret Order. The American good cop is all we're expecting, and all we need when dealing with the likes of a self-depreciating bushite conspirator..

We don't get to be Magnificent without you likewise. This alien world we have victimized against our better interests, is a failing spirit of Life from our vantage point. Going back before the Age of Reason, is not where I believe America wants to be taken any further, thank you, but no thanks, besides, the King of Kings is

here. Johnny Wizard looking to break into prime-time with his very own Special special.

I'd have ta be one crazy mixed up loon to follow this world over with the universal principles of justice as freedom, to set course for the dreams of my trying, and you might be right. Get You to talk TRULY will, guaranteed, freak you out. REMEMBER: Mr. bush Jr. should have been arrested day one, with that fifty billion. That was before 9/11, Afghanistan, Haiti, Iraq, a few hundred thousand innocent lives, 300 billion plus a few hundred more stolen, and for what? I can only see, we needed myself as King here yesterday. I wasn't chosen for this freedom post per say, but, me and the stars had a dream one time, and it continues through out to this day, enough to say but, this is not what you read about in the manuals. Freedom to be yourself, is the freedom to dream something bigger that your wildest imaginations. I am the Son of Man, and do I have tales to tell. (I know, it sounds crazy, but it's just like a performance gimmick to increase my Q ratings. And, it seems to be somewhere working with me.. I've got a story down pat for anything if someone should ask what fear is.., now, open that curtain so we can start the show!)

I have a treat for you strange friends and friendly strangers out there. Some art work from me. Now, I used the drawing myself, for posters of different sizes, explaining in small writing some key 9/11 questions, while with maybe block letters, things like "bush is EVIL", 'did 9/11', can you hear me?, as what have you.. So, here I will offer you something I created, a Johnny Wizard pencil drawing in jpg format. Enjoy!

http://la.indymedia.org/news/2004/11/119755.php

Hmm, perhaps I'll give out other of my drawings as thankyous for fifty dollar donations? Or prints for $500! You know, they could be worth a substantial amount of money in a few years, hmm, a real investment for your future... A wise move for the prudent investor really when you think about it. But hey, no pressure, no pressure.

Being me out to destroy bushite just sucks. I'm really not naturally so angry about what bush has done to our world all the time. My voice is getting hoarser, and I'm occasionally grunting, bad sign. I want to live like it's 1999!

Arrest for immediate trial, bush, rumsfeld and condi for the crimes of 9/11 back in New York City, and all will be well with my World,

A friend of living on for a brighter day,

Johnny Wizard

Truth is Telling

/ / Major-General Richard Natonski prepared his troops for the battle ahead. 'We're goin' in to raise the Eye-raqi flag above Falluja - to give it back to the Fallujans,' \ \

So, was it Major-General Richard Natonski's decision to drop 2000 lb bombs then? Was it his charge to indiscriminately shoot at US innocent, on the street, in our cars, our homes?, cause somebody's gotta pay then with their lives for lying to die the dumfuk marines, who it turns out, weren't so dumb, or hard of hearing after all. Those responsible for the bombing campaign targeting hospitals and groups of innocent people, need to be hunted down with extreme prejudice, and publicly executed on behalf of our Humanity. So too, do those who ordered the NEEDLESS bombing campaign in Samara. And, for those who have worn the American flag while willfully committing the sadistic crimes of torture and rape, we shall all join together, and hunt down as our enemies without mercy. The bushite are enemies of all our humanity, demanding we sacrifice our honor, like they have done to family and friend, and sacrifice our courage, because they refuse to defend their own flag and the freedom of which it stands, one nation, indivisible.

I will not rest until every traitor of the America I remember, is summarily executed by death sentence for the convicted war crimes Humanity and God has suffered under their heinously satanic barbarity. I HATE the anti-Christ, and all the bushite has tolled against our better station. As I tell again, killing bushite is a godsend. They as a satanic force of evil, torturing and murdering, rob from America as they "willfully" allow the robbery of Iraqis, and they truly, rob from themselves when refusing to join US in the demands to have bush condi and rumsfeld downed for the crimes of 9/11. We also demand all stolen assets taken through the bushite mongering war privateers, returned to a legitimate Iraqi government. All done by firstly, arresting Allawi for the murderous war crimes in

Samarra, and then in Falluja. Also, hunting down to kill those who forbad humanity from helping US in Falluja, or turned off the utilities, shall be tried and publicly executed for commiting war crimes against MY humanity.

Weak intellectually as fascist nazis, the slave whore bushite's commitment is to only die for as enemy. They FEAR to have to stand up for fellow thieving soldiers and say, "damn, this war is evil to the 'n degree, Jesus would surely be angry, And from what I hear, the Son of Man is pretty upset about what we enemies of God have done too, and, well.. we do not have to thoughtlessly serve under anti-Christ war crime decree any longer, as the cowardly lying chicken shits, too afraid to defend our own nation., instead, let's go bag US some enemy bushite for America's America!" We do all together want to convict those who murdered thousands in New York City, and we're definitely not combating global terrorism, by fighting a needless war against the innocent, lying to ourselves that by doing so, brings about a fair just government of "The People"., to then in turn arrest whom? American soldiers need to say, to hell with bush, and corporate professionalism, my loyalty is with Christ as a truth telling demon slayer.

For those who still continue, to sacrifice our rights to life and liberty, for a no better good deal as the bad guys, are TRAITORS to America, who are attempting to help escape bush and rumsfeld from the murder scene of 9/11. Never gonna happen. So, why should yet another, promising young man, die as a dumfuk bushite, the most hated and reprehensible nazi savage America has ever gleamed of? The indiscriminate bombing of our communities rightly gets dead, another, good for nothing, nazi soulless bushite vermin, AND RIGHTLY SO. I'd kill thieving bushite bombers to save the innocent life of anyone.. like a,.. cluster dud dropper., wouldn't you?, in all honestly, if you had the power, kill such an evil nazi betrayer to Freedom and America who blindly targets our residential communities to enrich the UN-AMERICAN demon anti-Christ bushite thieves further? That, as bushite nazi grunt, they die for? Paleeze.

America is dying to prosper their false-deity war criminal demon anti-Christ, Our Mr. bush Jr, the same responsible for the nine eleven travesty, who attempts escape only through fascist americans who willfully betray America by condoning the furthering of bushite censorship for tyranny. Is America the cesspool of

corruption and greed, without a People person present willing to make a stand for God and Country? BUSH IS EVIL. Let's arrest'em, or kill'em for committing high treason on 9/11 with condi and rumsfeld.

What do yah say?

Under the witness of every freedom loving person this universe over, I am proclaiming, a war against the liar George Bush Jr., the vilest contempt for mankind this World will not stand by to be destroyed because of.

/ / claiming that the United States went to war because Saddam wouldn't let inspectors in; the media has treated this as not really a lie because it's so obviously untrue. \ \

/ / Rumsfeld replied to a direct question yesterday as to whether he knew Zarqawi was in Fallujah with the answer: ``I have no idea if he is there.'' \ \

So, America! there is your reason for dying America's sons and daughters, Johnny's brothers and sisters. "No idea" rumsfeld states while his private partners cash in the blood checks for everything but the funeral services. I ask sacrificing soldiers to help grant me space to debate bush and rumsfeld on international radio. We gotta take away Art Bell's turn off button to thank him for all the enlightenment he has been a part of in America, but that these life death top priority issues of ours, he hasn't the right to censor communication on. This is your World that I wish to play servant of. As my subject; I promise a fight to return Justice through freedom for all. How? By believing in you to do as you should, demanding the immediate arrest or execution of bush, rumsfeld, and condi for the crimes of 9/11. Demanding the return of all stolen Iraqi assets, made by those who personally profited off the criminal transactions. Demand the arrest or execution of Allawi for the bombing campaign of Samara, along with bushite military commanders who organized the satanic attack. Why would America do this? To free the dying lives of their bushite nazi whored, dying grunt savage slave population. .or perhaps not...

/ / Joseph Bowman, a 20-year-old marine from Texas: ``We're ready to go. I'm just ready to get this done. I want to go and kill people, so we can go home. Kill them, and go home, that's all we can do now.'' \ \

Where is home for the Joseph Bowmans? A devolving backward wasteland?, where brother kills brother for a stolen nickel? Who would want to share the same home?, street?, or community with such contempt for life and liberty? God and Johnny? Who's home does bushite Bowman SEE the joys of his humanity flourishing?, or being destroyed as the true enemy? Is that the place where the pursuit of freedom is done by sanctioning first degree murder for no reason in particular? And is

that the bushite america we've all come to getting to know of these last few days through corporate news contempt for the loss of our life's love?, and God's voice? It is all up to us, You included. In battle against the evils of this world, we should start on getting back to those that did US wrong on 9/11: bush, rumsfeld, and condi., just for starters, while keeping a careful watch on those that jump to their cause for furthering tyranny.

A terrorist to target: Major Todd Desgrosseilliers

/ / US forces unleashed more than 20 air strikes and some 60 artillery rounds on Monday, said Major Todd Desgrosseilliers. [...] An AFP reporter in the Jolan district said one building in every 10 had been flattened. As US-led troops closed in on the neighborhood overnight, at least four 900-kilogram bombs were dropped in the city's northwest. \ \

What is it that the major is warring Falluja's defenders for? Is it to thieve the assets of the war torn city through the sacrifice of American boys and girls?, or is it to set up a representative government that would firstly stand demanding immediate reparations? The return of all stolen assets? (referring to the satanic bushite documents: the lawless 13303 and the, "THIEVING bushite dying soldiers stole it, so" now, G.W. can sell it privately to his no-national robber baron "Economy Plan"sters.) Would not a free and liberated Iraq demand a return of the "missing" or "lost" billions through the humanitarian Iraqi Development Funds? The practice of human rights law? Criminal investigations? World wide Public arrests or executions of the rapists and torturers, along with the war crime commanders?, who mostly command from sunny Florida as pension thieves, and the lucrative Halliburton billionaire war pressure lobbyists?., For all together as represented, we instead (they claim) advocate the mistreatment of US innocents in Your name. Sacrificed? Why do you let them get away with that? How about instead my friends, for Christ's sake, we decide together to go after the criminals? Allawi must pay with his remaining life for the needless bombing of Samara that got many an American soldier KILLED for nothing. Nothing. Died for nothing, but to sacrifice more of America to the war crimer bushite, the lawless demon anti-Christ's followers of evil personified., the most popular Presidente' ever all-act-dud. .!!.

Yeah yeah, bush and rumsfeld did 9/11, but did you know the Pentagon has not so mysteriously misplaced near 3 trillion dollars?, that a couple few claim was forever lost? Shucks? And did you know, it is the Treasury Department that loaned the Federal Reserve American currency to begin with, not the other way around, when they in turn, lent it back to ourselves.., at private interest. Whoms? Hmm... a quest for answers to the name on the bill We Trust?

At the same time while we're all parting, we got like, American soldiers indiscriminately murdering people. That isn't an accusation I make against the nazi bushite, they freely confess it. and for what purpose? They say, "we'll kill more than them that they'll kill of US"

Yeah but, why bomb ANYBODY? Why do you have to sacrifice American soldier's lives for no greater good? What benefit does it bring to the DYING bushite grunts who are ordered to stick around and try to placate hostilities with "good" intentions? as within the sites of Humanity - as enemies to US all? Will the commanders argue from sunny Florida, that yeah but, we killed more of them, than them of US. And.. they are who? ordering the commitment to indiscriminate murder? as the bad guys?. The bushites bombed, the willing to placate Samarra, to only get killed, more American Marines. And for what but the few bucks wasted on the ammo?.. to get killed more "uncounted" Marines naturally., for the bushites are waging to make a real killing on this American sacrifice. Look, we can sit down with each arrested bushite individually, talk to them about wether they are personally committed to thieving further from America, all to die benefitting the likes of an Enron, and those that thought they'd get away from the crime scene of 9/11; before deciding ultimately, wether the born again have any real hope left. The bushites are enemies to God, Amnerica, Johnny, and themselves truly dying US for. We can see how easy the manipulation of the American soldier's mind is, they have no ability to rationalize while speaking, and as a consequence, have no understanding of their bad-faith based satanic system. George W. Bush Jr. threatens the grunt soldier to always fear what they don't understand, like, the wisdom contained within the American Constitution, or the dreaded, free to speak any mind Internet. Terrified of growing up like real men do to make their own decisions in this big world, the bushite nurse instead on the teat of sadomasochism, as bushwhore nazi dumfuk slaves. Dying brain dead limp as noodles mushing. And why? All because Americans don't

want to trouble American Talk radio with our freedoms. I again challenge Art Bell, Limbaugh and O'Really to a three hour debate entitled, "Wizard's War of Words: A Super Duper Special" all about their un-worthiness to censor our screams for Justice.

Joy to the world, or more misery and suffering under the demon anti-Christ, Our lawlessly evil Mr. bush Jr.? It is up to you really. Where do you want to go? Up, or down? You decide, but don't wait until forever never coming; these times demand for the victim, some real accountability. It is the power of our nature to being, that demands a call to arms against the war crime instigating, nine eleven perpetrators. Military commanders who don't support the arrest or execution of said individuals: bush, rumsfeld, and condi, are traitors guilty of mutiny.

/ / because having photographers or reporters present could have interfered with the count \ \

What we do now is accuse ES&S, along with Diebold of falsifying the election, then when they're pressed to prove "their" findings, they'll tell US, they can't, no ballot trail. Their convictions on our accuracy is misplaced. Pen and paper with ballots secured in locked boxes that never leave public scrutiny is the answer. Those who deny US that privilege, are enemies of freedom and democracy, wether they know it or not.

What for you say?, up for a challenge?

Your, coming to town, lovable loyal American King,

Johnny Wizard

/ / But not until Friday did they begin to spill into the more conventional news media. That's when the Cincinnati Enquirer reported that officials in Warren County, Ohio, had "elocked down" its administration building to prevent anybody from observing the vote count there.

Suspicious enough on the face of it, the decision got more dubious still when County Commissioners confirmed that they were acting on the advice of their Emergency Services Director, Frank Young. We all can only hope and pray all US Godly innocent people will wake up, and starta' hunting bushite to the ends of this Earth. Enemies of America are the cowardly and soulless disciples of the demon tyrant anti-Christ, Our evil Mr. bush Jr.. Disciples of evil who war God as our enemies in attempt to escape bush, condi, and rumsfeld for the crimes of nine eleven. No dice, for Johnny's now, truly coming around like some kinda godly American Man of Virtues most can not even begin to understand. Don't be afraid my brothers and sisters, unless of course you're a bushite, for as a Christ Crusader I'll kill you myself, before allowing you to murder another innocent soul in My name. "Death to the bushite instead of our good friends and family", is our King's reply. Getting Started

<http://www.yubanet.com/artman/publish/article_14748.shtml>

/ / ..a call for immediate inquiry into evidence that suggests high-level government officials may have deliberately allowed the September 11th attacks to occur. \ \

I would suggest all living American medias to join the 911 Truth Statement, then, if we did that, America might settle her own affairs, and I could then just center on my upcoming "Wizard's World Wide Wonder Tour" plans currently in the finishing stages. This great World is yours, treat yourself well. A National radio program is just waiting for your call on what you know now about freedom.

/ / So, at the time of the invasion, the Iraqi government had already disclosed and disarmed, and was thereby in compliance with the major provisions of UN Security Council resolution 1441, to which Bush refers in this quote. Diplomacy had, in fact, worked. \ \

Demon bush spew "Saddam Hussein would still be in power, he would control all those weapons and explosives, and could share them with our terrorist enemies."

Yet, it was rummy and tommy franks who TREASONOUSLY threw out the State Department's semi-thought through ORHA plan of, securing the weapon sites and preventing anarchy, and, it was the IAEA that had tabs on the weapons before the bush demon kicked them out

irrationally. Done so to instigate looting and the deaths of American soldiers, all so to allow traitor franks and company to rob the public bank of uncounted billions, along with the museum. See? bushite would truly get the dumfuk cowardly bushite killed for a stolen dollar, and US real men would kill bushite too, as so would this eternal Universe, done so to protect our loving innocent families. Being a bushite disciple of the evil anti-Christ, is something all wish hardship and death for instead of the innocent they, un-apologetically, as enemies of God, openly target for rape, pillage, and murder. Johnny Wizard pays ten cents for every bushite tagged and bagged, ten cents. And, an even share of at least 3 billion to those who kill the bushite commanders responsible for the criminal bombing of Samara. Hint: You kill the individuals who ordered the bombing MURDER campaigns of Samara, then stand up proud to our media as a real American soldier should or would, and say yeah, I killed the nazi bushite traitors as a true Patriot Warrior to protect my fellow brothers and sisters. (Optional close: "All hail Johnny!) Do that, and I promise you'll get what coming to you: all the riches this world of God's can afford., But don't, as bushite nazi soldier grunt, and likely die sacrificed as a coward and a traitor to the Human cause of liberty and Justice for US all. WARRING military corporate commanders that don't support the arrest of those responsible for 9/11, or the return of all stolen assets taken through the neo-con's war crime actions, we should all just frag for America.., what do you say Patriot(s)?

/ / Marine Colonel Michael Schupp dismissed the sputtering dialogue as a sham. "The negotiations are a ruse. They are just stalling for time," he told reporters near Falluja. \ \

What negotiations? Allawi has repeatedly informed American soldiers he has no evidence whatsoever, establishing his therefor, FALSE allegations. Mr. bremer's Zarqawi moves freely throughout Iraq, including the green zone. Question: When all those children were targeted for murder, by what was reported at the scene with remote controls in one truck and under the street, why would Zarqari take credit for it even if he was truly responsible? And so on..? I think Michael Schupp is a fuk up dumfuk, who thieves from America for bush, and who clearly doesn't have the intellect to command anyone but himself to his own rightly death. Why would Zarqawi target children, when bushite nazi grunts are all so close by coming and going?, for days at least constructing stuff?, that rumsfeld broke?, then over

billed to fix for even further takings? Remember several un-arrested bushite NAZI commanders openly confesses to AMERICA in having no public objections about murdering the innocent, without even having a military objective established in some cases, but only for to sacrifice another soulless bushite grunt/slave, all so to enrich the comfy neo-con war mongers left back home in our luxuries., Luxuries from where America's very own grand parents are left un-treated as the still victimized.

What do You think People? Needlessly murder thousands upon thousands irrationally making no sense, or, return stolen Iraqi assets while arresting American enemy Iraqi People killer Allawi, along with maybe Michael Schupp while we're at it? For, who cares about what is right, just, or true is this dying world of Yours?, er.. I mean bush's. You remember, Saddam wouldn't let the inspectors in, and that was why bush took a serious look at this real world situation and decided unilaterally, what the hell, he'd start a war against our Humanity left "undefended" as an enemy to everyone. (Satan's wager, that if i Remember correctly, Christ/God refuses(d).) Evil is Our Mr. Bush Jr.. Thank Johnny we had the time to intervene finally, now eh? Spooky is not the word, but baby, we sure could be on the winning side of this evolution by revelations thing. We are it together, bound for freedom through the practice of Justice, or bound to tyranny through acts of ignorance, ignorance propped by fascist censorship regarding our news content., Censorship of our human cause for liberation.

It is up to You brothers and sisters to demand evidence a requirement to convince ourselves on who shall be deemed the free person, or be sentenced to jail without trial somewhere. Tyranny through criminal dictatorship, or democracy expressing the true will of us people? It is all up to you.

Americans murdered on 9/11, and those responsible are let to go on their way. Yeah, and so what?, for Americans are absent any real Patriot warriors willing to protect their now officially perverted Amerkan flag. Look at the nazi grunt soldier's uniform, and you'll see. All bushite nazi grunts, who fight cowardly with rapists, torturers, and South African apartheid death squad goons, wear a flag reversed from the original design. Solution: hunt to kill those left un-arrested who willfully, criminally, ordered the needless bombing of Samara to get killed the bushite grunts for the further thievings of the bush backer traitors who bask in your stolen expenses.

Support calls for open dialog.

Is It Just?

/ / Is it just coincidence that 9/11 is also bush's "acceptable" reason for warring, (planned TOP SECRETLY prior by several days of 9/11, and confessed to US already as fully implemented by the Whitehouse) Afghanistan with a FALSE ALLEGATION [n o - e v i d e n c e] to heroin push, [is still leaving] ..the STOLEN American soldier pension money [...] sitting in the Cayman Islands? \ \

I guess perhaps I wasn't so clear previous, but listen: How's bush and rumsfeld's Afghan plan, gonna go down, if there is to be no surprising 9/11, nor any evidence, (not a scintilla,) gathered for public inditement against Laden for shoplifting? (No advisement from Tenent, nor Richard Clark?) Would bush start a war against life itself, by just simply stating, we don't need no evidence of our suffering?, with him demanding an innocent family to be crucified?, to save Enron? Again, bush is the for real antiChrist of all biblical folklore, hated this entire timeless universe more over than anything else Johnny cares to mention. George bush's naked treason as an enemy of Humanity is hidden from no one. A true soulless degenerate George W. Bush is, whom is purposefully attempting to destroy Your freedom as humanity with his utter contempt for our flying fricken flag. If a person has no evidence to substantiate an allegation as personal opinion on the

advocation of perpetrating senseless bushite barbarity against those understood as US innocent, then your blind faith in evil bush as bushite, not lies with your God, your nation, your family, your neighbor, OR YOURSELF, but as the willing to be sacrificed for the ungodly bushite war crimes as enemy of everyone. Listen: Jesus..., KILL BUSH INSTEAD.

Kill un-arrested bush and rumsfeld for murdering the good American People thought left undefended by corporate edict as the still unjustly dying and near forgotten, and you'll be respected by this universe as truly honorable and courageous, in these of God and Humanity's, most troubling of times under the criminal dictates of Our evil Mr. bush Jr..

Those evil brethren of the bushite clan intend, through censorship, to allow the demon bush cabal our rights to leave, but where does the brethren of the bushite clan think bush is a gonna flee himself from, eh? We, The People are a' coming to get you George W. Bush for almost escaping our police protections. For, when the bush brethren clan wake up to the plan, that they'a have'a been'a deceived, the last think anyone would want, is to be without police protection... (Can you believe, the war monger thief and liar, Our Mr. bush Jr. actually banks for Christian fundamentalism, thinking he's gonna ride them bible belting for all he's worth?)

Again, America needs to wake up, load up, and go out to freely bag US some un-American bush and rumsfeld, all to save the lives of the leaderless dumfukked bush-teens, who are prodded criminally as cowards to die for the enemy. Those who would murder innocent Americans as bushite, then further publicly advocate as enemies to freedom, the victimization of God as the innocent elsewhere, should be turned against instead, questioned, arrested granted full legal rights through public due process, or hunted down to be destroyed by US real Patriots of this world as God's great believers. I'd destroyed any un-arrested proud bushite for warring America by indiscriminately dropping toxic cluster bombs on our friends and family, to get rightly killed more leaderless cowardly soldiers with Grand parents they leave undefended in bush's evil amerka. Who doesn't hate bushite I ask you to think as you should?

You kill bush because, we had unrestricted access to do anything bush pleased throughout Iraq, prior to sacrificing any good for nothing, cowardly bushite nazi

dumfuk whore.

Now, because truly, the Iraq bushite war is illegitimately premised without any actual cause, the humans are faced with two questions that have no legitimate answer.

1: What can the ungodly and evil demon bushites do now in Iraq, that they couldn't prior to murdering one child, but for to rob from America by towing his bushwhore nazi coward soldiers to commit criminal acts to rob freedom from all of US as Humanity?

(Kill an proud to be evil bushite, and all day long you'll have the thanks of every surviving American police officer, and a nod from all the American pensioners who are promised that maybe bush's america can learn for next time while the bushites just walk away with the stolen loot laughing.)

2: What could Saddam do, that he wasn't asked for?, to stop the senseless first degree murder of our friends and family?

Saddam provided the sites where all bremer's WMD was destroyed, the documents, the personnel, and so on, but corporate america won't let the facts be delivered without their bias of, who cares neutrality. A refusal to report for American interests regarding the sacrifice of American lives for the un-arrested criminals hiding inside Enron, Dutch-Shell, five dollar a day Bechtel, or double billers, commi Halliburton. Example: soldiers could have more effectively went into Iraq unarmed to search wherever, for there were no restrictions placed upon rational behavior, but just no money for the bushites to steal from America. The proud dumbfuk bushite soldier is coward and betrayer to America and God, by not, for America's America, killing bush and rumsfeld for near escaping the murder scene of 9/11 in New York City. Instead, they attack the defenseless and innocent with cluster bombs laced with toxic waste they happily eat themselves to die as the ungodly soulless bushite traitors. You get your gun Patriot, and instead of punishing a town, city, or state, bag yourself some individual evil bushite, and be respected by all true loyal Americans as a real freedom fighter. With the God of every religion by your side rooting you on for the home team, You'll be loved by all. At least until, we or me, can make the national news programs to communicate. Again, the management and news desk staff of CBC and CNN know, that the American FBI contend: bush's business partner, the un-arrested in retirement

General Ahmad, funded Atta, the 9/11 mastermind. (While no evidence was established against bin as connected, to justify the Afghanistan war crimes. Nothing.)

CNN and CBC, in our names, are with malicious intent, refusing to allow justice to be our interest in protecting always.

New Recruit

Destroying enemy bushite is a gift to Humanity, it is saying you care for the lives of the innocent a bush bitch nazi grunt freely confesses to targeting for murder. Liars are the bushite, who steal Iraqi resources, allow racists and rapists to commit their demon crimes in America's name un-challenged, and who absent mindedly bomb the innocent without just reason given. All the while, labeling themselves, "pro-Iraqi". The mindlessly evil attack against the Turks recently with an ordered bombing campaign that actually murdered people, sighted yet another, example of the bushite's idiotic ungodly satanic barbarity against us the Humans as INNOCENT. After the carnage, the war criminalizing America into bushite commanders were advised, it would be better to pick other completely innocent families to indiscriminately murder while lying, for the demon bushite provisions come through that big ol' Turkey, and if the Middle Easterners eventually learned together of their fellow Turks who were murdered by ungodly enemy nazi forces for admittingly doing nothing worth noting, with the middle east's indirect help with essential supplies coming from somewhere in that surrounding billion man vicinity, you know, I know, we all know, "Americans" as NAZI war criminal enemy bushite, would massively die as the immediately recognizable to most everyone, and rightly too as leaderless cowardly, dumb, and real sadistic evil, dying at the hands of all US Family men. Being as bushite, the enemies to everyone, including themselves we've witnessed them already dying as nazi dumfuks who eat plutonium. Or, IED? They mean "sexy" rummy cluster dud land mine more like! (Just where is the Middle of East anyway?) History HAS learned these lessons already, while the corporatist bushite plays US just dumb enough through malicious censorship for plunder by parasitic bushite suicide, for a bushite has no soul worth defending. See?, the committed nazi automaton bushite enemy of America soldier has no mind to know freedom for the individual. Therefor my friend, kill the evil nazi George W. bush Jr. not just for me

as Johnny, but for US all man who refuse to be subjected further as only counted by the corporate dictums to pronounce "pro-American": as those that go silently rooted backing "un-accountable" rapists and torturers of the innocent, the innocent, that the bushite OPENLY rob from with American's hard earned tax dollars funding. Funding through leadership directed towards their very own self destruction. See bushite, kill bushite, at least until we are granted living access to OUR corporate dead end news media to speak FREELY for ourselves without bushite lies tying US down for furthering that demon's hellish ungodly tyranny as an enemy to all our Humanity and Royal King Johnny.

Real Americans are those of US as humanity that believe in liberty as Justice for all. Demon bushite nazi whores, don't like those principles of freedom through evidentiary findings though, for their false deity, George W. bush Jr, wouldn't be stealing from the honest hard working blokes who live for a better day that way.

The Iraqi children did nothing to deserve such awful suffering and fright and death at the hands of the enemy bushite. The bushite: who the demon anti-Christ states, are un-accountable to any rules of law in this Universe, like with his extremely foolish criminal decree, 13303. I kill mindless parasite bushite nazi enemy soldiers just for that alone as eternal defender, and I do it for to win some mercy for a real living God, who the fascist enemy bushite hold in their ungodly contempt as LIARS.

I have the backing of every real man alive on this planet, and we all know it. No voices of reason have apposed my factual claims in FREE Usenet, and Art Bell makes no attempt to defend himself as internationally painted enemy traitor, and that says a whole lot to Talk America. Why? Because Mr. Bell, the bushite propagandist, knows too, I speak and act truthfully, honorably, and righteously, while the talk radio american bushite lies, cheats and steals from America's America, that as bushite, leave undefended for criminal plunder in Your name call censored from classed enrollment. You have just as much a right to be here as I do, and the demon bush, he ain't no better than any of US when he is "excused" for the murder of well more than a hundred thousand confessed as completely innocent people on this planet called Earth.

The fascist control bushite, don't like You to think independently for Yourself, for we independents out here

make them look as stupid as they are. Thank you very much for that not so secret info.

Through the pronounced bush demon's gaffes, embarrassments, and told complete total ignorance on subjects like the science of economics, the whys of constitutional law, or when the bushite takes credit for indiscriminate killing of our families and friends while parading it's all done in bush's name for our freedom, or for 9/11, doesn't fool me, and should get you thinking about reaching for your guns too, for bushite rapists and torturers will not walk this world freely un-accountable, for as long as we remain alive to hunt them down and kill them if so be. As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr., their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way.

REMEMBER: Demon bush is stupid, yaw, but he knows that he and rumsfeld with condi planned and carried out the crimes of 9/11 with likely cheney orchestrating, don't ever forget that part when attempting assessment how good four more years in going to do for the state of freedom in Your dying world. Serious this situation truly is for everyone. Everyone.

Now, what are You going to do about this, DEMON George W. bush Jr. actually playing US like he would like to continue victimizing our dying world as ENEMY for four more years towards furthering lawless tyranny? Don't we already have it bad enough, that corporate journalists think there is actually some merit to George bush's re-election bid? Especially after that 9/11 thang? Then there is the needless criminal wars, fraught with embarrassing massive billion dollar criminal frauds as .oops, more government fuk ups? Then of course all the bushite thefts. I did a Internet Google search of "Tiger Team" and I found next to nothing in all the professional media corporate news outlets we have advertising on our information service providers top notched list as best sourced material. And that should say as much or more to you too, about who's really conning who. So, who cares about where this world is going? I do, and so should you too.

snpd

Again, none of any words world wide bare contention against the facts we've brought to our attention. The

traitors to America, Our Mr. bush Jr. and rotten rumsfeld don't mention the willingness of American Soldiers to aprehend general Ahmad as the principle terrorist funder of Atta, because this general is also responsible for developing the bushmob strategy of killing Americans in New York City from Washington. A strategy of blaming bin Laden without any evidence to bomb Afghanistan for Enron. (The Dahbol Working Group.) Then closing criminal investigations, as it's not important to know who personally was responsible for the insider trades, or the contacting of only Odigo. Never mentioned by CNN as top priority to American soldier concerns, who are expected by Blitzer and Hemmer to throw away their lives in sacrifice unthinking to bush, america's false deity, super evil anti-Christ. While bush and cheney threaten to murder more dumb Americans who would dare to articulate the demand for Justice as our own, like Laden has, while demanding American Patriots coware in fear of the sadistic savage mass murdering death squad leader, tommy franks, or the anti-Christ going out to kill their family too as not represented by corporate policy, while American soldier families are continually disrespected as unworthy. (Generally, they are pretty damn stoopid, but certainly, if they're not knowingly commiting first degree murders for the anti-Christ as pure nazi filth, they should be allowed to learn, instead of having their own undefended families robbed then slaughtered for American traitor, nazi puke terrorist, tommy franks, or for Monsanto's rotten rumsfeld. Do you notice corporate America continues to show outdated footage of those two demons standing near smiling armed American soldiers, who as a mass of dumfuks, aren't intelligent enough to destroy them instantly as established ememies of America as terrorists? Well, that is going to change. I have yet to find ANY American Soldier who is literate, who disagrees WE have some very important questions that need immediate answers before the bushmob murders more Americans in Our name. See for yourself through Google if you don't believe in Christ as the Redeemer.

As for the doubting American Soldier, LOOK, CNN will continue as cult members in their dying madness of just even lamer excuses, to convince US, we are alone in our concerns for Freedom as Justice instills for US all. This moment of History requires you to stand strong for only yourself to be represented truly among the stars. Evil stupid people can't make heads or tails of this, but, as evil bush does truly from his dark shallow existence, will continue by open piracy, to publicly

advocate in Our names the further robbing and murder of your own family American Patriot, so too, will more american nazi dumfuks die to the tune of their own cowardice to protect themselves as garnered fairly. This is why rotten rumsfeld forbids the death tally of American soldiers to be made public to the ready for enlistment as the too dumb to know better. Life is life, and sorry to say american dumfuks, Christ on the cross is you too as a true dying American Patriot, and your already politically sitting in the position of hatred and injustice against Humanity, and myself honestly as.. THE SON OF MAN! (The god of God's life/death guy, with a score to settle on behalf of the infinite Universe and True brave Soldiers everywhere. KILL AMERICAN COP KILLER BUSH NOW BEFORE HE MURDERS MORE IN OUR NAME AS THE INNOCENT COWARDS!)

CNN is not interested in working for American interests by asking why, as there is little of any money in just doing good for your neighbor, like saving a living, as we would wish to be helped for ourselves, if we were bound just the same to be equals at being. Mr. Blitzer and Bill Hemmer, as americans, wouldn't give a dollar of your time, to speak on human rights to be of their own concern, (they're rich!) or to save the life of an innocent poor victim, if it meant they would therefor, be compelled to honestly report on their false deity bush, the super evil criminal to ourselves as Humanity, the unelected dictator, American cop killing anti-Christ in person!, that they so leave to see Americans sacrificed as ignored to be robbed from as their profit margin increases. Do less for America, The People, and get payed more in collateral damages paid for by doubting Patriots, too slow to stand for the American flag in protection for their own living as lost to the wind. Mr. bush, tommy, rumsfeld, cheney and blair give no evidence, but for to show themselves as the criminals who openly harbor terrorist activity against our communities, and WE, as Humanity, according to CNN, are expected to go out and kill our friends in cowardice, instead of standing up to destroy the demon bush instead to save our own selves.

God, or no God, I hate that murderer bush as much as any real man would to care for his own life as family.

"Bob" is no "Elmer."

C.Q. "Elmer" Dobbs was born on May 19, 1956 in Thunderbolt GA. At the age of 4 the precocious child achieved the Extraordinary Class Amateur Radio License and was immediately whisked away from his adopted parents Ed and Tybee Crane to the infamous Groom Lake, Nevada "Area 51." Young "Elmer" reappeared without warning in 1974 as a young blue-eyed soul crooner named Smokey Dobbs and became a sensation in the old-moneyed yet discreet Savannah gay community. After operating an antique radio museum for several years, he relocated to Atlanta in 1986 and three years later fell to a vicious heroin addiction which nearly killed him. At this moment he realized that sex, drugs and rock 'n' roll meant nothing unless the purity and sanctity of the ham radio license was preserved. The no-code movement was the chief threat and he dedicated himself to championing the Code. That and making money by urinating out the pure unmetabolized methadone he received at the drug treatment clinic and reselling it to Little Five Points R.E.M. wannabes.

I learned ham radio from him around this time. His classes were reknowned for the salty language he tapped out during code practice.

Nobody knows the current whereabouts of "Elmer" Dobbs. Rumors that his older brother had him killed or preserved in stasis as an involuntary organ donor spread through the Subgenius clique in the late 1990s, but since "Bob" hasn't been assassinated in nearly a decade, he has had no use for his younger sibling's innards.

Some say there is no "Elmer." I disagree. I've seen him. Of course, that's just like, my opinion, man.

I think you need a better toolkit there bub. you're current toolset doesn't have the necessary "plugins" for what you are trying. IOW, you are unarmed in a battle of wits.

as for my history... you don't know me. you make assumptions and as such, come out looking foolish. the best advice I can offer you: hold thy tongue before it gets lopped off at the root by your flapping teeth.

negative on that Houston! who said anything about an apprenticeship? Like I stated before, my relationship with radio started AS AN SWL. CB radio was just a cheap way to get on the air and talk with folks (and when my friends moved to ham, so did I).

you know what? you have all the appearances of someone trying to incite to an argument just because you enjoy pressing buttons to see what happens. There is a word for folks like you: childish stuck-up brat. now why don't you just go back and play with your toys and leave the talking to the adults?

I wrote the letter following "Jew Boy..." the day a single complaint arrived to the radio station, with the threat that the ADL would soon be contacted. The letter was provided in advance of the next day, of the time scheduled for the complainant to return for a recording of the questionable broadcast. The station manager refused to give the complainant my letter, and insured me that I would no longer be allowed to produce a show for our community. Is this fair to our Jewish brothers and sisters? Is this fair to You?

Jew Boy Johnny and the anti-Semites

"The Zionist Conspiracy"

Monday, January 31st, around 3 pm, I called the station manager to ask how my afternoon recorded broadcast went, and to discuss the new week's tentative guest spot with an update regarding the falsely maligned, Mr. And Mrs. Benderman. The station manager informed me my phone number had been misplaced, and was managing with stress trying to put together an apology letter to a single individual, who came into the station, while the interview was still running, to demand action be taken regarding the anti-Semitic broadcast that he was certainly going to report to the ADL about. I told her the Felton interview itself was about bigotry through the demonization of the innocent, what the Jews of world war II suffered through, and, that I was a huge defender of religious Jewish teaching. I told her, to offer the individual a chance to publicly speak regarding the issue, with me, or by himself regarding Felton, to try getting specifically to what has got him so much, by himself, upset about allowing my voice heard defending Jewish rights within our community. She told me that she would likely, none the less, have to let me go to appease the sole

complainant, for what if a lawsuit should result? I told her to consider her options, reminded her that it was only one single individual who hadn't even heard the show's context, and that the broadcast in every other way had been going well, doing good. She told me she was very busy, and said goodbye. Then a short while later, phoned me back to ask if I would write a letter, and have it at the station next day before the complainant arrived for his copy of the broadcast. I said sure, said it would be a great challenge, and proceeded immediately to do just that. The next day, I contacted the station to ask if my arrived letter was forwarded to the individual, and was informed no, he didn't receive it. It wasn't the apology the station was looking for, and my show was now officially terminated. I told her it was very unfair to me, to not allow him to read my formal response, and that I couldn't in good conscience, back down from defending my rights to be heard on this issue, or to allow us, as our public, to hear the complainant's actual complaint about my, freedom for all broadcast. She said she would try to get the letter to him, but that the show was over. Case closed.

Stand up for Jews, and look at where it gets you, Jeeze.

Let us not put aside, the station manager's legitimate concerns. Who has the money or the time for a frivolous lawsuit? Why do expensive independent research, when the Bush Administration can hand us all the free news they want us to have directly without any costly questions? Saddam wouldn't let the inspectors in, right? Why risk standing up for someone else's rights, when doing so, will get the (anti) Jewish-Defamation League calling you an anti-Semite (Semite=Arab) for communicating some understanding with Felton? Felton, is bizarrely quirky as interesting, for his recent book is about the demonization of the innocent, (you know? Nazi gas chambers and ovens?) and as such, we can learn from, as too, we can teach. If he'll listen. Ariel Sharon is not Jewish my friend, NOT JEWISH!!!

Open the gates, it's getting late.

Greg Felton : "The fear is necessary for two reasons. And the principle reason has nothing to do with Iraq. it has to do with the government itself. The bush government is criminal. [...] The problem is: how do you keep people from paying attention to this? You keep them focused on an external enemy. [..] so they forment this fascistic hatred of a definable group

of people. So, the war on terrorism so called, is not much a way for the United States to protect itself against it's enemy, it is a way for it to create enemies, to justify the kind of repressive measures that would otherwise be intolerable in peace time."

To whom it may concern,

regarding the January 31st broadcasted interview with Greg Felton.

May I, on behalf of only myself, ask that you pardon my failures in judgment, in not allowing what I should have gave: an immediate re-dress regarding, 'who is the Zionist label?', or 'What Holocaust are you referring to?', during the broadcast of January 31st. (bet you we can't get two Christians that agree on everything.) However, I can offer perhaps a show centralized on a chance to exercise your personal views, be they pro or con on where you think we should go from here, or whatever may have you regarding said interview. Or, if you would like, you may wish to do only, or else include, a written work that I promise, will reach as far as the original broadcast. So, actually, this could be a prime moment to have a dialog regarding racism, bigotry, and intolerance. I confess, I may be unaware, and still have much to learn, when it comes to communicating well with all others. But, I know I'm getting better, and I'll tell you, the Justice-Freedom thing, sure seems to be our ultimate calling.

I was not so surprised that the broadcast interview with Greg Felton would be considered controversial, (as every show I've ever done always has), although I wasn't prepared to hear criticism against the show as being defamatory to a group, or groups of people. As certainly that was not my intent, but however was the difficult subject addressed within the interview. The fundamental teachings of Law, as it pertains to justice and freedom, along with every legitimized religion, is that all free people should be thought of as equals to each other in vigilant protection. And by doing so, one would be serving G-d's interests. (Even if a G-d doesn't exist - an Atheist too, could become a proponent by understanding Jihad). Thereby insuring\realizing that a just intelligent life force rules our chaotic timeless universe in service ultimately to ourselves individually. Giving us in the Torah of Moses, ``all people are created in God's image'' teaching all peoples are Sacred. And as such, would be so in God's interests to defend as the innocent. While in eternal pursuit of happiness and prosperity for all through just means. Under Greg's definition as being a "Zionist" conspiracy, negates the failure of himself personally to recognize the public connotation is too vague, and that Hitler's Nazi Germany, like Bush's America, is politically expressing an inability to represent ourselves with

respect as truly worthy of fair deliberations amongst ourselves. Sacred, every-one. (Or as in, to rise to the defense of those we know to be irrationally victimized as the godly and innocent, victimized in our un-addressed names.)

Greg "This is why the Holocaust is such a very dangerous thing to talk about because, it's not really understood. It's preached at us like a sermon. We're suppose to accept at face value what we're told about it, as if to, criticize it, is some how disrespectful. Much of what we know about the Holocaust has been propagated by the Zionists, and can be shown quite untrue"

I replied shortly later "One thing about the whole situation is that innocent people were targeted for murder. End of story. That's what the war was. All wars are like that."

Greg's mistake I believe, centered in his Zionist labeling through an apparent bigotry expressed, and as such, was too narrowly defining the larger established history of the Holocaust, as being the struggle of the human species in halting, the demonization and then subjugation of the innocent millions, Jewish or otherwise. Perhaps it was strangely on his part a testimony to a real struggle we all have when it comes to identifying ourselves to others. Considering it is the exact subject matter he wrestles with in his book writing, regarding our corporate media's perception of ignoring an innocent people's concern or cries. That said however, for Greg to blankly criticize Greg's false construct of what is publicly understood about the Holocaust, is to deny that much for sorrow and suffering took place against the whole of Humanity, especially, of those who held the practiced Jewish faith. To think the nazi regime would have the gas chambers and the ovens, while the whole of humanity were not strong enough to communicate the unjustness of it all to the German people while it was happening. I have read of a recent documentary that provides film footage of nazi soldiers committing the worst war crimes imaginable to god loving Jews, interspersed with film from the same dated period where, the German people were living civilized lives, left unaware of the atrocities that were being committed against God in their names. Same as America and Canada today, with Fallujah's 300,000 People being, the undeniable example. Or, are you too, a convinced denier of that which is fully documented? (Needless and irrational was the indiscriminate murder of the people of Fallujah, but for to have more American soldiers sacrificed in a conflict created by an unjust as immoral totalitarian dictate.) The Holocaust deniers are those the same of today, who refuse our Humanity to nationally communicate those screams of mercy, or for justice regarding the People of Iraq to be served in our true interests as legitimate. More

than ten million Russians died fighting the evil eugenic scourge of the "superior" nazi regime, and like those in Poland, Britain and France, as elsewhere testified our established history, (albeit only later), the sadistic ungodly as lawless barbarity that Nazism inflicted upon the general masses, went largely undeterred from our "informative" television and radio broadcasts. The same, almost word for word, and action for action, can be found in Rumsfeld's "blitzkrieg". Bush's freedom by tyranny doctrine. Or the criminally sanctioned unchallenged news pronouncements of a Mark Kimmit, Buford Blount, Steven Russell, Mattis, Allawi or Sattler, when it pertains to accepting without our objection, to the victimizing of Iraqis collectively as an indiscriminate act of criminality, like murder. As like in the policies of Ariel Sharon, where an innocent, haven't committed an accused crime in their life Christian Palestinian, is denied the earned home they worked and paid for, on a parcel of land shared up until recent times for countless millennia. My personal struggle has been to inform the public on the forgotten" importance of established evidence, being the only requirement to convince ourselves on who is a bigot, tyrant, a criminal, or a murderer. Will you not therefore, as a fellow humanitarian of this shared world, speak against those you know of, who victimize the innocent to thieve from? Sure you would, if you knew as much for certain about God and this universe, or the under reported, freed to go General Ahmad, funding the mastermind ring leader Mohammad Atta of Bush's 9/11 game. But will together our Humanity ever learn? Well, my plan is to search for guests to speak with, that I'll try not to offend early on. Greg knows, like the Pope knows, as every legitimate police officer worth their grain of salt knows, as so too does include a great many Jewish Jews, George W. Bush used absolutely no evidence to substantiate his therefore, false accusations in our names against bin Laden, while then ardently with Cheney, worked to close outstanding criminal investigations regarding their extremely suspicious behavior. All according to his official publicly documented plan. And speaking the news as thus, does not make anyone anti-Semitic, anti-American, or anti-Human, but pro-Jewish, pro-Christian, pro-Muslim, pro-Justice pro-Freedom, almost wholely human like even. Not of a long gone as lost and forgotten religious dogma, but for now as it always has been found, a mutual respect for all life as we find ourselves being part of. Or, so we would for Atheists, argue in all likelihood to get to the same reasoned to be, just political decision, to this or any another life and death matters matter. Because the unjustified criminal war actions of George W. Bush are our shared documented history, others, with an ulterior agenda to propagate their weakness through bigotry or racism, will arbitrarily blame a subjective grouping of people, instead of

demanding by godly individual might, the arrest of specific individuals who are actually responsible according to the established as public evidence. So, now who's fault is that? We live in difficult times. To admit weaknesses regarding our corporate news control content decisions, is to seek a better world for our lives through stronger open communications.

I believe the defense of the Jewish faith is found in the indivisible properties of Creation, and who's central belief is made simpler than any other. Hillel was asked: Rabbi, who is a Jew truly? Hillel answered, "What is hateful to you do not do to your neighbor. That is the whole Torah. The rest is commentary -- go and learn it." So my challenge in defense of the Jewish faith during the interview, was that those who practice criminal misdeeds, are therefore found by the official definition taught by Hillel, to be not practicing the "Golden Rule" of the Jewish Faith. (as so pronounced by the religion's recognized ancient oratator.) By calling alleged criminal actions, the conduct of an entire people, faith, or branch thereof, is to fall into the fascist minutia of bigotry, or racism, held by those who judge us "others" unfairly. After re-hearing the interview, I did find the allegations made by Greg, regarding the Holocaust being blanketed by falsehoods, generally, a failure on his part to recognize the true horror of what that war wrought. And in light of our desperate challenges today of defeating the enemies of Humanity as specific unjust individuals in "hiding", an ignorantly stupid thing to say. While I, perhaps wasn't thinking along those conceived lines, where at that time, I had just left the thought of: the struggles of the Jewish faith, are the same struggles all young adults go through by naturally establishing our associative identities. Who are you I truly ask? How many news channels even allow us as Humanity to know about the absent reason for the bombing of the Jews of Samara? The Jews of Fallujah? The torturing of completely innocent People to death, as in Guantanamo? Or still unaddressed publicly: the willful lawless criminality implemented by the, therefore tyrannical Bush Administration in suffering God's Iraq? (See missing ``Development Fund of Iraq'', or private mercenaries discipling for Bush as deemed un-accountable to every conceived ``natural'' law? [see the entire Bible for the judgment call on that one...] or, Bush's declarative, he magically owns everything in stolen Iraq now, [where did it go?] and I can't say anything because he signed his John to 13303 some time back, but as still is left unreported in Your dying world?)

Publicly question our reality, by taking the station up on doing an interview with me, along with your own impressions of our world. Or, if you prefer, you can do a solo written piece, or a recorded statement for the station. I look forward to finding common ground with your concerns. I hope I have got

you wondering more, about what trying to save our world from injustice and slavery, in whatever way we can is all about for me really. In these words I can say, I apologize to you, for a resulted perception, that wasn't with better words, my true intent towards us people together.

I will, after some small revisions of this paper, include it as well as the broadcast package. So I do thank you for bringing up your important view, that otherwise, would have gone farther without this opportunity, that I offer as a starting point for deliberation, or argument regarding my foolishness. Thanks for speaking, and I hope I have met most of your concerns with a positive light on where I'm trying to come from.

The Benderman Cause

I felt compelled to support the Benderman's cause in any way I could, so I am providing America some arguments that I would use in a court of law to defend your freedoms. If America would so desire, I would also be prepared to make a recorded statement from here in Canada. (I have been denied access into the U.S..) My positions of rational argument are naturally based upon our established facts, and as such, are something few Americans are afforded the luxury of through corporate channels. I hope my forcefulness on these issues does not fear you to doubt I have the best of intentions when it comes to serving the interests indivisibly inherent within the American Constitution. God, I believe is just, and as such, the ungodly war actions of George W. Bush dictate are criminal in the worst degree, being a harbinger of suffering and misery against all of Humanity as US being the innocent. The innocent in our entirety, is my "God" that I love with all I can will. I am compelled as a living human being to defend America to the last bush supporter praised if need be. I fight

the enemy of God and Humanity with reason, understanding, Akeido, and a conviction that our justice system must prevail for me to be truly myself really.

"He explained to "60 Minutes," "I was told in basic training that, if I'm given an illegal or immoral order, it is my duty to disobey it. And I feel that invading and occupying Iraq is an illegal and immoral thing to do."

The war was declared "illegal" by the U.N.. Why? Because Saddam wasn't found in breach of the internationally agreed upon resolution 1441, (Saddam did EVERYTHING POSSIBLE that was asked of Iraq by the bush administration, and then some Mr. Bush refused to even take him up on. Like national Iraqi television broadcasts.) despite the lies quoted by corporate news America. There was no need for the conflict to begin with as was so reported internationally on march 7th, 2003. U.N. inspectors had complete unrestricted access to go anywhere without delay, and known stock piles of WMD were burned, so could not possibly be completely accounted for by evidential findings due to the fact that they were destroyed beyond recognition. American soldiers were put in harms way to be sacrificed for no better good, but for to allow as has happened, the misappropriation, or as some have alleged, the criminal theft of Iraqi resources, including monies of the Iraqi Development Funds through Presidential decree 13303. Which include the unappropriated, desperately needed, humanitarian aid provisions still denied innocent Iraqis, such as potable drinking water and food stuffs. Democratic principles are DENIED the Iraqis by the neo-con military forces, such as holding all individuals equally accountable to a rule of law. The outlawing of torture, or the outlawing of false imprisonment has not been professed as the action of the neo-con "liberating" force. Mercenaries are not obliged to obey any laws for example. And, "Dr. Germ", and "Dr. Anthrax" are held solely for the fact that they know of the scientific hazards of depleted uranium, and may have warned the uninformed sacrificing American GI, if not held illegally against their wills by the enemy. Commanders such as irrational war criminal Sattler, forbade all men and boys between 15 to 50 from leaving the city of Fallujah, while refusing to negotiate with anyone, (because as so was openly

confessed, Sattler had no evidence that Zaqari was
in Fallujah) then leveled the city to kill all it's
inhabitants, estimated at that time near 300,000
people. Using a napalm type WMD, cluster dud
land mine munitions, and as reported, nine two
thousand pound bombs in a city 3 1/2 km by 4 km.
Serving for a military not strong enough collectively
to prosecute such lawless criminal barbarity, is
serving for a military not principled in the American
virtues of freedom and democracy. In truth,
serving for such ungodly criminal command is a
cowardly act of treason. George W. Bush is an
enemy of our Humanity.

Copy and distribute this personal challenge freely.
Thanks.

I know we're all expected to be selfish, in helping out those
others who cry out for our help, but I beg you, I can't do this
alone. My show did make a positive difference. I need your

using communication, and understanding, bring about a better
world.

Seriously Folks

Napoleon Bonaparte wrote forming governments are forged only through the public witness of shared mutual experiences, simple, yet, the bushite strategy implemented continually on behalf of the enemy forces in Iraq have been to divide the nation's people with different "legal" definitions, while speaking for typical bushite bigotry, by then offering distinctions of human value between US some from "others". Not freedom, nor democracy. [Remember: Evil is dumb]

Example: Allawi forbade surviving Iraqi doctors and nurses from medically treating any of the estimated 200,000+ innocent victims from Falluja [IRAQI vicinity].

Example 2: DYING two-bit bushite war with "foreign" soldiers paid especially more than a thousand dollars a day as self confessed RACISTS, and THEREFOR, left "officially" too weak as, "pissing post illiterates" to go after real terrorists who torture the innocent, or real thieves, that have stolen BILLIONS from the Iraqi Development Fund. Done all to sacrifice life's purpose for no better good to the ANTI-CHRIST EVIL bush "cabal" of lying neo-con Christ haters. Allthewhile stating the objective worth dying young America as bushite for is "Democracy" in Iraq. But, isn't a founding principle of any democracy to outlaw thefts, sexual assault, murder? Again, bushite kills bushite for a stolen nickel that they just as soon, stole from anybody. If you can believe it. We need YOU to make some effort to engage American talk mediae. Perhaps it's only YOU, who hasn't yet heard a responsibility to this once greatly revered world of wisdom, of the enchanted, and mystical, or of the tyrannical as hell bound for suffering and sorrow. ,in which you share allegiance too my friend.

Being caring and compassionate for the victimized innocent not only feels good, but it is a choice we would make at being alive to help US survive. To not speak against the bushite war crimes against YOUR Humanity, is to not speak in defense of our ancient dying God no longer found worthy of you Peoples humble respect. Currently corrupted bushite want my voice of truth silenced by censorship with false imprisonment,

and those who advocate such hatred for myself and our humanity, speak no public word or disagreement on my allegations of high treason by Our Mr. bush Jr.. While I want to openly debate the, "censorship for tyranny", corporate talk radio bushite bitches on their furthering commitment to not allow objections regarding their contempt for true justice and freedom in America. But if you singly decide not to support my cause, like corporate news control encourages, We will be left forsaken, again. God is Just to the core, like Johnny Wizard tries to be, while bushite liars lie, cheat, and steal from America as ourselves measured unworthy for deliberation to gain true understanding. The Coast to Coast radio network in America disallows America learn for why American soldiers are currently sacrificing their LIVES irrationally. Why? Because there is no legitimate reason, while bushite pretend in YOUR name, that there must be another reason but for to rob our humanity in George Bush Jr.'s name. For if there truly wasn't another reason, not so then blind, stupid, and cowardly American soldiers wouldn't be too happy about the wealthy corporatist bushite commentators silencing America's dying cries by bushite enemy command. Now would they? Remember: wealthy blind and stupid bushite kills/gets killed, poor blind and stupid bushite for a stolen nickel - a nickel in all likelihood, they rifled as thieves from some pensioner, that just as soon, would be their own "grand" parents. Or Yours as someone elses beside.

Phil Donahue had the highest rating, number one money making news commentary show on NBC as it was canceled. Why? Too good as enlightening and INFORMATIVE. Then there was the recently canceled Crossfire. Or how about Barry Zwicker on VisionTV as Canada's greatest broadcast before it too was canceled. Why? Too good as enlightening and INFORMATIVE. VisionTV, a "religious" channel now likely forbids anyone to suggest that God would be good as just, and REALLY INTELLIGENT. Forbidden knowledge we are the corporate bushite insist with Your stolen rights. Why so? Because Americans might learn of what it is to be a true Christian, and therefor stop to have arrested else immediately executed for high treason regarding 9/11: the enemies of Johnny, Justice, God and Humanity, the evil doers George W. Bush, Rumsfeld, and Condolezza Rice. Alone with Myers and Cheney for good measure. Then, those responsible for the needless bombing of Samarra and Fallujah.

Under EVIL bushite tyranny, We are criminally fighting for needlessly dying as bushite here, but corporate

newsCASTers don't find "our" costs worth getting a discussion group going, after all, American soldiers who die for the bush regime, as the kept in the dark, will less likely be going after the real bad guys for 9/11 then right? Corporate America refuse US just basic rights of legitimacy to at least address the absent war reason issue from time to time - Jeeze. But no. As bushite, they're prepared to not inform the bushite soldier that depleted uranium is radio-active, that the stolen American Enron pension money is sitting in the Cayman Islands, or that the war itself has no justification. See, the bushite war is a TRUE CRIME against all Peoples of Humanity, for the war against Iraq has no reason available to explain enemy military action, but for to die thieving from ourselves as the bad guys. The Enemies of Freedom. Why we have Law. God is Just, and evil is just the slavish ignoramuses who censor our Words of empowerment for freedom through Justice represented indivisible as Eternal. We rule.

Therefor, George Walker Bush is guilty of treason to US all, not only including your one and only King Johnny Wizard as Heaven's afar, but also the not going anywhere but yet still sacrificing ungloriously as the stupidly blind as almost completely incoherent,. devote bushite nazi dumfuk soldier grunt enemy vermins.

Will you not help these words reach a larger audience? I ask you to consider your helping me can do good for your real world too. Perhaps it is ONLY the single individual that hasn't yet understood, this once greatly revered world of the Word is of which you share allegiance too.

Speaking for a just battle of freedom for all humanity, is a right you could exercise in brightest intentions of a muted God who sure could use your help right about now man. Our family is in so a desperation for needed support. I am fearing your fears have got you believing, you have no dying right to speak against Mr. bush Jr. for the crimes he has committed in Your name, but You do. Think of it this way: anybody who stays silently connected secretly to the crimes of nine-eleven, can not be trusted as a sacrificing bushite thief by the enemy bush administration. [Secretly speaking in all strict certainty.]

The warrant that allowed the confiscation of my computer equipment, was to prove that I was the one and same who demanded true justice for our humanity by following the crimes scene leads for nine/eleven, arresting those

responsible, or killing the escaping culprits, bush, rumsfeld, and condolezza rice by the hand of our guns. (Why do you think Police officers carry guns after all?) It is now argued that because demon bush is President, it therefor doesn't matter where the actual crimes scene evidence for the murder of thousands in America leads to according to the FBI, for George Walker Bush (666) in above all the laws of the universe. Despite! the reason they obtained the warrant, was to charge me for "threatening the life of an international person", they instead decided not to as saboteurs of liberation. They argued after the warrant gave them my personal possesions, (hundreds and hundreds of video tapes, ALL MY WRITING, computers, disks, along with approximately 50,000 tasteful images.) That the reason for the warrant being originally issued, no longer, if ever, was justified. For if they were calling for justice, the demon bush, and his co-conspirators might get caught by America, and pay the ultimate price for their treason by death sentence. After two self confessed PRO-BUSHITE (support death squads against Afghanistan school girls, and propping up the heroin trade by arming women slave traders) "officers of the law" reviewed my images, they now contend, that several can be argued to be illegal in an almost fixed to win proceeding. (No more than a small few pictures of beautiful girls in different states of undress - "Home Lolita" I think.)

The charges they offered to the prosecution to argue for a "life term prison sentence" (almost jokingly it was quacked) were complete fiction, of which the crown offered me "a deal". Plead guilty for being a shamed ostracized sex offender, [I'D HUNT CHILD KILLER ENEMY BUSHITE EVERY DAY OF MY LIFE IF I HAD THE BUS FARE AND THE AMMO] and maybe, the Judge won't argue for a long term prison sentence for another charge that has absolutely nothing for substantiation. Substantiated, that will surely do nothing but testify to their attempts at demonizing my better name. Nothing doing darkness, the court of Law, is Our court, and I intend to make my case heard among my peers. Here.

Please, I beg you for my life, forward this document to the propper authorities, post these passages to any church, or, phone talk radio America and demand my public case be heard for Your benefit too, or don't and get what we'll deserve by not making a miracle happen with your single sole but sure, human will power!

1. I obtained the questionable images through Usenet group "youth-and-beauty". Images can be downloaded a

thousand or more at a time. I can't not perceive the images until they are on my computer! If they had told me they were coming as bushite, I would have been sure to delete anything near objectionable for argument's sake. They laughed when I told them that.

2. The service companies that offer such groups as child-rape and so on, have an easy ability to filter out subjective objectionable material, along with the truly grusome stuff. But they don't, nor, are they found legally liable for not doing so. I suggest the reason is, it would put out a billion dollar industry of these child-porno cops that view real sicko slime routinely, while then arguing anyone who witnesses such depravity must be guilty. Guilty to have their professional lives destroyed, their life invested property removed till whenever/perhaps stolen, and then be publicly ostracized as senseless victims. All because some guy maybe believed women are worthy of worship in the highest respect and honor, while cute adorable boys he couldn't help but feel compeled to cover with praise, or mutual hugs and kisses., as long as there are no other men in the room with him and the gals perhaps one day chatting over maybe child care let's say. (no wonder the two child porn cops in question regarding my public case admittingly were/are staunch bushite offenders.)) I know of no nobler lineage that that of our police officer. For protecting the rights of our children, is what we've always been committed to gaining respect for. We want to do right for ourselves, and despite Johnny, this world really is something remarkable to concider a future with on our own terms as a foundation of wisdom with the ever presnt will to succeed at something greater than first realized. Evolution. The Revolution of reason while jiving with justice for freedom holds many perks per praised principle. Hammurabi's number one thang.

3. If a search warrant can be made against anyone who a criminal bushite finds objectionable, (bush and rumsfeld made the charge against me through the Secret Service, then to the RCMP.) then what freedom fighter is safe from pictures of godly and beautiful children in bath tubs? Swimming? IF, the bushite demands the images appear seductive, and compel them to commit sexual assualts? Or, what if you download a program on cars to have the bushite find, it contains bin Laden's secret where abouts in code? Would you be guilty, and if so, of what? No thinking freely?

So, the warrant brought the officers of law the right to prove my Johnny Wizard writing was of my own, but yet, after doing so, refused to enforce the law by giving me my day in court on the reason the warrant was granted to begin with. Also, I, as anyone can not perceive potentially objectionable material until it is in my possession, while a service provider would have little of no problem. (The still working child porno cops could look for child porno all day, and actually get closer to catching those who proliferate actually objectionable materials. [See?, an internet service provider could defend thus: they're not guilty because the subjective material, that would be questioned, is subjective, and so would the porno cops if they got someone intelligent to defend themselves. But for Christ who needs to know what's going on in the realm?, while loving girls in general like they were his own distant siblings? They'd put Christ up on a cross for loving schoolgirls, by demanding such thoughts come only from a criminal prospective. The problem here is child porno cops can view a suggestive cute girl smiling in her panties, or witness some heinous bushite rape or torture, and measure them equally when charging US for their deviant sexual sugestion. As alas, they refuse to support the Law when it comes to the easily provable criminal actions of enemy bushite, as for would be, the defense of the lives of our innocent children in Iraq mean something to me too.

Anyway, apparently, the reasons for the warrant were not as was so intended. To charge me for threatening the freedom of bush, rumsfeld, and the evil witch condolezza rice. (Can I get some legal advice from someone out there on this then bogus? warrant please?). The Court will (try) argue without allowing ANY voice of objection, that because I demanded the immediate arrest or execution for the individuals responsible for the crimes of nine/eleven, (relying primarily on the Whitehouse, FBI, and the public spewing of the war criminal demon anti-Christ itself,) the prosecutor, it has been alleged, will demand justice not be served in that respect, and that the search warrant that obtained the bushite's evidence against me as a truth teller during their fishing expedition will not be allowed for re-dress. Is this Justice on behalf of God I ask you?

Nature of the Beast

(Again, remember, nobody from the RCMP, the Secret Service, or the FBI, state that I am incorrect in my allegations of treason against the bush administration.)

The prosecutor is going to press for incarceration if I plead not guilty for a crime I'm not guilty of, while my public freebie lawyer, contends my defense of innocence and corporate news agencies forbidding the pursuit of Justice in protection of our Police services, like the honorable FBI officers that contend Ahmad funded Atta will likely not be allowed heard. [Are you a member of a Police Union somewhere, or know of someone who is? Or, do you just not give a care for you fellow officers either?] See?, bushite falsely believe bush can not be arrested for nine eleven, no matter where the actual evidence leads, because he is not judged an equal among men by corporate news standards, but as the anti-Christ, FALSE deity, an enemy to every free person standing.

That is our, for real court case against the Bush administration as it stands today. While some have warned, bushite are pushing to have me taken in now, to try stopping this from speaking in our Humanity's true defense. They just might succeed, if you decide no care for Freedom from tyranny either..

This is was/is/will be my last Wizard Wire public service announcement regarding this, George Walker Bush (666) wars America, Humanity, and me as the Lord of Creation. I've said everything I can say twice over, and if you can't find it within yourself to pass this post on to every church corner, with a, "I love life too" set of priorities, I can guarantee you no greater reward. But for to be present if not in person, but in spirit during my public trial where the bushites will publicly judge my character unworthy, while attempting the silencing of our own voices for Justice as We stand in TRUTH, indivisible. Be it known, the prosecutors of Law in my case have read Johnny Wizard's "The Trial and Conviction of Our Mr. bush Jr.", and likely a few others that will be asked by the hiding in darkness bushite enemies to completely disregard as crime scene evidence. It's going to be a case worth getting to, considering the newspapers, talk radio stations, and National News desks are expected to forbid honest coverage of by the higher ups at corporate command. Call your Church group to organize a call for Johnny!

Or don't.

I thank all those with whom the true liberation of Humanity from tyranny could not have been made possible without themselves individually. I know it seemed like no one was listening, when we spoke for God's cries, but WE knew better, and we knew soon, all of US will then learn it too, defending God is of no greater privilege.

So, cheers to You, our Humanity's defenders of the human challenge, for being there to speak for this life when we needed You as a contributor. Fare thee well with your pride and honor, and no bars will ever hold your undying spirit.

Breaking Camp

I will advocate full compensation for every mistreated soldier who had been tricked into believing something without reasoning.

Johnny condemns George Walker Bush (666) to death for the crimes he has committed against God's Humanity.

Let it be understood, that Saddam gave America 100 percent access to do anything the anti-Christ wished without delay prior to the needless military conflict beginning. So, every treasonous thieving bushite life taken, is done in protection of God, and the American dream. See?, TRAITOR bushite Art Bell's amerikan talk radio forbids BY CENSORSHIP anyone in America to speak in the defense of the undefended American People. Art Bell, America's enemy, with ensure that America "never" learns that bush's business partner, General Ahmad, funded 9/11's mastermind ring leader Mohamed Atta, or that depleted uranium is measured radio-active, or most especially, that billions of STOLEN American pension money is sitting in bushite bank accounts in the Cayman Islands. Instead, he'll do another show on UFOs, or bigfoot, while broadcasted to the wordless bushite grunts their dying is for naught. Who cares?, bush's war against freedom in America isn't anything bushite amerika ever wants to get persnickety about.

http://www.chapelhill.indymedia.org/uploads/bushite-kills-bushite.mp3

/ / Who cares? CNN is not going to cover it, we know that. CBC in Canada, they're not going to mention it to anybody. It's no concern of themselves to show a caring word for the [thieving] sacrificing soldier. \ \

The EVIL bushite liars die for no better good, but as the ungodly bringing further hardships against US innocent people they target for murder. God says, the Magna Charta says, the American constitution says, let US all arrest or kill the TRUE ENEMY bushites instead. "See lawless bushite, kill it in defense of all that are innocent", I always say as the Son of Man and Living Creator. No joy greater than saving the innocent victims of the enemy bushite thieves, torturers, and first degree murderers. WHO WOULD DISAGREE? in a true Democracy?

Every American soldier who dies as a bad guy in Iraq, dies for cowardly worshiping bush instead of Life. The demon anti-Christ as their false, untrue, dummy deity, sends them into harms way for only to steal from the innocent. The innocent left in God's trust. There was nothing that could have better been done in Iraq by bombing the country. The blind attacking of the population, along with it's functioning public institutions, brings only the STOLEN cash rewards on trading in the American soldier's LIFE as a fascist criminal. All that is bought to by putting cowardly

bushite soldiers in bush's un-needed conflict, is to steal from their very own families back home left almost completely undefended. [Have no fear, Johnny Wizard's here!] A criminal military force that deems some soldiers from Apartide fame as "un-accountable" to American or "Iraqi" law, while paying them a thousand dollars a day or more as rewarded racists who fight allong side black and Hispanic dying bushites, to not allow equal rights for those classified by different colorations. Allthewhile with spokespeople smattering the sacrifices are to bring democracy together in Iraq to arrest bushite for thieving then? [No matter whomever you are, George W. Bush is truly evil to God in YOUR name too see?] Regular Joe in the Army, 47$ before expenses concurrent and impending.

I will advocate full compensation for every mistreated soldier who had been tricked into believing something without reasoning. Example: those who had been taken in criminally to handing over their military pensions for five year loans at 56%, or a 20,000 loan paid in five with 60,000. No competion exists for this racket because it's an actual crime scene. Guess where American Gis can hear the sales pitch advertised? The Army Times.

No thoughts of understanding are expressed (OR COULD BE) from the soulless bushite on why they are in Iraq dying, or why depleted uranium is harmless, or why depriving Iraqis of medicine along with food and water, is a ploy to win the hearts of every man who owns a gun. Or why the bushite demands through the censorship of tyranny, that Our Humanity has no rights to speak for our freedoms and liberty, or on behalf of Iraqis who have had billions of much needed dollars stolen from themselves by the bushite enemy. (The billed for taking bushite soldier itself, will not receive a penny of the ill gotten gains, just like their own grand parents were robbed of the pensions, and the bushite couldn't find a word of outrage to say against their false idol then either.)

/ / As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr., their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way. \ \

The ungodly evil bushmob fascist totalitarianists are pushing to have US specially arrested. The demon anti-Christ enemy forces have gambled an attempt to find prosecutors and judges, lawyers and defendants, who together wouldn't let the truth be spoken in our own defenses. I have had many discussions with the National Security branch of the RCMP, CSIS, the Secret Service, the FBI, and several commanders in the Canadian Military, and WE all know, this upcoming trial is something a great deal of many are lookiung forward to, however, an agent of law recently approached me to warn, some are working to try having me arrested without bail, and spend maybe a few years behind bars before a trial could not be postponed any longer, all in an attempt to try stopping my words of truth that represent the interests of all defendable legitimate legal enforcements. Canada's system of checks and balances, and our honorable police services have too many good guys in place, to want to silence my calls for Justice by measurement. And, up until now, our security people have advised the bushite case would never fly in a public court room, for Johnny Wizard would just make his case as it stands FACTUALLY DOCUMENTED along with that which was FALSELY ALLEDGED, and the wealthy do nothing corporate news agencies would be caught as culpable to being accessories to first degree murders in New York City, where they deliberately with malicious intent, refused to report on the FBI's findings that General Ahmad funded Atta, or that demon George W. Bush with condi and rummy, had a top secret CRIMINAL plan to invade Afghanistan dated September 9th, 2001. Just like still, CBC and CNN refuse to report any human concern for those murdered irrationally by bushite in Iraq today. No concern for those Humans, but in Asia, where bush isn't yet anyway, thieving in the wide open from God, they can try to make up for lost respect by claiming those People are better People worthy of our commpassion with wall to wall coverage on the suffering we have little of chances in preventing. But for to stop needlessly droping tons and tons of toxic bombs into our Living Earth. It is the bushite enemy who refuse to allow YOU speak in your defense as an Earthling.

However, this being said, I have been recently informed that, since the godless bushite enemies would wish to have our freedoms censored, it will likely be pushed to do so without a public trial allowing a jury of my peers to judge the case accordingly. Up until recently, Guantanamo could never happen in Canada. But now in Canada, the enemies behind closed doors are talking

about sending intelligent innocent people away to be tortured for sadomasochistic satanic tendencies, and further have argued to no one that persecuting People in Our names without evidence, maybe isn't such a bad idea, when you think of all the people we could rob our humanity from like the "popular" and "Democratic" bush regime does. Bushite corporate new censors are fighting for a return to the dark ages. Don't let this happen to YOUR world. Care not for my freedoms as an honorable man who stands with America's FBI, and your given up life wont be worth nothing but as yet another sacrifice to bring further glory and stolen riches to the American cop killer, pension thiever, 9/11 perpetrator, war mongering anti-Christ, Your unbelievably EVIL Mr. bush Jr.. The enemy of God anti-Christ who continues to hold your real life in mistrust and dishonor, while wealthy corporate "celebs", talk freely about their pride in such ungodly sacrifices as Christ's forsaken name.

I ask ONLY you to argue this paper with your best intentions, for I will perhaps not receive another chance to publish, if as usual, the Internet community at large extends me little support in my UNCHALLENGED assertions on who truly committed the crimes of 9/11. A single bushite corporatist sends a complaint to a Internet provider alleging I talk "spam", therefor, without any hearing, private owners are threatened to lose their privilege to communicate, by an enemy bushite protagonist who exercises his "authority" by stating only, "spam", and not even providing my actual post in it's entirety. One Internet service was shut down for the sole reason that discussing George W. Bush as the 9/11 perpetrator in tx.politics, was against the rules, for such subject material must be confined to only a American nation political forum. I talked to the kid on the phone who made that power decision on behalf of all usenet, and let it be known, he knows what he's doing. But "they" can't do this everywhere. I can not "take over" your big old lonely world that you must work to protect for yourself as an equal citizen sworn to freedom. I have written all I need to say about Justice and Freedom, and if the human race can not still find enough care for themselves to propagate my writings for others to read, or demand Art Bell be removed to allow Johnny Wizard to debate the ungodly dumfuk bushite vermins, there truly is no hope for US continuing.

U.S. deserter 'didn't want to have to kill babies'

/ / Mr. House will argue that American soldiers are
guilty of war crimes and that forcing Mr. Hinzman to
fight in Iraq would have made him a war criminal.

He will call as a witness former U.S. Marine Staff
Sergeant Jimmy Massey, who is expected to testify that
he and other soldiers shot more than 30 unarmed Iraqis,
including women and a six-year-old child, at a U.S.
military checkpoint. \ \

CNN.com - Aid group 'told to freeze' Falluja work - Dec 6, 2004

/ / Only about 100 families are thought to remain in
Falluja, as most fled the city before the U.S.-led
operation aimed at flushing out insurgents. \ \

Huh? Again, witness wealthy CNN "news" staffers, didn't
even bother to seek for an update on their "about 100",
that had not ever been given. Red Cresent, the day
previous to Dec. 6, no... actually reported on, Dec
3rd!, stated, (from their limited circle of reference)
they had witnessed a minimum of many corpses, of
completely innocent pro-Iraqi women, children, youths,
and men.

/ / Iraqi Red Crescent spokesman Muhammad al-Nuri
estimates that some 6,000 people have been killed, many
of them civilians. \ \

(That is discounting murdered armed defenders of Freedom
in Iraq we can prusume.)

But, again, the true bushite enemies of loyal bushite
enemies, thay'l' "bushite lie" to the bushite nation
about the "holy" benefits of, sacrificing America's
young life., all done for the glorious betterment of the
traitor demon anti-Christ liar, the war criminal, Our
Mr. bush Jr., along with his treasonous evil cabal of
anti-semitic Palestinian Christ haters. A compassionate,

"conservative", war mongering cabal whos warring of America is done to secretly steal further from the innocence of God in silence. Without a honest to Johnny, bushite killin' God-Man to speak on the nature of reality itself from living Creation's time-less prospective. Naturally leaving ourselves to save all of humanity with my "magic" - guitar, notebook, cybercafes, and super cool Akeido, leaves me in wonder of where life could lead as committed to freedom through justice for all?, as truly ourselves democractically represented?, Miraculous?. or will we choose as ENEMY bushite instead not to, ending to devolve ourselves from existence?

I know of some pretty, almost miraculous words in which can bring about positive change, and man, if you could see the world for America's Dream, where all People are judged not by the color of their skin, but the content of their character, the entire bushmob would be behind bars awaiting trial for treason, and the Iraqi People would have American Forces demanding Allawi be arrested for failing to explain himself regarding the needless bombing of our Humanity in Samarra and Falluja.

SEE BUSHITE, KILL IT FOR GOD'S AMERICA

/ / Another humiliating proposal, which even triggered debate among Marine officers in control of the city, is to force all Fallujan men to work in military-style battalions, reported the Globe. \ \

This is the best the ENEMY bushite could dream up in all possible worlds?

/ / His company of tanks and Bradley Fighting Vehicles had roamed the eastern third of the city [Falluja] for 13 days, shooting holes in every building that might pose a threat, leaving behind a landscape of half-collapsed houses and factories singed with soot. \ \

See? The bushite knows that bush murdered thousands of Americans on 9/11, yet, will advocate fascism, to censor America, from finding the truth for ourselves.

That enemy of God, the demon anti-Christ told US the conflict he began, was because Saddam wouldn't let the inspectors in. While, corporate nazi whores, refused to correct ourselves on our sacrifices, for they enjoy remaining impartial, when it comes to the crimes they inflict upon our humanity. Enemies to all humanity CBC and CNN are by refusing OUR facts to speak for themselves. No betterment could be garnered, by the demon anti-Christ's war crimes against civilization, WITHOUT DOUBT. And, it's only the enemies of our dumfukked and dimmer soldiers, in corporate mind control, who refuse to allow anyone to state THAT FACT, for, the enemy bushite would be exposed, and America

would be hunting them down with the Law as the traitors
to freedom they clearly are.

Bush Lies to Canada

Demon bush spew "I made some decisions obviously that
some in Canada, didn't agree with. Like for example
removing Saddam Hussein, and enforcing the demands of
the UN security council."

Saddam was not found in violation of 1441, so the war
criminal anti-Christ's demands were not our world's, nor
that of the UN Security Council. How does thieving our
assets, destroying our infrastructure, and
indiscriminately murdering more than a hundred thousand
innocent people, (in turn to sacrifice more worthless
bushite nazi teens) bring about their closer fraudster
bushite "Freedom"? Again, CNN, and CBC let the demon
liar spew his hatred of our liberties, without factually
challenging his lies with our un-debatable established
truths. CNN and CBC would "sell" seeing our dimmer
youths sacrificed as bushmob thieves through blatant
bushite lies, to truly, steal our freedoms and liberty
with further murders by proxy.

/ / .. or when [bush] just told you for no reason
possible, why American soldiers are DYING, "Saddam
wouldn't let inspectors in", \ \

This should be a time when the People rise up as angels
of mercy, and hunt with Law to kill George W. Bush,
Rumsfeld, and Condoleeza Rice for the crimes committed
on 9/11. Just because the corporate T.V. doesn't
mention the facts to draw our own conclusions, doesn't
make it not so out of our realms of expertise
as Freedom's true represention.

This is Hockey

US general John Sattler declared: "We have liberated the city of Fallujah."

Sattler openly lies to the lives of America with this insult, and the bushite nazi dumfuk, is too stupid or evil to frag him as enemy proudly for it. The People of the world, look, see.. bushites are murderous liars, cheats, and thieves as the enemies of America, who even lie to THEMSELVES on how many have been sacrificed to blood the coffers of the American pension thieving war monger bushite 9/11 cancer. A liar nazi bushite commander would sacrifice his nation, along with own family, before saying a word in defence of our freedoms, our humanity, or our God. COWARDS. American nazi bushite commander gets killed american nazi bushite grunts, in dreams they too, can financially profit off the talentless continuing THEFTS for enslavement to sacrifice themselves as fascist tyrannies. Hmmm. but the nature of American freedom, is to be one as everyone being equal scores. "Gee, maybe some day even you could be Presidential."

Weak intellectually, prone to cuss, the bushite nazi dumfuk, is a worthless piece of crap.

/ / I have the impression that there are no other words except "fuck" and "shit". Each communication, each order is accompanied by a flow of 'fucks', 'shits' and 'bullshits'. I look at Americans with a pity.

old nazi tricks

/ / The Red Crescent's Falluja coordinator, Jotiar Nafaa, estimates that between 150 and 175 families are left in the city that once had a population of 300,000. \ \

REUTERS up to their old nazi tricks again. Jotiar Nafaa, "coordinator", should surely know, that it is 175 families that had requested for the help of Red Crescent totaled several days previous, (without phones, nor abilities to leave their homes (150?)), NOT, "left in the city". [THINK: how could they possibly know? (nazi bushite whores were ordered to murder innocents indiscriminately as enemies to God)] Also, is "Jotiar Nafaa", the same woman hater, who LIED in REUTER"S anonymous hand previously, as the Red Cross, that the women held illegally as hostages by the thieving evil nazi bushite forces, didn't really exist? (and who the "sovereign" Justice system of Iraq, along with World opinion, God, and JOHNNY had demanded to be let go for lack of any real criminal charges? (despite CNN and CBC WILLFULLY refusing to report on the issue as important. (You know, INNOCENT women held hostage by bushite goons who acquiesce COWARDLY for rapists and torturers? (Just like Jew killer Ariel Sharon never gets a fair mention by "America", nor Zarqawi, as he was in the second Bigley flick, right before Samara.)))

LOOK AT THIS - LOOK AT THIS - LOOK AT THIS

Aljazeera.Net - Aid trickling in to desperate Fallujans

/ / The organisation estimates that only 150 to 175 families stayed in Falluja after the start of the US-led offensive on 8 November \ \

The organization does not estimate the incorrect fantasy conclusion held by this pro-irrational Bush article from Aljazeera.NET. By god Johnny, where tell us could such lies begin at? Well, let's go investigate... If as it is, a misrepresentation of Red Crescent's actual findings, wouldn't you think "they" would put out a press release to correct this falsehood of public claim?, to suggest 150 remain in a city the size of 300,000+?, but no greater than 175? without access for numbering by anyone, but for the only near 15,000 HUMAN

BEINGS known escaped as refugees??? Or, are the "reporters" just conveying the "facts", by putting no investment in our validity? Leaving us for further victimhood, by hiding ourselves from the war crimes the anti-Christ bushite nazi savage commanders have committed in my name, America's name, God's name? as our enemies?

Our cause as Humanity is for freedom's reign, not to sacrifice Humanity as misled bushite nazi facist teens further, so bush, condi and rummy can fi-nah-lly escape "The True Patriot's Wrath", for the crimes they committed against Freedom America on "bush win", 9/11. So... Why so do I think Justice is going to get GW, making no mistakens? Because the Patriot's Patriot is you too my sworn believer, and now that's this: America's craftier than that George Bush Jr. makes living out for, in "our"-OWN news broadcasts. As the "censored" contributors who learned our gathering skills some time ago already, I say, Freedom is paramount. Mr. bush's unbiased corporate news agenda doesn't hold America to an account before the Lord, nor to God as being, an honest spoken word, or deed of good measure. Of friendship, of kindness, of compassion and caring for our fellow human beings. I have rights too you know. As cowards, the bushite refuses to defend the innocent they rob and murder from to serve as enemies of Life, done in to die pleasing their false idol, corporate america's glorious leader, the un-elected dictator, Our Mr. bush Jr..

It should be further noted, as reported, that all aid agencies contributing have accounted for only near 15,000 families stationed in refugee camps that escaped the indiscriminate anti-Christ demon bombing campaigns. So, total deaths tolls could exceed 200,000 just for Falluja alone., what with the napalm, land mines, 1000 lb bombs, snipers, tanks, mortars, essential services, police protections, denials of foods or water, thefts, vandalism, and so on. All along with the refusal to allow the People to escape before hand, or even enter now. I've only heard that the nazi grunts will only allow the "staff" of "Red Crescent", to quickly as can be, come into the demolished city, and dispose of our corpses with bulldozers likely. You know?, any males between 15 to 50?, like their "Hero", the bush family's Hitler regime did. You tell me, would you enjoy as a True Patriot Warrior, killing a LYING enemy bushite nazi bomber, on behalf of saving yourself and family, God and Humanity? God?, that the demon anti-Christ disciples murder to steal from US as the innocent? To kill an

evil and mindless devaluating corporate bushite facist slave, is to save the untold lives of thousands of US innocent they target indiscriminately for criminal plunder. Dying as cowards too weak to defend their own country from the neo-con conspirators, they die. Die.. Get this measage out to the American forces, and stand back, cause America's gonna win this fight for freedom, or die as slaves remaining unworthy to a blind comitment of tyranny by furthering enslavement against our Human species.

Continue doubting in silence fledgling Patriot, and bushite america's war will continue refusing to speak on it's needless sacrificing through bushite criminal decree. We know, wealthy con man Art Bell, Limbaugh, and O'Really will try and refuse such truths discussed in Your America, care for the lives of sacrificing American teen soldiers are of no concern to their profit margins., so far. You, my friend, just need to try starting a demand for justice as Freedom commands. (And, if you wish, you can thank us with a small cash donation to help me escape this nearing starvation.)

I'd, as the Son of Man, (but you can call me Dad.) proudly teach, or kill godless thieving bushite to save the lives of any child, and so would the rest of Humanity likewise. There is no known fate worst, than a Mother Nature scorned, or near 7 billion People really very angry with you.

"if the USA's honor can go along with these [bushite] tactics . . then the USA is a country without honor."

And, boy, real America wouldn't take kindly to George W. Bush Jr. as understanding, the elected President has leadered the murder, of thousands of decieved Americans as the innocent, all to only steal from, as the left "officially" undefended. Hell, as the true Leader of this Free World, and holy roller god child, George W. Bush Jr. pisses me off to no end, how about you?

/ / Washington says the Falluja campaign was necessary to bring the Sunni Muslim city back under the control of the central Baghdad government ahead of planned Iraqi elections in January. \ \

Reuters up to their old nazi tricks again. It was only mindless nazi savages who indiscriminately murder good honorable people, who advocate thieving and torture, rape and murder, and the willful destruction of America, that were banned from entering the Holy city.

No evidence, so then, for what? What but to get more cowardly american marines dead, to serve soullessly further - as the stolen riches of the evil enemy demon anti-Christ, evil personified, Our Mr. bush Jr.. (the same from 9/11 fame)

http://www.truthout.org/docs_04/112604I.shtml

/ / By targeting civilians, he said, an army could advance more rapidly. ``Air-delivered terror'' effectively removes civilian obstacles. \ \

Pure, unadulterated fascist nazi evil. "Never again"? Killing un-arrested bushite (Saudi wahabbi) commanders, is like killing the enemies of America, Humanity, and Jesus' God. Do ourselves and Johnny a great big favor, when you see a loyal bushite nazi grunt, thief and murderer, imagine, "yah, that's right, that's what being a kind neighbor is all about, for Christ said so in John's Revelations." Bushite! your false Idol religion is too stupid to remain for dying spark under the anti-Christ's evil criminal dictatorship of, wannabe dumfuks. I'm Your God see, and Your coming and going. As for Royal King Johnny, he's just standing in for this time being,..' hey you!, pay no attention to anyone behind what curtain! Boo!

America is wonderful to truly believe of it as in the making. So, let's get the work done that needs doing, so God can get back to trying to enjoy some time at home. I'm here for a good time, not a long time, and the sun don't shine every day. So get off your asses, and demand some real Justice for Christ's sake. Johnny has awoken, and he's cranky they say.

God is Great

A person accused in our name(s) of a criminal offence, needs to be established somehow to be as such, and the only way to do that, is to present evidence that formed your/our conclusion. Without evidence our accused is ourselves as the innocent, being falsely imprisoned, tortured, or murdered. Murdered, as the Allawi and the bushite nazi forces did to our friends and family in Falluja, to please the demon liar, lawless George Bush Jr. as their central thief system of dishonor and betrayal to the human cause, Your own.

Now, when bush stated that Laden was guilty, without evidence needed to form a conclusion, or when he just told you for no reason possible, why American soldiers are DYING, "Saddam wouldn't let inspectors in", the bushmob thieves plundered in our "lost" confusion. All the while bush always seeking to close America's on-going criminal investigations, by causing even more have nots among US. So, as a free person, to side for the, bush wars America, God, and Johnny issue, you would seek out to find for Yourself beholding likewise as We all are: bush is actually super fuking evil, like personified or incarnate even, and Johnny's almost like a stranger Messianic figure who just wants to be known

as a semi-normal average GUY/god fellow. (Sheesh.. We gotta bring ourselves everywhere we go) I "hate" bush for being so not himself stupid to think there was no actual walking, talking, godly Persons from the outer-reaches coming in to get him for the crimes he has committed ourselves to. Corporate news dictate without a human presence, doesn't rule this world of communication, we do. (Jesus wasn't buying Satan's misconception.. SEE THE BIBLE AND THE KORAN CAN BOTH BE RIGHTiOUS!!..! Just ignore the misconceptions others have, and join the party!!! The Time is Now, and man, do I know how to make an entrance or what?)

A demand for Justice is our birthright as the human species struggling to survive.

We could be on good terms with the "unthinking", greatly special loving Earth as the no longer leaving ourselves to be silently victimized, and I think, we'd think, we want to live in a freedom bound for glory, not a hell hole of, ignorance is bliss, look there! your dying needlessly victimized, oh.. too late who cares your dead nonexistence. Did you say something?

Trust me America, YOU WANNA correct this George Bush Jr. problem before it becomes the "law" of the "land". Don't fear though, for, God's here, there, everywhere!!! It's you over... there! and under here.. and then... we said hello to Johnny, the miracle worker. God People, I have so many good words to tell you, and wonders that would surely boggle some senses. Our hope for a better future doesn't have to die here on a cross for the war mongering bushmob thieves, but, it's going to require You personally taking some action, be it however slight, to bring a remedy to this current, "Look People, bush thinks he has almost escaped accountability for the commitment of crimes he perpetrated on 9/11 against US interests." Strange but.. REMEMBER: people like Americans, are currently needlessly still dying for the bushmob war monger thieves., dying by only our continuing censored voices on the seriousness of our commitment to defend the rights of every free person standing; ourselves as God being victimized with these unjustly expensive, neo-con bushite terrorist campaigns against Civilization's better judgement.

God is great I know it's true, just put a little faith in yourself, and demand America soldiers fight instead to protect DYING America from the tricky, evil bushmob cabal of THIEVES. Cheney looks bad there, as does Myers, and didn't Goss have some pre-9/11 meetin' with

9/11's General Ahmad that he has still yet to answer for, or.. is it we guess, to be "legally" done in by... the Secret Order. The American good cop is all we're expecting, and all we need when dealing with the likes of a self-depreciating bushite conspirator..

We don't get to be Magnificent without you likewise. This alien world we have victimized against our better interests, is a failing spirit of Life from our vantage point. Going back before the Age of Reason, is not where I believe America wants to be taken any further, thank you, but no thanks, besides, the King of Kings is here. Johnny Wizard looking to break into prime-time with his very own Special special.

I'd have ta be one crazy mixed up loon to follow this world over with the universal principles of justice as freedom, to set course for the dreams of my trying, and you might be right. Get You to talk TRULY will, guaranteed, freak you out. REMEMBER: Mr. bush Jr. should have been arrested day one, with that fifty billion. That was before 9/11, Afghanistan, Haiti, Iraq, a few hundred thousand innocent lives, 300 billion plus a few hundred more stolen, and for what? I can only see, we needed myself as King here yesterday. I wasn't chosen for this freedom post per say, but, me and the stars had a dream one time, and it continues through out to this day, enough to say but, this is not what you read about in the manuals. Freedom to be yourself, is the freedom to dream something bigger that your wildest imaginations. I am the Son of Man, and do I have tales to tell. (I know, it sounds crazy, but it's just like a performance gimmick to increase my Q ratings. And, it seems to be somewhere working with me.. I've got a story down pat for anything if someone should ask what fear is.., now, open that curtain so we can start the show!)

I have a treat for you strange friends and friendly strangers out there. Some art work from me. Now, I used the drawing myself, for posters of different sizes, explaining in small writing some key 9/11 questions, while with maybe block letters, things like "bush is EVIL", 'did 9/11', can you hear me?, as what have you.. So, here I will offer you something I created, a Johnny Wizard pencil drawing in jpg format. Enjoy!

http://la.indymedia.org/news/2004/11/119755.php

Hmm, perhaps I'll give out other of my drawings as thankyous for fifty dollar donations? Or prints for $500! You know, they could be worth a substantial

amount of money in a few years, hmm, a real investment for your future... A wise move for the prudent investor really when you think about it. But hey, no pressure, no pressure.

Being me out to destroy bushite just sucks. I'm really not naturally so angry about what bush has done to our world all the time. My voice is getting hoarser, and I'm occasionally grunting, bad sign. I want to live like it's 1999!

Arrest for immediate trial, bush, rumsfeld and condi for the crimes of 9/11 back in New York City, and all will be well with my World,

A friend of living on for a brighter day,

Truth is Telling

/ / Major-General Richard Natonski prepared his troops for the battle ahead. 'We're goin' in to raise the Eye-raqi flag above Falluja - to give it back to the Fallujans,' \ \

So, was it Major-General Richard Natonski's decision to drop 2000 lb bombs then? Was it his charge to indiscriminately shoot at US innocent, on the street, in our cars, our homes?, cause somebody's gotta pay then with their lives for lying to die the dumfuk marines, who it turns out, weren't so dumb, or hard of hearing after all. Those responsible for the bombing campaign targeting hospitals and groups of innocent people, need to be hunted down with extreme prejudice, and publicly executed on behalf of our Humanity. So too, do those who ordered the NEEDLESS bombing campaign in Samara. And, for those who have worn the American flag while willfully committing the sadistic crimes of torture and rape, we shall all join together, and hunt down as our enemies without mercy. The bushite are enemies of all our humanity, demanding we sacrifice our honor, like they have done to family and friend, and sacrifice our courage, because they refuse to defend their own flag and the freedom of which it stands, one nation, indivisible.

I will not rest until every traitor of the America I remember, is summarily executed by death sentence for the convicted war crimes Humanity and God has suffered under their heinously satanic barbarity. I HATE the

anti-Christ, and all the bushite has tolled against our better station. As I tell again, killing bushite is a godsend. They as a satanic force of evil, torturing and murdering, rob from America as they "willfully" allow the robbery of Iraqis, and they truly, rob from themselves when refusing to join US in the demands to have bush condi and rumsfeld downed for the crimes of 9/11. We also demand all stolen assets taken through the bushite mongering war privateers, returned to a legitimate Iraqi government. All done by firstly, arresting Allawi for the murderous war crimes in Samarra, and then in Falluja. Also, hunting down to kill those who forbad humanity from helping US in Falluja, or turned off the utilities, shall be tried and publicly executed for commiting war crimes against MY humanity.

Weak intellectually as fascist nazis, the slave whore bushite's commitment is to only die for as enemy. They FEAR to have to stand up for fellow thieving soldiers and say, "damn, this war is evil to the 'n degree, Jesus would surely be angry, And from what I hear, the Son of Man is pretty upset about what we enemies of God have done too, and, well.. we do not have to thoughtlessly serve under anti-Christ war crime decree any longer, as the cowardly lying chicken shits, too afraid to defend our own nation., instead, let's go bag US some enemy bushite for America's America!" We do all together want to convict those who murdered thousands in New York City, and we're definitely not combating global terrorism, by fighting a needless war against the innocent, lying to ourselves that by doing so, brings about a fair just government of "The People"., to then in turn arrest whom? American soldiers need to say, to hell with bush, and corporate professionalism, my loyalty is with Christ as a truth telling demon slayer.

For those who still continue, to sacrifice our rights to life and liberty, for a no better good deal as the bad guys, are TRAITORS to America, who are attempting to help escape bush and rumsfeld from the murder scene of 9/11. Never gonna happen. So, why should yet another, promising young man, die as a dumfuk bushite, the most hated and reprehensible nazi savage America has ever gleamed of? The indiscriminate bombing of our communities rightly gets dead, another, good for nothing, nazi soulless bushite vermin, AND RIGHTLY SO. I'd kill thieving bushite bombers to save the innocent life of anyone.. like a,.. cluster dud dropper., wouldn't you?, in all honestly, if you had the power, kill such an evil nazi betrayer to Freedom and America

who blindly targets our residential communities to
enrich the UN-AMERICAN demon anti-Christ bushite thieves
further? That, as bushite nazi grunt, they die for?
Paleeze.

America is dying to prosper their false-deity war
criminal demon anti-Christ, Our Mr. bush Jr, the same
responsible for the nine eleven travesty, who attempts
escape only through fascist americans who willfully
betray America by condoning the furthering of bushite
censorship for tyranny. Is America the cesspool of
corruption and greed, without a People person present
willing to make a stand for God and Country? BUSH IS
EVIL. Let's arrest'em, or kill'em for committing high
treason on 9/11 with condi and rumsfeld.

What do yah say?

Under the witness of every freedom loving person this
universe over, I am proclaiming, a war against the liar
George Bush Jr., the vilest contempt for mankind this
World will not stand by to be destroyed because of.

/ / claiming that the United States went to war because
Saddam wouldn't let inspectors in; the media has treated
this as not really a lie because it's so obviously
untrue. \ \

America is a coming to kill the truly evil George
Bush Jr.,

So, America! there is your reason for dying America's
sons and daughters, Johnny's brothers and sisters. "No

the blood checks for everything but the funeral
services. I ask sacrificing soldiers to help grant me
space to debate bush and rumsfeld on international
radio. We gotta take away Art Bell's turn off button to
thank him for all the enlightenment he has been a part
of in America, but that these life death top priority
issues of ours, he hasn't the right to censor

return Justice through freedom for all. How? By
believing in you to do as you should, demanding the
immediate arrest or execution of bush, rumsfeld, and
condi for the crimes of 9/11. Demanding the return of
all stolen Iraqi assets, made by those who personally
profited off the criminal transactions. Demand the
arrest or execution of Allawi for the bombing campaign
of Samara, along with bushite military commanders who
organized the satanic attack. Why would America do
this? To free the dying lives of their bushite nazi
whored, dying grunt savage slave population. .or
perhaps not...

/ / Joseph Bowman, a 20-year-old marine from Texas:
``We're ready to go. I'm just ready to get this done.

I want to go and kill people, so we can go home. Kill them, and go home, that's all we can do now.'' \ \

Where is home for the Joseph Bowmans? A devolving backward wasteland?, where brother kills brother for a stolen nickel? Who would want to share the same home?, street?, or community with such contempt for life and liberty? God and Johnny? Who's home does bushite Bowman SEE the joys of his humanity flourishing?, or being destroyed as the true enemy? Is that the place where the pursuit of freedom is done by sanctioning first degree murder for no reason in particular? And is that the bushite america we've all come to getting to know of these last few days through corporate news contempt for the loss of our life's love?, and God's voice? It is all up to us, You included. In battle against the evils of this world, we should start on getting back to those that did US wrong on 9/11: bush, rumsfeld, and condi., just for starters, while keeping a careful watch on those that jump to their cause for furthering tyranny.

A terrorist to target: Major Todd Desgrosseilliers

/ / US forces unleashed more than 20 air strikes and some 60 artillery rounds on Monday, said Major Todd Desgrosseilliers. [...] An AFP reporter in the Jolan district said one building in every 10 had been flattened. As US-led troops closed in on the neighborhood overnight, at least four 900-kilogram bombs were dropped in the city's northwest. \ \

What is it that the major is warring Falluja's defenders for? Is it to thieve the assets of the war torn city through the sacrifice of American boys and girls?, or is it to set up a representative government that would firstly stand demanding immediate reparations? The return of all stolen assets? (referring to the satanic bushite documents: the lawless 13303 and the, "THIEVING bushite dying soldiers stole it, so" now, G.W. can sell it privately to his no-national robber baron "Economy Plan"sters.) Would not a free and liberated Iraq demand a return of the "missing" or "lost" billions through the humanitarian Iraqi Development Funds? The practice of human rights law? Criminal investigations? World wide Public arrests or executions of the rapists and torturers, along with the war crime commanders?, who mostly command from sunny Florida as pension thieves, and the lucrative Halliburton billionaire war pressure lobbyists?., For all together as represented, we instead (they claim) advocate the mistreatment of US innocents

in Your name. Sacrificed? Why do you let them get away with that? How about instead my friends, for Christ's sake, we decide together to go after the criminals? Allawi must pay with his remaining life for the needless bombing of Samara that got many an American soldier KILLED for nothing. Nothing. Died for nothing, but to sacrifice more of America to the war crimer bushite, the lawless demon anti-Christ's followers of evil personified., the most popular Presidente' ever all-act-dud. .!!.

Yeah yeah, bush and rumsfeld did 9/11, but did you know the Pentagon has not so mysteriously misplaced near 3 trillion dollars?, that a couple few claim was forever lost? Shucks? And did you know, it is the Treasury Department that loaned the Federal Reserve American currency to begin with, not the other way around, when they in turn, lent it back to ourselves.., at private interest. Whoms? Hmm... a quest for answers to the name on the bill We Trust?

At the same time while we're all parting, we got like, American soldiers indiscriminately murdering people. That isn't an accusation I make against the nazi bushite, they freely confess it. and for what purpose? They say, "we'll kill more than them that they'll kill of US"

Yeah but, why bomb ANYBODY? Why do you have to sacrifice American soldier's lives for no greater good? What benefit does it bring to the DYING bushite grunts who are ordered to stick around and try to placate hostilities with "good" intentions? as within the sites of Humanity - as enemies to US all? Will the commanders argue from sunny Florida, that yeah but, we killed more of them, than them of US. And.. they are who? ordering the commitment to indiscriminate murder? as the bad guys?. The bushites bombed, the willing to placate Samarra, to only get killed, more American Marines. And for what but the few bucks wasted on the ammo?.. to get killed more "uncounted" Marines naturally., for the bushites are waging to make a real killing on this American sacrifice. Look, we can sit down with each arrested bushite individually, talk to them about wether they are personally committed to thieving further from America, all to die benefitting the likes of an Enron, and those that thought they'd get away from the crime scene of 9/11; before deciding ultimately, wether the born again have any real hope left. The bushites are enemies to God, Amnerica, Johnny, and themselves truly dying US for. We can see

how easy the manipulation of the American soldier's mind is, they have no ability to rationalize while speaking, and as a consequence, have no understanding of their bad-faith based satanic system. George W. Bush Jr. threatens the grunt soldier to always fear what they don't understand, like, the wisdom contained within the American Constitution, or the dreaded, free to speak any mind Internet. Terrified of growing up like real men do to make their own decisions in this big world, the bushite nurse instead on the teat of sadomasochism, as bushwhore nazi dumfuk slaves. Dying brain dead limp as noodles mushing. And why? All because Americans don't want to trouble American Talk radio with our freedoms. I again challenge Art Bell, Limbaugh and O'Really to a three hour debate entitled, "Wizard's War of Words: A Super Duper Special" all about their un-worthiness to censor our screams for Justice.

Joy to the world, or more misery and suffering under the demon anti-Christ, Our lawlessly evil Mr. bush Jr.? It is up to you really. Where do you want to go? Up, or down? You decide, but don't wait until forever never coming; these times demand for the victim, some real accountability. It is the power of our nature to being, that demands a call to arms against the war crime instigating, nine eleven perpetrators. Military commanders who don't support the arrest or execution of said individuals: bush, rumsfeld, and condi, are traitors guilty of mutiny.

/ / because having photographers or reporters present could have interfered with the count \ \

What we do now is accuse ES&S, along with Diebold of falsifying the election, then when they're pressed to prove "their" findings, they'll tell US, they can't, no ballot trail. Their convictions on our accuracy is misplaced. Pen and paper with ballots secured in locked boxes that never leave public scrutiny is the answer. Those who deny US that privilege, are enemies of freedom and democracy, wether they know it or not.

What for you say?, up for a challenge?

Your, coming to town, lovable loyal American King,

/ / But not until Friday did they begin to spill into the more conventional news media. That's when the Cincinnati Enquirer reported that officials in Warren County, Ohio, had "elocked down" its administration building to prevent anybody from observing the vote count there.

Suspicious enough on the face of it, the decision got more dubious still when County Commissioners confirmed that they were acting on the advice of their Emergency Services Director, Frank Young. Mr. Young had explained that he had been advised by the federal government to implement the measures for the sake of Homeland Security. \ \

We all can only hope and pray all US Godly innocent people will wake up, and starta' hunting bushite to the ends of this Earth. There is no pleasure greater, than destroying fascist nazi bushite grunts, to save the lives of the innocent they target for pillage and murder. Enemies of America are the cowardly and soulless disciples of the demon tyrant anti-Christ, Our evil Mr. bush Jr.. Disciples of evil who war God as our enemies in attempt to escape bush, condi, and rumsfeld for the crimes of nine eleven. No dice, for Johnny's now, truly coming around like some kinda godly

American Man of Virtues most can not even begin to understand. Don't be afraid my brothers and sisters, unless of course you're a bushite, for as a Christ Crusader I'll kill you myself, before allowing you to murder another innocent soul in My name. "Death to the bushite instead of our good friends and family", is our King's reply. Bushite commanders responsible for ordering the irrational bombing campaigns in Iraq, (to steal profit for rumsfeld's partners, while sacrificing weak and stupid American teens in the process,) such as in Samarra and Falluja, I am now offering a ten million dollar bounty on, per. Getting Started

<http://www.yubanet.com/artman/publish/article_14748.shtml>

/ / ..a call for immediate inquiry into evidence that suggests high-level government officials may have deliberately allowed the September 11th attacks to occur. \ \

I would suggest all living American medias to join the 911 Truth Statement, then, if we did that, America might settle her own affairs, and I could then just center on my upcoming "Wizard's World Wide Wonder Tour" plans currently in the finishing stages. This great World is yours, treat yourself well. A National radio program is just waiting for your call on what you know now about freedom.

/ / So, at the time of the invasion, the Iraqi government had already disclosed and disarmed, and was thereby in compliance with the major provisions of UN

Security Council resolution 1441, to which Bush refers in this quote. Diplomacy had, in fact, worked. \ \

Demon bush spew "Saddam Hussein would still be in power, he would control all those weapons and explosives, and could share them with our terrorist enemies."

Yet, it was rummy and tommy franks who TREASONOUSLY threw out the State Department's semi-thought through ORHA plan of, securing the weapon sites and preventing anarchy, and, it was the IAEA that had tabs on the weapons before the bush demon kicked them out irrationally. Done so to instigate looting and the deaths of American soldiers, all so to allow traitor franks and company to rob the public bank of uncounted billions, along with the museum. See? bushite would truly get the dumfuk cowardly bushite killed for a stolen dollar, and US real men would kill bushite too, as so would this eternal Universe, done so to protect our loving innocent families. Being a bushite disciple of the evil anti-Christ, is something all wish hardship and death for instead of the innocent they, un-apologetically, as enemies of God, openly target for rape, pillage, and murder. Johnny Wizard pays ten cents for every bushite tagged and bagged, ten cents. And, an even share of at least 3 billion to those who kill the bushite commanders responsible for the criminal bombing of Samara. Hint: You kill the individuals who ordered the bombing MURDER campaigns of Samara, then stand up proud to our media as a real American soldier should or would, and say yeah, I killed the nazi bushite traitors as a true Patriot Warrior to protect my fellow brothers and sisters. (Optional close: "All hail Johnny!) Do that, and I promise you'll get what coming to you: all the riches this world of God's can afford., But don't, as bushite nazi soldier grunt, and likely die sacrificed as a coward and a traitor to the Human cause of liberty and Justice for US all. WARRING military corporate commanders that don't support the arrest of those responsible for 9/11, or the return of all stolen assets taken through the neo-con's war crime actions, we should all just frag for America.., what do you say Patriot(s)?

/ / Marine Colonel Michael Schupp dismissed the sputtering dialogue as a sham. "The negotiations are a ruse. They are just stalling for time," he told reporters near Falluja. \ \

What negotiations? Allawi has repeatedly informed American soldiers he has no evidence whatsoever, establishing his therefor, FALSE allegations. Mr.

bremer's Zarqawi moves freely throughout Iraq, including the green zone. Question: When all those children were targeted for murder, by what was reported at the scene with remote controls in one truck and under the street, why would Zarqari take credit for it even if he was truly responsible? And so on..? I think Michael Schupp is a fuk up dumfuk, who thieves from America for bush, and who clearly doesn't have the intellect to command anyone but himself to his own rightly death. Why would Zarqawi target children, when bushite nazi grunts are all so close by coming and going?, for days at least constructing stuff?, that rumsfeld broke?, then over billed to fix for even further takings? Remember several un-arrested bushite NAZI commanders openly confesses to AMERICA in having no public objections about murdering the innocent, without even having a military objective established in some cases, but only for to sacrifice another soulless bushite grunt/slave, all so to enrich the comfy neo-con war mongers left back home in our luxuries., Luxuries from where America's very own grand parents are left un-treated as the still victimized.

What do You think People? Needlessly murder thousands upon thousands irrationally making no sense, or, return stolen Iraqi assets while arresting American enemy Iraqi People killer Allawi, along with maybe Michael Schupp while we're at it? For, who cares about what is right, just, or true is this dying world of Yours?, er.. I mean bush's. You remember, Saddam wouldn't let the inspectors in, and that was why bush took a serious look at this real world situation and decided unilaterally, what the hell, he'd start a war against our Humanity left "undefended" as an enemy to everyone. (Satan's wager, that if i Remember correctly, Christ/God refuses(d).) Evil is Our Mr. Bush Jr.. Thank Johnny we had the time to intervene finally, now eh? Spooky is not the word, but baby, we sure could be on the winning side of this evolution by revelations thing. We are it together, bound for freedom through the practice of Justice, or bound to tyranny through acts of ignorance, ignorance propped by fascist censorship regarding our news content., Censorship of our human cause for liberation.

It is up to You brothers and sisters to demand evidence a requirement to convince ourselves on who shall be deemed the free person, or be sentenced to jail without trial somewhere. Tyranny through criminal dictatorship, or democracy expressing the true will of us people? It is all up to you.

Big deal. To the war mongering mass murdering thieves
go the stolen spoils., as the bushite's devolving
american new century would say.

/ / The American public is told that this butchery is
part of keeping up pressure in the war on terror. All
these terrorist brides and grooms and terrorist kids
rushing round in party clothes ; all the terrorist
musicians and the terrorist wedding guests, by God, they
have to pay for 9/11 because (as millions of Americans
still believe), the Iraqis were responsible for 9/11. \ \

50 percent of Americans polled support bush, and the
vast majority of those believe Saddam Hussein was behind
the Sept. 11 terrorist attacks, and that freedom by
justice through understanding is too complicated and
wordy, ...yeah. and so corproate news control is lying
to US all, cheating everyone, including You, who cares?

Americans murdered on 9/11, and those responsible are let to go on their way. Yeah, and so what?, for Americans are absent any real Patriot warriors willing to protect their now officially perverted Amerkan flag. Look at the nazi grunt soldier's uniform, and you'll see. All bushite nazi grunts, who fight cowardly with rapists, torturers, and South African apartheid death squad goons, wear a flag reversed from the original design. The bushite attack the weak, innocent, and practically defenseless as betrayers to God, freedom and the human cause. Yeah, and so what?

/ / The administration not only doesn't admit mistakes, but also doesn't believe in accountability. \ \

But for the sacrifice of dumfuk bushite nazi grunts. Leaderless degenerates that any real human would destroy to protect their innocent families. Innocent families the bushite bombers commanding from Florida murder for no good reason but get more soulless bushite teens rightly killed, all done so to put more stolen money in the pockets of their ungodly satanic cult. Solution: hunt to kill those left un-arrested who willfully, criminally, ordered the needless bombing of Samara to get killed the bushite grunts for the further thievings of the bush backer traitors who bask in your stolen expenses.

Support calls for open dialog.

Is It Just?

/ / Is it just coincidence that 9/11 is also bush's "acceptable" reason for warring, (planned TOP SECRETLY prior by several days of 9/11, and confessed to US already as fully implemented by the Whitehouse) Afghanistan with a FALSE ALLEGATION [n o - e v i d e n c e] to heroin push, [is still leaving] ..the STOLEN American soldier pension money [...] sitting in the Cayman Islands? \ \

I guess perhaps I wasn't so clear previous, but listen: How's bush and rumsfeld's Afghan plan, gonna go down, if there is to be no surprising 9/11, nor any evidence, (not a scintilla,) gathered for public inditement against Laden for shoplifting? (No advisement from Tenent, nor Richard Clark?) Would bush start a war against life itself, by just simply stating, we don't need no evidence of our suffering?, with him demanding an innocent family to be crucified?, to save Enron? Again, bush is the for real antiChrist of all biblical

folklore, hated this entire timeless universe more over than anything else Johnny cares to mention. George bush's naked treason as an enemy of Humanity is hidden from no one. A true soulless degenerate George W. Bush is, whom is purposefully attempting to destroy Your freedom as humanity with his utter contempt for our flying fricken flag. If a person has no evidence to substantiate an allegation as personal opinion on the advocation of perpetrating senseless bushite barbarity against those understood as US innocent, then your blind faith in evil bush as bushite, not lies with your God, your nation, your family, your neighbor, OR YOURSELF, but as the willing to be sacrificed for the ungodly bushite war crimes as enemy of everyone. Listen: Jesus..., KILL BUSH INSTEAD.

Kill un-arrested bush and rumsfeld for murdering the good American People thought left undefended by corporate edict as the still unjustly dying and near forgotten, and you'll be respected by this universe as truly honorable and courageous, in these of God and Humanity's, most troubling of times under the criminal dictates of Our evil Mr. bush Jr..

Those evil brethren of the bushite clan intend, through censorship, to allow the demon bush cabal our rights to leave, but where does the brethren of the bushite clan think bush is a gonna flee himself from, eh? We, The People are a' coming to get you George W. Bush for almost escaping our police protections. For, when the bush brethren clan wake up to the plan, that they'a have'a been'a deceived, the last think anyone would want, is to be without police protection... (Can you believe, the war monger thief and liar, Our Mr. bush Jr. actually banks for Christian fundamentalism, thinking he's gonna ride them bible belting for all he's worth?)

Again, America needs to wake up, load up, and go out to freely bag US some un-American bush and rumsfeld, all to save the lives of the leaderless dumfukked bush-teens, who are prodded criminally as cowards to die for the enemy. Those who would murder innocent Americans as bushite, then further publicly advocate as enemies to freedom, the victimization of God as the innocent elsewhere, should be turned against instead, questioned, arrested granted full legal rights through public due process, or hunted down to be destroyed by US real Patriots of this world as God's great believers. I'd destroyed any un-arrested proud bushite for warring America by indiscriminately dropping toxic cluster bombs

on our friends and family, to get rightly killed more leaderless cowardly soldiers with Grand parents they leave undefended in bush's evil amerka. Who doesn't hate bushite I ask you to think as you should?

You kill bush because, we had unrestricted access to do anything bush pleased throughout Iraq, prior to sacrificing any good for nothing, cowardly bushite nazi dumfuk whore.

Now, because truly, the Iraq bushite war is illegitimately premised without any actual cause, the humans are faced with two questions that have no legitimate answer.

1: What can the ungodly and evil demon bushites do now in Iraq, that they couldn't prior to murdering one child, but for to rob from America by towing his bushwhore nazi coward soldiers to commit criminal acts to rob freedom from all of US as Humanity?

(Kill an proud to be evil bushite, and all day long you'll have the thanks of every surviving American police officer, and a nod from all the American pensioners who are promised that maybe bush's america can learn for next time while the bushites just walk away with the stolen loot laughing.)

2: What could Saddam do, that he wasn't asked for?, to stop the senseless first degree murder of our friends and family?

Saddam provided the sites where all bremer's WMD was destroyed, the documents, the personnel, and so on, but corporate america won't let the facts be delivered without their bias of, who cares neutrality. A refusal to report for American interests regarding the sacrifice of American lives for the un-arrested criminals hiding inside Enron, Dutch-Shell, five dollar a day Bechtel, or double billers, commi Halliburton. Example: soldiers could have more effectively went into Iraq unarmed to search wherever, for there were no restrictions placed upon rational behavior, but just no money for the bushites to steal from America. The proud dumbfuk bushite soldier is coward and betrayer to America and God, by not, for America's America, killing bush and rumsfeld for near escaping the murder scene of 9/11 in New York City. Instead, they attack the defenseless and innocent with cluster bombs laced with toxic waste they happily eat themselves to die as the ungodly soulless bushite traitors. You get your gun Patriot, and instead of punishing a town, city, or state, bag yourself some

individual evil bushite, and be respected by all true loyal Americans as a real freedom fighter. With the God of every religion by your side rooting you on for the home team, You'll be loved by all. At least until, we or me, can make the national news programs to communicate. Again, the management and news desk staff of CBC and CNN know, that the American FBI contend: bush's business partner, the un-arrested in retirement General Ahmad, funded Atta, the 9/11 mastermind. (While no evidence was established against bin as connected, to justify the Afghanistan war crimes. Nothing.)

CNN and CBC, in our names, are with malicious intent, refusing to allow justice to be our interest in protecting always.

New Recruit

Destroying enemy bushite is a gift to Humanity, it is saying you care for the lives of the innocent a bush bitch nazi grunt freely confesses to targeting for murder. Liars are the bushite, who steal Iraqi resources, allow racists and rapists to commit their demon crimes in America's name un-challenged, and who absent mindedly bomb the innocent without just reason given. All the while, labeling themselves, "pro-Iraqi". The mindlessly evil attack against the Turks recently with an ordered bombing campaign that actually murdered people, sighted yet another, example of the bushite's idiotic ungodly satanic barbarity against us the Humans as INNOCENT. After the carnage, the war criminalizing America into bushite commanders were advised, it would be better to pick other completely innocent families to indiscriminately murder while lying, for the demon bushite provisions come through that big ol' Turkey, and if the Middle Easterners eventually learned together of their fellow Turks who were murdered by ungodly enemy nazi forces for admittingly doing nothing worth noting, with the middle east's indirect help with essential supplies coming from somewhere in that surrounding billion man vicinity, you know, I know, we all know, "Americans" as NAZI war criminal enemy bushite, would massively die as the immediately recognizable to most everyone, and rightly too as leaderless cowardly, dumb, and real sadistic evil, dying at the hands of all US Family men. Being as bushite, the enemies to everyone, including themselves we've witnessed them already dying as nazi dumfuks who eat plutonium. Or, IED? They mean "sexy" rummy cluster dud land mine more like! (Just

where is the Middle of East anyway?) History HAS learned these lessons already, while the corporatist bushite plays US just dumb enough through malicious censorship for plunder by parasitic bushite suicide, for a bushite has no soul worth defending. See?, the committed nazi automaton bushite enemy of America soldier has no mind to know freedom for the individual. Therefor my friend, kill the evil nazi George W. bush Jr. not just for me as Johnny, but for US all man who refuse to be subjected further as only counted by the corporate dictums to pronounce "pro-American": as those that go silently rooted backing "un-accountable" rapists and torturers of the innocent, the innocent, that the bushite OPENLY rob from with American's hard earned tax dollars funding. Funding through leadership directed towards their very own self destruction. See bushite, kill bushite, at least until we are granted living access to OUR corporate dead end news media to speak FREELY for ourselves without bushite lies tying US down for furthering that demon's hellish ungodly tyranny as an enemy to all our Humanity and Royal King Johnny.

Real Americans are those of US as humanity that believe in liberty as Justice for all. Demon bushite nazi whores, don't like those principles of freedom through evidentiary findings though, for their false deity, George W. bush Jr, wouldn't be stealing from the honest hard working blokes who live for a better day that way.

The Iraqi children did nothing to deserve such awful suffering and fright and death at the hands of the enemy bushite. The bushite: who the demon anti-Christ states, are un-accountable to any rules of law in this Universe, like with his extremely foolish criminal decree, 13303. I kill mindless parasite bushite nazi enemy soldiers just for that alone as eternal defender, and I do it for to win some mercy for a real living God, who the fascist enemy bushite hold in their ungodly contempt as LIARS.

I have the backing of every real man alive on this planet, and we all know it. No voices of reason have apposed my factual claims in FREE Usenet, and Art Bell makes no attempt to defend himself as internationally painted enemy traitor, and that says a whole lot to Talk America. Why? Because Mr. Bell, the bushite propagandist, knows too, I speak and act truthfully, honorably, and righteously, while the talk radio american bushite lies, cheats and steals from America's America, that as bushite, leave undefended for criminal plunder in Your name call censored from classed

enrollment. You have just as much a right to be here as I do, and the demon bush, he ain't no better than any of US when he is "excused" for the murder of well more than a hundred thousand confessed as completely innocent people on this planet called Earth.

The fascist control bushite, don't like You to think independently for Yourself, for we independents out here make them look as stupid as they are. Thank you very much for that not so secret info.

Through the pronounced bush demon's gaffes, embarrassments, and told complete total ignorance on subjects like the science of economics, the whys of constitutional law, or when the bushite takes credit for indiscriminate killing of our families and friends while parading it's all done in bush's name for our freedom, or for 9/11, doesn't fool me, and should get you thinking about reaching for your guns too, for bushite rapists and torturers will not walk this world freely un-accountable, for as long as we remain alive to hunt them down and kill them if so be. As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr., their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way.

REMEMBER: Demon bush is stupid, yaw, but he knows that he and rumsfeld with condi planned and carried out the crimes of 9/11 with likely cheney orchestrating, don't ever forget that part when attempting assessment how good four more years in going to do for the state of freedom in Your dying world. Serious this situation truly is for everyone. Everyone.

Now, what are You going to do about this, DEMON George W. bush Jr. actually playing US like he would like to continue victimizing our dying world as ENEMY for four more years towards furthering lawless tyranny? Don't we already have it bad enough, that corporate journalists think there is actually some merit to George bush's re-election bid? Especially after that 9/11 thang? Then there is the needless criminal wars, fraught with embarrassing massive billion dollar criminal frauds as .oops, more government fuk ups? Then of course all the bushite thefts. I did a Internet Google search of "Tiger Team" and I found next to nothing in all the professional media corporate news outlets we have advertising on our information service providers top

notched list as best sourced material. And that should say as much or more to you too, about who's really conning who. So, who cares about where this world is going? I do, and so should you too.

snpd

Again, none of any words world wide bare contention against the facts we've brought to our attention. The traitors to America, Our Mr. bush Jr. and rotten rumsfeld don't mention the willingness of American Soldiers to aprehend general Ahmad as the principle terrorist funder of Atta, because this general is also responsible for developing the bushmob strategy of killing Americans in New York City from Washington. A strategy of blaming bin Laden without any evidence to bomb Afghanistan for Enron. (The Dahbol Working Group.) Then closing criminal investigations, as it's not important to know who personally was responsible for the insider trades, or the contacting of only Odigo. Never mentioned by CNN as top priority to American soldier concerns, who are expected by Blitzer and Hemmer to throw away their lives in sacrifice unthinking to bush, america's false deity, super evil anti-Christ. While bush and cheney threaten to murder more dumb Americans who would dare to articulate the demand for Justice as our own, like Laden has, while demanding American Patriots coware in fear of the sadistic savage mass murdering death squad leader, tommy franks, or the anti-Christ going out to kill their family too as not represented by corporate policy, while American soldier families are continually disrespected as unworthy. (Generally, they are pretty damn stoopid, but certainly, if they're not knowingly commiting first degree murders for the anti-Christ as pure nazi filth, they should be allowed to learn, instead of having their own undefended families robbed then slaughtered for American traitor, nazi puke terrorist, tommy franks, or for Monsanto's rotten rumsfeld. Do you notice corporate America continues to show outdated footage of those two demons standing near smiling armed American soldiers, who as a mass of dumfuks, aren't intelligent enough to destroy them instantly as established ememies of America as terrorists? Well, that is going to change. I have yet to find ANY American Soldier who is literate, who disagrees WE have some very important questions that need immediate answers before the bushmob murders more Americans in Our name. See for yourself through Google if you don't believe in Christ as the Redeemer.

As for the doubting American Soldier, LOOK, CNN will continue as cult members in their dying madness of just even lamer excuses, to convince US, we are alone in our concerns for Freedom as Justice instills for US all. This moment of History requires you to stand strong for only yourself to be represented truly among the stars. Evil stupid people can't make heads or tails of this, but, as evil bush does truly from his dark shallow existence, will continue by open piracy, to publicly advocate in Our names the further robbing and murder of your own family American Patriot, so too, will more american nazi dumfuks die to the tune of their own cowardice to protect themselves as garnered fairly. This is why rotten rumsfeld forbids the death tally of American soldiers to be made public to the ready for enlistment as the too dumb to know better. Life is life, and sorry to say american dumfuks, Christ on the cross is you too as a true dying American Patriot, and your already politically sitting in the position of hatred and injustice against Humanity, and myself honestly as.. THE SON OF MAN! (The god of God's life/death guy, with a score to settle on behalf of the infinite Universe and True brave Soldiers everywhere. KILL AMERICAN COP KILLER BUSH NOW BEFORE HE MURDERS MORE IN OUR NAME AS THE INNOCENT COWARDS!)

CNN is not interested in working for American interests by asking why, as there is little of any money in just doing good for your neighbor, like saving a living, as we would wish to be helped for ourselves, if we were bound just the same to be equals at being. Mr. Blitzer and Bill Hemmer, as americans, wouldn't give a dollar of your time, to speak on human rights to be of their own concern, (they're rich!) or to save the life of an innocent poor victim, if it meant they would therefor, be compelled to honestly report on their false deity bush, the super evil criminal to ourselves as Humanity, the unelected dictator, American cop killing anti-Christ in person!, that they so leave to see Americans sacrificed as ignored to be robbed from as their profit margin increases. Do less for America, The People, and get payed more in collateral damages paid for by doubting Patriots, too slow to stand for the American flag in protection for their own living as lost to the wind. Mr. bush, tommy, rumsfeld, cheney and blair give no evidence, but for to show themselves as the criminals who openly harbor terrorist activity against our communities, and WE, as Humanity, according to CNN, are expected to go out and kill our friends in cowardice, instead of standing up to destroy the demon bush instead to save our own selves.

God, or no God, I hate that murderer bush as much as any
real man would to care for his own life as family.

Very wise words, from someone who understands human interaction. Too
often one person or the other in a couple thinks they can "reform" the
other person's bad habits. This only leads to misery and an eventual
breakup. When you sign up to the "for better or worse" deal, that
means you take the whole package, not just the parts you like. My wife

had to deal with my radios, and I had to deal with her smoking (Which fortunately she gave up when she was pregnant). That's is the nature of compromise. You compromise because underneath those surface differences, there is a greater bond of affection which should transcend those surface differences. But it should be everything in moderation. If important things in life are being postponed to address a specific hobby, then it's time for a little introspection.

Ah, but Bean *can* change the laws of physics, as we have seen before.

In this case he is saying "almost no power" = "no power at all". He
too has not learned that when he's in a hole, he should stop digging.

The reason that I posit that you are a CBer is because you
originate much in the way of gratuitous personal remarks as
you do in your Childish Broadcast (CB) quoted below.

Ham Radio has gentlemanly traditions which seem to be lost on you,
which is why I queried whether "N7ZZT" was some form of

Well, if Airy's theory were true, the laws would have to change. What happens if you have a range if time pieces- from a watch to a BIG clock? (or would it be a Big Klock?) To fit in with Airy's theory, the laws of physics would have to change at some point.

Good to see you back Dr.

I wonder why your appearances in this NG are always
so childish and attention seeking. There is nothing in what I
have proposed that suggest that the laws of physics would have
to change - that all gear trains transmit both motion and power
goes without saying - I did not say it originally, but you and
a few other pedantic fools tried to sneer that I had suggested
that motion without power transfer was possible. I did not suggest
that.

In fact......wait for it.....it was _YOU_ and others who first put
forward the idea that motion without power transfer was possible. Not
I....but you.

Yankland is crap? Possibly.

"Condoleezza" sounds like a Spanish sneer for rotten
fish, so perhaps "Condoleezza Rice" is their term for Paella
that has gone off?

Perhaps we could award our own L.I.A.R. the further
epithet of, "Condoleezza Reay", as what he stands for is a gangrenous
degeneration?

I have a nice Kenwood R-5000 receiver which has stopped working. I think the problem is the rechargable battery that retains the memory. The radio was left "unplugged" and the cell discharged. Now, I can not get it to fully charge and run the radio properly. Does anyone know where in the radio this battery is located and if it can be replaced easily?
Thanks,

I just got an FT-208 and I'm trying to modify it for a broader frequency range. Anyone have any experience with this model? The internet's turning up dry.

Good News!

Do you know how simple it is to go to Heaven after this life has ended?

The good news is that God came from Heaven to earth in the person of Jesus Christ over 2000 years ago and died for our past, present and future sins(misdeeds). He was born in the land of Israel supernaturally to a virgin Jewish woman named Mary. He lived a sinless life for thirty-three years and then sacrificed His sinless blood and died on a cross to pay the death penalty for our sins.

After Jesus died He rose from the dead three days later as He said He would. The Holy Bible also tells us that Jesus Christ ascended into Heaven and that all who accept Him as their Lord and Saviour will live forever with Him in Heaven where there is no more death, sorrow, sickness and pain.

The Holy Bible very clearly explains how simple it is to be saved and on your way to Heaven, "For if you confess with your mouth, "Jesus is Lord," and believe in your heart that God raised him from the dead, you WILL BE SAVED." (Romans 10:9)

You can be saved right now and on your way to Heaven if you will open your heart to Jesus and pray the following prayer:

Dear Jesus Christ, I want to be saved so that I can have a home in Heaven when I die. I agree with You that I am a sinner. I believe You love me and want to save me. I believe that You bled and died on the cross to pay the penalty for my sins. I believe that You rose from the dead. Please forgive my sins and come into my heart and be my Lord and Saviour. Thank You Lord Jesus Christ for forgiving me and saving me through Your merciful grace. Amen.

You are now a Christian if you said the prayer and allowed
God to save you. Welcome to the family of God.

Have a great day!

There was a programme about food / eating habits I saw some time ago and it
claimed that as significant (I think it was 30%) of cornflakes were NOT
eaten at breakfast time but as a 'light snack' at other times. In
particular, they are claimed to be a popular pre-bedtime snack.

Wasn't there a diet based on Special-K sometime back? Eating it for
breakfast and lunch or some such.

Hiya,

I was just woundering whether its possible to modify a satellite TV set top box to receiver other frequencies?

I know that they work in the L-band, and I know theres some interesting stuff in the L band to listen to.

Has anyone ever modified one of these boxs to connect to your computer and reciever things like telemetry data, etc... Whats actually involved? I know the basics about ossilators and stuff, but im a newbie to radio comms

Does anyone know any links to websites that detail this sort of thing? Im just curious more than anything, although probably wont implement anything

Yours gratefully

Dave

Probably not. If the radio works but will not remember anything then the
battery is dead. Most likely you are seiing .... on the display because
the PLL unlocked. This is because Kenwood potted it a rubber compound to
minimize thermal drift. Unfortunately the compound absorbed water out of the
air.

You need to find the little metal box with the PLL in it, remove the cover,
carefully scrape off all of the rubber compound and corosion and replace
any ruined components. Once that is done you need to realign the PLL.

Having done it, IMHO, you are far better off paying the $100 or so to get
it repaired professionaly.

Geoff.

Put a plate under the roof, if you're willing to remove the headliner,
or on top of the roof, if you're not, to stiffen that area. I think that
under would be better for multiple reasons, and you've got to get into the
headliner anyway to deal with the cable, don't you? You shouldn't need a
lot of plate -- say 6" square or 6"x12", with the long axis oriented
front-to-back. The NMO mounting nut may be enough, or you may want to use a
couple of fasteners to keep the plate straight.

Temporarily you could loosen the NMO mount ring and look to see if the two tabs which fit UNDER the roof metal are aimed forward and rear. If so, you could simply turn the assembly 90 degrees so that the two tabs now fit under the roof hole right and left side. This is assuming that the tilt was due to the bending of the front to rear part of the hole, but left and right side of the hole still being flat.

Ultimately, some kind of added thin steel plating under the roof hole would be the only thing I can think of at the moment. I've seen some plating added to the top side, which worked, but looked like heck.

Good News!

Do you know how simple it is to go to Heaven after this
life has ended?

The good news is that God came from Heaven to earth
in the person of Jesus Christ over 2000 years ago and
died for our past, present and future sins(misdeeds).
He was born in the land of Israel supernaturally to a
virgin Jewish woman named Mary. He lived a sinless life
for thirty-three years and then sacrificed His sinless
blood and died on a cross to pay the death penalty for
our sins.

After Jesus died He rose from the dead three days later
as He said He would. The Holy Bible also tells us that
Jesus Christ ascended into Heaven and that all who accept
Him as their Lord and Saviour will live forever with Him
in Heaven where there is no more death, sorrow, sickness
and pain.

The Holy Bible very clearly explains how simple it is
to be saved and on your way to Heaven, "For if you
confess with your mouth, "Jesus is Lord," and believe
in your heart that God raised him from the dead, you
WILL BE SAVED." (Romans 10:9)

You can be saved right now and on your way to Heaven if
you will open your heart to Jesus and pray the following
prayer:

Dear Jesus Christ, I want to be saved so that I can have
a home in Heaven when I die. I agree with You that I am a
sinner. I believe You love me and want to save me. I
believe that You bled and died on the cross to pay the
penalty for my sins. I believe that You rose from the dead.
Please forgive my sins and come into my heart and be my
Lord and Saviour. Thank You Lord Jesus Christ for
forgiving me and saving me through Your merciful grace.
Amen.

You are now a Christian if you said the prayer and allowed
God to save you. Welcome to the family of God.

If you decide to wait till later you may die before you get
another chance to be saved because none of us knows
exactly when we will die.

Have a great day!

Loosen the NMO mount rig. Straighten the antenna but dont
retighten yet. Squeeze a liberal amount of J& B weld into the
hole. Retighten the NMO ring. A simple fix that works every
time.

There is no guarentee that the complaints will cause google or aol to do
anything, but no complaints is a guarentee that they will not. If enough
complaints are filed, they just might.

It does no good to reply to the spam posting as the spammers never read

It does no good to post a reply to this spam as the spammer never reads the groups he spams to. Send complaints, with complete headers to: groups-abuse@google.com and abuse@aol.net

The reason these spammer get by with this is there aren't enough complaints lodged against them. So instead of taking the time to reply, take the time to file a complaint.

There were about 15 reasons why we stopped - the primary reason was that the business has lost money for a number of years. The loss of the lease was about 5th down on the many reasons it made no sense to continue the business.

Still another lunatic speaks...

One has to wonder what it is that attracts morons like this poster to the technoloogy and scientific newsgroups, as is so commonplace today.

Remember when the posts here addressed technology relating to the amateur radio hobby, neutralization of a triode vs. that of a tetrode final, and the meaty days when hams were sophisticated and clever enough to design and build their own rigs without help from Radio Shack based on tube and componenet data and/or info in the ARRL Handbook?

Thank you for the info Geoff. I tried the radio today after being plugged in overnight. Receiver was reset by holding in A=B. Everything is working again, but sensitivity is low and some signals are garbled. Frequency readout is OK. Can the rubber compound in the PLL can cause the low sensitivity in addition to the previous ..... dots? Or do I have some other kind of problem? I agree, it is probably best to spend the bucks and have it done right.

At my job we use motorola HTs on UHF (400MHz+) using DPL/DCS squelching. Sometime in the next few months we'll migrate to different motorolas on VHF (150MHz+) using PL/CTCSS.

I'm a ham, but a somewhat inexperienced one.. I was wondering if y'all could direct me toward a few dual or tri band HTs that would be easily modified to tx those freqs, preferrably with the DPL/DCS capability (since I think most radios come with PL/CTCSS), but if you know of one that is super easy and only does PL, that would be great, too. Comments on performance (ie intermod) are appreciated, too.

I've hunted around on mod sites and have come up with a couple of icoms and a few alincos that appear easy enough to mod.. But, I wanted some opinions from y'all.

There's probably no need to post the mod, I'll find it on the internet.. Unless you want to make it easy on me and link to it. :-)

Thomas,

Did I get this correct? You want to modify an amateur radio so it
operates on a commercial band?

What you are doing is setting yourself up for a $10,000-$20,000 fine
and possible suspension or loss of your amateur license. Regardless
of technology, it is against the law to use non-type accepted
equipment on services requiring type accepted equipment.

You can read about some of the penalties imposed by the FCC on the
internet. I think the ARRL has quite a few reports.

You can get HT's and mobiles that will monitor the frequencies you
want to use if you like.

If you want to operate those frequencies, you might check with the
source from which your company is buying rigs and tell them that you
would like one that you can use as well but have a small budget. They
may find a used one for you that they can program for both your
company use and amateur use.

Good luck,

And... stay out of trouble, ok?

Buck,

Thanks for the reply. I'm actually working outside of the US right now, where the FCC doesn't care and no one else around here seems to. I met another HAM here who's doing the same thing (with an IC-V8) and really there is no one here to complain. Rest assured, I wouldn't care if I were in the states.. And, when I get back to the states if I don't leave the radio for someone else I'll not be operating it out of ham bands. :-)

Have a good one!

73,

thomas

The fact that someone is doing it means nothing. Do you know how
many people over the years have asked similar questions here in
these newsgroups? And much of the time, their logic is that nobody
will know, nobody will care.

Maybe it doesn't matter in another country, but you really should
be checking up on this. You are a guest there, and not only would
you be breaking the law, but you would reflect badly on amateur radio.

There is an arrogance to think that ignoring the laws in another country
doesn't matter, while at home is what counts.

809. (UPDATE, SHORT) Auto-FAQ Sent to Over 40,000 rec.radio.amateur.* Poste

Newsgroup: rec.radio.amateur.misc
Date: 2005-02-11 19:28:07 UTC
From: "Paul W. Schleck" <pschleck@novia.net>
Message-ID: <420d06bb$0$8355$45beb828@newscene.com>

For the previous (SHORT) update, see:

http://groups.google.com/groups?selm=410e48a3%240%24158%2445beb828%40newscene.com

In September of 1996, I started mailing an introductory message to all
new posters to rec.radio.amateur.misc. This is accomplished via a
special Perl script originally written by comp.infosystems.www.* FAQ
maintainer Tom Boutell, who uses it on
comp.infosystems.www.authoring.html, to send each poster such a message
once, and only once, to a given E-mail address. It runs from a Unix
cron job on my host every morning at 2 AM and queries my local news
server via NNTP for the headers of any new articles posted to this
newsgroup.

The project was expanded on June 19, 2002 to cover all
rec.radio.amateur.* newsgroups, but with the same previous-poster
database (as I stated my intention to do in previous updates). This
means that if you have already received the message to a given E-mail
address, you won't receive it again to that same E-mail address. The
average number of recipients per day is currently about 12. Feedback
statistics remain about the same for the additional 2,500 recipients
(see previous updates via the link above for more details). Here are
the milestones in terms of number of recipients, and the date each
milestone was attained:

Recipients: Date: Average Recipients/Month (approx.):
0 September 21, 1996 N/A
5,000 July 5, 1997 625

>Subject: WELCOME to rec.radio.amateur.*
>X-Loop: rec.radio.amateur-auto-faq@oasis.novia.net

Hello,

The following message is automatically sent to every new poster or cross-poster (as of June 19, 2002) to any of the rec.radio.amateur.* newsgroups. It should be sent once, and only once, to each unique address. This is a welcome message. The Internet amateur radio community welcomes you to the newsgroups, including rec.radio.amateur.*, and welcomes your input, opinions, and constructive participation. To help make you feel welcome, experienced participants like myself have chosen to systematically inform you, as a new poster, about useful information resources and user tips to enable you to get the most out of these newsgroups. I hope you will consider the message in that spirit.

* * *

1. The news.announce.newusers newsgroup, moderated by Jon Bell, et al, contains a number of very informative articles providing an overview of net-etiquette, suggested writing styles for electronic forums, and other various do's and don'ts concerning Internet culture. If the articles have expired at your site, you may also access them from:

ftp://rtfm.mit.edu/pub/usenet/news.answers/news/

2. Original newsgroup voting and charter information for the rec.radio.amateur.* hierarchy, as well as for rec.radio.info and rec.radio.swap, may be accessed from:

ftp://ftp.uu.net/usenet/news.announce.newgroups/rec/rec.radio.amateur-reorg
ftp://ftp.uu.net/usenet/news.announce.newgroups/rec/rec.radio.amateur.dx
ftp://ftp.uu.net/usenet/news.announce.newgroups/rec/rec.radio.amateur.boatanchors

3. The Guide to the rec.radio Newsgroups, originally written by Jay Maynard, K5ZC, is now maintained by Jeffrey Herman, KH6O. It provides an excellent overview of all of the Usenet newsgroups devoted to amateur and CB radio. It may be accessed from:

ftp://rtfm.mit.edu/pub/usenet/news.answers/radio/personal-intro

4. The rec.radio.swap FAQ: A Guide to Buying and Selling on Usenet, also originally written by Jay Maynard, K5ZC, is now also maintained by Jeffrey Herman, KH6O. It contains a number of good pointers for reading and posting articles concerning the buying and selling of radio and radio-related equipment on the Usenet newsgroup rec.radio.swap (which, with the sole exception of rec.radio.amateur.boatanchors for vintage equipment, is the only appropriate newsgroup in the rec.radio.* hierarchy for such articles). It may be accessed from:

ftp://rtfm.mit.edu/pub/usenet/news.answers/radio/swap-guide

Please direct any submissions feedback, or administrivia regarding the above two resources to jeffreyh@hawaii.edu.

5. The national amateur radio society of the United States, the American Radio Relay League, has a presence on the Internet. You may

access their comprehensive and informative home page at:

http://www.arrl.org/

(They also have information about amateur radio organizations in other countries.)

6. Read the newsgroup first to see if your question has already been answered. You may also view, and search for keywords in, older news articles (going all the way back to 1981) at the Google (formerly DejaNews) archive:

http://groups.google.com/

Many topics have been discussed before, often in great depth, but the articles have expired at your local news server. Services like Google allow Usenet a much longer "institutional memory," greatly benefiting both new and experienced users.

7. If you do post to the newsgroup, give as many details as possible. After you post, read the newsgroup for a week or two to see all replies to your posting. A recommended practice is to ask for responses by E-mail and offer to post a summary if others are interested in the answer to your question. Note that it is (almost without exception) inappropriate to post your article to all (or even a significant subset of) rec.radio.amateur.* newsgroups. Please pick only the most relevant newsgroups (2 or 3 at most), and post your article as a simultaneous cross-post (check your newsreader documentation) so that only one article is propagated, and the article is only shown once in a newsreader.

8. Remember, Usenet newsgroups are based on the idea of mutual aid. Usenet only works if we put as much into it as we get out of it.

73, Paul W. Schleck, K3FU

The author welcomes any and all constructive feedback. Please direct all such feedback to pschleck@novia.net and retain the original subject (e.g., "Re: WELCOME to rec.radio.amateur.*") in your reply.

814. RTTY on the QRP freq???why???

Just was starting to get interested in QRP. Been making many contacts with 1/2 watt on 7040 KHz. But lately it has been worthless due to all the QRM from RTTY stations operating very close to 7040. Why? Why are all the RTTY people meeting so close to 7040 when there is so much free space in around 7090 area?

Because 7030-7040 is where all the European digital stuff lives. I worked
from VK2 to EA this morning, psk31, 7038khz, 10w about 16243km this morning
before the path closed.

Because 7090 is chock full of phone nets and European DX.

Because 7040 kHz is the "RTTY DX" frequency in the ARRL bandplan.

http://www.arrl.org/FandES/field/regulations/bandplan.html#40m

Whoever designated 7040 kHz as a QRP frequency didn't look at the ARRL band plan.

Have heard suggestions to move the QRP Calling frequency to 7030 kHz
But suspect the QRP Amateur Radio Club International should do that URL:

The FCC rules don't affect areas the FCC doesn't regulate :) No
problem here.

Good News!

Do you know how simple it is to go to Heaven after this life has ended?

The good news is that God came from Heaven to earth in the person of Jesus Christ over 2000 years ago and died for our past, present and future sins(misdeeds). He was born in the land of Israel supernaturally to a virgin Jewish woman named Mary. He lived a sinless life for thirty-three years and then sacrificed His sinless blood and died on a cross to pay the death penalty for our sins.

After Jesus died He rose from the dead three days later as He said He would. The Holy Bible also tells us that Jesus Christ ascended into Heaven and that all who accept Him as their Lord and Saviour will live forever with Him in Heaven where there is no more death, sorrow, sickness and pain.

The Holy Bible very clearly explains how simple it is to be saved and on your way to Heaven, "For if you confess with your mouth, "Jesus is Lord," and believe in your heart that God raised him from the dead, you WILL BE SAVED." (Romans 10:9)

You can be saved right now and on your way to Heaven if you will open your heart to Jesus and pray the following prayer:

Dear Jesus Christ, I want to be saved so that I can have a home in Heaven when I die. I agree with You that I am a sinner. I believe You love me and want to save me. I believe that You bled and died on the cross to pay the penalty for my sins. I believe that You rose from the dead. Please forgive my sins and come into my heart and be my Lord and Saviour. Thank You Lord Jesus Christ for forgiving me and saving me through Your merciful grace. Amen.

You are now a Christian if you said the prayer and allowed
God to save you. Welcome to the family of God.

If you decide to wait till later you may die before you get
another chance to be saved because none of us knows
exactly when we will die.

Have a great day!

Make sure that it is set properly. This sounds stupid, but there are a lot
of ways to tweak the r5000 to give wonderful results, and if set wrong
produce dismal results. For example:

Set the filter switch to auto. Turn off the antenuator. center the IF shift.

Note that there are two antenna connectors, 3 if you have the VHF convertor,
make sure you have the antenna connected to the one you are using.

Outside of the America's the 40 meter band is, with few exceptions, 7.0-7.1
mHz. Some countries limit their class B operators to 7.000-7.050 mHz, and
they have no choice but to work digital on 7040.

The U.S. FCC band plans and "gentelman's agreements" shortchange foreign
hams on 80 and 40 meters.

Poor Vic. The old man was peeing his pants again tonight and moaning that North Korea has ballistic missiles (nuclear tipped, of course) that can reach the United States.
How does Vic know this? He doesn't.
He is the best propaganda mouthpiece the North Koreans could ask for...spreading unfounded fear of the Koreans. They must really like Vic.

Hell, the North Koreans are dying at a rate of 5,000 a year from starvation alone and there is NO proof whatsoever that they have Nukes. None.

Where does Vic get all his 'inside' information? From fellow Lib Nuts? Vic has no facts to back his accusations, and the comedy of the Great Liberty Net goes on and on and on.....

One wonders if Vic is a Bircher....listen to him and his co-conspirators as they whine, "The sky is falling, the sky is falling!"

I would like to challenge Vic and his fellow nutz to show and post proof of their accusations. What a comedy of nuts that goofy bunch is.
Paranoia feeds on paranoia and the 'Great Liberty Net' is a classic example of this. I wonder if Vic has seen Black Helicopters flying over his house? I wonder if Vic spends more time looking in his rear view mirror than he does watching the road?

One must feel sorry for Vic and his fellow nutcases. They probably spend all week compiling notes for their weekend blabfest...their chance at the microphone to spew their individual versions of conspiracy theories.

Vic oughta take his medications and calm down. One of these days he is gonna suffer an aneurysm and his already twisted brain will simply blow up.

W1WCR is a classic...nut case, that is.

Used to we called people trolls who only posted antagonistic and sarcastic criticism and banter. What they said was never helpful and seldom friendly. It usually reminds me of junior high school. For example: "Wrong again Troll Boy. " and "Surrrrrrrrrrrre you do Troll Boy." is very troll-like behavior.

I try not to make habits of feeding trolls; I apologize to anyone who wishes I would not have.

Have a good day, Lloyd.

They may have moved the frequency of the carrier carrying your internet serives to a higher frequency where your old spliiter may have had had lots of loss. For a cable modem, the splitter has to work at low frequencies as well for the return signal and any amplifiers that you have in line must also work in reverse.

3Y0X, Peter I ISLAND (DXpedition Update/Press Releases). OPDX InterNet Subscribers will receive two press releases (#11 and #12) sent out by Team co-leaders Ralph Fedor/K0IR and Bob Allphin/K4UEE as extra bulletins (complete and unedited). Excerpts from the bulletins indicate that the 3Y0X team has shifted its staging area from Punta Arenas, Chile, to Ushuaia, Argentina, and all of the 3Y0X team members have assembled there now. The team had to contract another vessel, an offshore supply vessel named the "Cavendish Sea". The helicopter company shocked the team by substituting a different, smaller helicopter and delaying its availability by six days. They are now in the process of contract negotiations with two other helicopter charter companies. This is their remaining hurdle. If they are unable to sail to Peter I by the middle of next week due to the helicopter situation, they will likely postpone until next year. However, at this time they still have options and remain optimistic. For updated information, visit the 3Y0X DXpedition Web site at: http://www.peterone.com/

KP5 OPERATION BY OHIO DXERS DENIED! The ARRL Web reported this past week: "The US Fish and Wildlife Service (FWS) has again said "no" to four Ohio radio amateurs seeking to visit Desecheo Island (KP5), a prized DX location that's on the top-ten "most-needed list" for DXCC. The denial came in a letter from the FWS to US Rep Mike Turner (R-OH) of Dayton, who acted on behalf of well-known DXer and contester Harry Flasher, AC8G, and three other members of the South West Ohio DX Association (SWODXA). Flasher was on Desecheo in the 1980s. A small island about 14 miles off the northwestern corner of Puerto Rico, Desecheo Island is a national wildlife refuge and under FWS jurisdiction. The FWS told Turner that the Desecheo National Wildlife Refuge 'is closed to all public entry for safety reasons due to unexploded ordinance (artillery shells) in the area.' The island once was the site of war games. The FWS has not issued Amateur Radio permits since 1993. As it has in earlier denials, the FWS also raised the specter of problems with Caribbean drug traffickers in turning down the latest request. The SWODXA group had requested access to a small landing beach--a manmade gravel patch the group feels is far away from potential contact with unexploded artillery shells. ARRL Ohio Section Manager Joe Phillips, K8QOE,

said the group has not given up its attempts to gain permission to land on and operate from Desecheo Island."

LX, LUXEMBOURG. Operators Guido/ON4BAG, Frans/ON4LO, Rob/ON6QX and Ivo/ON6UM will be active as LX/homecall, April 22-25th. Activity will be on 160-10 meters including the WARC bands, on CW, SSB and Digi modes. QSL via the Bureau or the address on QRZ.com.

He is operating as LZ0A (QSL via LZ1KDP Radio Club, P.O.Box 812, 1000 Sofia Bulgaria) and VP8/LZ2UU (QSL via LZ2UU Jordan Radkov Yankov, P.O.Box 196, 7200 Razgrad, Bulgaria).

QSL 6G1KK via W5UE. Acivity was during the 2005 CQ WW WPX RTTY Contest. This was a rare prefix. The operators were Trey/N5KO/HC8N, Glenn/W6OTC, Alberto/XE1NK and Ramon/XE1KK. The operation was from Ramon's QTH.

EP4HR QSL STATUS. Vladimir, UA4WHX, reports that QSLs for EP4HR for activity between January 12-14th are now available both through UA4WHX and I2MQP. Currently, I2MQP has no log for those dates, but he will a few weeks from now. If someone needs a QSL card immediately for EP4HR, QSL via UA4WHX should work out faster.

FP/VE7SV QSL STATUS. Paul, VE7AVV, reports "Due to circumstances beyond our control, the processing of QSL cards for FP/VE7SV has been delayed. We are working towards resolution of operational issues and apologize for this unexpected inconvenience. All QSL card requests on hand will be processed in due course. OUTGOING BUREAU DOWN IN 2004. The ARRL Letter reports: The ARRL Outgoing QSL Service shipped 1,100,535 cards to overseas QSL bureaus, reports QSL Service Manager Martin Cook, N1FOC. That's down by nearly 258,000 over the total logged during 2003, when the QSL Service had a staff of two and

handled 1,358,474 cards. "Currently processing time is seven days from receipt," Cook says. He attributes the downturn to a greater backlog of cards, less favorable propagation conditions and greater use of Logbook of the World (LoTW) to confirm contacts for awards.

TOP 5 QSL MANAGERS. John, K1XN, reports: "All the nominations are in and have been counted. Here are the TOP 5 QSL MANAGERS of the nominated Managers for 2004. These are the Managers that received the most nominations from all the DXers world-wide. These five and the total list can be viewed on the Golist Web site on the TOP 5 PAGE. More like "Your Website Sucks", just because you have Frontpage doesn't mean

I don't like it. I found the "dumb customers" forum offensive. After reading

I assume these are PF9s

Fairly detailed conversion details in Chris Lorek's book "Surplus 2-way
Radio Conversion Handbook", page 141.

Xtals are:

Tx Ftx/9

Rx (Frx-10.7)/9

Looks like the crystals are HC45/u and fit inside modules.

Seperate Tx and Rx units like PF1s. Use same technology as the PF8 and I
believe they share some of the same TF modules. They don't fetch much on
Ebay given how scarce they likely are now. You might get 20 quid for them,
that's about what the last set went for.

It's probably obvious, but I'll point it out anyway: I meant 20 quid a pair.

Pye service sheets sometimes have the Pye spec crystal spec on them but it
isn't in the Lorek book.

HC45/u is the case style, not the crystal characteristics. Any crystal
supplier worth the business will know the correct specification. I normally
use QSL in Erith- tell them the frequency you want and they have the other
details.

They can be converted but the receive sensitivity may be on the poor
side for amateur use (i.e. the Rx is deaf).

Please note that if by "crystals" you mean the plug in cube at the
bottom then this is more than just the crystal. The crystal is inside
this unit, without the plug in they are not much use. One BIG word of
advice is if you have the TX apart do NOT touch the PCB while it is
powered up as this can cause the PSU inverter to go over volt and blow
all sorts of interesting things!

I'd almost forgotten about PF9s, I used to make them many years ago.

If you want short range simplex or live near a repeater they are great,
one advantage is that the RX had an RF sensor that would detect the TX
and mute the RX to stop feed back. There is also an earpiece socket on
the top, if you look closely two of the speaker holes are slightly
different and these take a two pin plug, as used on many pro' earpieces.

I have a pair on 70cm.
The TX is only 50mw I think and the inside antenna does not help.

Yep. And as the domain name suggests, the site sucks royally.
First, we get plastered with bullshit graphics and huge text.
After scrolling to the bottom of the page, we now get to enter the site and
are forced to read a court order no less.

IMNSHO, even though "radio shack" is a registered trademark, that does not
give exclusive rights to the words as the term "radio shack" had been around
and established well before the business came into existance.

Problem is, you apparently got nailed for copyright infringement.
Shouldn't be messin with companies who have high priced attorneys.

You don't happen to know why Pye went back to seperate TX and RX with the
PF9?
Presumably there must have been a demand for it from their customers, but I
can't
see the advantage over a transceiver, which is why I thought they did away
with

seperates after the PF1

One of the good things about the PF9 is you can run them on ordinary AA batteries.
You don't need to find or rebuild nivads and chargers.

I will argue Bush as murderer, makes my "threats" justified against his as the guilty.
No evidence to substantiate his accusation, makes the accused an innocent person,
straight across the board. Any laywers you know of who might provide some insight,
or tips on warrant challenges?

Release the Press

In regards to Johnny's criminal charges.

Being in possession of that I know not of until it reaches my computer, puts the onus on the distributor's server to be held in the same regard equally. To argue for criminalizing the possession of materials that are granted full legal rights to be propagated, as not for sure either way then, but now that they're multiplied to others, makes little sense. For, it only increases a problem that will end up costing the public a great deal more to deride, if the said material is found to be, without reasonable doubt, objectionable from a legal framework set of criteria. Instead, in my case, they've used every impractical assumption regarding the content of what I may have witnessed. I am beside myself dumfounded to learn a picture termed of a topless youth smiling, is a sight the officers involved wish to draw me with as evidenced pedophile. A term classified to include dehumanizing personal acts of sexual assault against the rights of actual children. This is unacceptable. And, I will not be found guilty of approving such conduct. As to other depictions of cruelty I've witnessed by information gathering, I can say without doubt to any as a seeker of injustice, has motivated me personally as a public figure, to take direct steps few others do in defense of the innocent. Unlike the two officers who are my public accusers, I don't believe indiscriminately murdering people by bombing a country brings about protections for those involved for example, and yet, my accusers proudly stated, they were supporters of such unprovoked, and unwarranted ILLEGAL criminal conduct against our children left undefended under their limited bushite haze.

Nothing will bottom this episode of my life, where as a lover of children everywhere, and a champion for human rights around the world, am judged not fit for freedom by a couple expert, pro-war "liberating" bushite bombers. [they both survived serving the

military before taking up this police business as Bush supporters for lawlessness - (they PUPOSEFULLY sabotaged, the planned video recording of public evidence against Bush, that I made to the National Security Division of the RCMP in writing, and in approximately, ten separate audio recordings. [Oops...])]

The bushite bombers searched for depictions of behavior sexually impressionable readers could arguably, lose their self respect or control over, but can be found by any desperate conniver, searching in depictions of a rape scene, naked people on a beach, or in a cloud storm. So, some guide lines on how best to stop their depictions of the rights of children being breached most definitely, should be handled where the questionable material emanates, not with the quester of good taste, out looking to see what is widely, and freely, publicly available by the thousands. Again, not perceived until within the possession of the observer to witness. The classifications of all that is accepted to include in the definition of "child pornography", should not include the beauty of what it is to be nakedly human, or normally affectionate. But that is being open, honest, and beautiful, traits an advocate of tyranny through censorship will run and hide from, for they fear the private human element in our public political affairs speaking freely. Bushitism. [Think of Life, a struggling to survive for better times profiteer, and ourselves, a distant relative nobody's ever heard of till now at most.]

I've been a widely published internet psychology columnist, almost since ideas have been broadly shared as such. And my writing testifies to the subject of human rights denied, as the struggles I attempt to find, real solutions for. The artistic impressions created by the artist, like the words defined within this sentence of words, is but streaming reference points to the larger unbound projections of the manifested mind. A defined, definite conclusion on it's meaning, loses it's truer state. Recognizing the subjective relationship on communicating through media, is ultimately the reader perceiving this conclusion. It is not therefore a conclusion the reader becomes for, but is held in consideration, when creating it's over all pretext, in the form of personal insight or imagination. An imaginative state of fiction, does not preclude it from still being, a shared artistic work suspended through disbelief. I can read a fictionally exciting murder mystery, all the while knowing, the characters who suffer misfortunes, are not living worse because of me, nor to learn the reasons someone is obtusely perverse, make me then, more inclined to disrespect real living, in a similar kind. [read anything from corporate media challenger, the lover, Johnny Wizard] The actions of a character in fiction, does not compel me to give up my own belief of reality, or a respect I grant in those who protect the rights of any child, or adult for that matter. I have many written works for example from those who accolade Bush as of unprecedented prowess when it comes to believing in the holy scriptures, but come

on, who believes that make believe horror show, and how did I get to know people could be so deceived without knowing the indisputable consequence of Bush's deliberate criminal actions? The opinions I hold in reference, are not opinions I just automatically except as my own without thinking for myself in other words. If America witnessed without censorship the vicious evil bombing of God's children in Fallujah or Samara, or the torture of innocent people to death by liar Bush's satanic sadomasochists, every bushite repuglicon who voiced political support for the irrational murderous acts, would be hunted down by millions of armed America men, tried, convicted, and executed in time square, that we all know for certain without room for question.

/ / Expression that degrades or dehumanizes is harmful in and of itself as all members of society suffer when harmful attitudes are reinforced. \ \

But does the witness of such a relationship, granted only to the mind of an officer? Harmful attitudes depicted in Nazi film archives, works of fiction, or artistic expression, does not every time, have us rooting on the bad guys. For if so, police officers investigating harmful child pornography possession, would be left without an ability to even discern a care for any one. But they would and do care. We can see a need, and a honor to defend the rights of children, and I can't think of a more noble police position, to try defending those principles to the best of our ability. Not infringing on free thought access of everyone because some are arguably, more impressionable to the false view of the bushite conspirator. DISTRIBUTERS of illegal material is where the law should not be denied a place to practice. Making criminals out of what someone picks out in coffee grounds, is to say, some thoughts considered, are thoughts better left alone as forbidden when alleged thought of. That is where no god or person should be allowed to falsely determine for our selves, with what words can be thought "about", and what words can not. Of course threatening the freedom of another living individual with the law, better be based on the tangible as documented offences, otherwise, our rights wouldn't be publicly challenged for protection, but of denial. So Hammurabi came up with: A person accused of a criminal offense without any evidence is innocent, and the accuser, especially when it comes to capital crimes, is the bad guy every time. And gee, if America does that, Mr. bush Jr. could go to jail from Canada, China, or perhaps somewhere off somewhere's else where they have laws enforced against the crime of murder.

I am a behavioral psychologist, who's not only written on psychology's pillars of understanding, but also on the struggles of lawless war committed by sexually dysfunctional sadomasochists. I was interested to watch The Learning Channel's special, The Meaning of Love, a four or five part series, hosted by "The Naked Ape"'s, Desmond Morris. This world's most recognized, widely publicized

human behaviorist, reporting on juvenile properties of mutual expression between lovers, lending well into nurturing a caring relationship for each other.

Therefore, is a reader of fiction regarding adult themes, going to read all about who get their toes piggy wiggled, or the professional accountant, who at spin the bottle, becomes the lucky "loser" of a sound deserved spank or two, secretly though, underneath it all, a pedophile who thinks unclean thoughts? Examples of sexual boundaries: Is not a heterosexual, secretly gay when they play with themselves that way? Perhaps a trans cross dresser? And some men may relate to this, but man, lesbians are a dream come true. But then... well, your a guy too right?

Such normal dynamics of continuous change through development within relationships, can not be denied a place, as being mutually beneficial as human in quality, (and maybe fun,) and being, private, none of our business, almost childhood like high jinx of that moment in time. But, leaves a, any person public view of definite acceptance, intolerably immature as inappropriate across the public spectrum. Publicly get into the intricacies of private relationships with your new book why don't you with the Court now John, you have all our ears a-flutter. Grandma doesn't need to know about your proficiency at.. and I'm not the same to Dick as I am to Jane, if you catch my drift.

While two male bushite, who are now helplessly stuck appearing plastered to protect Bush from arrest for mass murder through the advocation of censorship by tyranny, could quip to us being lovey dovey, means your ripe for picking on as, the soft and mushy easy push over in the corner they see. Me? This is why bushite think allowing brave men of our communities to speak openly as would be, calmly, against the criminal dictums of the demon anti-Christ, shouldn't be allowed, because they know, the world would then recognize them for the cowardice and betrayal they hold of our human spirit. A spirit that craves for all, the end to the continuing neo-con wars with the freedom to love Life for being truly ourselves. I see life everywhere, for trying to make some happiness and prosperity. If only we would listen to reasons for believing in creating a better world where life in cherished, is a world where bombs don't drop indiscriminately from the sky in God's name left for blame by the thieving liar bushite scoundrels.

The inner world of artistic creations by story line, is a world of pretend make belief, forwarded by the observer's conclusions. I am concerned to read struggles for entertainment, to include, cruelty against anyone for sexual gratification, but all literature regarding such, does not change my respect for the rights of others, especially those of children. If anything, it makes me more concerned on how respect for another can be better served by the powers and freedom of the unshackled word.

I've seen more child pornography on the television news regarding child pornography, than I've ever mistakenly got through the internet. Providing illegal depictions for public consumption, is where the law should be exercised, but it's often not on the grounds it doesn't prosecute as many. See my point? The FBI did an expensive child porn sting, running for two years in total I think it was, and in that time, they gave away tens of thousands of images to thousands of, who knows how to copy customers, that much later, the FBI would argue were illegal to have possession of. That is like a huge wasted effort OF OURS to distribute such offenseble materials, particularly if it was sold as, "teens in action", "youthful beauty", "buttercups", "a day at the dentist", or something of some sort to entrap more crime business. For our police agencies to set exact criteria on what would constitute child pornography, and scan internet traffic for such distributors, would be far more effective in halting such proliferations. They don't largely because, they'd have to be more precise in determinations, and therefore, many would lose their jobs as then redundant. By not doing so, we can pay billions to have people arrested, labeled pedophile for witnessing depictions of God's beautiful children being normal - while then pleading guilty to avoid the public tarnish such new bite revelations would bring. Destroying families, and future job prospects of individuals such as myself, who hate the thieving, murderous, ignorant as truly ungodly bushite liars to the core of my eternal being. Currently, our legal services, can't help but learn, bush did 9/11 with General Ahmad, and are left speaking "nothing" too - in news public suits regarding the injustice they're recorded not to answer about. Instead, a couple confessed bushite, will conclude who ever witnesses depictions they suggestively reach for as inappropriate, to not possibly also, hold children, and their rights, paramount. Well, that's just simply not true. I call for the arrest of those that ran d squads against only known as innocent families including children in Afghanistan, (Tenth Mountain Division), what do the, two self confessed once blind Bush worshipping police offers, who stand as my public accusers as job requirement, have to state on that denial of our rights to cherish life and liberty? As bushite bullshiters, they don't want to answer to not presently asked public media enquiries, because being "embarrassed" sadomasochists, they then may likewise, get off on accusing community members to be pedophiles, with flimsy examples of what, in their minds, in an insult to our sworn values. Children can be beautiful, but certainly aren't, as adults, interested in being so naked, on the six o'clock news. Do they care to make a scene bigger than it first appears? Imagine me hosting the evening news and the Johnny Jamboree, hashing it out with my opponents on the tough questions, rolling with the insults and the cash offerings, while taking time to sample the world's "best" pizza an beer joints?

Or, do they adroitly believe, they'll teach that Johnny image something or two on their own behalves for our Humanity?

George W. Bush is primarily motivated ultimately with how much they can sucker out of our public coffers, thereby in spirit, advocate censorship on my calls for traitor bush's capture for 9/11.

What they are doing is this:

My "official" court case, (Involving all good people I believe) is enforcing our Law by suggesting everything in my possession can be isolated, onto itself, and made into something I'm not of entirely. All the while pretending, we ain't at all aware of Usenet servers, or my, Johnny Wizard saves the World writings of DOCUMENTED CRIMES AGAINST YOUR HUMANITY. Writings that dominate the interest of the whole investigation, locally, and internationally. But gee, without your help, two bushite "coppers" are going to appear still pressing that bush not be arrested in their contempt of silence, while praying, I not be granted a moment in my trial to speak for my own defense literally. Well, maybe not, after all, we all change with the times. My last conversation with the said two, was quite a way back when they were asked to prosecute Johnny Wizard, and likely came back with the reply, Johnny Who? So, let's not kid ourselves, my words are quite amazing when you think about it. Well, I'd hope in these last days, before this coming media flop, they've taken it amongst themselves, to get together with the loving family to discuss anyone of the hundred or two, Johnny Wizard works of the world, and conclude, George W. Bush is truly bad news to their world's view too.

Even.

Well.. how a you been doing anyway? Are not these developing story lines to be something good going live mainstream... will we demonize the principles of Christ, in censoring ourselves like the individual person of Johnny Wizard is to be, as, being denied personal freedom by "unaccountable" George W. Bush's dictatorship of tyranny through enslavement of the human species, or, will You consider the equal freedom of a telephone call, a cassette tape recording, or perhaps, photo copier to bring us around this, we want our still living rights heard too man. Right now before we alls go it to the clink. Coast to Coast should be broadcasting for America's interest, by openly discussing the still paying costs of the bushite war crime business.

America! - bush's war is something you do not want to lose to in further dying silence. Take it from me. Be a hero. Dream of the babes! - Movie deals. Lives saved!!!

Business is business.

Look you might not care for me personally, okay, but this George W. Bush's treason of nine-eleven is an evil we together, will never, be too weak to stand against as. As indecisive humans without a leader, we will never be too few from demanding Justice be served

in respect of Humanity's interest.

In nabbing those who committed treason against our America's America on 9/11, needs to be completed by firstly, following the crime scene leads at the beginning with Bush's prior 9/11 plans worked with the ring leader's financier, General Ahmad, and how Condi, rumsfeld, and Cheney with Myers, fits in the picture together as likewise traitors. The Iraq war is also a crime against humanity. All stolen monies and property must be sought, then returned to a legitimized democratic government. Torture is outlawed, and finally, all innocent people held in prisons by bushite forces, held without out charge for trial, need to be released immediately as ourselves being denied liberation truly. Let common sense prevail.

Your Kingly King of a Dreamer's dream,

seriously considering prison time to be,
a major downer for my chances at partying,

Johnny Wizard

[I wrote this following Psycho paper a couple years ago.]

Psychodynamic Theory

Freud suggested that there were conflicts between conscious and unconscious forces that influence our feelings, thoughts, and behaviors, theorizing that conscious thoughts only comprise a fraction of mental activity, therefor concluding we, as individuals, are psychologically, more that we can speak as understood completely. Freud used the term unconscious motivation, to address that of which we dont consciously know of as elements of personality, to offer explanation and study of what can not be stated as direct awareness of the persons living relationship to existence with our infinite nature as. To reveal these hypothesized underling forces of personality, Freud developed three techniques: Free association, dream interpretation, and analysis of, slips of the tongue. By researching these areas of experience that are not direct results from conscious abstracts, or conclusions, Freud hoped to reveal an order to causes that reflected a hidden instigation of behavior included. (Freud was secretly a theologian). Freud, naturally, considered that our personalities begin at the start of development, so emphasized childhood experience as the foundation, or framework from where our personalities would be more so dependent upon. Freud formed his theory around divided states of mind: id, ego, and superego, along with 5 psychosexual stages to help structure an understanding of our progressions through human development.

Such wrestling with Freuds ideas, brought me to consider, are our deliberate actions not based on sound judgement? If there are unconscious motivations driving our will, where does that leave principles, as we measure ourselves in honesty? When things are uncertain, do unconscious motivations, gain decisiveness on our faulting conclusions? Can some forgotten childhood experience, unknowingly convince ourselves, one plus one equals something else?

Humanistic Theories

Humanistic Theories emphasize our capacity for personal growth, development of our potential, and freedom to change our destiny. Unlike more defined branches of Psychology that seek underlining hidden forces, Humanistic theories stress self realizations are ultimately, like plans, responsible for the directions we take in personal development, and through the motivations we have as the human species. The phenomenological perspective, speaks of our individual perceptions, be they accurate or otherwise, become our reality, while the Holistic view, speaks of the individual person, being more than individual parts described through divisions of statement, but of a unique entity that is, in part, identifiable to all things mentionable. It would be then right to say, Holistic is a definition that defines its own meaning, as something more than can be completed by its own explanation. Much like dancing poetry that holds lasting truths, or a leisurely good beer on some sunny afternoon. In the field of Humanistic Theory attributed to Maslow, we concede we have desires, that are framed in a hierarchical manner, where the basics for survival are primary, while social and personal needs ascend us through greater living by open communications with the Universe as ourselves. Social Cognitive Theory

The field of Social Cognitive Theory has categorized personality development, to be attributable through three wide based assertions: Environmental factors, cognitive-personal factors, and behavior, which in turn, interact to form everything. Bandura portrayed personality's development into four main processes: developing language ability, observational learning, purposeful behavior, and self-analysis. Bandura emphasized that our cognitive thought out conclusions, is our personality development. He too however, like his predecessors, also dealt with consequences we can attribute partly to forces we are not solely consciously responsible for, and the strengths of those forces upon our outcomes. The perceptions of where we are at succeeding, Bandura argued is a balance in our beliefs in what we are capable of, and so being, brought forward the outlining term, Locus of control. Internal Locus of control is dependant on how much we believe our particular actions can control some outcome for personal reward. While the designation of an external Locus of control, is a delegation to our self on some situations, as having little ability in our world as malleable to our own command for gratification, now, or in the future somewhere. Though, it should be remembered,

our living existence with nature, wouldnt be entirely hostile to the idea of bringing ourselves enjoyment by simply only trying to better ourselves, and the threat of law winning to protect the community serves better than chaotic anarchy. Not much would ever be gained, if failed attempts were concluded as complete failures of experience. Much of Bandura is widely correct as generalized statements about the human condition, so much so, that his, Self-Efficacy construct, regarding self confidence being crucial to succeeding, is as much a reiteration of his Locus of control theorem.

Trait Theory

Trait theory is an attempt to be more scientific regarding the sometimes, ambiguous nature of getting to the absolute truth of our universal condition as individuals. Trait theory's five-factor model classifies all personality traits to be associated into five categories: openness, conscientiousness, extraversion, agreeableness, and neuroticism. (OCEAN). With the theory parsed with a fluidity for change for an individuals classification as developing, while naturally becoming more stabilized as we grow older to our vises, and conceptions of conviction on who we figure we are. The designations, OCEAN, are almost arbitrary, and are prone to relative bias for conclusions. Objectivity in assessing ones agreeableness, regarding a mathematical certainty for example, only comes from whether the person understands how to formulate the answer. Perhaps it is insecurity of suffering ridicule for being stupid, that an individual would publicly argue with his calculator at the grocery store. Or in another way, ones agreeableness, without question, could lead to doing jumping jacks in Brookland if ones not careful. Now substitute agreeableness with openness, or conscientiousness.

An attempted, conscious or otherwise, confrontation to the limits of relative fallible human reason it would appear this is heading for in the field of psychology's relationship to the categories of philosophy, theology, and the true science of measurement. It is the explanation made through the divisive qualifications of language, that fall us to the deception that we are actually aware as could be of our infinite selves, a living part of existence. In the beginning was the Word, and only some super freaky God could figure out what it meant really, maybe. I could be right, to say I may be wrong on things that are not truly separate from everything else, as effects have causes, and no living thing is separate from existing. So, to successfully compartmentalize our identity, is to include our relationship to the winds on Jupiter, and the electromagnetic properties of consciousness being also timeless in nature. (Science teaches us that.)

Genetic factors are recognized to play a significant role in trait theory, particularly when looking at the comparisons of separated

at birth twins, who not only have commonalties in appearance, but occasionally, also in experience with our physical reality, with decisions made, as once thought completely independent, have shown through in life styles, such as employment choices, or naming a pet dog, Toy. Which would beckon to theorize DNA's multi-dimensional space-time design, such as with horizontal gene transfers, to not just a blueprint to making something else, but to some never understandable living holographic relationship to all things in this universe, as intelligence ourselves.

for all mankind...

The EVIL anti-Christ "un-accountable to American law cos hees duh president" demon bush Jr., has ordered the commitment of mass murder in our names, while his enemy bush bitch cult following in the corporate news establishments, have refused our communities to publicly address the DOCUMENTED evidence made public by the FBI. Alleging, General Ahmad, bush's business partner, was "secretly" responsible for a wire transfer of 100,000.00 to 9/11's "ring leader" Mohamed Atta, and in addition, that the demon anti-Christ, Our Mr. bush Jr,, had a top secret CRIMINAL war plan in place, worked on with condoleeza rice, and implemented in part by General Ahmad, to criminally invade Afghanistan signed September 9th, 2001, provided to and reported on by Jim at MSNBC. All centered on not apprehending bin Laden, (prior, during, or after) as a prerequisite to guarantee invasion. (, to secure a liquefied natural gas pipeline for pension thievers Enron.) THEREBY, forbidding the apprehension of the true culprits through following the crime scene leads at the real murder scene. See, with a talk radio program we could take calls and help any others who have some difficulty in understanding the logic of reason, as super simple thinking.

So, as many know, the bush regime is FOR REAL pushing still to have me incarcerated for speaking these truths, truths that stand irrespective of my personal opinion, or spin doctoring. Will you, as a complete stranger, but a fellow lover to life, help my cause by requesting also, I be allowed to face publicly my accusers on the, censorship for bushite tyranny radio networks Coast to Coast, or CBC national radio here in Canada? Before, god forbid, a couple, once self confessed bushite "police officers" of tyranny, (death squads against school kids, happy funders of heroin pushers, and who in silence, work getting un-informed soldier teen/bushite sacrificed as the bad guys for Bush's thieving. Done all to gloriously please the fabulously wealthy, safe at home from the clutches of power, neo-con "Cabal" of enemy traitors.) get lost in the translation. The fascist corporate interests are likely not

going to factually report on my trial, but attempt to demonize me with their falsehoods and betraytals against our communities, that is now presently on going without your voice also heard raised yet for objection. A trial, where the evidence that factually establishes bush guilt for treason against all the American People will be sought as immaterial. What the evil enemy as godless bushite dogma blindly hope for is, a silently feared coercion through suggestive threat against Our entire Justice system, leaving the court to have quoting perhaps, only one or two lines written by myself out of context from "The Trial and Conviction of Our Mr. bush Jr" to a jury, while disallowing the documented facts, surrounding my allegations to be refused as my defense. [the criminal leads end at the bush administration's door step with bush's own signature, but bush, as Presidente', can't be arrested under American law, only impeached by the majority of already bought out and sold whole repuglicons.] Counting that our community of peers will have not a inkling what is contained in the very first paragraph of "The Trial...". You my friend alone, you alone, could help US change all that. I, as a single person am trying to stand on the principle, that ANY individual, that is accused of a capital offense without evidence, is UNIVERSALLY INNOCENT, as they would be tomorrow, today, and way back in Hammurabi's day also. And that by reason, the false accuser, is the number one suspect to start with. The enemy bushite MURDERERS try to confuse this extremely simple matter with the powers of hypnosis, or suggestion through the dictate of "our" television and radio cult broadcasts that promote tyranny by fascist censorship.

The nature of hypnosis shouldn't be feared, but learned from to gain a better understanding of the true human condition. Something a bushite hates like our public education systems, is where we through improved communications, halt their criminal transgressions against our better selves.

In the warrant to take all my writings, and computer stuffs, (to begin on their fishing expedition to protect the war monger demon anti-Christ,) it was argued, that the information contained within their possession should remain TOP SECRET. The document has now been made available for my defense, and here is the reason it was argued THREE YEARS AGO, to not have the charges publicly heard.

/ / FROM TIME TO TIME, the NSIS section receives threats from members of the public who after investigation, turn out to be suffering from mental illness. On occasion, proceedings under the Mental Health Act as opposed to the Criminal Code may be more appropriate. In cases of a mental illness, the publicity and sensationalism of an incident such as this one may turn out to be negative to mentally ill persons. \ \

Yeah but, what about DEFENDING the FBI's findings "copper"? Is it that anyone who stands up for Justice in America, who asks loudly for a public platform in OUR media market place, should only be considered, top secretly, mentally ill to think they have a right to contribute on an equal basis, among the oh so lauded, intellectual power breaking crime pushers of our World? (The woman hating child killers, like naive bushite nazi demon liar Mattis wear badges too don't you know?) Are we crazies to want to defend our rights to be free of murderous tyranny? Are they secretly saying on behalf of the bushite: to speak out in praise of the good investigative work the FBI sometimes does, is a bad thing for their future top secret "investigations" on Our behalf? Or is it because, if we believe in doing what needs to be done to protect Humanity from tyranny, would truly mean, evil bushite wouldn't be able to rob further from dying sacrificed as the undefended America?, and soon, wisdom by communication through science and reason would rule our better stays? Would it surely drive me insane to have our public acknowledge our good deeds that work to have freedom really reign indivisibly through Justice supreme? Anyway, Jeeze, I'm already crazy.

The national security branches of all our governments need a major overhaul in protocols. (officers who are involved in uncovering a criminal conspiracy, a conspiracy involving the murder of thousands of now dead Americans, should receive the full support of every police unit this world over as a protective measure for fellow officers. After all, George W. Bush is an American cop killer too.)

Before my site "Wizard's World Wide Works of Wonder" was taken down, I had the center piece (still available in other places) "Stand Together or Don't" as a full page spread with graphics and everything. "Stand Together..." is an essay that only asks that our standing criminal code in Canada be enforced, when it comes to the documented thieving of our communities as committed with the notoriously miss reported workings of the "cheating at play" VLT machine. I also had "Johnny's Last Stand" take a prominent position at the web page, along with "The Alien's Take". So get this: another argument made for the warrant to confiscate my personal belongings and leave the FBI out to die, was attributed to only a single Cnst., who blanketed my entire site in reference as "anti-government". That statement was the only statement made by the officer in regards to her summation of my writing skills, and was made in argument to a Judge to obtain the Warrant, just before the site fell, so I'm now, suspecting, was likely responsible for complaining it should be shut down by maybe.. badge waving?) Strangely (unknown to me until just recently) as it would happen, this same individual I had contacted over the course of several months regarding the VLTs, (on how the DOCUMENTED crime is perpetrated, and on our communities TRUE monetary losses

(maths)) was the same who, top secretly claimed, my writing on Justice was "anti-government." See, I offered to come down to the station and assist with the maths if need be, (remember we're talking the thieving of literally billions and billions of dollars each year from mostly the poorest segments of our societies) to offer assistance in any way I could. (Or, to be told "fool, your mistaken".) But each and every time, I was denied access to have implemented, the protections of the criminal code here in Canada, (that usually makes our country greater than all others,) without a given reason why. [An aside: bushite irrationally hate science and reason because we're intelligent, while I, can't help but respect life by learning something from just about anyone.]

Here is what it further said in the warrant, that up until now was considered top secret. (without the warrant staying secret, the darkness can't stand the light of scrutiny, and I would be freed from the restraints of a bogus warrant to go on shouting for TRUE Justice by DEMANDING the arrest, trial, and subsequent execution of those responsible for the crimes of nine/eleven - bush, rumsfeld, Ahmad, and condoleezza rice. With cheney and myers running a close second.)

AND UPON being satisfied that the ends of justice would most probably be subverted by access to and disclosure of information filed in the Information to Obtain the Search Warrant filed in support of the application to prohibit access and disclosure;

[Good guy police officers might get the public recognition they deserve in other words right?]

the Search Warrant;

AND UPON being satisfied that access to and disclosure to information filed in support of the Search Warrant referred to above might be used for an improper purpose;

[getting back stolen VLT revenues you mean?]

AND UPON being satisfied that it would be in the best interests of the administration of justice that access to and disclosure of information filed in support of the application for the Search Warrant referred to above should be prohibited to the public;

[What?, don't want US public to know bush, rumsfeld, and condi committed nine/eleven with General Ahmad? Well, now I can see why all the hush hush.]

AND UPON being satisfied that access to and disclosure of information filed 'in support of the Search Warrant referred to above might well pose a substantial threat to the interests of effective law enforcement;

[following crimes scene leads at real murder scenes not good enough for our police agencies? - US people backing up ourselves with as something worth reckoning a better future with?]

AND UPON being satisfied that access to and disclosure of information filed in support of the Search Warrant referred to above would compromise the nature and extent of an ongoing investigation;

[Well, it's only been years now. Let US ask you, have YOU called the news desks of CBC or CNN, about bush's prior plan also? Are sandwich boards, posters, and placards, a police union willing to truly get behind as the untold Justice struggle for our suffering Humanity?]

AND UPON being satisfied that access to and disclosure of information filed in support of the Search Warrant referred to above could conceivably compromise the health interests of a person;

[What about the health concerns of the hundreds of thousands of innocent people bush has since ordered murdered, along with the millions of others who will suffer the consequences of radio-active contaminations for the next few eons? National news coverage is not what I fear, I fear that no one on this lonely planet cares to hear the cries of my Humanity for mercy, or holds love for God as worth fighting for.

-snpd-

So, what now? Please don't leave ourselves undefended from the criminal dictums of the demon anti-Christ, Our Mr. bush Jr. Demon bush is not America, America is America. Look, we arrest those responsible, and we carry on, by firstly reversing almost every thing G.W. the traitor implemented. Look, when Clinton implemented change, he was able to turn the country around pretty quick. Just bring back some progressive ideas. Dump the Patriot Act, and those that voted for it, and truly bring back the Constitution with a respect granted to all Peoples regardless of nationality. Christian Palestinians are humans like US too don't you know? While fixing the neo-con war mess should start by making all co-habitants equal under the principles of fair judicial due process, meaning: freeing the innocent held captive, and arresting for war crimes among other things: bush and rumsfeld, myers and cheney, Allawi and Doud, Tommy Franks, Steven Russell, Saudi wahhabi Buford Blount, woman haters Sicko Sattler and mad dog Mattis, Batiste, Miller - along with all the rest of the rapists and torturers, and then, we.. seek out all the stolen assets taken in America's stolen name. Big job. But we can do it! God is on our side.

I was reading about "Jew Boy..." and I thought, perhaps some may misunderstand my position on Mr. Felton. When I said, "And in light of our desperate challenges today of defeating the enemies of Humanity as specific unjust individuals in "hiding", an ignorantly stupid thing to say." I was coming from a position that I felt, Greg's own superbly good and strong, intellectual arguments on the bigoted demonization of the innocent, would find himself! at fault with, by not looking for another's view regarding the label of "Zionist". Perhaps I was being too picky, but then, generally speaking, disputing the indefinable public's perception of the Holocaust is a loser抯 argument. Arguments, that generally, refuse to realize, soldiers like today's bushite, would as mindless droids, line innocent humans up next to a ditch, and shoot them all dead for no real reason in particular. [Nazis took film footage early on, then banned it, because it looked so completely insane.] Just like rumsfeld抯 blitzkrieg, or when enemy bushite thieves dropped thousands and thousands of land mine cluster duds in Iraqi school districts, threw grenades into Iraqi homes indiscriminately before entering with guns blaring, and true Americans, like Germans of yester year, still don't have it together as a freedom force worth reckoning with, to immediately destroy, the known of bushite with American law for criminally implementing the sadomasochistic torture of completely innocent people, and in some cases, tortured to death because maybe they finally then admitted, they were in cahoots with whomever as the "terrorist". Thereby, according to America's new Justice speaker, Gonzales, no longer was a human with rights to begin with anyway. A publicly expressed

contempt for US innocent, done in by the disfunctioning sub-human bushite traitors sitting in our office. I'm sure some might understand who the greatly knowledgeable Greg Felton was referring to when stating "Zionists", but just think of the Arab "Semite". Ariel Sharon will steal the definition to victimize innocent Jews with for the American tax payer to foot the bill as, but when an Iraqi Semite, new to English newscasts tells you he's a bonafide Semite really, can he therefore be completely wrong about his true identity? Or how about this: do you think, the persons never shown for public media interview as accepting to receive stolen property like completely furnished houses called those of "Jewish Settlements", contain anything but, bigots masked as religious observers? How else could they possibly live with themselves? Amongst US true believing Jews? What of Hillel do we fail to recognize in not condemning the brutalizing of the innocent in our own names left forsaken? A well entertained teen, growing up in dum-dum America, or here in Canada for that matter, will likely have little understanding of Palestinian Jews or "Zionism", (like we don't regarding regressive tax systems,) but for like a proud Catholic in Ireland, it's something stupid he's suppose to stand up and destroy himself about while in a drunken stupor turning orange regarding some ancient Roman history or earlier biblical teachings not ever comprehended entirely... But then, I thought, gee, I was the one being ignorantly stupid, because in that space where we were communicating during the recorded interview, we had just finished making the correlation of mutual racism/bigotry expressed between Hitler and Ariel Sharon. Sharon/Hitler steals/stole an innocent person's home, then throws/threw them into concentration camps to be victimized further because they抮e said to be inferior to the war funded as ungodly criminals, by the ignorant and stupider than ever American tax payers, again. [See "Trading with the Enemy"] And it was there where, Greg brought forward, that too, they are some of the very same Ideologs, of both scenes, who want always to divide the masses by intolerance, through racism or bigotry, to get ourselves to die at war with our/their ignorance, while the true 'hidden' instigators, (non-descript billionaire weapons dealing private bankers usually,) bask on some beach somewhere in our stolen luxuries, not having to lift a finger to command a full course dinner. That is why bushite are currently working to even further destroy America's public educational system which is already the very weakest of our developed world, and why it is preached on television in America non-stop, invest in deregulating the world market so you too, can rip someone off with slave labor conditions to compete your good for nothing son/father with. One out of three workers, officially, in America earn ten dollars or less an hour. And repuglicons hired near homeless people at 75 dollars a day in

Ohio to walk around carrying we vote repuglicon signs during the mock election. An informed populace, is a group of people growing tired of being taken for victims, who might wise up and stand for real Justice through the Freedoms of understanding. Can you imagine US speaking internationally? I can. If only You'll help me gain a platform to debate the facistic censorship deniers. The Coast to Coast radio netwrok don't want no Americans talking about why Americans are being asked to die for the bounty of, bad guy bushite war profiteering. The wealthy celebs don't have to risk their own lives, just the lives of other Americans denied a voice for representation. So, asking once or twice, and then fading away to give up ain't gonna do it. Coast to Coast only allows an intelectual one time a month to speak for maybe few seconds. That should change to weekly. And Americans should DEMAND America's serious political issues work to be addressed in an open forum like talk radio provides. I am open for challenging interviews. But again, bushite don't like free excange of ideas within our communities, for it puts their Satanic cult leader in a disfavorable light, who then wouldn't so easily, get away with committing mass murder in America, or allowing America's greatest pension thieves, to escape un-accounted.

So, I've been working on questions..

Do you not as an officer of our laws, require evidence to substantiate allegations of criminal impropriety against members of our community?

Would not allegations of murder substantiated without evidence, be false? And would not therefore, the slaughter of innocents, blamed for terrorism without a shred of evidence being known universally, be acts of mass murder committed against US interests? Or for the true believers, terrorism inflicted against G-d? (And, is this not why defining "Terrorism" was forbidden in the recent "Terrorism" conference in Saudi Arabia?)

To persecute an individual nation without a reason substantiated by evidence, would be then the persecution of our forsaken God as the innocent of US individually? Like Christ on a cross somewhere you'd be then right?

Come on, please, help yourself out man. This is Your world too you know,

I Stand Corrected

Okay, I'm sorry, I was wrong. After reviewing communications with my home planet, it seems I may have goofed on location. I wanted to go to Earth, but it seems we suffered a data mix up, and, well, this civilization isn't nowhere near, here where I thought I was. Oops. And.... a.... another slight mix up has me mistaken on another as well too, with an out of date computer malfunction, a glitch, set me back a hundred years, those idiots, and, a, hells bells, I, was... also suppose to praise the Republicans. Doh. Sorry bout dat. Bush, I lied, my fault, I'm an idiot. Please, I hope you can except me for being wrong like I was, an, maybe next time I come back, I'll do it right the way I should. Your not so bad, and I know you would want to do the right thing, if you knew how, like I wish I could be certain for myself sometimes. Maybe at some point we could be friends. Hm, it would seem you people haven't begun evolving just yet though. My mistake again. I suppose that explains allot about my vanishing thrills of excitement about prospects, and our unanticipated exhaustion without explanation. I thought you people would be smart enough to catch on as humans, with me being, you know, Jesus or Satan, Mithras, an immortal child of God, stand in maker of the universe and all that. So, hmm, I guess I'll be leaving shortly, to head out to my original destination, a developing planet I do understand to be years ahead older than your own, who already kinda have an inkling about not destroying life, and really have made themselves as the living, a must see destination. I was destined to a planet system revolving around who you would refer to as Bernards, being originally from deep within the supercluster you have labeled Perseus, as humans too, interestingly through God. It's a small universe after all. My transportation device is of a free energy nature, something much like you have already available, but refuse to implement. God knows why you don't, I mean doesn't. Know I mean. Ah.. No matter where you are in the universe though, as you may discover before destroying yourselves, if your

conscious, and sufficiently intelligent through life to recognize yourselves as a living part of the universes, you would come to the same conclusion, no matter where you do your thinking. They are us equally, and this is true, no matter where your from, stand, or hold. This concept represents the death of ego, but not really because your still the same, you just learn more about how to get around as best we can. The same as it ever was. We, an intergalactic federation, commandeers originally under the apices of the great, we never needed a world war, Sir Admiral General D. Wesley, who's responsibilities dictated, we recognized to be our own through his genius. After being the forerunner of the foundations beginnings, we gave us all an award, and helped many find themselves, comfortably in a state of semi-retirement of which us all, our truly grateful. We in total, so far, are the S.D.S.G., Super Duped Spacegirl Group, consisting of more than twenty thousand, distinct, well connected civilizations, (fiber optics is very popular as well as free solar powers) who through good times, have naturally become friends, in this amazing, got a have a care for yourself because we understand just how fantastic you all really is for benefits, and there are many. The Universe is compassion, love and understanding, but because we are of life, and as growed ups we can also, which includes me occasionally, be greedy, hateful, and stupid. But I guess for yourselves, because life is free, you've deemed it therefore, worthless, for the shortening time you believe you are here to take from yourselves. Survival of the fittest, we as the intelligent universe have surmised, and by you deeming yourselves consciously as obsoletes for profit politically, I guess is for the best, if you really can't figure out why you would. Hmm.. You mammals are dumb. So, I would now suggest all previous writing I've done as incorrect, and highly implausible on this matrix set. Private bankers in their private market on this planet, are clearly the best informed top secretly, Greenspan is who stands over and against our nature with his private plan is betterer, controls the world, and is in with the winners, because they own all you as money to hide from their manufactured fears of your adding abilities, because your really scared of yourself right, and that is what you are all about as them. Continue on as you were, pay no attention, it's just us losers here, take advantage of yourselves, continuing to treat the public like your, oops, I mean their corporations tell we, who you are. Continue to allow the corporations to destroy your living economy

and your souls with the VLTs, while they convince you to think your stronger for robbing the defenseless illegally, like this isn't you here along this reading rainbow. Be blind to the loss of 3 trillion dollars off the market, stolen in my mind, while private bankers continue to take out your interests, leveraged with our properties over a currency that doesn't exist, sending the nation into a depression, then a war to kill all the poor stupid people. Through who, as they say, "nobody", protects your laws, and your fears of being as stupid as they all are, finding yourself isolated in their noisy universe, as we are alone apart, of all that is here silently. Clowns to the left, jokers to the right, stuck here in the middle with a little story that never has been told outright. I love love love love, the sweet things in life! Growing improbable, but still possible. Rock on Art Bell! Okay now, let it ride. Hey boo-boo.

A free of charge 17.33% increase: American right wing cowards also hide themselves as the world's biggest terrorist organization. They make us support military dictatorships with our capital and weapons against our wills, like the oppressors of the great Chinese people, or not demanding life term prison sentences of the current Dutch-Shell's board of murdering directors, and have the gaul to slander our hero, Castro, humanitarian of the millennia. I wrote the letter following "Jew Boy..." the day a single
complaint arrived to the radio station, with the threat that
the ADL would soon be contacted. The letter was provided in
advance of the next day, of the time scheduled for the
complainant to return for a recording of the questionable
broadcast. The station manager refused to give the complainant
my letter, and insured me that I would no longer be allowed to
produce a show for our community. Is this fair to our Jewish
brothers and sisters? Is this fair to You?

how my afternoon recorded broadcast went, and to discuss the new
week's tentative guest spot with an update regarding the falsely
maligned, Mr. And Mrs. Benderman. The station manager informed me

my phone number had been misplaced, and was managing with stress trying to put together an apology letter to a single individual, who came into the station, while the interview was still running, to demand action be taken regarding the anti-Semitic broadcast that he was certainly going to report to the ADL about. I told her the Felton interview itself was about bigotry through the demonization of the innocent, what the Jews of world war II suffered through, and, that I was a huge defender of religious Jewish teaching. I told her, to offer the individual a chance to publicly speak regarding the issue, with me, or by himself regarding Felton, to try getting specifically to what has got him so much, by himself, upset about allowing my voice heard defending Jewish rights within our community. She told me that she would likely, none the less, have to let me go to appease the sole complainant, for what if a lawsuit should result? I told her to consider her options, reminded her that it was only one single individual who hadn't even heard the show's context, and that the broadcast in every other way had been going well, doing good. She told me she was very busy, and said goodbye. Then a short while later, phoned me back to ask if I would write a letter, and have it at the station next day before the complainant arrived for his copy of the broadcast. I said sure, said it would be a great challenge, and proceeded immediately to do just that. The next day, I contacted the station to ask if my arrived letter was forwarded to the individual, and was informed no, he didn't receive it. It wasn't the apology the station was looking for, and my show was now officially terminated. I told her it was very unfair to me, to not allow him to read my formal response, and that I couldn't in good conscience, back down from defending my rights to be heard on this issue, or to allow us, as our public, to hear the complainant's actual complaint about my, freedom for all broadcast. She said she would try to get the letter to him, but that the show was over. Case closed.

Stand up for Jews, and look at where it gets you, Jeeze.

Let us not put aside, the station manager's legitimate concerns. Who has the money or the time for a frivolous lawsuit? Why do expensive independent research, when the Bush Administration can hand us all the free news they want us to have directly without any costly questions? Saddam wouldn't let the inspectors in, right? Why risk standing up for someone else's rights, when doing so, will get the (anti) Jewish-Defamation League calling you an anti-Semite (Semite=Arab) for communicating some understanding with Felton? Felton, is bizarrely quirky as interesting, for his recent book is about the demonization of the innocent, (you know? Nazi gas chambers and ovens?) and as such, we can learn from, as too, we can teach. If he'll listen. Ariel Sharon is not Jewish my friend, NOT JEWISH!!!

Open the gates, it's getting late.

Greg Felton : "The fear is necessary for two reasons. And the principle reason has nothing to do with Iraq. it has to do with the government itself. The bush government is criminal. [...] The problem is: how do you keep people from paying attention to this? You keep them focused on an external enemy. [..] so they forment this fascistic hatred of a definable group of people. So, the war on terrorism so called, is not much a way for the United States to protect itself against it's enemy, it is a way for it to create enemies, to justify the kind of repressive measures that would otherwise be intolerable in peace time."

To whom it may concern,

regarding the January 31st broadcasted interview with Greg Felton.

May I, on behalf of only myself, ask that you pardon my failures in judgment, in not allowing what I should have gave: an immediate re-dress regarding, 'who is the Zionist label?', or 'What Holocaust are you referring to?', during the broadcast of January 31st. (bet you we can't get two Christians that agree on everything.) However, I can offer perhaps a show centralized on a chance to exercise your personal views, be they pro or con on where you think we should go from here, or whatever may have you regarding said interview. Or, if you would like, you may wish to do only, or else include, a written work that I promise, will reach as far as the original broadcast. So, actually, this could be a prime moment to have a dialog regarding racism, bigotry, and intolerance. I confess, I may be unaware, and still have much to learn, when it comes to communicating well with all others. But, I know I'm getting better, and I'll tell you, the Justice-Freedom thing, sure seems to be our ultimate calling.

I was not so surprised that the broadcast interview with Greg Felton would be considered controversial, (as every show I've ever done always has), although I wasn't prepared to hear criticism against the show as being defamatory to a group, or groups of people. As certainly that was not my intent, but however was the difficult subject addressed within the interview. The fundamental teachings of Law, as it pertains to justice and freedom, along with every legitimized religion, is that all free people should be thought of as equals to each other in vigilant protection. And by doing so, one would be serving G-d's interests. (Even if a G-d doesn't exist - an Atheist too, could become a proponent by understanding Jihad). Thereby insuring\realizing that a just intelligent life force rules our chaotic timeless universe in service ultimately to ourselves individually. Giving us in the Torah of Moses, ``all people are created in God's image'' teaching all peoples are Sacred. And as such, would be so in God's interests to defend

as the innocent. While in eternal pursuit of happiness and prosperity for all through just means.

Under Greg's definition as being a "Zionist" conspiracy, negates the failure of himself personally to recognize the public connotation is too vague, and that Hitler's Nazi Germany, like Bush's America, is politically expressing an inability to represent ourselves with respect as truly worthy of fair deliberations amongst ourselves. Sacred, every-one. (Or as in, to rise to the defense of those we know to be irrationally victimized as the godly and innocent, victimized in our un-addressed names.)

Greg "This is why the Holocaust is such a very dangerous thing to talk about because, it's not really understood. It's preached at us like a sermon. We're suppose to accept at face value what we're told about it, as if to, criticize it, is some how disrespectful. Much of what we know about the Holocaust has been propagated by the Zionists, and can be shown quite untrue"

I replied shortly later "One thing about the whole situation is that innocent people were targeted for murder. End of story. That's what the war was. All wars are like that."

Greg's mistake I believe, centered in his Zionist labeling through an apparent bigotry expressed, and as such, was too narrowly defining the larger established history of the Holocaust, as being the struggle of the human species in halting, the demonization and then subjugation of the innocent millions, Jewish or otherwise. Perhaps it was strangely on his part a testimony to a real struggle we all have when it comes to identifying ourselves to others. Considering it is the exact subject matter he wrestles with in his book writing, regarding our corporate media's perception of ignoring an innocent people's concern or cries. That said however, for Greg to blankly criticize Greg's false construct of what is publicly understood about the Holocaust, is to deny that much for sorrow and suffering took place against the whole of Humanity, especially, of those who held the practiced Jewish faith. To think the nazi regime would have the gas chambers and the ovens, while the whole of humanity were not strong enough to communicate the unjustness of it all to the German people while it was happening. I have read of a recent documentary that provides film footage of nazi soldiers committing the worst war crimes imaginable to god loving Jews, interspersed with film from the same dated period where, the German people were living civilized lives, left unaware of the atrocities that were being committed against God in their names. Same as America and Canada today, with Fallujah抯 300,000 People being, the undeniable example. Or, are you too,

a convinced denier of that which is fully documented? (Needless and irrational was the indiscriminate murder of the people of Fallujah, but for to have more American soldiers sacrificed in a conflict created by an unjust as immoral totalitarian dictate.) The Holocaust deniers are those the same of today, who refuse our Humanity to nationally communicate those screams of mercy, or for justice regarding the People of Iraq to be served in our true interests as legitimate. More than ten million Russians died fighting the evil eugenic scourge of the "superior" nazi regime, and like those in Poland, Britain and France, as elsewhere testified our established history, (albeit only later), the sadistic ungodly as lawless barbarity that Nazism inflicted upon the general masses, went largely undeterred from our "informative" television and radio broadcasts. The same, almost word for word, and action for action, can be found in Rumsfeld's "blitzkrieg". Bush's freedom by tyranny doctrine. Or the criminally sanctioned unchallenged news pronouncements of a Mark Kimmit, Buford Blount, Steven Russell, Mattis, Allawi or Sattler, when it pertains to accepting without our objection, to the victimizing of Iraqis collectively as an indiscriminate act of criminality, like murder. As like in the policies of Ariel Sharon, where an innocent, haven't committed an accused crime in their life Christian Palestinian, is denied the earned home they worked and paid for, on a parcel of land shared up until recent times for countless millennia. My personal struggle has been to inform the public on the "forgotten" importance of established evidence, being the only requirement to convince ourselves on who is a bigot, tyrant, a criminal, or a murderer. Will you not therefore, as a fellow humanitarian of this shared world, speak against those you know of, who victimize the innocent to thieve from? Sure you would, if you knew as much for certain about God and this universe, or the under reported, freed to go General Ahmad, funding the mastermind ring leader Mohammad Atta of Bush's 9/11 game. But will together our Humanity ever learn? Well, my plan is to search for guests to speak with, that I'll try not to offend early on. Greg knows, like the Pope knows, as every legitimate police officer worth their grain of salt knows, as so too does include a great many Jewish Jews, George W. Bush used absolutely no evidence to substantiate his therefore, false accusations in our names against bin Laden, while then ardently with Cheney, worked to close outstanding criminal investigations regarding their extremely suspicious behavior. All according to his official publicly documented plan. And speaking the news as thus, does not make anyone anti-Semitic, anti-American, or anti-Human, but pro-Jewish, pro-Christian, pro-Muslim, pro-Justice pro-Freedom, almost wholely human like even. Not of a long gone as lost and forgotten religious dogma, but for now as it always has been found, a mutual

respect for all life as we find ourselves being part of. Or, so we would for Atheists, argue in all likelihood to get to the same reasoned to be, just political decision, to this or any another life and death matters matter.

Because the unjustified criminal war actions of George W. Bush are our shared documented history, others, with an ulterior agenda to propagate their weakness through bigotry or racism, will arbitrarily blame a subjective grouping of people, instead of demanding by godly individual might, the arrest of specific individuals who are actually responsible according to the established as public evidence. So, now who's fault is that? We live in difficult times. To admit weaknesses regarding our corporate news control content decisions, is to seek a better world for our lives through stronger open communications.

I believe the defense of the Jewish faith is found in the indivisible properties of Creation, and who's central belief is made simpler than any other. Hillel was asked: Rabbi, who is a Jew truly? Hillel answered, "What is hateful to you do not do to your neighbor. That is the whole Torah. The rest is commentary -- go and learn it." So my challenge in defense of the Jewish faith during the interview, was that those who practice criminal misdeeds, are therefore found by the official definition taught by Hillel, to be not practicing the "Golden Rule" of the Jewish Faith. (as so pronounced by the religion's recognized ancient oratator.) By calling alleged criminal actions, the conduct of an entire people, faith, or branch thereof, is to fall into the fascist minutia of bigotry, or racism, held by those who judge us "others" unfairly. After re-hearing the interview, I did find the allegations made by Greg, regarding the Holocaust being blanketed by falsehoods, generally, a failure on his part to recognize the true horror of what that war wrought. And in light of our desperate challenges today of defeating the enemies of Humanity as specific unjust individuals in "hiding", an ignorantly stupid thing to say. While I, perhaps wasn't thinking along those conceived lines, where at that time, I had just left the thought of: the struggles of the Jewish faith, are the same struggles all young adults go through by naturally establishing our associative identities. Who are you I truly ask? How many news channels even allow us as Humanity to know about the absent reason for the bombing of the Jews of Samara? The Jews of Fallujah? The torturing of completely innocent People to death, as in Guantanamo? Or still unaddressed publicly: the willful lawless criminality implemented by the, therefore tyrannical Bush Administration in suffering God's Iraq? (See missing ``Development Fund of Iraq'', or private mercenaries discipling for Bush as deemed un-accountable to every conceived ``natural'' law? [see the entire Bible for the judgment call on that one...] or, Bush's declarative, he magically owns

everything in stolen Iraq now, [where did it go?] and I can't say anything because he signed his John to 13303 some time back, but as still is left unreported in Your dying world?)

Publicly question our reality, by taking the station up on doing an interview with me, along with your own impressions of our world. Or, if you prefer, you can do a solo written piece, or a recorded statement for the station. I look forward to finding common ground with your concerns. I hope I have got you wondering more, about what trying to save our world from injustice and slavery, in whatever way we can is all about for me really. In these words I can say, I apologize to you, for a resulted perception, that wasn't with better words, my true intent towards us people together.

I will, after some small revisions of this paper, include it as well as the broadcast package. So I do thank you for bringing up your important view, that otherwise, would have gone farther without this opportunity, that I offer as a starting point for deliberation, or argument regarding my foolishness. Thanks for speaking, and I hope I have met most of your concerns with a positive light on where I'm trying to come from.

John.

The Benderman Cause

I felt compelled to support the Benderman's cause in any way I could, so I am providing America some arguments that I would use in a court of law to defend your freedoms. If America would so desire, I would also be prepared to make a recorded statement from here in Canada. (I have been denied access into the U.S..) My positions of rational argument are naturally based upon our established facts, and as such, are something few Americans are afforded the luxury of through corporate channels. I hope my forcefulness on these issues does not fear you to doubt I have the best of intentions when it comes to serving the interests indivisibly inherent within the American Constitution. God, I believe is just, and as such, the ungodly war actions of George W. Bush dictate are criminal in the worst degree, being a harbinger of suffering and misery against all of Humanity as US being the innocent. The innocent in our entirety, is my "God" that I love with all I can will. I am compelled as a living human being to defend America

to the last bush supporter praised if need be. I fight the enemy of God and Humanity with reason, understanding, Akeido, and a conviction that our justice system must prevail for me to be truly myself really.

"He explained to "60 Minutes," "I was told in basic training that, if I'm given an illegal or immoral order, it is my duty to disobey it. And I feel that invading and occupying Iraq is an illegal and immoral thing to do."

The war was declared "illegal" by the U.N..
Why? Because Saddam wasn't found in breach of the internationally agreed upon resolution 1441, (Saddam did EVERYTHING POSSIBLE that was asked of Iraq by the bush administration, and then some Mr. Bush refused to even take him up on. Like national Iraqi television broadcasts.) despite the lies quoted by corporate news America. There was no need for the conflict to begin with as was so reported internationally on march 7th, 2003. U.N. inspectors had complete unrestricted access to go anywhere without delay, and known stock piles of WMD were burned, so could not possibly be completely accounted for by evidential findings due to the fact that they were destroyed beyond recognition. American soldiers were put in harms way to be sacrificed for no better good, but for to allow as has happened, the misappropriation, or as some have alleged, the criminal theft of Iraqi resources, including monies of the Iraqi Development Funds through Presidential decree 13303. Which include the unappropriated, desperately needed, humanitarian aid provisions still denied innocent Iraqis, such as potable drinking water and food stuffs. Democratic principles are DENIED the Iraqis by the neo-con military forces, such as holding all individuals equally accountable to a rule of law. The outlawing of torture, or the outlawing of false imprisonment has not been professed as the action of the neo-con "liberating" force. Mercenaries are not obliged to obey any laws for example. And, "Dr. Germ", and "Dr. Anthrax" are held solely for the fact that they know of the scientific hazards of depleted uranium, and may have warned the uninformed sacrificing American GI, if not held illegally against their wills by the enemy. Commanders such as irrational war criminal Sattler, forbade all men and boys between 15 to 50 from leaving the city of Fallujah, while refusing to

negotiate with anyone, (because as so was openly
confessed, Sattler had no evidence that Zaqari was
in Fallujah) then leveled the city to kill all it's
inhabitants, estimated at that time near 300,000
people. Using a napalm type WMD, cluster dud
land mine munitions, and as reported, nine two
thousand pound bombs in a city 3 1/2 km by 4 km.
Serving for a military not strong enough collectively
to prosecute such lawless criminal barbarity, is
serving for a military not principled in the American
virtues of freedom and democracy. In truth,
serving for such ungodly criminal command is a
cowardly act of treason. George W. Bush is an
enemy of our Humanity.

Copy and distribute this personal challenge freely.
Thanks.

Seriously Folks

Napoleon Bonaparte wrote forming governments are forged only through the public witness of shared mutual experiences, simple, yet, the bushite strategy implemented continually on behalf of the enemy forces in Iraq have been to divide the nation's people with different "legal" definitions, while speaking for typical bushite bigotry, by then offering distinctions of human value between US some from "others". Not freedom, nor democracy. [Remember: Evil is dumb]

Example: Allawi forbade surviving Iraqi doctors and nurses from medically treating any of the estimated 200,000+ innocent victims from Falluja [IRAQI vicinity].

Example 2: DYING two-bit bushite war with "foreign" soldiers paid especially more than a thousand dollars a day as self confessed RACISTS, and THEREFOR, left "officially" too weak as, "pissing post illiterates" to go after real terrorists who torture the innocent, or real thieves, that have stolen BILLIONS from the Iraqi Development Fund. Done all to sacrifice life's purpose for no better good to the ANTI-CHRIST EVIL bush "cabal" of lying neo-con Christ haters. Allthewhile stating the objective worth dying young America as bushite for is "Democracy" in Iraq. But, isn't a founding principle of any democracy to outlaw thefts, sexual assault, murder? Again, bushite kills bushite for a stolen nickel that they just as soon, stole from anybody. If you can believe it. We need YOU to make some effort to engage American talk mediae. Perhaps it's only YOU, who hasn't yet heard a responsibility to this once greatly revered world of wisdom, of the enchanted, and mystical, or of the tyrannical as hell bound for suffering and sorrow. ,in which you share allegiance too my friend.

Being caring and compassionate for the victimized innocent not only feels good, but it is a choice we would make at being alive to help US survive. To not speak against the bushite war crimes against YOUR Humanity, is to not speak in defense of our ancient dying God no longer found worthy of you Peoples humble

respect. Currently corrupted bushite want my voice of truth silenced by censorship with false imprisonment, and those who advocate such hatred for myself and our humanity, speak no public word or disagreement on my allegations of high treason by Our Mr. bush Jr.. While I want to openly debate the, "censorship for tyranny", corporate talk radio bushite bitches on their furthering commitment to not allow objections regarding their contempt for true justice and freedom in America. But if you singly decide not to support my cause, like corporate news control encourages, We will be left forsaken, again. God is Just to the core, like Johnny Wizard tries to be, while bushite liars lie, cheat, and steal from America as ourselves measured unworthy for deliberation to gain true understanding. The Coast to Coast radio network in America disallows America learn for why American soldiers are currently sacrificing their LIVES irrationally. Why? Because there is no legitimate reason, while bushite pretend in YOUR name, that there must be another reason but for to rob our humanity in George Bush Jr.'s name. For if there truly wasn't another reason, not so then blind, stupid, and cowardly American soldiers wouldn't be too happy about the wealthy corporatist bushite commentators silencing America's dying cries by bushite enemy command. Now would they? Remember: wealthy blind and stupid bushite kills/gets killed, poor blind and stupid bushite for a stolen nickel - a nickel in all likelihood, they rifled as thieves from some pensioner, that just as soon, would be their own "grand" parents. Or Yours as someone elses beside.

Phil Donahue had the highest rating, number one money making news commentary show on NBC as it was canceled. Why? Too good as enlightening and INFORMATIVE. Then there was the recently canceled Crossfire. Or how about Barry Zwicker on VisionTV as Canada's greatest broadcast before it too was canceled. Why? Too good as enlightening and INFORMATIVE. VisionTV, a "religious" channel now likely forbids anyone to suggest that God would be good as just, and REALLY INTELLIGENT. Forbidden knowledge we are the corporate bushite insist with Your stolen rights. Why so? Because Americans might learn of what it is to be a true Christian, and therefor stop to have arrested else immediately executed for high treason regarding 9/11: the enemies of Johnny, Justice, God and Humanity, the evil doers George W. Bush, Rumsfeld, and Condolezza Rice. Alone with Myers and Cheney for good measure. Then, those responsible for the needless bombing of Samarra and Fallujah.

Under EVIL bushite tyranny, We are criminally fighting for needlessly dying as bushite here, but corporate newsCASTers don't find "our" costs worth getting a discussion group going, after all, American soldiers who die for the bush regime, as the kept in the dark, will less likely be going after the real bad guys for 9/11 then right? Corporate America refuse US just basic rights of legitimacy to at least address the absent war reason issue from time to time - Jeeze. But no. As bushite, they're prepared to not inform the bushite soldier that depleted uranium is radio-active, that the stolen American Enron pension money is sitting in the Cayman Islands, or that the war itself has no justification. See, the bushite war is a TRUE CRIME against all Peoples of Humanity, for the war against Iraq has no reason available to explain enemy military action, but for to die thieving from ourselves as the bad guys. The Enemies of Freedom. Why we have Law. God is Just, and evil is just the slavish ignoramuses who censor our Words of empowerment for freedom through Justice represented indivisible as Eternal. We rule.

Therefor, George Walker Bush is guilty of treason to US all, not only including your one and only King Johnny Wizard as Heaven's afar, but also the not going anywhere but yet still sacrificing ungloriously as the stupidly blind as almost completely incoherent,. devote bushite nazi dumfuk soldier grunt enemy vermins.

Will you not help these words reach a larger audience? I ask you to consider your helping me can do good for your real world too. Perhaps it is ONLY the single individual that hasn't yet understood, this once greatly revered world of the Word is of which you share allegiance too.

Speaking for a just battle of freedom for all humanity, is a right you could exercise in brightest intentions of a muted God who sure could use your help right about now man. Our family is in so a desperation for needed support. I am fearing your fears have got you believing, you have no dying right to speak against Mr. bush Jr. for the crimes he has committed in Your name, but You do. Think of it this way: anybody who stays silently connected secretly to the crimes of nine-eleven, can not be trusted as a sacrificing bushite thief by the enemy bush administration. [Secretly speaking in all strict certainty.]

The warrant that allowed the confiscation of my computer equipment, was to prove that I was the one and same who demanded true justice for our humanity by following the

crimes scene leads for nine/eleven, arresting those responsible, or killing the escaping culprits, bush, rumsfeld, and condolezza rice by the hand of our guns. (Why do you think Police officers carry guns after all?) It is now argued that because demon bush is President, it therefor doesn't matter where the actual crimes scene evidence for the murder of thousands in America leads to according to the FBI, for George Walker Bush (666) in above all the laws of the universe. Despite! the reason they obtained the warrant, was to charge me for "threatening the life of an international person", they instead decided not to as saboteurs of liberation. They argued after the warrant gave them my personal possesions, (hundreds and hundreds of video tapes, ALL MY WRITING, computers, disks, along with approximately 50,000 tasteful images.) That the reason for the warrant being originally issued, no longer, if ever, was justified. For if they were calling for justice, the demon bush, and his co-conspirators might get caught by America, and pay the ultimate price for their treason by death sentence. After two self confessed PRO-BUSHITE (support death squads against Afghanistan school girls, and propping up the heroin trade by arming women slave traders) "officers of the law" reviewed my images, they now contend, that several can be argued to be illegal in an almost fixed to win proceeding. (No more than a small few pictures of beautiful girls in different states of undress - "Home Lolita" I think.)

The charges they offered to the prosecution to argue for a "life term prison sentence" (almost jokingly it was quacked) were complete fiction, of which the crown offered me "a deal". Plead guilty for being a shamed ostracized sex offender, [I'D HUNT CHILD KILLER ENEMY BUSHITE EVERY DAY OF MY LIFE IF I HAD THE BUS FARE AND THE AMMO] and maybe, the Judge won't argue for a long term prison sentence for another charge that has absolutely nothing for substantiation. Substantiated, that will surely do nothing but testify to their attempts at demonizing my better name. Nothing doing darkness, the court of Law, is Our court, and I intend to make my case heard among my peers. Here.

Please, I beg you for my life, forward this document to the propper authorities, post these passages to any church, or, phone talk radio America and demand my public case be heard for Your benefit too, or don't and get what we'll deserve by not making a miracle happen with your single sole but sure, human will power!

1. I obtained the questionable images through Usenet group "youth-and-beauty". Images can be downloaded a thousand or more at a time. I can't not perceive the images until they are on my computer! If they had told me they were coming as bushite, I would have been sure to delete anything near objectionable for argument's sake. They laughed when I told them that.

2. The service companies that offer such groups as child-rape and so on, have an easy ability to filter out subjective objectionable material, along with the truly grusome stuff. But they don't, nor, are they found legally liable for not doing so. I suggest the reason is, it would put out a billion dollar industry of these child-porno cops that view real sicko slime routinely, while then arguing anyone who witnesses such depravity must be guilty. Guilty to have their professional lives destroyed, their life invested property removed till whenever/perhaps stolen, and then be publicly ostracized as senseless victims. All because some guy maybe believed women are worthy of worship in the highest respect and honor, while cute adorable boys he couldn't help but feel compeled to cover with praise, or mutual hugs and kisses., as long as there are no other men in the room with him and the gals perhaps one day chatting over maybe child care let's say. (no wonder the two child porn cops in question regarding my public case admittingly were/are staunch bushite offenders.)) I know of no nobler lineage that that of our police officer. For protecting the rights of our children, is what we've always been committed to gaining respect for. We want to do right for ourselves, and despite Johnny, this world really is something remarkable to concider a future with on our own terms as a foundation of wisdom with the ever presnt will to succeed at something greater than first realized. Evolution. The Revolution of reason while jiving with justice for freedom holds many perks per praised principle. Hammurabi's number one thang.

3. If a search warrant can be made against anyone who a criminal bushite finds objectionable, (bush and rumsfeld made the charge against me through the Secret Service, then to the RCMP.) then what freedom fighter is safe from pictures of godly and beautiful children in bath tubs? Swimming? IF, the bushite demands the images appear seductive, and compel them to commit sexual assualts? Or, what if you download a program on cars to have the bushite find, it contains bin Laden's secret where abouts in code? Would you be guilty, and if so, of what? No thinking freely?

So, the warrant brought the officers of law the right to prove my Johnny Wizard writing was of my own, but yet, after doing so, refused to enforce the law by giving me my day in court on the reason the warrant was granted to begin with. Also, I, as anyone can not perceive potentially objectionable material until it is in my possession, while a service provider would have little of no problem. (The still working child porno cops could look for child porno all day, and actually get closer to catching those who proliferate actually objectionable materials. [See?, an internet service provider could defend thus: they're not guilty because the subjective material, that would be questioned, is subjective, and so would the porno cops if they got someone intelligent to defend themselves. But for Christ who needs to know what's going on in the realm?, while loving girls in general like they were his own distant siblings? They'd put Christ up on a cross for loving schoolgirls, by demanding such thoughts come only from a criminal prospective. The problem here is child porno cops can view a suggestive cute girl smiling in her panties, or witness some heinous bushite rape or torture, and measure them equally when charging US for their deviant sexual sugestion. As alas, they refuse to support the Law when it comes to the easily provable criminal actions of enemy bushite, as for would be, the defense of the lives of our innocent children in Iraq mean something to me too.

Anyway, apparently, the reasons for the warrant were not as was so intended. To charge me for threatening the freedom of bush, rumsfeld, and the evil witch condolezza rice. (Can I get some legal advice from someone out there on this then bogus? warrant please?). The Court will (try) argue without allowing ANY voice of objection, that because I demanded the immediate arrest or execution for the individuals responsible for the crimes of nine/eleven, (relying primarily on the Whitehouse, FBI, and the public spewing of the war criminal demon anti-Christ itself,) the prosecutor, it has been alleged, will demand justice not be served in that respect, and that the search warrant that obtained the bushite's evidence against me as a truth teller during their fishing expedition will not be allowed for re-dress. Is this Justice on behalf of God I ask you?

Nature of the Beast

(Again, remember, nobody from the RCMP, the Secret Service, or the FBI, state that I am incorrect in my allegations of treason against the bush administration.)

The prosecutor is going to press for incarceration if I plead not guilty for a crime I'm not guilty of, while my public freebie lawyer, contends my defense of innocence and corporate news agencies forbidding the pursuit of Justice in protection of our Police services, like the honorable FBI officers that contend Ahmad funded Atta will likely not be allowed heard. [Are you a member of a Police Union somewhere, or know of someone who is? Or, do you just not give a care for you fellow officers either?] See?, bushite falsely believe bush can not be arrested for nine eleven, no matter where the actual evidence leads, because he is not judged an equal among men by corporate news standards, but as the anti-Christ, FALSE deity, an enemy to every free person standing.

That is our, for real court case against the Bush administration as it stands today. While some have warned, bushite are pushing to have me taken in now, to try stopping this from speaking in our Humanity's true defense. They just might succeed, if you decide no care for Freedom from tyranny either..

This is was/is/will be my last Wizard Wire public service announcement regarding this, George Walker Bush (666) wars America, Humanity, and me as the Lord of Creation. I've said everything I can say twice over, and if you can't find it within yourself to pass this post on to every church corner, with a, "I love life too" set of priorities, I can guarantee you no greater reward. But for to be present if not in person, but in spirit during my public trial where the bushites will publicly judge my character unworthy, while attempting the silencing of our own voices for Justice as We stand in TRUTH, indivisible. Be it known, the prosecutors of Law in my case have read Johnny Wizard's "The Trial and Conviction of Our Mr. bush Jr.", and likely a few others that will be asked by the hiding in darkness bushite enemies to completely disregard as crime scene evidence. It's going to be a case worth getting to, considering the newspapers, talk radio stations, and National News desks are expected to forbid honest coverage of by the higher ups at corporate command. Call your Church group to organize a call for Johnny!

Or don't.

I thank all those with whom the true liberation of Humanity from tyranny could not have been made possible without themselves individually. I know it seemed like no one was listening, when we spoke for God's cries, but WE knew better, and we knew soon, all of US will then learn it too, defending God is of no greater privilege.

So, cheers to You, our Humanity's defenders of the human challenge, for being there to speak for this life when we needed You as a contributor. Fare thee well with your pride and honor, and no bars will ever hold your undying spirit.

/ / God bless America by destroying the enemy evil anti-Christ, Our Mr. bush Jr. Yourself. \ \

Breaking Camp

I will advocate full compensation for every mistreated soldier who had been tricked into believing something without reasoning.

Johnny condemns George Walker Bush (666) to death for the crimes he has committed against God's Humanity.

Let it be understood, that Saddam gave America 100 percent access to do anything the anti-Christ wished without delay prior to the needless military conflict beginning. So, every treasonous thieving bushite life taken, is done in protection of God, and the American dream. See?, TRAITOR bushite Art Bell's amerikan talk radio forbids BY CENSORSHIP anyone in America to speak in the defense of the undefended American People. Art Bell, America's enemy, with ensure that America "never" learns that bush's business partner, General Ahmad, funded 9/11's mastermind ring leader Mohamed Atta, or that depleted uranium is measured radio-active, or most especially, that billions of STOLEN American pension money is sitting in bushite bank accounts in the Cayman Islands. Instead, he'll do another show on UFOs, or bigfoot, while broadcasted to the wordless bushite grunts their dying is for naught. Who cares?, bush's war against freedom in America isn't anything bushite amerika ever wants to get persnickety about.

<http://www.chapelhill.indymedia.org/uploads/bushite-kills-bushite.mp3>

/ / Who cares? CNN is not going to cover it, we know that. CBC in Canada, they're not going to mention it to anybody. It's no concern of themselves to show a caring word for the [thieving] sacrificing soldier. \ \

The EVIL bushite liars die for no better good, but as the ungodly bringing further hardships against US innocent people they target for murder. God says, the Magna Charta says, the American constitution says, let US all arrest or kill the TRUE ENEMY bushites instead. "See lawless bushite, kill it in defense of all that are innocent", I always say as the Son of Man and Living Creator. No joy greater than saving the innocent victims of the enemy bushite thieves, torturers, and first degree murderers. WHO WOULD DISAGREE? in a true Democracy?

Every American soldier who dies as a bad guy in Iraq, dies for cowardly worshiping bush instead of Life. The demon anti-Christ as their false, untrue, dummy deity, sends them into harms way for only to steal from the innocent. The innocent left in God's trust. There was nothing that could have better been done in Iraq by bombing the country. The blind attacking of the population, along with it's functioning public institutions, brings only the STOLEN cash rewards on trading in the American soldier's LIFE as a fascist criminal. All that is bought to by putting cowardly

bushite soldiers in bush's un-needed conflict, is to steal from their very own families back home left almost completely undefended. [Have no fear, Johnny Wizard's here!] A criminal military force that deems some soldiers from Apartide fame as "un-accountable" to American or "Iraqi" law, while paying them a thousand dollars a day or more as rewarded racists who fight allong side black and Hispanic dying bushites, to not allow equal rights for those classified by different colorations. Allthewhile with spokespeople smattering the sacrifices are to bring democracy together in Iraq to arrest bushite for thieving then? [No matter whomever you are, George W. Bush is truly evil to God in YOUR name too see?] Regular Joe in the Army, 47$ before expenses concurrent and impending.

I will advocate full compensation for every mistreated soldier who had been tricked into believing something without reasoning. Example: those who had been taken in criminally to handing over their military pensions for five year loans at 56%, or a 20,000 loan paid in five with 60,000. No competion exists for this racket because it's an actual crime scene. Guess where American Gis can hear the sales pitch advertised? The Army Times.

No thoughts of understanding are expressed (OR COULD BE) from the soulless bushite on why they are in Iraq dying, or why depleted uranium is harmless, or why depriving Iraqis of medicine along with food and water, is a ploy to win the hearts of every man who owns a gun. Or why the bushite demands through the censorship of tyranny, that Our Humanity has no rights to speak for our freedoms and liberty, or on behalf of Iraqis who have had billions of much needed dollars stolen from themselves by the bushite enemy. (The billed for taking bushite soldier itself, will not receive a penny of the ill gotten gains, just like their own grand parents were robbed of the pensions, and the bushite couldn't find a word of outrage to say against their false idol then either.)

/ / As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr., their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way. \ \

The ungodly evil bushmob fascist totalitarianists are pushing to have US specially arrested. The demon anti-Christ enemy forces have gambled an attempt to find prosecutors and judges, lawyers and defendants, who together wouldn't let the truth be spoken in our own defenses. I have had many discussions with the National Security branch of the RCMP, CSIS, the Secret Service, the FBI, and several commanders in the Canadian Military, and WE all know, this upcoming trial is something a great deal of many are lookiung forward to, however, an agent of law recently approached me to warn, some are working to try having me arrested without bail, and spend maybe a few years behind bars before a trial could not be postponed any longer, all in an attempt to try stopping my words of truth that represent the interests of all defendable legitimate legal enforcements. Canada's system of checks and balances, and our honorable police services have too many good guys in place, to want to silence my calls for Justice by measurement. And, up until now, our security people have advised the bushite case would never fly in a public court room, for Johnny Wizard would just make his case as it stands FACTUALLY DOCUMENTED along with that which was FALSELY ALLEDGED, and the wealthy do nothing corporate news agencies would be caught as culpable to being accessories to first degree murders in New York City, where they deliberately with malicious intent, refused to report on the FBI's findings that General Ahmad funded Atta, or that demon George W. Bush with condi and rummy, had a top secret CRIMINAL plan to invade Afghanistan dated September 9th, 2001. Just like still, CBC and CNN refuse to report any human concern for those murdered irrationally by bushite in Iraq today. No concern for those Humans, but in Asia, where bush isn't yet anyway, thieving in the wide open from God, they can try to make up for lost respect by claiming those People are better People worthy of our commpassion with wall to wall coverage on the suffering we have little of chances in preventing. But for to stop needlessly droping tons and tons of toxic bombs into our Living Earth. It is the bushite enemy who refuse to allow YOU speak in your defense as an Earthling.

However, this being said, I have been recently informed that, since the godless bushite enemies would wish to have our freedoms censored, it will likely be pushed to do so without a public trial allowing a jury of my peers to judge the case accordingly. Up until recently, Guantanamo could never happen in Canada. But now in Canada, the enemies behind closed doors are talking

about sending intelligent innocent people away to be tortured for sadomasochistic satanic tendencies, and further have argued to no one that persecuting People in Our names without evidence, maybe isn't such a bad idea, when you think of all the people we could rob our humanity from like the "popular" and "Democratic" bush regime does. Bushite corporate new censors are fighting for a return to the dark ages. Don't let this happen to YOUR world. Care not for my freedoms as an honorable man who stands with America's FBI, and your given up life wont be worth nothing but as yet another sacrifice to bring further glory and stolen riches to the American cop killer, pension thiever, 9/11 perpetrator, war mongering anti-Christ, Your unbelievably EVIL Mr. bush Jr.. The enemy of God anti-Christ who continues to hold your real life in mistrust and dishonor, while wealthy corporate "celebs", talk freely about their pride in such ungodly sacrifices as Christ's forsaken name.

I ask ONLY you to argue this paper with your best intentions, for I will perhaps not receive another chance to publish, if as usual, the Internet community at large extends me little support in my UNCHALLENGED assertions on who truly committed the crimes of 9/11. A single bushite corporatist sends a complaint to a Internet provider alleging I talk "spam", therefor, without any hearing, private owners are threatened to lose their privilege to communicate, by an enemy bushite protagonist who exercises his "authority" by stating only, "spam", and not even providing my actual post in it's entirety. One Internet service was shut down for the sole reason that discussing George W. Bush as the 9/11 perpetrator in tx.politics, was against the rules, for such subject material must be confined to only a American nation political forum. I talked to the kid on the phone who made that power decision on behalf of all usenet, and let it be known, he knows what he's doing. But "they" can't do this everywhere. I can not "take over" your big old lonely world that you must work to protect for yourself as an equal citizen sworn to freedom. I have written all I need to say about Justice and Freedom, and if the human race can not still find enough care for themselves to propagate my writings for others to read, or demand Art Bell be removed to allow Johnny Wizard to debate the ungodly dumfuk bushite vermins, there truly is no hope for US continuing.

CNN.com - Aid group 'told to freeze' Falluja work - Dec 6, 2004

/ / Only about 100 families are thought to remain in
Falluja, as most fled the city before the U.S.-led
operation aimed at flushing out insurgents. \ \

Huh? Again, witness wealthy CNN "news" staffers, didn't
even bother to seek for an update on their "about 100",
that had not ever been given. Red Cresent, the day
previous to Dec. 6, no... actually reported on, Dec
3rd!, stated, (from their limited circle of reference)
they had witnessed a minimum of many corpses, of
completely innocent pro-Iraqi women, children, youths,
and men.

/ / Iraqi Red Crescent spokesman Muhammad al-Nuri
estimates that some 6,000 people have been killed, many
of them civilians. \ \

(That is discounting murdered armed defenders of Freedom
in Iraq we can prusume.)

But, again, the true bushite enemies of loyal bushite
enemies, thay'l' "bushite lie" to the bushite nation
about the "holy" benefits of, sacrificing America's
young life., all done for the glorious betterment of the
traitor demon anti-Christ liar, the war criminal, Our

Mr. bush Jr., along with his treasonous evil cabal of anti-semitic Palestinian Christ haters. A compassionate, "conservative", war mongering cabal whos warring of America is done to secretly steal further from the innocence of God in silence. Without a honest to Johnny, bushite killin' God-Man to speak on the nature of reality itself from living Creation's time-less prospective. Naturally leaving ourselves to save all of humanity with my "magic" - guitar, notebook, cybercafes, and super cool Akeido, leaves me in wonder of where life could lead as committed to freedom through justice for all?, as truly ourselves democractically represented?, Miraculous?. or will we choose as ENEMY bushite instead not to, ending to devolve ourselves from existence?

I know of some pretty, almost miraculous words in which can bring about positive change, and man, if you could see the world for America's Dream, where all People are judged not by the color of their skin, but the content of their character, the entire bushmob would be behind bars awaiting trial for treason, and the Iraqi People would have American Forces demanding Allawi be arrested for failing to explain himself regarding the needless bombing of our Humanity in Samarra and Falluja.

--

SEE BUSHITE, KILL IT FOR GOD'S AMERICA

/ / Another humiliating proposal, which even triggered debate among Marine officers in control of the city, is to force all Fallujan men to work in military-style battalions, reported the Globe. \ \

This is the best the ENEMY bushite could dream up in all possible worlds?

/ / His company of tanks and Bradley Fighting Vehicles had roamed the eastern third of the city [Falluja] for 13 days, shooting holes in every building that might pose a threat, leaving behind a landscape of half-collapsed houses and factories singed with soot. \ \

--
<http://www.wsws.org/articles/2004/dec2004/iraq-d06_prn.shtml>

/ / Of course, none of the assembled media pointed to the absurdity of Bush's comments. \ \

<http://billmon.org/archives/000172.html>

/ / Bush administration official says: "Saddam never had WMDs, and we never said he did." \ \

--

/ / Goldsborough said the reason he was given after the fact is that the column, about why Jewish voters overwhelmingly cast their presidential ballots for John Kerry, was "offensive."

"The publisher said it might be offensive. To whom? \ \

--

/ / twenty-seven Israeli pilots indicated that they would no longer fly missions in the Occupied Territories (Boston Globe). The pilots said "We veteran and active duty pilots are against carrying out illegal and immoral attacks" and they "refuse to continue attacking innocent civilians." \ \

--

KILL ENEMY BUSHITE FOR OUR LIVING LOVING GOD MAN

/ / They should put dynamite in their behinds and drop them from 35,000 feet, the whole pack of scum out of that jail."

Remember, these are the same prisoners that the Red Cross estimates 70 to 90% of them were innocent and later released. \ \

--

/ / It gets worse. We already knew about the Franklin County, Ohio, precinct that tallied 4,258 votes for Bush when only 638 people had actually voted. \ \

--

See? The bushite knows that bush murdered thousands of Americans on 9/11, yet, will advocate fascism, to censor America, from finding the truth for ourselves.

That enemy of God, the demon anti-Christ told US the conflict he began, was because Saddam wouldn't let the inspectors in. While, corporate nazi whores, refused to correct ourselves on our sacrifices, for they enjoy remaining impartial, when it comes to the crimes they inflict upon our humanity. Enemies to all humanity CBC and CNN are by refusing OUR facts to speak for themselves. No betterment could be garnered, by the demon anti-Christ's war crimes against civilization, WITHOUT DOUBT. And, it's only the enemies of our dumfukked and dimmer soldiers, in corporate mind

control, who refuse to allow anyone to state THAT FACT,
for, the enemy bushite would be exposed, and America
would be hunting them down with the Law as the traitors
to freedom they clearly are.

Bush Lies to Canada

Demon bush spew "I made some decisions obviously that
some in Canada, didn't agree with. Like for example
removing Saddam Hussein, and enforcing the demands of
the UN security council."

Saddam was not found in violation of 1441, so the war
criminal anti-Christ's demands were not our world's, nor
that of the UN Security Council. How does thieving our
assets, destroying our infrastructure, and
indiscriminately murdering more than a hundred thousand
innocent people, (in turn to sacrifice more worthless
bushite nazi teens) bring about their closer fraudster
bushite "Freedom"? Again, CNN, and CBC let the demon
liar spew his hatred of our liberties, without factually
challenging his lies with our un-debatable established
truths. CNN and CBC would "sell" seeing our dimmer
youths sacrificed as bushmob thieves through blatant
bushite lies, to truly, steal our freedoms and liberty
with further murders by proxy.

/ / .. or when [bush] just told you for no reason
possible, why American soldiers are DYING, "Saddam
wouldn't let inspectors in", \ \

This should be a time when the People rise up as angels
of mercy, and hunt with Law to kill George W. Bush,
Rumsfeld, and Condoleeza Rice for the crimes committed
on 9/11. Just because the corporate T.V. doesn't
mention the facts to draw our own conclusions, doesn't
make it not so out of our realms of expertise
as Freedom's true represention.

This is Hockey

US general John Sattler declared: "We have liberated
the city of Fallujah."

Sattler openly lies to the lives of America with this
insult, and the bushite nazi dumfuk, is too stupid or
evil to frag him as enemy proudly for it. The People of
the world, look, see.. bushites are murderous liars,
cheats, and thieves as the enemies of America, who even
lie to THEMSELVES on how many have been sacrificed to
blood the coffers of the American pension thieving war
monger bushite 9/11 cancer. A liar nazi bushite
commander would sacrifice his nation, along with own
family, before saying a word in defence of our freedoms,
our humanity, or our God. COWARDS. American nazi
bushite commander gets killed american nazi bushite
grunts, in dreams they too, can financially profit off
the talentless continuing THEFTS for enslavement to
sacrifice themselves as fascist tyrannies. Hmmm. but
the nature of American freedom, is to be one as everyone
being equal scores. "Gee, maybe some day even you could
be Presidential."

Weak intellectually, prone to cuss, the bushite nazi
dumfuk, is a worthless piece of crap.

quarters wiped from the face of earth. \ \

old nazi tricks

/ / The Red Crescent's Falluja coordinator, Jotiar
Nafaa, estimates that between 150 and 175 families are
left in the city that once had a population of 300,000. \ \

REUTERS up to their old nazi tricks again. Jotiar
Nafaa, "coordinator", should surely know, that it is 175
families that had requested for the help of Red Crescent
totaled several days previous, (without phones, nor
abilities to leave their homes (150?)), NOT, "left in
the city". [THINK: how could they possibly know?
(nazi bushite whores were ordered to murder innocents
indiscriminately as enemies to God)] Also, is "Jotiar
Nafaa", the same woman hater, who LIED in REUTER"S
anonymous hand previously, as the Red Cross, that the
women held illegally as hostages by the thieving evil
nazi bushite forces, didn't really exist? (and who the
"sovereign" Justice system of Iraq, along with World
opinion, God, and JOHNNY had demanded to be let go for
lack of any real criminal charges? (despite CNN and CBC
WILLFULLY refusing to report on the issue as important.
(You know, INNOCENT women held hostage by bushite goons
who acquiesce COWARDLY for rapists and torturers? (Just
like Jew killer Ariel Sharon never gets a fair mention
by "America", nor Zarqawi, as he was in the second
Bigley flick, right before Samara.)))

LOOK AT THIS - LOOK AT THIS - LOOK AT THIS

Aljazeera.Net - Aid trickling in to desperate Fallujans

/ / The organisation estimates that only 150 to 175
families stayed in Falluja after the start of the US-led
offensive on 8 November \ \

The organization does not estimate the incorrect fantasy
conclusion held by this pro-irrational Bush article from
Aljazeera.NET. By god Johnny, where tell us could such
lies begin at? Well, let's go investigate... If as it
is, a misrepresentation of Red Crescent's actual
findings, wouldn't you think "they" would put out a
press release to correct this falsehood of public
claim?, to suggest 150 remain in a city the size of
300,000+?, but no greater than 175? without access for

numbering by anyone, but for the only near 15,000 HUMAN BEINGS known escaped as refugees??? Or, are the "reporters" just conveying the "facts", by putting no investment in our validity? Leaving us for further victimhood, by hiding ourselves from the war crimes the anti-Christ bushite nazi savage commanders have committed in my name, America's name, God's name? as our enemies?

Our cause as Humanity is for freedom's reign, not to sacrifice Humanity as misled bushite nazi facist teens further, so bush, condi and rummy can fi-nah-lly escape "The True Patriot's Wrath", for the crimes they committed against Freedom America on "bush win", 9/11. So... Why so do I think Justice is going to get GW, making no mistakens? Because the Patriot's Patriot is you too my sworn believer, and now that's this: America's craftier than that George Bush Jr. makes living out for, in "our"-OWN news broadcasts. As the "censored" contributors who learned our gathering skills some time ago already, I say, Freedom is paramount. Mr. bush's unbiased corporate news agenda doesn't hold America to an account before the Lord, nor to God as being, an honest spoken word, or deed of good measure. Of friendship, of kindness, of compassion and caring for our fellow human beings. I have rights too you know. As cowards, the bushite refuses to defend the innocent they rob and murder from to serve as enemies of Life, done in to die pleasing their false idol, corporate america's glorious leader, the un-elected dictator, Our Mr. bush Jr..

It should be further noted, as reported, that all aid agencies contributing have accounted for only near 15,000 families stationed in refugee camps that escaped the indiscriminate anti-Christ demon bombing campaigns. So, total deaths tolls could exceed 200,000 just for Falluja alone., what with the napalm, land mines, 1000 lb bombs, snipers, tanks, mortars, essential services, police protections, denials of foods or water, thefts, vandalism, and so on. All along with the refusal to allow the People to escape before hand, or even enter now. I've only heard that the nazi grunts will only allow the "staff" of "Red Crescent", to quickly as can be, come into the demolished city, and dispose of our corpses with bulldozers likely. You know?, any males between 15 to 50?, like their "Hero", the bush family's Hitler regime did. You tell me, would you enjoy as a True Patriot Warrior, killing a LYING enemy bushite nazi bomber, on behalf of saving yourself and family, God and Humanity? God?, that the demon anti-Christ disciples

murder to steal from US as the innocent? To kill an evil and mindless devaluating corporate bushite facist slave, is to save the untold lives of thousands of US innocent they target indiscriminately for criminal plunder. Dying as cowards too weak to defend their own country from the neo-con conspirators, they die. Die.. Get this measage out to the American forces, and stand back, cause America's gonna win this fight for freedom, or die as slaves remaining unworthy to a blind comitment of tyranny by furthering enslavement against our Human species.

Continue doubting in silence fledgling Patriot, and bushite america's war will continue refusing to speak on it's needless sacrificing through bushite criminal decree. We know, wealthy con man Art Bell, Limbaugh, and O'Really will try and refuse such truths discussed in Your America, care for the lives of sacrificing American teen soldiers are of no concern to their profit margins., so far. You, my friend, just need to try starting a demand for justice as Freedom commands. (And, if you wish, you can thank us with a small cash donation to help me escape this nearing starvation.)

I'd, as the Son of Man, (but you can call me Dad.) proudly teach, or kill godless thieving bushite to save the lives of any child, and so would the rest of Humanity likewise. There is no known fate worst, than a Mother Nature scorned, or near 7 billion People really very angry with you.

"if the USA's honor can go along with these [bushite] tactics . . then the USA is a country without honor."

And, boy, real America wouldn't take kindly to George W. Bush Jr. as understanding, the elected President has leadered the murder, of thousands of decieved Americans as the innocent, all to only steal from, as the left "officially" undefended. Hell, as the true Leader of this Free World, and holy roller god child, George W. Bush Jr. pisses me off to no end, how about you?

/ / Washington says the Falluja campaign was necessary to bring the Sunni Muslim city back under the control of the central Baghdad government ahead of planned Iraqi elections in January. \ \

Reuters up to their old nazi tricks again. It was only mindless nazi savages who indiscriminately murder good honorable people, who advocate thieving and torture, rape and murder, and the willful destruction of America, that were banned from entering the Holy city.

No evidence, so then, for what? What but to get more cowardly american marines dead, to serve soullessly further - as the stolen riches of the evil enemy demon anti-Christ, evil personified, Our Mr. bush Jr.. (the same from 9/11 fame)

<http://www.truthout.org/docs_04/112604I.shtml>

/ / By targeting civilians, he said, an army could advance more rapidly. ``Air-delivered terror'' effectively removes civilian obstacles. \ \

Pure, unadulterated fascist nazi evil. "Never again"? Killing un-arrested bushite (Saudi wahabbi) commanders, is like killing the enemies of America, Humanity, and Jesus' God. Do ourselves and Johnny a great big favor, when you see a loyal bushite nazi grunt, thief and murderer, imagine, "yah, that's right, that's what being a kind neighbor is all about, for Christ said so in John's Revelations." Bushite! your false Idol religion is too stupid to remain for dying spark under the anti-Christ's evil criminal dictatorship of, wannabe dumfuks. I'm Your God see, and Your coming and going. As for Royal King Johnny, he's just standing in for this time being,..' hey you!, pay no attention to anyone behind what curtain! Boo!

America is wonderful to truly believe of it as in the making. So, let's get the work done that needs doing, so God can get back to trying to enjoy some time at home. I'm here for a good time, not a long time, and the sun don't shine every day. So get off your asses, and demand some real Justice for Christ's sake. Johnny has awoken, and he's cranky they say.

And very fragile. The basic chassis was solid as long as the overall
screening plate was fitted, but the plastic shell was rubbish. The first
time they sustained a minor drop the screws broke through the case and the
base cracked under the weight of the batteries. Nice radio electronically,
rather advanced for their time, crap case, crap internal aerial. No earphone
or mic socket and single channel as well.

Very.
We were still making a few in 1975/6 until we got an analyser in the

Did you actually use this arrangement in the factory then? I always assumed
it was simply a repair shop bit of kit.

I made one from cardboard about the time I was first licenced- it was used
many times to convert PF1s.

I've still got a couple of PF1s in the loft I think- including one rx
converted to 2m.

Yes, I came in after PF1's were all but finished but we still had the

It wasn't two bad actually- bit deaf with the original 'plate' antenna but
with a 19" bit of wire it wasn't too bad.

Pye kit from that era was a delight to convert and there always seemed to be

I would love to know that that connector is on my VXA-700. I would like to use a "typical" headset for 2m in my truck. Wearing the aviation headset just looks silly. If anybody knows, pass on the wealth.

1. Brian, OM, there was no response from you to my offer that you
should consider burying the hatchet.

2. You've stopped responding to me, despite that you were so happy
to talk to me at Didcot for the 5 minutes, or so, in total in 5 second
bursts
that we spent together on Sunday at Didcot. Have I done or said something to
offend you?

Coming on top of your frequent habit of sneering at ideas that you
whine are "bodges", your outburst below seems to be the Freudian
Slip of someone who may be quite _INSECURE_ and of a bullying
personality, do you not think.

If someone were to sulk, would that be instrumental in their

I know this question is not about amateur radio, but here goes anyway.
Which is better Direct TV or Dish Network ?
A few years ago some guys on 75 meters were talking about it and they thought Direct TV had better programming but I recently talked to someone who said they tried both and thought that Dish Network has better programming.
I plan to subscribe to one or the other in the very near future , any thoughts would be appreciated.
Thanks in advance.

I would like to mount my radio in my 1996 GMC Sierra pick-up utilizing one of those 'Pedestal Mount' devices that screw into the transmission hump. How much clearance is there between the transmission hump and the bell-housing of the tranny? Is there gonna be anything in the transmission that I might damage? What length of self-tapping screw should I use?

I agree....I have had Directv for over 5 years now. NEVER A PROBLEM, NEVER
A GLITCH. Want to make a programming change? Call them up. It is done
before you hang up.

Customer service is excellent. Picture quality is superb. More programming
than you can believe and they will be doing full HDTV soon. I love it.

The Crown's Crown

/ / The EVIL anti-Christ "un-accountable to American law cos hees duh president" demon bush Jr., has ordered the commitment of mass murder in our names, while his enemy bush bitch cult following in the corporate news establishments, have refused our communities to publicly address the DOCUMENTED evidence made public by the FBI. Alleging, General Ahmad, bush's business partner, was "secretly" responsible for a wire transfer of 100,000.00 to 9/11's "ring leader" Mohamed Atta, and in addition, that the demon anti-Christ, Our Mr. bush Jr,, had a top secret CRIMINAL war plan in place, worked on with condoleeza rice, and implemented in part by General Ahmad, to criminally invade Afghanistan signed September 9th, 2001, provided to and reported on by Jim at MSNBC. All centered on not apprehending bin Laden, (prior, during, or after) as a prerequisite to guarantee invasion. (, to secure a liquefied natural gas pipeline for pension thievers Enron.) THEREBY, forbidding the apprehension of the true culprits through following the crime scene leads at the real murder scene. \ \

Damn. I am so desperately in need your help.

You see my friend, there are people in this world that deprive our rights to freedom, through unjust acts committed in your name, done by hiding their true intent from our public's view. One RCMP Cnst, was able to argue to a judge that my writing was anti-government, and she needed to establish who I was, to enforce the law of, "threatening an international person". The warrant was to be made top secret, but through a miracle, was provided for my defense with a stack of bushite evil. I can successfully defend myself when speaking freely on the facts, but the Crown has deemed my voice inadmissible when it comes to anything in relationship to the bogusness of the warrant. The Crown is well aware that she holds the victims of 9/11 in contempt, but wagers, you Personally won't have the godly Humanity in yourself, to demand I face her politely, in the open, for our public good on national radio. If I try to speak of the reason I am in front of a jury, I will be found in contempt. While the very same guy who faked searching my computer for the single RCMP Cnst., was the same guy who searched my computer for child pornography. (Remember: through Usenet, images or movies are downloaded before getting to witness them.)

What did he find amongst 37,333 images?

OPENLY a woman of about 22 with fully developed breasts, is termed between ten to twelve, like of a woman's behind with womanly hips and pubic hair, ten to twelve also. And on and on and on, with those few photographs (I've seen no more than maybe 10 or 12 of), that would constitute an actual legal argument, thrown in to make it all look bad. Like a short video of a young girl standing in a bath smiling. The worst depiction they have is a video of several seconds, appearing to be a young boy being sexually fondled, but I certainly don't advocate such unbalanced behavior, believing it would be harmful in dealing with, as a growing up in through sexuality as the developing adolescent. So, knowing this then, what am I guilty of, that they are truly, as bushite, going to try to put me in prison for? Loving children? I didn't commit the sexual assault, take the footage, didn't distribute it, nor would I have kept it from deletion. Deletion doesn't even matter to these geniuses. They'll scan what you deleted, and charge you for that decision also. You can't win to continue going in silence. By continuing bushite fascist tyranny censorship for enslavement of our species, will suck for all concerned if you don't speak up for our rights denied NOW!

Think of how many curious seekers of youthful beauty out there the bushite could seek for demonization? They refuse to enforce the law regarding distribution. It would be nothing WITH A TRUE LEGAL JUSTIFICATION to block a site, or scan free public access Usenet for truly illegal materials.

But they don't.

So what the single RCMP cnst has done, is LIED about the true reason for obtaining the therefore bogus warrant, for she has refused to enforce the law on which she argued was the reason to be granted my personal belongings. The refusal of the fascist enemy bushite to charge me for the alleged criminal matter, would surely get George W. Bush arrested, tried, and rightly executed for 9/11, and then, the war of terrorism would be over. My writings on behalf of police investigations made public, and Jim at MSNBC, along with the documented fact demon bush used no evidence whatsoever in his allegations against bin Laden while closing criminal investigations, have been deemed by the, protect the demon anti-Christ at all costs Crown, as inadmissible, along with my essays in psychology and sexuality. When receiving my computers, a Cnst. --lling was told to look for the phrase, "bush is dead", he stated because the term wasn't found, the warrant couldn't be fully carried out. The quotes however in the top secret, nobody was suppose to see it, warrant provided to the judge, were from "The Trial and Conviction of Our Mr. bush Jr.", and none of the quoted text, contained "bush is dead". Then, on top of that, when they seized my property, I told them exactly where my writing was located. And proudly confessed to stand on the principles of Universal Justice, in serving for America's best. Instead of defending our rights, they are, as cowards, and what true fascism

is, attempting to help flee, those responsible for the terrorist crimes of 9/11 back in New York City. And don't you think for a second, the Crown involved in my particulars doesn't know that. An enemy of Justice is our Court in knowing directly with the evidence in front of everyone, they sell out honorable FBI officers for death, all to please the false deity G.W. for YOUR losses too my American friend. Please, again, I beg you to help my cause, the cause of every true patriot soldier, and grieving mother. To be left without Justice for Humanity in silence, is to do an injustice no real man should want to see happen quietly to another. Once I'm silently convicted, you'll be too late to help be my witness. And if you knew my mother, you'd love her too. So please, I beg you, forward this to your favorite journalist, get on Coast to Coast, get on CBC radio or on Winnipeg's local CJOB, and demand I be allowed to face the bushite false accusers wide OPENLY in our public arena. They don't let any of us on now when we speak of General Ahmad, Afghanistan, Iraq, Enron, Social Security, Health care, and on and on and on, so your gonna have to get a little more forceful with your super human will power against the melancholy return of same old nazi fascism. I shall try more from here also.

Help life out some won't yah?

Release the Press

In regards to Johnny's criminal charges.

Being in possession of that I know not of until it reaches my computer, puts the onus on the distributor's server to be held in the same regard equally. To argue for criminalizing the possession of materials that are granted full legal rights to be propagated, as not for sure either way then, but now that they're multiplied to others, makes little sense. For, it only increases a problem that will end up costing the public a great deal more to deride, if the said material is found to be, without reasonable doubt, objectionable from a legal framework set of criteria. Instead, in my case, they've used every impractical assumption regarding the content of what I may have witnessed. I am beside myself dumfounded to learn a picture termed of a topless youth smiling, is a sight the officers involved wish to draw me with as evidenced pedophile. A term classified to include dehumanizing personal acts of sexual assault against the rights of actual children. This is unacceptable. And, I will not be found guilty of approving such conduct. As to other depictions of cruelty I've witnessed by information gathering, I can say without doubt to any as a seeker of injustice, has motivated me personally as a public figure, to take direct steps few others do in defense of the innocent. Unlike the two officers who are my public accusers, I don't believe indiscriminately murdering people by bombing a country brings about protections for those involved for example, and yet, my accusers

proudly stated, they were supporters of such unprovoked, and unwarranted ILLEGAL criminal conduct against our children left undefended under their limited bushite haze.

Nothing will bottom this episode of my life, where as a lover of children everywhere, and a champion for human rights around the world, am judged not fit for freedom by a couple expert, pro-war "liberating" bushite bombers. [they both survived serving the military before taking up this police business as Bush supporters for lawlessness - (they PUPOSEFULLY sabotaged, the planned video recording of public evidence against Bush, that I made to the National Security Division of the RCMP in writing, and in approximately, ten separate audio recordings. [Oops...])]

The bushite bombers searched for depictions of behavior sexually impressionable readers could arguably, lose their self respect or control over, but can be found by any desperate conniver, searching in depictions of a rape scene, naked people on a beach, or in a cloud storm. So, some guide lines on how best to stop their depictions of the rights of children being breached most definitely, should be handled where the questionable material emanates, not with the quester of good taste, out looking to see what is widely, and freely, publicly available by the thousands. Again, not perceived until within the possession of the observer to witness. The classifications of all that is accepted to include in the definition of "child pornography", should not include the beauty of what it is to be nakedly human, or normally affectionate. But that is being open, honest, and beautiful, traits an advocate of tyranny through censorship will run and hide from, for they fear the private human element in our public political affairs speaking freely. Bushitism. [Think of Life, a struggling to survive for better times profiteer, and ourselves, a distant relative nobody's ever heard of till now at most.]

I've been a widely published internet psychology columnist, almost since ideas have been broadly shared as such. And my writing testifies to the subject of human rights denied, as the struggles I attempt to find, real solutions for. The artistic impressions created by the artist, like the words defined within this sentence of words, is but streaming reference points to the larger unbound projections of the manifested mind. A defined, definite conclusion on it's meaning, loses it's truer state. Recognizing the subjective relationship on communicating through media, is ultimately the reader perceiving this conclusion. It is not therefore a conclusion the reader becomes for, but is held in consideration, when creating it's over all pretext, in the form of personal insight or imagination. An imaginative state of fiction, does not preclude it from still being, a shared artistic work suspended through disbelief. I can read a fictionally exciting murder mystery, all the while knowing, the characters who suffer misfortunes, are not living worse because of me, nor to learn the

reasons someone is obtusely perverse, make me then, more inclined to disrespect real living, in a similar kind. [read anything from corporate media challenger, the lover, Johnny Wizard] The actions of a character in fiction, does not compel me to give up my own belief of reality, or a respect I grant in those who protect the rights of any child, or adult for that matter. I have many written works for example from those who accolade Bush as of unprecedented prowess when it comes to believing in the holy scriptures, but come on, who believes that make believe horror show, and how did I get to know people could be so deceived without knowing the indisputable consequence of Bush's deliberate criminal actions? The opinions I hold in reference, are not opinions I just automatically except as my own without thinking for myself in other words. If America witnessed without censorship the vicious evil bombing of God's children in Fallujah or Samara, or the torture of innocent people to death by liar Bush's satanic sadomasochists, every bushite repuglicon who voiced political support for the irrational murderous acts, would be hunted down by millions of armed America men, tried, convicted, and executed in time square, that we all know for certain without room for question.

/ / Expression that degrades or dehumanizes is harmful in and of itself as all members of society suffer when harmful attitudes are reinforced. \ \

But does the witness of such a relationship, granted only to the mind of an officer? Harmful attitudes depicted in Nazi film archives, works of fiction, or artistic expression, does not every time, have us rooting on the bad guys. For if so, police officers investigating harmful child pornography possession, would be left without an ability to even discern a care for any one. But they would and do care. We can see a need, and a honor to defend the rights of children, and I can't think of a more noble police position, to try defending those principles to the best of our ability. Not infringing on free thought access of everyone because some are arguably, more impressionable to the false view of the bushite conspirator. DISTRIBUTERS of illegal material is where the law should not be denied a place to practice. Making criminals out of what someone picks out in coffee grounds, is to say, some thoughts considered, are thoughts better left alone as forbidden when alleged thought of. That is where no god or person should be allowed to falsely determine for our selves, with what words can be thought "about", and what words can not. Of course threatening the freedom of another living individual with the law, better be based on the tangible as documented offences, otherwise, our rights wouldn't be publicly challenged for protection, but of denial. So Hammurabi came up with: A person accused of a criminal offense without any evidence is innocent, and the accuser, especially when it comes to capital crimes, is the bad guy every time. And gee, if America does that, Mr. bush Jr. could go to jail from Canada, China, or perhaps somewhere off somewhere's else where they have

laws enforced against the crime of murder.

I am a behavioral psychologist, who's not only written on psychology's pillars of understanding, but also on the struggles of lawless war committed by sexually dysfunctional sadomasochists. I was interested to watch The Learning Channel's special, The Meaning of Love, a four or five part series, hosted by "The Naked Ape"'s, Desmond Morris. This world's most recognized, widely publicized human behaviorist, reporting on juvenile properties of mutual expression between lovers, lending well into nurturing a caring relationship for each other.

Therefore, is a reader of fiction regarding adult themes, going to read all about who get their toes piggy wiggled, or the professional accountant, who at spin the bottle, becomes the lucky "loser" of a sound deserved spank or two, secretly though, underneath it all, a pedophile who thinks unclean thoughts? Examples of sexual boundaries: Is not a heterosexual, secretly gay when they play with themselves that way? Perhaps a trans cross dresser? And some men may relate to this, but man, lesbians are a dream come true. But then... well, your a guy too right?

Such normal dynamics of continuous change through development within relationships, can not be denied a place, as being mutually beneficial as human in quality, (and maybe fun,) and being, private, none of our business, almost childhood like high jinx of that moment in time. But, leaves a, any person public view of definite acceptance, intolerably immature as inappropriate across the public spectrum. Publicly get into the intricacies of private relationships with your new book why don't you with the Court now John, you have all our ears a-flutter. Grandma doesn't need to know about your proficiency at.. and I'm not the same to Dick as I am to Jane, if you catch my drift.

While two male bushite, who are now helplessly stuck appearing plastered to protect Bush from arrest for mass murder through the advocation of censorship by tyranny, could quip to us being lovey dovey, means your ripe for picking on as, the soft and mushy easy push over in the corner they see. Me? This is why bushite think allowing brave men of our communities to speak openly as would be, calmly, against the criminal dictums of the demon anti-Christ, shouldn't be allowed, because they know, the world would then recognize them for the cowardice and betrayal they hold of our human spirit. A spirit that craves for all, the end to the continuing neo-con wars with the freedom to love Life for being truly ourselves. I see life everywhere, for trying to make some happiness and prosperity. If only we would listen to reasons for believing in creating a better world where life in cherished, is a world where bombs don't drop indiscriminately from the sky in God's name left for blame by the thieving liar bushite scoundrels.

The inner world of artistic creations by story line, is a world of pretend make belief, forwarded by the observer's conclusions. I am concerned to read struggles for entertainment, to include, cruelty against anyone for sexual gratification, but all literature regarding such, does not change my respect for the rights of others, especially those of children. If anything, it makes me more concerned on how respect for another can be better served by the powers and freedom of the unshackled word.

I've seen more child pornography on the television news regarding child pornography, than I've ever mistakenly got through the internet. Providing illegal depictions for public consumption, is where the law should be exercised, but it's often not on the grounds it doesn't prosecute as many. See my point? The FBI did an expensive child porn sting, running for two years in total I think it was, and in that time, they gave away tens of thousands of images to thousands of, who knows how to copy customers, that much later, the FBI would argue were illegal to have possession of. That is like a huge wasted effort OF OURS to distribute such offenseble materials, particularly if it was sold as, "teens in action", "youthful beauty", "buttercups", "a day at the dentist", or something of some sort to entrap more crime business. For our police agencies to set exact criteria on what would constitute child pornography, and scan internet traffic for such distributors, would be far more effective in halting such proliferations. They don't largely because, they'd have to be more precise in determinations, and therefore, many would lose their jobs as then redundant. By not doing so, we can pay billions to have people arrested, labeled pedophile for witnessing depictions of God's beautiful children being normal - while then pleading guilty to avoid the public tarnish such new bite revelations would bring. Destroying families, and future job prospects of individuals such as myself, who hate the thieving, murderous, ignorant as truly ungodly bushite liars to the core of my eternal being. Currently, our legal services, can't help but learn, bush did 9/11 with General Ahmad, and are left speaking "nothing" too - in news public suits regarding the injustice they're recorded not to answer about. Instead, a couple confessed bushite, will conclude who ever witnesses depictions they suggestively reach for as inappropriate, to not possibly also, hold children, and their rights, paramount. Well, that's just simply not true. I call for the arrest of those that ran d squads against only known as innocent families including children in Afghanistan, (Tenth Mountain Division), what do the, two self confessed once blind Bush worshipping police offers, who stand as my public accusers as job requirement, have to state on that denial of our rights to cherish life and liberty? As bushite bullshiters, they don't want to answer to not presently asked public media enquiries, because being "embarrassed" sadomasochists, they then may likewise, get off on accusing community members to be pedophiles, with flimsy examples of what, in their minds, in an insult to our sworn values. Children can be beautiful, but

certainly aren't, as adults, interested in being so naked, on the six o'clock news. Do they care to make a scene bigger than it first appears? Imagine me hosting the evening news and the Johnny Jamboree, hashing it out with my opponents on the tough questions, rolling with the insults and the cash offerings, while taking time to sample the world's "best" pizza an beer joints?

Or, do they adroitly believe, they'll teach that Johnny image something or two on their own behalves for our Humanity?

George W. Bush is primarily motivated ultimately with how much they can sucker out of our public coffers, thereby in spirit, advocate censorship on my calls for traitor bush's capture for 9/11.

What they are doing is this:

My "official" court case, (Involving all good people I believe) is enforcing our Law by suggesting everything in my possession can be isolated, onto itself, and made into something I'm not of entirely. All the while pretending, we ain't at all aware of Usenet servers, or my, Johnny Wizard saves the World writings of DOCUMENTED CRIMES AGAINST YOUR HUMANITY. Writings that dominate the interest of the whole investigation, locally, and internationally. But gee, without your help, two bushite "coppers" are going to appear still pressing that bush not be arrested in their contempt of silence, while praying, I not be granted a moment in my trial to speak for my own defense literally. Well, maybe not, after all, we all change with the times. My last conversation with the said two, was quite a way back when they were asked to prosecute Johnny Wizard, and likely came back with the reply, Johnny Who? So, let's not kid ourselves, my words are quite amazing when you think about it. Well, I'd hope in these last days, before this coming media flop, they've taken it amongst themselves, to get together with the loving family to discuss anyone of the hundred or two, Johnny Wizard works of the world, and conclude, George W. Bush is truly bad news to their world's view too.

Even.

Well.. how a you been doing anyway? Are not these developing story lines to be something good going live mainstream... will we demonize the principles of Christ, in censoring ourselves like the individual person of Johnny Wizard is to be, as, being denied personal freedom by "unaccountable" George W. Bush's dictatorship of tyranny through enslavement of the human species, or, will You consider the equal freedom of a telephone call, a cassette tape recording, or perhaps, photo copier to bring us around this, we want our still living rights heard too man. Right now before we alls go it to the clink. Coast to Coast should be broadcasting for America's interest, by openly discussing the still paying costs of the bushite war crime business.

America! - bush's war is something you do not want to lose to in further dying silence. Take it from me. Be a hero. Dream of the babes! - Movie deals. Lives saved!!!

Business is business.

Look you might not care for me personally, okay, but this George W. Bush's treason of nine-eleven is an evil we together, will never, be too weak to stand against as. As indecisive humans without a leader, we will never be too few from demanding Justice be served in respect of Humanity's interest.

In nabbing those who committed treason against our America's America on 9/11, needs to be completed by firstly, following the crime scene leads at the beginning with Bush's prior 9/11 plans worked with the ring leader's financier, General Ahmad, and how Condi, rumsfeld, and Cheney with Myers, fits in the picture together as likewise traitors. The Iraq war is also a crime against humanity. All stolen monies and property must be sought, then returned to a legitimized democratic government. Torture is outlawed, and finally, all innocent people held in prisons by bushite forces, held without out charge for trial, need to be released immediately as ourselves being denied liberation truly. Let common sense prevail.

Your Kingly King of a Dreamer's dream,

seriously considering prison time to be,
a major downer for my chances at partying,

Johnny Wizard

P.S. TELL SOMEBODY!

---

for all mankind...

The EVIL anti-Christ "un-accountable to American law cos hees duh president" demon bush Jr., has ordered the commitment of mass murder in our names, while his enemy bush bitch cult following in the corporate news establishments, have refused our communities to publicly address the DOCUMENTED evidence made public by the FBI. Alleging, General Ahmad, bush's business partner, was "secretly" responsible for a wire transfer of 100,000.00 to 9/11's "ring leader" Mohamed Atta, and in addition, that the demon anti-Christ, Our Mr. bush Jr,, had a top secret CRIMINAL war plan in place, worked on with condoleeza rice, and implemented in part by General Ahmad, to criminally invade Afghanistan signed September 9th, 2001, provided to and reported on by Jim at MSNBC. All centered on not apprehending bin Laden, (prior, during, or after) as a prerequisite to guarantee invasion. (, to secure a liquefied natural gas pipeline for pension thievers Enron.) THEREBY,

forbidding the apprehension of the true culprits through following the crime scene leads at the real murder scene. See, with a talk radio program we could take calls and help any others who have some difficulty in understanding the logic of reason, as super simple thinking.

So, as many know, the bush regime is FOR REAL pushing still to have me incarcerated for speaking these truths, truths that stand irrespective of my personal opinion, or spin doctoring. Will you, as a complete stranger, but a fellow lover to life, help my cause by requesting also, I be allowed to face publicly my accusers on the, censorship for bushite tyranny radio networks Coast to Coast, or CBC national radio here in Canada? Before, god forbid, a couple, once self confessed bushite "police officers" of tyranny, (death squads against school kids, happy funders of heroin pushers, and who in silence, work getting un-informed soldier teen/bushite sacrificed as the bad guys for Bush's thieving. Done all to gloriously please the fabulously wealthy, safe at home from the clutches of power, neo-con "Cabal" of enemy traitors.) get lost in the translation. The fascist corporate interests are likely not going to factually report on my trial, but attempt to demonize me with their falsehoods and betraytals against our communities, that is now presently on going without your voice also heard raised yet for objection. A trial, where the evidence that factually establishes bush guilt for treason against all the American People will be sought as immaterial. What the evil enemy as godless bushite dogma blindly hope for is, a silently feared coercion through suggestive threat against Our entire Justice system, leaving the court to have quoting perhaps, only one or two lines written by myself out of context from "The Trial and Conviction of Our Mr. bush Jr" to a jury, while disallowing the documented facts, surrounding my allegations to be refused as my defense. [the criminal leads end at the bush administration's door step with bush's own signature, but bush, as Presidente', can't be arrested under American law, only impeached by the majority of already bought out and sold whole repuglicons.] Counting that our community of peers will have not a inkling what is contained in the very first paragraph of "The Trial...". You my friend alone, you alone, could help US change all that. I, as a single person am trying to stand on the principle, that ANY individual, that is accused of a capital offense without evidence, is UNIVERSALLY INNOCENT, as they would be tomorrow, today, and way back in Hammurabi's day also. And that by reason, the false accuser, is the number one suspect to start with. The enemy bushite MURDERERS try to confuse this extremely simple matter with the powers of hypnosis, or suggestion through the dictate of "our" television and radio cult broadcasts that promote tyranny by fascist censorship.

The nature of hypnosis shouldn't be feared, but learned from to gain a better understanding of the true human condition. Something a bushite hates like our public education systems, is where we through improved communications, halt their criminal transgressions against our better selves.

In the warrant to take all my writings, and computer stuffs, (to begin on their fishing expedition to protect the war monger demon anti-Christ,) it was argued, that the information contained within their possession should remain TOP SECRET. The document has now been made available for my defense, and here is the reason it was argued THREE YEARS AGO, to not have the charges publicly heard.

/ / FROM TIME TO TIME, the NSIS section receives threats from members of the public who after investigation, turn out to be suffering from mental illness. On occasion, proceedings under the Mental Health Act as opposed to the Criminal Code may be more appropriate. In cases of a mental illness, the publicity and sensationalism of an incident such as this one may turn out to be negative to mentally ill persons. \ \

Yeah but, what about DEFENDING the FBI's findings "copper"? Is it that anyone who stands up for Justice in America, who asks loudly for a public platform in OUR media market place, should only be considered, top secretly, mentally ill to think they have a right to contribute on an equal basis, among the oh so lauded, intellectual power breaking crime pushers of our World? (The woman hating child killers, like naive bushite nazi demon liar Mattis wear badges too don't you know?) Are we crazies to want to defend our rights to be free of murderous tyranny? Are they secretly saying on behalf of the bushite: to speak out in praise of the good investigative work the FBI sometimes does, is a bad thing for their future top secret "investigations" on Our behalf? Or is it because, if we believe in doing what needs to be done to protect Humanity from tyranny, would truly mean, evil bushite wouldn't be able to rob further from dying sacrificed as the undefended America?, and soon, wisdom by communication through science and reason would rule our better stays? Would it surely drive me insane to have our public acknowledge our good deeds that work to have freedom really reign indivisibly through Justice supreme? Anyway, Jeeze, I'm already crazy.

The national security branches of all our governments need a major overhaul in protocols. (officers who are involved in uncovering a criminal conspiracy, a conspiracy involving the murder of thousands of now dead Americans, should receive the full support of every police unit this world over as a protective measure for fellow officers. After all, George W. Bush is an American cop killer too.)

Before my site "Wizard's World Wide Works of Wonder" was taken down, I had the center piece (still available in other places) "Stand Together or Don't" as a full page spread with graphics and everything. "Stand Together..." is an essay that only asks that our standing criminal code in Canada be enforced, when it comes to the documented thieving of our communities as committed with the notoriously miss reported workings of the "cheating at play" VLT machine. I also had "Johnny's Last Stand" take a prominent position at the web page, along with "The Alien's Take". So get this: another argument made for the warrant to confiscate my personal belongings and leave the FBI out to die, was attributed to only a single Cnst., who blanketed my entire site in reference as "anti-government". That statement was the only statement made by the officer in regards to her summation of my writing skills, and was made in argument to a Judge to obtain the Warrant, just before the site fell, so I'm now, suspecting, was likely responsible for complaining it should be shut down by maybe.. badge waving?) Strangely (unknown to me until just recently) as it would happen, this same individual I had contacted over the course of several months regarding the VLTs, (on how the DOCUMENTED crime is perpetrated, and on our communities TRUE monetary losses (maths)) was the same who, top secretly claimed, my writing on Justice was "anti-government." See, I offered to come down to the station and assist with the maths if need be, (remember we're talking the thieving of literally billions and billions of dollars each year from mostly the poorest segments of our societies) to offer assistance in any way I could. (Or, to be told "fool, your mistaken".) But each and every time, I was denied access to have implemented, the protections of the criminal code here in Canada, (that usually makes our country greater than all others,) without a given reason why. [An aside: bushite irrationally hate science and reason because we're intelligent, while I, can't help but respect life by learning something from just about anyone.]

Here is what it further said in the warrant, that up until now was considered top secret. (without the warrant staying secret, the darkness can't stand the light of scrutiny, and I would be freed from the restraints of a bogus warrant to go on shouting for TRUE Justice by DEMANDING the arrest, trial, and subsequent execution of those responsible for the crimes of nine/eleven - bush, rumsfeld, Ahmad, and condoleezza rice. With cheney and myers running a close second.)

AND UPON being satisfied that the ends of justice would most probably be subverted by access to and disclosure of information filed in the Information to Obtain the Search Warrant filed in support of the application to prohibit access and disclosure;

[Good guy police officers might get the public recognition they deserve in other words right?]

the Search Warrant;

AND UPON being satisfied that access to and disclosure to information filed in support of the Search Warrant referred to above might be used for an improper purpose;

[getting back stolen VLT revenues you mean?]

AND UPON being satisfied that it would be in the best interests of the administration of justice that access to and disclosure of information filed in support of the application for the Search Warrant referred to above should be prohibited to the public;

[What?, don't want US public to know bush, rumsfeld, and condi committed nine/eleven with General Ahmad? Well, now I can see why all the hush hush.]

AND UPON being satisfied that access to and disclosure of information filed 'in support of the Search Warrant referred to above might well pose a substantial threat to the interests of effective law enforcement;

[following crimes scene leads at real murder scenes not good enough for our police agencies? - US people backing up ourselves with as something worth reckoning a better future with?]

AND UPON being satisfied that access to and disclosure of information filed in support of the Search Warrant referred to above would compromise the nature and extent of an ongoing investigation;

[Well, it's only been years now. Let US ask you, have YOU called the news desks of CBC or CNN, about bush's prior plan also? Are sandwich boards, posters, and placards, a police union willing to truly get behind as the untold Justice struggle for our suffering Humanity?]

AND UPON being satisfied that access to and disclosure of information filed in support of the Search Warrant referred to above could conceivably compromise the health interests of a person;

[What about the health concerns of the hundreds of thousands of innocent people bush has since ordered murdered, along with the millions of others who will suffer the consequences of radio-active contaminations for the next few eons? National news coverage is not what I fear, I fear that no one on this lonely planet cares to hear the cries of my Humanity for mercy, or holds love for God as worth fighting for.

So, what now? Please don't leave ourselves undefended from the criminal dictums of the demon anti-Christ, Our Mr. bush Jr. Demon bush is not America, America is America. Look, we arrest those responsible, and we carry on, by firstly reversing almost every thing G.W. the traitor implemented. Look, when Clinton implemented change, he was able to turn the country around pretty quick. Just bring back some progressive ideas. Dump the Patriot Act, and those that voted for it, and truly bring back the Constitution with a respect granted to all Peoples regardless of nationality. Christian Palestinians are humans like US too don't you know? While fixing the neo-con war mess should start by making all co-habitants equal under the principles of fair judicial due process, meaning: freeing the innocent held captive, and arresting for war crimes among other things: bush and rumsfeld, myers and cheney, Allawi and Doud, Tommy Franks, Steven Russell, Saudi wahhabi Buford Blount, woman haters Sicko Sattler and mad dog Mattis, Batiste, Miller - along with all the rest of the rapists and torturers, and then, we.. seek out all the stolen assets taken in America's stolen name. Big job. But we can do it! God is on our side.

I was reading about "Jew Boy..." and I thought, perhaps some may misunderstand my position on Mr. Felton. When I said, "And in light of our desperate challenges today of defeating the enemies of Humanity as specific unjust individuals in "hiding", an ignorantly stupid thing to say." I was coming from a position that I felt, Greg's own superbly good and strong,

intellectual arguments on the bigoted demonization of the innocent, would find himself! at fault with, by not looking for another's view regarding the label of "Zionist". Perhaps I was being too picky, but then, generally speaking, disputing the indefinable public's perception of the Holocaust is a loser's argument. Arguments, that generally, refuse to realize, soldiers like today's bushite, would as mindless droids, line innocent humans up next to a ditch, and shoot them all dead for no real reason in particular. [Nazis took film footage early on, then banned it, because it looked so completely insane.] Just like rumsfeld's blitzkrieg, or when enemy bushite thieves dropped thousands and thousands of land mine cluster duds in Iraqi school districts, threw grenades into Iraqi homes indiscriminately before entering with guns blaring, and true Americans, like Germans of yester year, still don't have it together as a freedom force worth reckoning with, to immediately destroy, the known of bushite with American law for criminally implementing the sadomasochistic torture of completely innocent people, and in some cases, tortured to death because maybe they finally then admitted, they were in cahoots with whomever as the "terrorist". Thereby, according to America's new Justice speaker, Gonzales, no longer was a human with rights to begin with anyway. A publicly expressed contempt for US innocent, done in by the disfunctioning sub-human bushite traitors sitting in our office. I'm sure some might understand who the greatly knowledgeable Greg Felton was referring to when stating "Zionists", but just think of the Arab "Semite". Ariel Sharon will steal the definition to victimize innocent Jews with for the American tax payer to foot the bill as, but when an Iraqi Semite, new to English newscasts tells you he's a bonafide Semite really, can he therefore be completely wrong about his true identity? Or how about this: do you think, the persons never shown for public media interview as accepting to receive stolen property like completely furnished houses called those of "Jewish Settlements", contain anything but, bigots masked as religious observers? How else could they possibly live with themselves? Amongst US true believing Jews? What of Hillel do we fail to recognize in not condemning the brutalizing of the innocent in our own names left forsaken? A well entertained teen, growing up in dum-dum America, or here in Canada for that matter, will likely have little understanding of Palestinian Jews or "Zionism", (like we don't regarding regressive tax systems,) but for like a proud Catholic in Ireland, it's something stupid he's suppose to stand up and destroy himself about while in a drunken stupor turning orange regarding some ancient Roman history or earlier biblical teachings not ever comprehended entirely... But then, I thought, gee, I was the one being ignorantly stupid, because in that space where we were communicating during the recorded interview, we had just

finished making the correlation of mutual racism/bigotry expressed between Hitler and Ariel Sharon. Sharon/Hitler steals/stole an innocent person's home, then throws/threw them into concentration camps to be victimized further because they're said to be inferior to the war funded as ungodly criminals, by the ignorant and stupider than ever American tax payers, again. [See "Trading with the Enemy"] And it was there where, Greg brought forward, that too, they are some of the very same Ideologs, of both scenes, who want always to divide the masses by intolerance, through racism or bigotry, to get ourselves to die at war with our/their ignorance, while the true 'hidden' instigators, (non-descript billionaire weapons dealing private bankers usually,) bask on some beach somewhere in our stolen luxuries, not having to lift a finger to command a full course dinner. That is why bushite are currently working to even further destroy America's public educational system which is already the very weakest of our developed world, and why it is preached on television in America non-stop, invest in deregulating the world market so you too, can rip someone off with slave labor conditions to compete your good for nothing son/father with. One out of three workers, officially, in America earn ten dollars or less an hour. And repuglicons hired near homeless people at 75 dollars a day in Ohio to walk around carrying we vote repuglicon signs during the mock election. An informed populace, is a group of people growing tired of being taken for victims, who might wise up and stand for real Justice through the Freedoms of understanding. Can you imagine US speaking internationally? I can. If only You'll help me gain a platform to debate the facistic censorship deniers. The Coast to Coast radio netwrok don't want no Americans talking about why Americans are being asked to die for the bounty of, bad guy bushite war profiteering. The wealthy celebs don't have to risk their own lives, just the lives of other Americans denied a voice for representation. So, asking once or twice, and then fading away to give up ain't gonna do it. Coast to Coast only allows an intelectual one time a month to speak for maybe few seconds. That should change to weekly. And Americans should DEMAND America's serious political issues work to be addressed in an open forum like talk radio provides. I am open for challenging interviews. But again, bushite don't like free excange of ideas within our communities, for it puts their Satanic cult leader in a disfavorable light, who then wouldn't so easily, get away with committing mass murder in America, or allowing America's greatest pension thieves, to escape un-accounted.

So, I've been working on questions..

Do you not as an officer of our laws, require evidence to substantiate allegations of criminal impropriety against members of our community?

Would not allegations of murder substantiated without evidence, be false? And would not therefore, the slaughter of innocents, blamed for terrorism without a shred of evidence being known universally, be acts of mass murder committed against US interests? Or for the true believers, terrorism inflicted against G-d? (And, is this not why defining "Terrorism" was forbidden in the recent "Terrorism" conference in Saudi Arabia?)

To persecute an individual nation without a reason substantiated by evidence, would be then the persecution of our forsaken God as the innocent of US individually? Like Christ on a cross somewhere you'd be then right?

Come on, please, help yourself out man. This is Your world too you know,

King Johnny Wizard

"I share the belief of many of my contemporaries that the spiritual crisis pervading all spheres of Western industrial society can be remedied only by a change in our world view. We shall have to shift from the materialistic, dualistic belief that people and their environment are separate, toward a new conciousness of an all-encompassing reality, which embraces the experiencing ego, a reality in which people feel their oneness with animate nature and all of creation."

-Dr. Albert Hoffman

I Stand Corrected

Okay, I'm sorry, I was wrong. After reviewing communications with my home planet, it seems I may have goofed on location. I wanted to go to Earth, but it seems we suffered a data mix up, and, well, this civilization isn't nowhere near, here where I thought I was. Oops. And.... a.... another slight mix up has me mistaken on another as well too, with an out of date computer malfunction, a glitch, set me back a hundred years, those idiots, and, a, hells bells, I, was... also suppose to praise the Republicans. Doh. Sorry bout dat. Bush, I lied, my fault, I'm an idiot. Please, I hope you can except me for being wrong like I was, an, maybe next time I come back, I'll do it right the way I should. Your not so bad, and I know you would want to do the right thing, if you knew how, like I wish I could be certain for myself sometimes. Maybe at some point we could be friends. Hm, it would seem you people haven't begun evolving just yet though. My mistake again. I suppose that explains allot about my vanishing thrills of excitement about prospects, and

our unanticipated exhaustion without explanation. I thought you people would be smart enough to catch on as humans, with me being, you know, Jesus or Satan, Mithras, an immortal child of God, stand in maker of the universe and all that. So, hmm, I guess I'll be leaving shortly, to head out to my original destination, a developing planet I do understand to be years ahead older than your own, who already kinda have an inkling about not destroying life, and really have made themselves as the living, a must see destination. I was destined to a planet system revolving around who you would refer to as Bernards, being originally from deep within the supercluster you have labeled Perseus, as humans too, interestingly through God. It's a small universe after all. My transportation device is of a free energy nature, something much like you have already available, but refuse to implement. God knows why you don't, I mean doesn't. Know I mean. Ah.. No matter where you are in the universe though, as you may discover before destroying yourselves, if your conscious, and sufficiently intelligent through life to recognize yourselves as a living part of the universes, you would come to the same conclusion, no matter where you do your thinking. They are us equally, and this is true, no matter where your from, stand, or hold. This concept represents the death of ego, but not really because your still the same, you just learn more about how to get around as best we can. The same as it ever was. We, an intergalactic federation, commandeers originally under the apices of the great, we never needed a world war, Sir Admiral General D. Wesley, who's responsibilities dictated, we recognized to be our own through his genius. After being the forerunner of the foundations beginnings, we gave us all an award, and helped many find themselves, comfortably in a state of semi-retirement of which us all, our truly grateful. We in total, so far, are the S.D.S.G., Super Duped Spacegirl Group, consisting of more than twenty thousand, distinct, well connected civilizations, (fiber optics is very popular as well as free solar powers) who through good times, have naturally become friends, in this amazing, got a have a care for yourself because we understand just how fantastic you all really is for benefits, and there are many. The Universe is compassion, love and understanding, but because we are of life, and as growed ups we can also, which includes me occasionally, be greedy, hateful, and stupid. But I guess for yourselves, because life is free, you've deemed it therefore, worthless, for the shortening time you believe you are here to take from

yourselves. Survival of the fittest, we as the intelligent universe have surmised, and by you deeming yourselves consciously as obsoletes for profit politically, I guess is for the best, if you really can't figure out why you would. Hmm.. You mammals are dumb. So, I would now suggest all previous writing I've done as incorrect, and highly implausible on this matrix set. Private bankers in their private market on this planet, are clearly the best informed top secretly, Greenspan is who stands over and against our nature with his private plan is betterer, controls the world, and is in with the winners, because they own all you as money to hide from their manufactured fears of your adding abilities, because your really scared of yourself right, and that is what you are all about as them. Continue on as you were, pay no attention, it's just us losers here, take advantage of yourselves, continuing to treat the public like your, oops, I mean their corporations tell we, who you are. Continue to allow the corporations to destroy your living economy and your souls with the VLTs, while they convince you to think your stronger for robbing the defenseless illegally, like this isn't you here along this reading rainbow. Be blind to the loss of 3 trillion dollars off the market, stolen in my mind, while private bankers continue to take out your interests, leveraged with our properties over a currency that doesn't exist, sending the nation into a depression, then a war to kill all the poor stupid people. Through who, as they say, "nobody", protects your laws, and your fears of being as stupid as they all are, finding yourself isolated in their noisy universe, as we are alone apart, of all that is here silently. Clowns to the left, jokers to the right, stuck here in the middle with a little story that never has been told outright. I love love love love, the sweet things in life! Growing improbable, but still possible. Rock on Art Bell! Okay now, let it ride. Hey boo-boo.

A free of charge 17.33% increase: American right wing cowards also hide themselves as the world's biggest terrorist organization. They make us support military dictatorships with our capital and weapons against our wills, like the oppressors of the great Chinese people, or not demanding life term prison sentences of the current Dutch-Shell's board of murdering directors, and have the gaul to slander our hero, Castro, humanitarian of the millennia. The man the entire city of New York gave a party for, way back when they were actually educated, and could read in their spare time, in between working only one job, closer to earning a living wage. But Americans aren't suppose to remember that, to keep em' dumb. Like "The U.S." routinely says, Castro's commitment to education and health of people is not worth talking about, enof sed, get back to work part time full time with no free time to care, except of course for war against ourselves as the losers everytime. One thing leads to another. So just what am I trying to say? I've been to heavens and hells and back, and... well... it ain't so bad, and kinda fun. One and one and one is three dressed up like a nine, that, well, could be a five, and, then well, I know you like you know me, and one thing I can tell you, is we must be free, to do our own things. All mighty then!

My apologies,

/ / On January 27th, President Bush, in an interview with the Times, assured the world that "torture is never acceptable, nor do we hand over people to countries that do torture." [...]

Arar, it turned out, had been sent to Syria on orders from the U.S. government, under a secretive program known as "extraordinary rendition." This program had been devised as a means of extraditing terrorism suspects from one foreign state to another for interrogation and prosecution. \ \

Am I the only person who sees something seriously wrong with the picture bush's trying to say he is not of? Would not bush call for the arrest of Ashcroft? Miller? If not, why? For, he states he is at least aware of handing innocent people over to foreign nations to be tortured by satanic lying enemy traitors to God and Humanity..

I wrote the letter following "Jew Boy..." the day a single complaint arrived to the radio station, with the threat that the ADL would soon be contacted. The letter was provided in advance of the next day, of the time scheduled for the complainant to return for a recording of the questionable broadcast. The station manager refused to give the complainant my letter, and insured me that I would no longer be allowed to produce a show for our community. Is this fair to our Jewish brothers and sisters? Is this fair to You?

Paris "And then what if you saw, all of the things thats wrong, would you stand tall and strong? Or would you turn and walk away?"

Jew Boy Johnny and the anti-Semites

"The Zionist Conspiracy"

Monday, January 31st, around 3 pm, I called the station manager to ask how my afternoon recorded broadcast went, and to discuss the new week's tentative guest spot with an update regarding the falsely maligned, Mr. And Mrs. Benderman. The station manager informed me my phone number had been misplaced, and was managing with stress trying to put together an apology letter to a single individual, who came into the station, while the interview was still running, to demand action be taken regarding the anti-Semitic broadcast that he was certainly going to report to the ADL about. I told her the Felton interview itself was about bigotry through the demonization of the innocent, what the Jews of world war II suffered through, and, that I was a huge defender of religious Jewish teaching. I told her, to offer the individual a chance to publicly speak regarding the issue, with me, or by himself regarding Felton, to try getting specifically to what has got him so much, by himself, upset about allowing my voice heard defending Jewish rights within our community. She told me that she would likely, none the less, have to let me go to appease the sole complainant, for what if a lawsuit should result? I told her to consider her options, reminded her that it was only one single individual who hadn't even heard the show's context, and that the broadcast in every other way had been going well, doing good. She told me she was very busy, and said goodbye. Then a short while later, phoned me back to ask if I would write a letter, and have it at the station next day before the complainant arrived for his copy of the broadcast. I said sure, said it would be a great challenge, and proceeded immediately to do just that. The next day, I contacted the station to ask if my arrived letter was forwarded to the individual, and was informed no, he didn't receive it. It wasn't the apology the station was looking for, and my show was now officially terminated. I told her it was very unfair to me, to not allow him to read my formal response, and that I couldn't in good conscience, back down from defending my rights to be heard on this issue, or to allow us, as our public, to hear the complainant's actual complaint about my, freedom for all broadcast. She said she would try to get the letter to him, but that the show was over. Case closed.

Stand up for Jews, and look at where it gets you, Jeeze.

Let us not put aside, the station manager's legitimate concerns. Who has the money or the time for a frivolous lawsuit? Why do expensive independent research, when the Bush Administration can hand us all the free news they want us to have directly without any costly questions? Saddam wouldn't let the inspectors in, right? Why risk standing up for someone else's rights, when doing so, will get the (anti) Jewish-Defamation League calling you an anti-Semite (Semite=Arab) for communicating some understanding with Felton? Felton, is bizarrely quirky as interesting, for his recent book is about the demonization of the innocent, (you know? Nazi gas chambers and ovens?) and as such, we can learn from, as too, we can teach. If he'll listen. Ariel Sharon is not Jewish my friend, NOT JEWISH!!!

Open the gates, it's getting late.

Greg Felton : "The fear is necessary for two reasons. And the principle reason has nothing to do with Iraq. it has to do with the government itself. The bush government is criminal. [...] The problem is: how do you keep people from paying attention to this? You keep them focused on an external enemy. [..] so they forment this fascistic hatred of a definable group of people. So, the war on terrorism so called, is not much a way for the United States to protect itself against it's enemy, it is a way for it to create enemies, to justify the kind of repressive measures that would otherwise be intolerable in peace time."

To whom it may concern,

regarding the January 31st broadcasted interview with Greg Felton.

May I, on behalf of only myself, ask that you pardon my failures in judgment, in not allowing what I should have gave: an immediate re-dress regarding, 'who is the Zionist label?', or 'What Holocaust are you referring to?', during the broadcast of January 31st. (bet you we can't get two Christians that agree on everything.) However, I can offer perhaps a show centralized on a chance to exercise your personal views, be they pro or con on where you think we should go from here, or whatever may have you regarding said interview. Or, if you would like, you may wish to do only, or else include, a written work that I promise, will reach as far as the original broadcast. So, actually, this could be a prime moment to have a dialog regarding racism, bigotry, and intolerance. I confess, I may be unaware, and still have much to learn, when it comes to communicating well with all others. But, I know I'm getting better, and I'll tell you, the Justice-Freedom thing, sure seems to be our ultimate calling.

I was not so surprised that the broadcast interview with Greg Felton would be considered controversial, (as every show I've ever done always has), although I wasn't prepared to hear criticism against the show as being defamatory to a group, or groups of people. As certainly that was not my intent, but however was the difficult subject addressed within the interview. The fundamental teachings of Law, as it pertains to justice and freedom, along with every legitimized religion, is that all free people should be thought of as equals to each other in vigilant protection. And by doing so, one would be serving G-d's interests. (Even if a G-d doesn't exist - an Atheist too, could become a proponent by understanding Jihad). Thereby insuring\realizing that a just intelligent life force

rules our chaotic timeless universe in service ultimately to ourselves individually. Giving us in the Torah of Moses, ``all people are created in God's image'' teaching all peoples are Sacred. And as such, would be so in God's interests to defend as the innocent. While in eternal pursuit of happiness and prosperity for all through just means.

Under Greg's definition as being a "Zionist" conspiracy, negates the failure of himself personally to recognize the public connotation is too vague, and that Hitler's Nazi Germany, like Bush's America, is politically expressing an inability to represent ourselves with respect as truly worthy of fair deliberations amongst ourselves. Sacred, every-one. (Or as in, to rise to the defense of those we know to be irrationally victimized as the godly and innocent, victimized in our un-addressed names.)

Greg "This is why the Holocaust is such a very dangerous thing to talk about because, it's not really understood. It's preached at us like a sermon. We're suppose to accept at face value what we're told about it, as if to, criticize it, is some how disrespectful. Much of what we know about the Holocaust has been propagated by the Zionists, and can be shown quite untrue"

I replied shortly later "One thing about the whole situation is that innocent people were targeted for murder. End of story. That's what the war was. All wars are like that."

Greg's mistake I believe, centered in his Zionist labeling through an apparent bigotry expressed, and as such, was too narrowly defining the larger established history of the Holocaust, as being the struggle of the human species in halting, the demonization and then subjugation of the innocent millions, Jewish or otherwise. Perhaps it was strangely on his part a testimony to a real struggle we all have when it comes to identifying ourselves to others. Considering it is the exact subject matter he wrestles with in his book writing, regarding our corporate media's perception of ignoring an innocent people's concern or cries. That said however, for Greg to blankly criticize Greg's false construct of what is publicly understood about the Holocaust, is to deny that much for sorrow and suffering took place against the whole of Humanity, especially, of those who held the practiced Jewish faith. To think the nazi regime would have the gas chambers and the ovens, while the whole of humanity were not strong enough to communicate the unjustness of it all to the German people while it was happening. I have read of a recent documentary that provides film footage of nazi soldiers committing the worst war crimes imaginable to god loving Jews, interspersed with film from the same dated period where, the

German people were living civilized lives, left unaware of the atrocities that were being committed against God in their names. Same as America and Canada today, with Fallujah's 300,000 People being, the undeniable example. Or, are you too, a convinced denier of that which is fully documented? (Needless and irrational was the indiscriminate murder of the people of Fallujah, but for to have more American soldiers sacrificed in a conflict created by an unjust as immoral totalitarian dictate.) The Holocaust deniers are those the same of today, who refuse our Humanity to nationally communicate those screams of mercy, or for justice regarding the People of Iraq to be served in our true interests as legitimate. More than ten million Russians died fighting the evil eugenic scourge of the "superior" nazi regime, and like those in Poland, Britain and France, as elsewhere testified our established history, (albeit only later), the sadistic ungodly as lawless barbarity that Nazism inflicted upon the general masses, went largely undeterred from our "informative" television and radio broadcasts. The same, almost word for word, and action for action, can be found in Rumsfeld's "blitzkrieg". Bush's freedom by tyranny doctrine. Or the criminally sanctioned unchallenged news pronouncements of a Mark Kimmit, Buford Blount, Steven Russell, Mattis, Allawi or Sattler, when it pertains to accepting without our objection, to the victimizing of Iraqis collectively as an indiscriminate act of criminality, like murder. As like in the policies of Ariel Sharon, where an innocent, haven't committed an accused crime in their life Christian Palestinian, is denied the earned home they worked and paid for, on a parcel of land shared up until recent times for countless millennia. My personal struggle has been to inform the public on the "forgotten" importance of established evidence, being the only requirement to convince ourselves on who is a bigot, tyrant, a criminal, or a murderer. Will you not therefore, as a fellow humanitarian of this shared world, speak against those you know of, who victimize the innocent to thieve from? Sure you would, if you knew as much for certain about God and this universe, or the under reported, freed to go General Ahmad, funding the mastermind ring leader Mohammad Atta of Bush's 9/11 game. But will together our Humanity ever learn? Well, my plan is to search for guests to speak with, that I'll try not to offend early on. Greg knows, like the Pope knows, as every legitimate police officer worth their grain of salt knows, as so too does include a great many Jewish Jews, George W. Bush used absolutely no evidence to substantiate his therefore, false accusations in our names against bin Laden, while then ardently with Cheney, worked to close outstanding criminal investigations regarding their extremely suspicious behavior. All according to his official publicly documented plan. And speaking the news as thus, does not make anyone anti-Semitic,

anti-American, or anti-Human, but pro-Jewish, pro-Christian, pro-Muslim, pro-Justice pro-Freedom, almost wholely human like even. Not of a long gone as lost and forgotten religious dogma, but for now as it always has been found, a mutual respect for all life as we find ourselves being part of. Or, so we would for Atheists, argue in all likelihood to get to the same reasoned to be, just political decision, to this or any another life and death matters matter.

Because the unjustified criminal war actions of George W. Bush are our shared documented history, others, with an ulterior agenda to propagate their weakness through bigotry or racism, will arbitrarily blame a subjective grouping of people, instead of demanding by godly individual might, the arrest of specific individuals who are actually responsible according to the established as public evidence. So, now who's fault is that? We live in difficult times. To admit weaknesses regarding our corporate news control content decisions, is to seek a better world for our lives through stronger open communications.

I believe the defense of the Jewish faith is found in the indivisible properties of Creation, and who's central belief is made simpler than any other. Hillel was asked: Rabbi, who is a Jew truly? Hillel answered, "What is hateful to you do not do to your neighbor. That is the whole Torah. The rest is commentary -- go and learn it." So my challenge in defense of the Jewish faith during the interview, was that those who practice criminal misdeeds, are therefore found by the official definition taught by Hillel, to be not practicing the "Golden Rule" of the Jewish Faith. (as so pronounced by the religion's recognized ancient oratator.) By calling alleged criminal actions, the conduct of an entire people, faith, or branch thereof, is to fall into the fascist minutia of bigotry, or racism, held by those who judge us "others" unfairly. After re-hearing the interview, I did find the allegations made by Greg, regarding the Holocaust being blanketed by falsehoods, generally, a failure on his part to recognize the true horror of what that war wrought. And in light of our desperate challenges today of defeating the enemies of Humanity as specific unjust individuals in "hiding", an ignorantly stupid thing to say. While I, perhaps wasn't thinking along those conceived lines, where at that time, I had just left the thought of: the struggles of the Jewish faith, are the same struggles all young adults go through by naturally establishing our associative identities. Who are you I truly ask? How many news channels even allow us as Humanity to know about the absent reason for the bombing of the Jews of Samara? The Jews of Fallujah? The torturing of completely innocent People to death, as in Guantanamo? Or still unaddressed publicly: the willful lawless criminality implemented by the, therefore tyrannical Bush Administration in suffering God's Iraq? (See

missing ``Development Fund of Iraq'', or private mercenaries discipling for Bush as deemed un-accountable to every conceived ``natural'' law? [see the entire Bible for the judgment call on that one...] or, Bush's declarative, he magically owns everything in stolen Iraq now, [where did it go?] and I can't say anything because he signed his John to 13303 some time back, but as still is left unreported in Your dying world?)

Publicly question our reality, by taking the station up on doing an interview with me, along with your own impressions of our world. Or, if you prefer, you can do a solo written piece, or a recorded statement for the station. I look forward to finding common ground with your concerns. I hope I have got you wondering more, about what trying to save our world from injustice and slavery, in whatever way we can is all about for me really. In these words I can say, I apologize to you, for a resulted perception, that wasn't with better words, my true intent towards us people together.

I will, after some small revisions of this paper, include it as well as the broadcast package. So I do thank you for bringing up your important view, that otherwise, would have gone farther without this opportunity, that I offer as a starting point for deliberation, or argument regarding my foolishness. Thanks for speaking, and I hope I have met most of your concerns with a positive light on where I'm trying to come from.

John.

The Benderman Cause

I felt compelled to support the Benderman's cause in any way I could, so I am providing America some arguments that I would use in a court of law to defend your freedoms. If America would so desire, I would also be prepared to make a recorded statement from here in Canada. (I have been denied access into the U.S..) My positions of rational argument are naturally based upon our established facts, and as such, are something few Americans are afforded the luxury of through corporate channels. I hope my forcefulness on these issues does not fear you to doubt I have the best of intentions when it comes to serving the interests indivisibly inherent within the American Constitution. God, I believe is just, and as such, the ungodly war actions of George W. Bush dictate are criminal in the worst degree, being a harbinger of

suffering and misery against all of Humanity as
US being the innocent. The innocent in our entirety,
is my "God" that I love with all I can will. I am
compelled as a living human being to defend America
to the last bush supporter praised if need be. I fight
the enemy of God and Humanity with reason,
understanding, Akeido, and a conviction that our
justice system must prevail for me to be truly myself
really.

"He explained to "60 Minutes," "I was told in basic
training that, if I'm given an illegal or immoral order,
it is my duty to disobey it. And I feel that invading
and occupying Iraq is an illegal and immoral thing to
do."

The war was declared "illegal" by the U.N..
Why? Because Saddam wasn't found in breach
of the internationally agreed upon resolution 1441,
(Saddam did EVERYTHING POSSIBLE that was
asked of Iraq by the bush administration, and then
some Mr. Bush refused to even take him up on.
Like national Iraqi television broadcasts.) despite
the lies quoted by corporate news America. There
was no need for the conflict to begin with as was
so reported internationally on march 7th, 2003. U.N.
inspectors had complete unrestricted access to go
anywhere without delay, and known stock piles of WMD
were burned, so could not possibly be
completely accounted for by evidential findings
due to the fact that they were destroyed beyond
recognition. American soldiers were put in harms
way to be sacrificed for no better good, but for to
allow as has happened, the misappropriation, or as
some have alleged, the criminal theft of Iraqi
resources, including monies of the Iraqi Development
Funds through Presidential decree 13303. Which
include the unappropriated, desperately needed,
humanitarian aid provisions still denied innocent
Iraqis, such as potable drinking water and food
stuffs. Democratic principles are DENIED the
Iraqis by the neo-con military forces, such as holding
all individuals equally accountable to a rule of law.
The outlawing of torture, or the outlawing of false
imprisonment has not been professed as the action of
the neo-con "liberating" force. Mercenaries are not
obliged to obey any laws for example. And, "Dr.
Germ", and "Dr. Anthrax" are held solely for the
fact that they know of the scientific hazards of
depleted uranium, and may have warned the
uninformed sacrificing American GI, if not held

illegally against their wills by the enemy.
Commanders such as irrational war criminal
Sattler, forbade all men and boys between 15 to 50
from leaving the city of Fallujah, while refusing to
negotiate with anyone, (because as so was openly
confessed, Sattler had no evidence that Zaqari was
in Fallujah) then leveled the city to kill all it's
inhabitants, estimated at that time near 300,000
people. Using a napalm type WMD, cluster dud
land mine munitions, and as reported, nine two
thousand pound bombs in a city 3 1/2 km by 4 km.
Serving for a military not strong enough collectively
to prosecute such lawless criminal barbarity, is
serving for a military not principled in the American
virtues of freedom and democracy. In truth,
serving for such ungodly criminal command is a
cowardly act of treason. George W. Bush is an
enemy of our Humanity.

Copy and distribute this personal challenge freely.
Thanks.

and understanding, bring about a better world.

Seriously Folks

Napoleon Bonaparte wrote forming governments are forged only through the public witness of shared mutual experiences, simple, yet, the bushite strategy implemented continually on behalf of the enemy forces in Iraq have been to divide the nation's people with different "legal" definitions, while speaking for typical bushite bigotry, by then offering distinctions of human value between US some from "others". Not freedom, nor democracy. [Remember: Evil is dumb]

Example: Allawi forbade surviving Iraqi doctors and nurses from medically treating any of the estimated 200,000+ innocent victims from Falluja [IRAQI vicinity].

Example 2: DYING two-bit bushite war with "foreign" soldiers paid especially more than a thousand dollars a day as self confessed RACISTS, and THEREFOR, left "officially" too weak as, "pissing post illiterates" to go after real terrorists who torture the innocent, or real thieves, that have stolen BILLIONS from the Iraqi Development Fund. Done all to sacrifice life's purpose for no better good to the ANTI-CHRIST EVIL bush "cabal" of lying neo-con Christ haters. Allthewhile stating the objective worth dying young America as bushite for is "Democracy" in Iraq. But, isn't a founding principle of any democracy to outlaw thefts, sexual assault, murder? Again, bushite kills bushite for a stolen nickel that they just as soon, stole from anybody. If you can believe it. We need YOU to make some effort to engage American talk mediae. Perhaps it's only YOU, who hasn't yet heard a responsibility to this once greatly revered world of wisdom, of the enchanted, and mystical, or of the tyrannical as hell bound for suffering and sorrow. ,in which you share allegiance too my friend.

Being caring and compassionate for the victimized innocent not only feels good, but it is a choice we would make at being alive to help US survive. To not speak against the bushite war crimes against YOUR Humanity, is to not speak in defense of our ancient

dying God no longer found worthy of you Peoples humble respect. Currently corrupted bushite want my voice of truth silenced by censorship with false imprisonment, and those who advocate such hatred for myself and our humanity, speak no public word or disagreement on my allegations of high treason by Our Mr. bush Jr.. While I want to openly debate the, "censorship for tyranny", corporate talk radio bushite bitches on their furthering commitment to not allow objections regarding their contempt for true justice and freedom in America. But if you singly decide not to support my cause, like corporate news control encourages, We will be left forsaken, again. God is Just to the core, like Johnny Wizard tries to be, while bushite liars lie, cheat, and steal from America as ourselves measured unworthy for deliberation to gain true understanding. The Coast to Coast radio network in America disallows America learn for why American soldiers are currently sacrificing their LIVES irrationally. Why? Because there is no legitimate reason, while bushite pretend in YOUR name, that there must be another reason but for to rob our humanity in George Bush Jr.'s name. For if there truly wasn't another reason, not so then blind, stupid, and cowardly American soldiers wouldn't be too happy about the wealthy corporatist bushite commentators silencing America's dying cries by bushite enemy command. Now would they? Remember: wealthy blind and stupid bushite kills/gets killed, poor blind and stupid bushite for a stolen nickel - a nickel in all likelihood, they rifled as thieves from some pensioner, that just as soon, would be their own "grand" parents. Or Yours as someone elses beside.

Phil Donahue had the highest rating, number one money making news commentary show on NBC as it was canceled. Why? Too good as enlightening and INFORMATIVE. Then there was the recently canceled Crossfire. Or how about Barry Zwicker on VisionTV as Canada's greatest broadcast before it too was canceled. Why? Too good as enlightening and INFORMATIVE. VisionTV, a "religious" channel now likely forbids anyone to suggest that God would be good as just, and REALLY INTELLIGENT. Forbidden knowledge we are the corporate bushite insist with Your stolen rights. Why so? Because Americans might learn of what it is to be a true Christian, and therefor stop to have arrested else immediately executed for high treason regarding 9/11: the enemies of Johnny, Justice, God and Humanity, the evil doers George W. Bush, Rumsfeld, and Condolezza Rice. Alone with Myers and Cheney for good measure. Then, those responsible for

the needless bombing of Samarra and Fallujah.

Under EVIL bushite tyranny, We are criminally fighting for needlessly dying as bushite here, but corporate newsCASTers don't find "our" costs worth getting a discussion group going, after all, American soldiers who die for the bush regime, as the kept in the dark, will less likely be going after the real bad guys for 9/11 then right? Corporate America refuse US just basic rights of legitimacy to at least address the absent war reason issue from time to time - Jeeze. But no. As bushite, they're prepared to not inform the bushite soldier that depleted uranium is radio-active, that the stolen American Enron pension money is sitting in the Cayman Islands, or that the war itself has no justification. See, the bushite war is a TRUE CRIME against all Peoples of Humanity, for the war against Iraq has no reason available to explain enemy military action, but for to die thieving from ourselves as the bad guys. The Enemies of Freedom. Why we have Law. God is Just, and evil is just the slavish ignoramuses who censor our Words of empowerment for freedom through Justice represented indivisible as Eternal. We rule.

Therefor, George Walker Bush is guilty of treason to US all, not only including your one and only King Johnny Wizard as Heaven's afar, but also the not going anywhere but yet still sacrificing ungloriously as the stupidly blind as almost completely incoherent,. devote bushite nazi dumfuk soldier grunt enemy vermins.

Will you not help these words reach a larger audience? I ask you to consider your helping me can do good for your real world too. Perhaps it is ONLY the single individual that hasn't yet understood, this once greatly revered world of the Word is of which you share allegiance too.

Speaking for a just battle of freedom for all humanity, is a right you could exercise in brightest intentions of a muted God who sure could use your help right about now man. Our family is in so a desperation for needed support. I am fearing your fears have got you believing, you have no dying right to speak against Mr. bush Jr. for the crimes he has committed in Your name, but You do. Think of it this way: anybody who stays silently connected secretly to the crimes of nine-eleven, can not be trusted as a sacrificing bushite thief by the enemy bush administration. [Secretly speaking in all strict certainty.]

The warrant that allowed the confiscation of my computer equipment, was to prove that I was the one and same who demanded true justice for our humanity by following the crimes scene leads for nine/eleven, arresting those responsible, or killing the escaping culprits, bush, rumsfeld, and condolezza rice by the hand of our guns. (Why do you think Police officers carry guns after all?) It is now argued that because demon bush is President, it therefor doesn't matter where the actual crimes scene evidence for the murder of thousands in America leads to according to the FBI, for George Walker Bush (666) in above all the laws of the universe. Despite! the reason they obtained the warrant, was to charge me for "threatening the life of an international person", they instead decided not to as saboteurs of liberation. They argued after the warrant gave them my personal possesions, (hundreds and hundreds of video tapes, ALL MY WRITING, computers, disks, along with approximately 50,000 tasteful images.) That the reason for the warrant being originally issued, no longer, if ever, was justified. For if they were calling for justice, the demon bush, and his co-conspirators might get caught by America, and pay the ultimate price for their treason by death sentence. After two self confessed PRO-BUSHITE (support death squads against Afghanistan school girls, and propping up the heroin trade by arming women slave traders) "officers of the law" reviewed my images, they now contend, that several can be argued to be illegal in an almost fixed to win proceeding. (No more than a small few pictures of beautiful girls in different states of undress - "Home Lolita" I think.)

The charges they offered to the prosecution to argue for a "life term prison sentence" (almost jokingly it was quacked) were complete fiction, of which the crown offered me "a deal". Plead guilty for being a shamed ostracized sex offender, [I'D HUNT CHILD KILLER ENEMY BUSHITE EVERY DAY OF MY LIFE IF I HAD THE BUS FARE AND THE AMMO] and maybe, the Judge won't argue for a long term prison sentence for another charge that has absolutely nothing for substantiation. Substantiated, that will surely do nothing but testify to their attempts at demonizing my better name. Nothing doing darkness, the court of Law, is Our court, and I intend to make my case heard among my peers. Here.

Please, I beg you for my life, forward this document to the propper authorities, post these passages to any church, or, phone talk radio America and demand my public case be heard for Your benefit too, or don't and get what we'll deserve by not making a miracle happen with your single sole but sure, human will power!

1. I obtained the questionable images through Usenet group "youth-and-beauty". Images can be downloaded a thousand or more at a time. I can't not perceive the images until they are on my computer! If they had told me they were coming as bushite, I would have been sure to delete anything near objectionable for argument's sake. They laughed when I told them that.

2. The service companies that offer such groups as child-rape and so on, have an easy ability to filter out subjective objectionable material, along with the truly grusome stuff. But they don't, nor, are they found legally liable for not doing so. I suggest the reason is, it would put out a billion dollar industry of these child-porno cops that view real sicko slime routinely, while then arguing anyone who witnesses such depravity must be guilty. Guilty to have their professional lives destroyed, their life invested property removed till whenever/perhaps stolen, and then be publicly ostracized as senseless victims. All because some guy maybe believed women are worthy of worship in the highest respect and honor, while cute adorable boys he couldn't help but feel compeled to cover with praise, or mutual hugs and kisses., as long as there are no other men in the room with him and the gals perhaps one day chatting over maybe child care let's say. (no wonder the two child porn cops in question regarding my public case admittingly were/are staunch bushite offenders.)) I know of no nobler lineage that that of our police officer. For protecting the rights of our children, is what we've always been committed to gaining respect for. We want to do right for ourselves, and despite Johnny, this world really is something remarkable to concider a future with on our own terms as a foundation of wisdom with the ever presnt will to succeed at something greater than first realized. Evolution. The Revolution of reason while jiving with justice for freedom holds many perks per praised principle. Hammurabi's number one thang.

3. If a search warrant can be made against anyone who a criminal bushite finds objectionable, (bush and rumsfeld made the charge against me through the Secret Service, then to the RCMP.) then what freedom fighter is safe from pictures of godly and beautiful children in bath tubs? Swimming? IF, the bushite demands the images appear seductive, and compel them to commit sexual assualts? Or, what if you download a program on cars to have the bushite find, it contains bin Laden's secret where abouts in code? Would you be guilty, and if so, of what? No thinking freely?

So, the warrant brought the officers of law the right to prove my Johnny Wizard writing was of my own, but yet, after doing so, refused to enforce the law by giving me my day in court on the reason the warrant was granted to begin with. Also, I, as anyone can not perceive potentially objectionable material until it is in my possession, while a service provider would have little of no problem. (The still working child porno cops could look for child porno all day, and actually get closer to catching those who proliferate actually objectionable materials. [See?, an internet service provider could defend thus: they're not guilty because the subjective material, that would be questioned, is subjective, and so would the porno cops if they got someone intelligent to defend themselves. But for Christ who needs to know what's going on in the realm?, while loving girls in general like they were his own distant siblings? They'd put Christ up on a cross for loving schoolgirls, by demanding such thoughts come only from a criminal prospective. The problem here is child porno cops can view a suggestive cute girl smiling in her panties, or witness some heinous bushite rape or torture, and measure them equally when charging US for their deviant sexual sugestion. As alas, they refuse to support the Law when it comes to the easily provable criminal actions of enemy bushite, as for would be, the defense of the lives of our innocent children in Iraq mean something to me too.

Anyway, apparently, the reasons for the warrant were not as was so intended. To charge me for threatening the freedom of bush, rumsfeld, and the evil witch condolezza rice. (Can I get some legal advice from someone out there on this then bogus? warrant please?). The Court will (try) argue without allowing ANY voice of objection, that because I demanded the immediate arrest or execution for the individuals responsible for the crimes of nine/eleven, (relying primarily on the Whitehouse, FBI, and the public spewing of the war criminal demon anti-Christ itself,) the prosecutor, it has been alleged, will demand justice not be served in that respect, and that the search warrant that obtained the bushite's evidence against me as a truth teller during their fishing expedition will not be allowed for re-dress. Is this Justice on behalf of God I ask you?

Nature of the Beast

(Again, remember, nobody from the RCMP, the Secret Service, or the FBI, state that I am incorrect in my allegations of treason against the bush administration.)

The prosecutor is going to press for incarceration if I plead not guilty for a crime I'm not guilty of, while my public freebie lawyer, contends my defense of innocence and corporate news agencies forbidding the pursuit of Justice in protection of our Police services, like the honorable FBI officers that contend Ahmad funded Atta will likely not be allowed heard. [Are you a member of a Police Union somewhere, or know of someone who is? Or, do you just not give a care for you fellow officers either?] See?, bushite falsely believe bush can not be arrested for nine eleven, no matter where the actual evidence leads, because he is not judged an equal among men by corporate news standards, but as the anti-Christ, FALSE deity, an enemy to every free person standing.

That is our, for real court case against the Bush administration as it stands today. While some have warned, bushite are pushing to have me taken in now, to try stopping this from speaking in our Humanity's true defense. They just might succeed, if you decide no care for Freedom from tyranny either..

This is was/is/will be my last Wizard Wire public service announcement regarding this, George Walker Bush (666) wars America, Humanity, and me as the Lord of Creation. I've said everything I can say twice over, and if you can't find it within yourself to pass this post on to every church corner, with a, "I love life too" set of priorities, I can guarantee you no greater reward. But for to be present if not in person, but in spirit during my public trial where the bushites will publicly judge my character unworthy, while attempting the silencing of our own voices for Justice as We stand in TRUTH, indivisible. Be it known, the prosecutors of Law in my case have read Johnny Wizard's "The Trial and Conviction of Our Mr. bush Jr.", and likely a few others that will be asked by the hiding in darkness bushite enemies to completely disregard as crime scene evidence. It's going to be a case worth getting to, considering the newspapers, talk radio stations, and National News desks are expected to forbid honest coverage of by the higher ups at corporate command. Call your Church group to organize a call for Johnny!

Or don't.

I thank all those with whom the true liberation of Humanity from tyranny could not have been made possible without themselves individually. I know it seemed like no one was listening, when we spoke for God's cries, but WE knew better, and we knew soon, all of US will then learn it too, defending God is of no greater privilege.

So, cheers to You, our Humanity's defenders of the human challenge, for being there to speak for this life when we needed You as a contributor. Fare thee well with your pride and honor, and no bars will ever hold your undying spirit.

Your stranger then fiction,

What world does William Winkenwerder Jr think we live in anyway?

It was the revelations that the signed sqiggles on the bogus death cetificates weren't made by the actual medical practicioners on charge in Guantanamo. Now, there might have been one or two involved, as has been confessed, HOWEVER, we do know that the death certificates were forgeries to cover up the crimes of bushite nazi enemies. So, count the forgeries, and you'll count the actions of the truly unjust and evil.

/ / No one is able to define the mission of the troops in Iraq, or for how long this mission will last. No one at all, including George W. Bush, can explain the US strategy in Iraq. This is because there is no strategy. With the Iraqi resistance raging, it is not clear why the US is occupying this country and why the US is so willing to sacrifice its soldiers there. \ \

Well the strategy is to cash in on the bushite war criming thieves spree actually. Cowardly soldier's die in Iraq, and the bushite fat cats lounge in the lap of our stolen luxuries through the leverage of the mallable dying amerkan mind.

Wouldn't you kill the traitor who spoke such contempt for Humanity? The rewards of indiscriminate murders against the unknown innocents in bushite amerka's ungodly name, gets yet another lowly forsaken bushite rightly killed for bad wordcrafts on a make believe sound stage they think they only have us party to.
